SMART THERMOSTATS

LUXPro offers the latest and greatest in technology, and when it comes to smart products LUX delivers with Pro Edition features making installation and set-up quick and easy. LUX Smart thermostats connect effortlessly with major voice assistants Amazon Alexa™, The Google Assistant™, and Apple HomeKit™. Take advantage of being able to control your comfort from anywhere with Home and Away Aware™ geofencing controlled from the LUX App available on IOS & Android devices.

Zero degrees of difficulty™

Description

KONOz is the smart thermostat made with you in mind. It seamlessly connects to many smart hubs and blends in or stands out with its interchangeable Décor-snap covers™. KONOz makes it easier than ever to personalize your comfort, décor, and savings.

System

- Modes: Heat, cool, auto-changeover (heat/cool)
- Conventional: Forced air, gas, oil & electric furnaces (up to 2h/1c)
- Heat Pumps: With or without Aux/Emergency heat
- Power: C-wire, 4 AA alkaline batteries (included & provides up to 2 year battery life) or LUX Power Bridge (sold separately)

Zigbee Profile

- Product Type: End Product
- Technical Category: Thermostat
- OTA Upgrade: Supported
- Supporting Documents:
For additional documentation, manufacturer-specific commands or gateway support, please contact engineering@luxproducts.com

Accessories*

- Décor-snap™ Covers Available Separately

Best at-a-distance display for easy reading

Comfortable wheel interface - access menus, set-up and comfort control

SPECIFICATIONS (subject to change)

MODEL# KN-Z-WH1-BO4

Dimensions	Height: 4.5" (114.3 mm), Width: 4.5" (114.3 mm), Depth: 1.0" (25.4 mm)
Heat/Cool Terminals	Heat: 2 total (W, Y, G, W2/O/B, C, RH, RC, LPB) Cool: 1 total (Y1)
Electrical Ratings	Voltage Range: 20-30V AC Max Avg. Current Draw: 120mA at 24V AC Output Rating: 1.5A resistive load per terminal, 4.2A resistive load combined load
Temperature Control Range	Control Range: 50F to 90F (10C to 32C) Display Range: 32F to 99F (0C to 37C)
Environmental Limits	Operating Limits: 14F to 122F (-10C to 50C) Storage Limits: -4F to 140F (-20C to 60C) Operating Humidity: 20% to 80% non-condensing Moisture and Dust: Up to IP20
Zigbee Specifications	Zigbee 3.0 Frequency: 2.4GHz Max Transmission Power = +20dBm
Compatible With	Universal compatibility with forced air, gas, oil and electric furnaces up to 2h/1c and heat pump systems with or without aux/emergency heat.
Not Compatible With	120V/240V line voltage systems
Packaging	Master Carton: 4 Units UPC: 0 21079 17023 4

Co-branding Program for HVAC Pros

PRO EDITION

An exclusive marketing program that puts your brand top of mind with your customers.

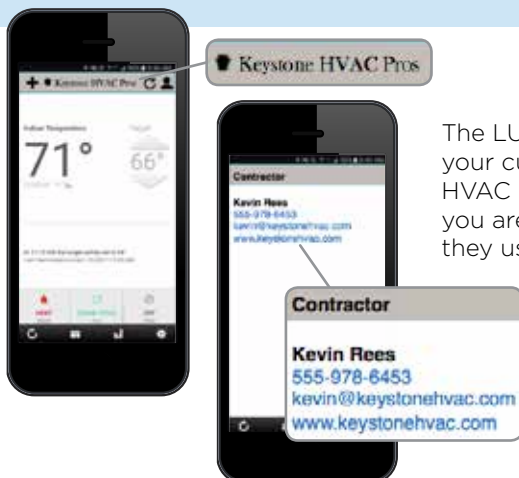

Pro.LuxProducts.com

Taking imprints to the next level; embed your logo in the LUX app!

1. Visit Pro.LuxProducts.com/co-branding to get started.
2. Fill out the online form and add your company logo
3. We'll send you a company code that gives you and your team access to upload your information every time you install a LUX GEO®, GEOx or KONO® Smart Pro Edition thermostat. (iOS or android device friendly).

We know leaving your brand with customers is important, that's why we've created the LUX Co-branding program for HVAC Pros.

