## About MTLC

---

MTLC is a high-tech company that specializes in the design, manufacturing and marketing of a series of lighting controls, home automation and wiring devices. We utilize the most advanced technology and engineering skills to bring you the newest innovations in lighting controls and wiring devices such as: home automation, occupancy sensors, timers, dimmers, fan speed controls, floor boxes and covers, receptacles, switches, locking devices, data-com devices, wall plates, etc. (Please refer to our catalogue for Lighting Controls & Home Automation.)

Our company is a world-class producer of superb energy management, lighting controls and wiring devices that meet the highest industry safety and performance standards - while providing the best comparative value for builders, contractors, specifiers, MROs and distributors.

An ideal combination of cutting-edge technical performance and money-saving value pricing, the MTLC product line includes over 700 different product solutions for residential, commercial, institutional, and industrial electrical and datacom applications - all guaranteed to improve your bottom line.

The company's two ISO9001 production facilities encompass 450,000 square feet and are among the most modern and technically advanced. Over 500 employees apply best-practice product development, manufacturing techniques and stringent quality-control measures to assure MTLC devices deliver dependable performance.

# Green your home, Save your money.

MTLC experts as electrical solutions for residential, commercial buildings, hotels and other areas of the system to provide professional system solutions and value-added services. Its products and solutions mainly cover: Switches, Receptacles, Floor box and covers, Timers, Sensors, Dimmers, Data-com Devices, Energy management, Intelligent Lighting Control Systems, Integrated Control Systems and Intelligent Information.

## Receptacles

MTLC offers a full line of 15A, 20A, 30A and 50 Amp Receptacles available in Residential Grade, Commercial Grade, Industrial Grade and Hospital Grade.

## USB Charger Devices

The USB ports can charge any device, including mobile smart phone, iPads, or any device capable of being charged via USB.

## Passive Infrared Ceiling Mount Occupancy Sensors

Energy is the basic power for ensuring the working of all the machines in the hotel. To save energy and decrease the daily consumption means that the operation cost will be reduced and the profit will raise.

## Switches

MTLC offers a broad line of Residential, Commercial and Industrial grade decorator devices.

## Timers

MTLC timers consist of digital and mechanical time In-wall and plug-in timers.

## Floor Boxes and Covers

Installs smooth and nearly flush to floor.

## Sensors

sensors are now used a component of a high quality energy efficient lighting system designed to maximize operation and significantly reduce energy.

## Dimmers

MTLC Dimmers optimize system task lighting in residential and commercial environments.

## Tamper & Weather Resistant Receptacles

Tamper & Weather resistant receptacles stand up to the elements and protect children from electrical injuries.

## Z-Wave Duplex Receptacle

Z-Wave makes any home a "smart home" quickly, easily and affordably!

## In-use Weatherproof Covers

Receptacles installed outdoors in wet locations shall have an enclosure that is weatherproof whether or not the attachment plug cap is inserted.

Best New Product In Green Technology

## USB Charger Devices

Our USB multi-function chargers are a combination duplex AC wall receptacle(s) with built-in USB ports. The USB ports can charge any device, including mobile smart phone, iPads, or any device capable of being charged via USB. Enjoy the convenience of USB ports built right into the wall. AC adapter is no longer required, just plug in your cable and start charging. Designed to replace a traditional 3-prong AC wall outlet, USB multifunction chargers eliminate the unsightly clutter of AC Adapters and take up less space in your home or office. In addition to keeping things neat and organized, USB multi-function charger reduces energy costs dramatically by auto sensing the required wattage when a device is plugged into the receptacle.

## USB Charger Receptacle 4.0 A

### Designed to use with:

- Apple Products (iPad, iPod, iPhone)
- Tablet PC
- GPS
- Mobile Phones
- Smart Phones
- Digital Readers
- MP3 Players
- Bluetooth Headsets
- Other USB compatible products

USB charger conforms to UL Energy Efficiency Certification requirement.

Smart chip recognizes and optimizes the charging requirements of both of Apple or Android devices.

DWUR-15

Side wiring screws accept #12 or #14 copper or copper clad wire

Overall 4.0 A charging capability

## Tamper Resistant Receptacles

### Safety and Convenience

Your home wiring must meet basic safety standards to keep you and your family safe. MTLC's Tamper Resistant Receptacles are designed to prevent anything but a plug to be inserted into it keeping you and your family safe.

