

## Specifications

**Product** Adjustable Equipment Riser (AER-8, AER-8BL)

**Application** DiversiTech Adjustable Equipment Risers easily change height from 5" all the way up to 8". Simply twist the riser counter-clockwise to increase the height. An individually rotating top means you can adjust the height even with equipment already on the riser. Available in gray and black.

**Height Range** 5" - 8"

**Composition** High-pressure injection molded polypropylene

**Load Rating** Each Adjustable Equipment Riser can handle a uniform load of 300 pounds with no failure.