The LUX Co-branding program makes it easy for your customers to contact you when they need HVAC products or assistance - no guess work, you are on their wall or embedded in the LUX app they use every day!

get started at Pro.LuxProducts.com
questions? email contractor@luxproducts.com

*Co-branding the LUX app works with the LUX GEO, LUX GEOx and KONO Smart Pro Edition thermostat

the "go-to" value thermostat with programmable/non-programmable setting

7-Day • 5/2-Day
Programmable • Non-Programmable

Product Highlights

- ✓ All In-One Programmable / Non-Programmable
- ✓ Dual power
- ✓ Adjustable heating & cooling limits
- ✓ 5 year warranty

Product Features

- Easy installation
- Program 7-day, 5/2-day, or non-programmable
- Easy-view back light
- Optional wall plate model#WP567
- User option: 2 or 4 periods per day
- Keypad lock for unauthorized use
- Temporary override and manual hold
- Dual powered (2AA) Alkaline Batteries (included)
- Temporary compressor protection bypass
- 5/2 minute selectable time delay for equipment protection
- User temperature calibration
- Display option: fahrenheit or celsius temperature
- Adjustable heating and cooling limits
- Adjustable temperature differential/swing

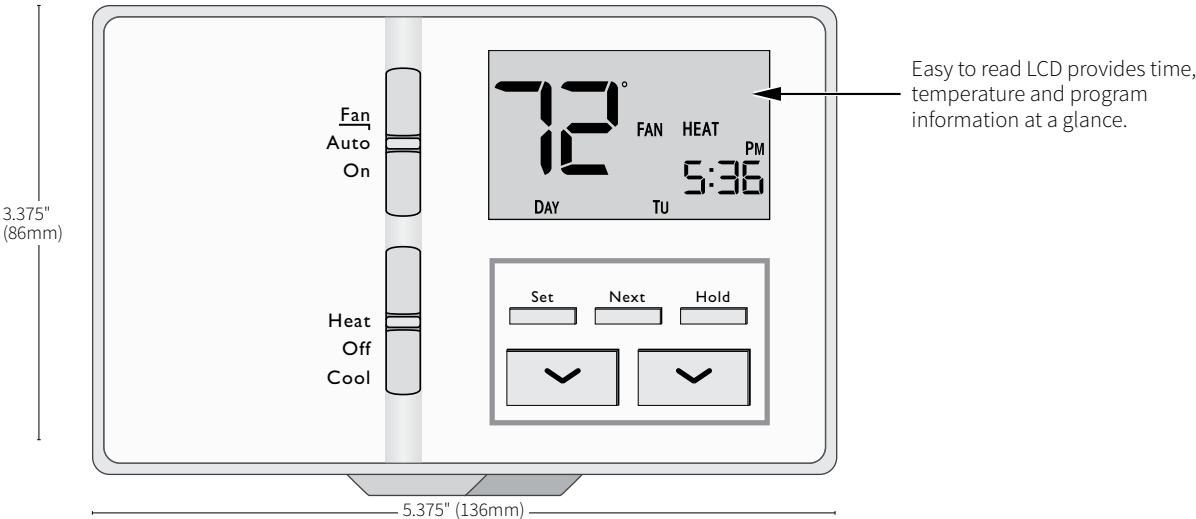

Installation

Compatible With

- For most 24V heating and A/C systems
- 1-heat/1-cool: gas, oil, electric or single stage heat pump systems (with no AUX/EMERG heat)
- 2-wire hydronic systems (hot water baseboard & radiator)
- Gas Millivolt heaters (wall heaters/furnaces & gas fireplaces)

Not Compatible With

- Multi-stage heating and AC systems
- Multi-stage heat pumps
- 3-wire hydronic zone valve systems
- 120V/240V line voltage systems (without transformer)

Dimensions	5.375" (136mm) wide x 3.375" (86mm) tall x 1.25" (33mm) deep
Heat/Cool Terminals	RH, RC, W, Y, G, C, O/B (solid pin for 24v and Millivolt systems)
Electrical Ratings	1.5 Amps per terminal at 24 volts
Temperature Control Range	<ul style="list-style-type: none"> Temp control 45°F to 90°F (7°C to 32°C) Display range: 23°F to 99°F (-5°C to 37°C) Temperature differential: adjustable from 0.25°F to 2.25°F <i>Accuracy: ±1°F over a range of 45°F to 95°F.</i>
Environmental Limits	<ul style="list-style-type: none"> Moisture and Dust: meets IP20 Operating Humidity: 20% to 90% non-condensating Operating temperature: 14°F to 112°F (-10°C to 40°C) Storage temperature: -4°F to 140°F (-20°C to 60°C) Electrical Immunity: meets relevant EMI/EMC specifications
Compatible With	<ul style="list-style-type: none"> For most 24V heating and A/C systems 1-heat/1-cool: gas, oil, electric or single stage heat pump systems 2-wire hydronic systems (hot water baseboard & radiator) Gas Millivolt heaters (wall heaters/furnaces & gas fireplaces)

