INTRODUCTION

Efficient Lighting manufactures and distributes interior and exterior LED and CFL lighting fixtures that are easy-to-install. We offer a wide assortment of designs, finishes, and wattages. With over 10 years of research and product development, our durable and energy efficient fixtures are qualified by ENERGY STAR™ and certified by UL and ETL. Efficient Lighting's fixtures are the ideal choice for specifiers, designers, architects, and contractors throughout the United States and Canada. Our fixtures are designed to illuminate and enhance a variety of building types, including multifamily residential units, condominiums, apartment complexes, and hotels while bringing energy savings to the end user.

OUR MISSION

Since Efficient Lighting was founded in 2006, we have been committed to reducing our environmental footprint while providing our customers with quality products, competitive pricing, and the best in service.

ENERGY EFFICIENT LIGHTING

Enhanced through over 10 years of research and product development, our durable and energy efficient lighting fixtures are qualified by ENERGY STAR™ and certified by UL and ETL.

EXCEPTIONAL PRODUCTS & SERVICE

In addition to offering attractive, high quality products, Efficient Lighting is committed to offering outstanding service. We adhere to a service standard that includes fast response times for quotes, customer service, and land shipping, all at an effective price point.

COMMITMENT TO QUALITY

Efficient Lighting's Environmental Safety Program ensures that we maintain the highest level of quality and social responsibility in all facets of our business, from design and sourcing, to manufacturing and customer service. We are committed to creating durable and energy efficient lighting that will never compromise the health, welfare, and safety of our customers or the environment.

Indicates fixtures that have an option for a photocell.

Indicates fixtures that have been tested and certified to conform to the National Electrical Code, as well as laws in the majority of states, requiring that lamps and fixtures be tested by a recognized, independent safety testing agency. Underwriters' Laboratories is a global and independent science safety company.

Indicates the fixture has been independently tested and is in compliance with North American safety standards.

Indicates the fixture is in compliance with the Americans with Disabilities Act (ADA) and does not protrude more than 4" from the wall.

Indicates fixtures with the option to be engineered as ENERGY STAR Qualified (ES).

ES qualified fixtures meet strict energy efficiency guidelines set by the EPA and DOE.

Indicates the fixture qualifies as a high efficacy luminaire per California Title 24 Regulations.

LAMP OPTIONS

GU24 base and E26 medium base Compact Fluorescent Lamps (Available in 2700K CCT only)

GU24 base and E26 medium base LED Lamps (Available in 2700K CCT only)

E26 medium base LED Filament Lamps (Available in 2200K CCT only)

Integrated LED Module (3000K Default CCT. Other color temperatures are available for special order; minimum order quantity applies)

Linear T5 and T8 Fluorescent Lamps (Available in 3000K CCT Only)
