To whom it may concern:

Ferguson Enterprises, Inc. ("Ferguson") is a leading distributor of quality carbon steel pipe to professional contractors. As a distributor, Ferguson consolidates the delivery of products from many manufacturers to reduce the overall cost to serve for its customers with respect to sourcing and logistics.

In lieu of providing multiple certification letters from multiple manufacturers, Ferguson is providing this letter to certify that the products listed in its quotation meet the applicable industry standards as described in the quotation, unless noted otherwise. Mill test reports from the manufacturer are normally available upon request to provide additional information on testing, inspection and compliance of a particular product.

Additional testing, separate from the manufacturer, is available upon request for an additional fee. All warranties are those provided by the manufacturer. See the Ferguson's Customer Service Policy for more details regarding warranty service.

Place an 'X' in the appropriate cell below respective to the type of Pipe you are submitting

Global Sourced Carbon Steel Pipe:

_____ ASTM A53 GRADE A TYPE E
_____ ASTM A53 GRADE B TYPE E
_____ ASTM A106 GRADE B TYPE S