LUXPRO®

Feature rich programmable/non-programmable all-in-one thermostat

7-day

Programmable • Non-Programmable

Product Highlights

- ✓ All In-One Programmable / Non-Programmable
- ✓ Universal heat pump & conventional heat/cool
- ✓ Dual power
- ✓ 5 year warranty
- ✓ Adjustable 2nd stage heat offset

Product Features

- Easy installation
- Program 7-day or non-programmable
- Special-day programming
- Easy-view back light
- Optional wall plate model #WP567
- User option: 2 or 4 periods per day
- Programmable keypad lockout
- Temporary override and manual hold
- Dual powered (2AA) Alkaline Batteries (included)
- Temporary compressor protection bypass
- 5/2 minute selectable time delay for equipment protection
- User temperature calibration
- Display option: fahrenheit or celsius temperature
- Adjustable heating and cooling limits
- Speed Slide® for easy programming
- Air filter monitor
- Selectable smart recovery
- AM/PM clock or military time option
- Adjustable temperature differential/swing

Installation

Compatible With

- Universal compatibility for conventional heat & A/C up to 2-stage heat/2-stage cool
- Universal compatibility for heat pumps with up to 2-stage heat/1 stage cool (including AUX/EMERG heat)
- 2 and 3-wire hydronic systems (hot water baseboard & radiator)
- Gas millivolt heaters

Not Compatible With

- Line voltage systems (120/240 VAC)

Heating & Cooling Programmable Outlet Thermostat

5/2-day Programmable

Programmable • Non-Programmable

Product Highlights

- ✓ Programmable outlet thermostat allows control of window air conditioning units and portable space heaters.
- ✓ Temperature control adjustable.
- ✓ Plugs into normal 120 volt, 15 amp electrical outlet.
- ✓ ETL listed.

Product Features

- Designed for Window Air Conditioners and Portable Space Heaters - 120 Volt 15A Units
- Easy-to-Use Lux Speed Dial®
- 5/2 Programming - Weekdays and Weekends Can Be Programmed Differently
- Armchair Programmable
- Easy to Reprogram
- Separate Programs for Heating and Cooling
- Clean, Attractive Design
- Energy Star® Compliant
- ETL Approved
- Vertical Orientation
- Setting Range 45°F to 90°F (7°C to 32°C)
- F/C Selectable
- Temporary Temperature Override
- Manual Hold
- 12 Hour Clock Only
- User Temperature Calibration
- Adjustable Temperature Differential/Cycle Rate
- Mode Slide Switch
- Positive On/Off Switch
- 120VAC Outlet Powered
- 2 G13A Size 1.5V Alkaline Batteries Included (for clock only)
- Battery Free Memory Storage
- 5 Minute Compressor Delay
- Time and Temperature Alternate in Display
- On-Screen Low Battery Indicator
- Soft Touch Buttons

Installation

Compatible With

- All mechanically controlled: 120Volt, 15 Amp, 60 Hz, window air conditioning units and portable space heaters.
- It is also compatible with electronically controlled: 120Volt, 15 Amp, 60 Hz, window air conditioning units that have automatic restart of cooling after power resumption**.

Not Compatible With

- It cannot be used with electronically controlled space heaters, or window air conditioning units that do not have automatic restart of cooling after power resumption**.
- In addition, it cannot be used with conventional 24 Volt heating/cooling systems, hydronic systems, or heat pumps.