YQ15RS-DTR-W

The protective shutters stay in a closed position when the receptacle not in use.

The protective shutters defeats the insertion of one or more foreign objects in to receptacle openings.

The shutter will open only when an actual plug is being inserted into the receptacle openings.

**FEATURES:**

- Us utility patented for TR mechanism
- Built-In protective shutter mechanism designed to prevent the insertion of foreign objects into the receptacle contact openings. Allows easy insertion of properly rated plugs.
- Clearly visible "TR" marking on the face of device.
- Slotted, Phillips and Robertson tri-combo screw heads offer greater installation flexibility.
- Green grounding screw and self-grounding clip for automatic grounding in grounded metal wallboxes.
- Shallow design for maximum wiring room in box
- Washer-type break-off plaster ear for best.

## Tamper & Weather Resistant Receptacles

### Safety and Convenience

The 2008 NEC® requires that Weather-Resistant Receptacles be installed in wet or damp locations such as porches, decks, and other outdoor locations where challenging conditions can cause premature failure due to cracked covers and corrosion. Our patented protective shutter system prevents kids from inserting hairpins, keys, paperclips and other common household objects.

Clearly visible "Tamper Resistant & WR" markings on face of device.

High impact-resistant thermoplastic construction.

Spring-loaded shutters lock out a single object, effectively blocking entry to the contacts.

All screws are tri-drive

TWR15-SIG-W

The protective shutters stay in a closed position when the receptacle not in use.

The protective shutters defeats the insertion of one or more foreign objects in to receptacle openings.

The shutter will open only when an actual plug is being inserted into the receptacle openings.

## Electrical Wiring Devices

Best New Product In Green Technology

*Green Energy, Green Living.*

## Switches

MTLC provides a comprehensive line of 15 and 20 Amp switches and combination devices. A full selection of ratings is available in Residential Grade, Commercial Grade and Industrial Grade. MTLC Wiring Devices build quality into every switch we manufacture. Each switch is thoroughly tested to ensure its electrical and mechanical performance.

Whether the need is residential, commercial or industrial, MTLC can provide a switch to satisfy your needs!

### Features and Benefits:

- Excellent performance
- Impact resistant thermoplastic construction assures long life durability
- All switches are UL listed

Decorator Switches .....	C2-C5
Toggle Switches .....	C6-C8
Combination Devices .....	C9-C10

## Decorator Switches

Slotted, Phillips, and Robertson  
Tri-combo screw heads offer  
greater installation flexibility

Thermoplastic paddle assures  
smooth, quiet long-term operation

Longer and wider strap for  
easier mounting

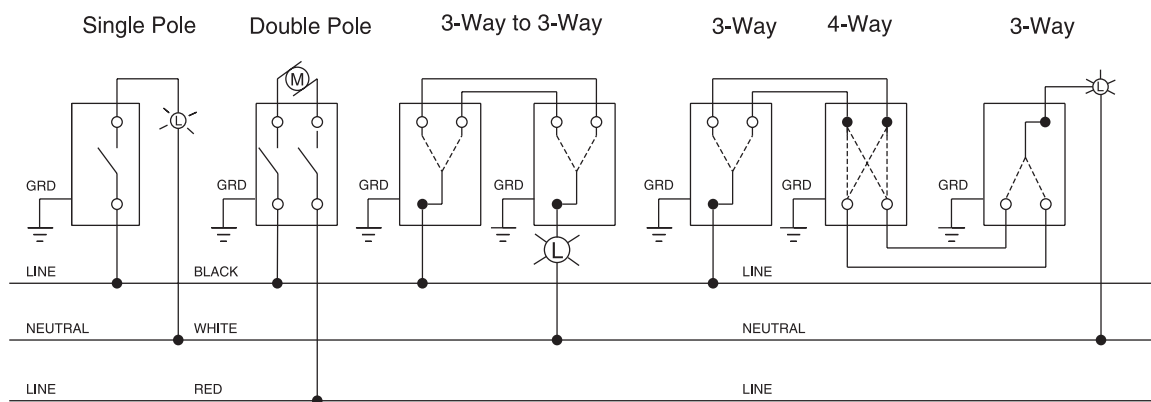

Break-off plaster ears

Side wiring holes accept #12 or #14  
AWG solid or stranded wire

#14 push-in terminals  
facilitate installation
