---	-------------------------------

APWA Uniform Color Codes

The American Public Works Association (APWA) recommends the following guidelines be used when marking underground facilities.

	White = Proposed Excavation
	Pink = Temporary Survey Markings
	Red = Electric Power Lines, Cables, Conduit and Lighting Cables
	Yellow = Gas, Oil, Steam, Petroleum or Gaseous Materials
	Orange = Communication, Alarm or Signal Lines, Cables or Conduit
	Blue = Potable Water
	Purple = Reclaimed Water, Irrigation and Slurry Lines
	Green = Sewers and Drain Lines

You Benefit From Our Exacting Prescolene™ Process

A key reason for Presco's sterling reputation in the field is the exclusive Prescolene™ manufacturing process at our Sherman, Texas facility. (Yes, **all** of our manufacturing is done right here in the U.S.A.) The exacting Prescolene™ process ensures total control over product quality and customization for our customers. It also fosters innovation and creativity, often in the form of new formulations and customized inks and products to meet each customer's unique specifications.

Product Disclaimer

Presco is committed to ongoing product improvement. Please be advised that specifications, performance, parameters, appearance and dimensions of Presco Marking Products are subject to change without notice. Information provided about Presco Marking Products is based on testing conducted by Presco under controlled conditions and is intended for comparison and general information purposes only. The conditions of actual use may vary and are beyond Presco's control – we cannot guarantee the same results will be obtained under different conditions. Please contact a Presco representative for up-to-date information.

Return Policies

All shipments should be inspected upon receipt. Any product returns must be completed 30 days from the date received. If product needs to be returned, Presco must be contacted for return authorization. The RGA number must accompany all return shipments. Product returned devoid of Presco culpability must be shipped at the customer's expense. Presco will pay transportation charges and apply credit for merchandise when an error in manufacturing is determined. A 20% restocking fee will be charged for all products returned in sellable condition. Custom manufactured products cannot be returned.

Detectable Underground Warning Tape

Material Thickness

5 Mil

Roll Widths

2", 3" and 6"

Roll Length

1,000'

Minimum Order

Call for details.

For jobs that require deep tape burial, we recommend our wider 6" tape which provides a larger surface area of metal for easier detection.

Presco Detectable Underground Warning Tape is used for accurately locating and preventing damage to valuable underground utility installations. It has an aluminum backing to make underground assets easy to find using a non-ferrous locator. Properly installed, this tape helps avoid catastrophically inaccurate digging when locating utilities such as electrical lines, gas pipes and communication cables.

- Endures temperatures from -60°F to 250°F
- Permanently imprinted with black ink
- Durable laminate construction
- APWA colors provided, see page 1 for codes
- Private labeling, UPC coding and other custom packaging requirements available

Detectable Material Colors