Dimensions	3.0" (76mm) wide x 5.25" (133mm) tall x 2.75" (70mm) deep Unit Total / 1.80" (48mm) depth - when plugged in.
Electrical Ratings	Unit is directly powered by the 120V outlet. (2) 1.5V G13 alkaline button cell batteries (included) are for maintaining the clock only.
Temperature Control Range	<ul style="list-style-type: none"> Temp control 45° F to 90° F (7° to 32° C) <i>accuracy +/- 1° over a range of 45° F to 90° F.</i>

*Digital Thermostat offers programmable control of single stage heating and cooling systems.
Temperature control adjustable.*

7-day Programmable

Programmable • Non-Programmable

Product Highlights

- ✓ The Clean Cycle Advantage Helps Filter Allergens, Dust and Pet Dander, Circulates Air in Home, Helps Improve Indoor Air Quality
- ✓ Autochangeover
- ✓ Fully Programmable IAQ Clean Cycle™ (Patent Pending) Intermittent Fan
- ✓ Programmable Auto Changeover Dead-Band (1°F to 6°F)

Product Features

- 7 Day Programming – 4 Periods Per Day
- Easy Programming with Lux Speed Dial®
- Dual Power – System or Battery Powered with Battery Free Memory Storage
- Programmable Filter Timer with Change Filter Indicator
- Temporary Override is CAT24 Compliant
- Vacation Override
- Adjustable 2 or 5 Minute A/C Compressor Delay
- Energy Usage Monitor
- EL (Electro Luminescent) Back Light Display
- Mode and Fan Slide Switch
- Optional Early Recovery
- Energy Star Compliant
- Batteries Included
- 1-Year Warranty
- F/C Selectable
- 12/24 Hr Clock
- Temperature Calibration
- Adjustable Temperature Differential/Cycle Rate (.25 - 2.25)
- Programming Copy Button
- Keyboard Lockout
- Speed Dial® Reprogramming
- High Efficiency Systems
- Contractor Grade
- On-Screen Low Battery Indicator
- Soft Touch Buttons
- Default Energy Star Approved Program
- Separate Temperature for Heating & Cooling
- Hold Constant Temperature Override
- Audible Keypad Entry Response

Universally compatible Everything'Stat® offers programmable control of single or multistage heating and cooling systems. Temperature control adjustable.

5/2-day Programmable

Programmable • Non-Programmable

Product Highlights

- ✓ Universal Compatibility Everything'Stat®
- ✓ Controls up to 2 Stages of Heat and 2 Stages of Cooling Plus Auxiliary and Emergency Heat
- ✓ Auto-Changeover Between Heat and Cool
- ✓ Auxiliary and Emergency Heat Indicators

Product Features

- EL (Electro Luminescent) Backlight
- IAQ Independently Programmable Fan
- 7 Day Programming
- Default Temperature Program
- 4 Periods Per Day
- Temporary Temperature Override
- Manual Hold
- Adjustable Vacation Hold (1-30 Days)
- Optional Smart Recovery
- Programmable Air Filter Timer with Filter Change Indicator
- Energy Usage Monitor
- Fahrenheit or Celsius Temperature Display
- 12/24 Hour Clock
- Easy Programming with LUX Speed Dial®
- Advanced Copy Function for Fast Easy Programming
- Nonvolatile Memory for All Temperature Programs and Settings
- Daylight Savings Time (DST) Button
- Multimode Keyboard Lockout with
- User Programmable 3 Digit Lock Code
- Programmable Max. Heat Temperature Limit
- Programmable Min. Cool Temperature Limit
- Defeatable Audible Button Response
- Menu Driven Setup Done from the Front Panel
- User Temperature Calibration Adjustment
- Dual Power Capable (System and/or Battery)
- Multi-Stage Adjustable Temperature
- Differential/Cycle Rate
- Programmable Length Minimum Run/Off Time
- Programmable Auto-Changeover Dead-Band
- Programmable Fan-On Delay Setting
- Programmable Fan-Off (Overrun) Delay Setting

Installation

Compatible With

- Most 24v Gas, Oil, Electric Heating and Air Conditioning Systems
- Multi-stage Heat Pumps
- 2-Wire Hydronic Systems
- Hydronic Air Handlers

NON PROGRAMMABLE THERMOSTATS

For projects and end users still looking for total control of temperature, LUX offers its LUXPro line of non-programmable options in a range of features and value.

P111	36
P2000F.....	38
PSD010B	40
PSD010BF	42
PSD011B	44
PSD111+	46
PSDH121+.....	48

Our job-friendly, non-programmable value thermostat with features you might not expect!

