Extends for greater sensitivity

XT-512 Receiver Specifications

Operating Frequency:	512 Hz plus 50/60 Hz passive detection
Battery:	One 9V Battery
Battery Life:	18 Hours (intermittent use)
Dimensions:	Closed: 17.5" (~44 cm) Extended: 27.7" (~70 cm)
Weight:	Under 2.5 lbs (1.1 kg)
Operating Temperature:	-4°F to 140°F (-20°C to 70°C)
Water and Dust Resistance:	Rated IP54

Retracts for easier carrying

GA-92XTd Receiver Specifications

Battery Indicator:	4-segment LCD
Gain:	4-Level LCD: Low (L), Medium (M), High (H), Extra High (XH)
Volume:	3 Levels: Muted, Medium and Maximum
Battery:	One 9V Battery
Battery Life:	24 Hours (intermittent use)
Operating Temperature:	-13°F to 140°F (-25°C to 60°C)
Dimensions:	Closed: 15.5" (~39 cm) Extended: 26" (~66 cm)
Nominal Sensor Spacing:	9.5" (24 cm)
Weight:	Under 2.5 lbs (1.1 kg)
Water and Dust Resistance:	Rated IP54

With the PK-500 Kit, professional plumbers have the two tools essential to Finding it All Underground. The Kit includes a XT512 sonde/camera locator and a GA-92XTd magnetic locator.

The XT-512 combines the portability of an expanding/retracting pistol-grip locator with the 512 Hz sonde and passive locating capability found in larger, more cumbersome locators. With the XT-512, you can locate and determine the depth of a sewer/pipe inspection camera or an independent 512 Hz sonde (sold separately) to quickly locate pipes and find obstructions and blockages.

The GA-92XTd magnetic locator is a pistol-grip locator that finds all ferrous metal objects with outstanding precision and retracts for carrying in a holster.

The PK-500 Kit includes:

- GA-92XTd Magnetic Locator
- XT-512 Sonde and Camera Locator
- Holster
- Hard Carrying Case