Non-Programmable

Product Highlights

- ✓ Non-programmable only
- ✓ Dual powered
- ✓ Adjustable heating and cooling limits
- ✓ 5 year warranty

Product Features

- Easy installation
- Non-programmable only
- Easy-view back light
- Optional wall plate model #WP567
- Keypad lock for unauthorized use
- Dual powered (2AA) Alkaline Batteries (included)
- Temporary Compressor protection bypass
- 5/2 minute selectable time delay for equipment protection
- User temperature calibration
- Display option: fahrenheit or celsius temperature
- Adjustable heating and cooling limits
- Adjustable temperature differential/swing

Installation

Compatible With

- For most 24V heating and A/C systems
- 1-heat/1-cool: gas, oil, electric or single stage heat pump systems
- 2-wire heat only hydronic systems (hot water baseboard & radiator)
- Millivolt systems (wall heaters/furnaces & gas fireplaces)

Not Compatible With

- Multi-stage heating & AC systems
- Multi-stage heat pumps
- 3-wire hydronic zone valve systems
- 120V/240V line voltage systems (without transformer)

Dimensions	5.375" (136mm) wide x 3.375" (86mm) tall x 1.25" (32mm) deep
Heat/Cool Terminals	RH, RC, W, Y, G, C, O/B (solid pins for 24v and Millivolt systems)
Electrical Ratings	1.5 Amps per terminal at 24 volts
Temperature Control Range	<ul style="list-style-type: none"> Temp control 45°F to 90°F (7°C to 32°C) Display range: 23°F to 99°F (-5°C to 37°C) Temperature Differential: adjustable from ±0.25°F to ±2.25°F <i>Accuracy ±1°F over a range of 45°F to 90°F.</i>
Environmental Limits	<ul style="list-style-type: none"> Moisture and Dust: meets IP20 Operating Humidity: 20% to 90% (non-condensating) Operating temperature: 14°F to 114°F (-10°C to 45°C) Storage temperature: -4°F to 140°F (-20°C to 60°C) Electrical Immunity: meets relevant EMI/EMC specifications
Compatible With	<ul style="list-style-type: none"> For most 24V heating and A/C systems 1-heat/1-cool: gas, oil, electric or single stage heat pump systems 2-wire heat only hydronic systems (hot water baseboard & radiator) Millivolt systems (wall heaters/furnaces & gas fireplaces)
Not Compatible With	<ul style="list-style-type: none"> Multi-stage heating & AC systems Multi-stage heat pumps 3-wire hydronic zone valve systems Line voltage systems (120/240 VAC)

All that's needed for radiant floor control

Non-programmable

Product Highlights

- ✓ Non-Programmable Floor/Slab Thermostat
- ✓ Includes 16ft Sensor
- ✓ Min/max. temperature limits
- ✓ Valve anti-seize protection
- ✓ Freeze protection control

Product Features

- Non-programmable only
- Easy-view back light
- 16 ft. wired floor/slab sensor included
- Keypad lock for unauthorized use
- Max & Min. set temperature limit value
- Non-volatile (battery free) memory
- Flexible output control (normally closed or open)
- Flexible operating modes: comfort-eco-frost protection-standby
- Display option: fahrenheit or celsius temperature
- User adjustable floor/slab temperature Calibration
- Flexible room temperature control
- Freeze protection control
- Valve anti-seize: if valve has not been actuated for 10 days, heat output will cycle on for 5 minutes (except in standby)

Installation

Compatible With

- Radiant underfloor heating systems (up to 2 AMPS @ 24 VAC)
- 2-wire hydronic thermal actuators (up to 2 AMPS @ 24 VAC)

Not Compatible With

- 120V/240V line voltage systems (without transformer)
- Conventional forced air heating/cooling systems
- 3-wire hydronic zone valves
- Systems without 24 VAC common wire present

Dimensions	3.50" (89mm) wide x 3.875" (99mm) tall x 1.00" (25mm) deep
Heat/Cool Terminals	RH, C (output, if needed), W (output)
Electrical Ratings	2 AMPS @ 24 VAC, 60 HZ. System power only
Temperature Control Range	<ul style="list-style-type: none"> Room temp control 40°F to 86°F (5°C to 30°C) Floor/slab temp control 40°F to 99°F (5°C to 45°C) <i>Accuracy ±1°F (±1°C).</i>

Digital heat-only, no fan switch

Heat-Only Manual

Perfect for

- ✓ Fireplaces
- ✓ Stoves
- ✓ In-Floor Radiant Heating Systems

Product Features

- Digital accuracy
- Battery powered only
- Large illuminated display
- Attractive slim design
- Fahrenheit/Celsius switchable
- Easy installation
- Optional wall plate available
- 5 year warranty

Physical Dimensions (When Mounted)

- Width = 3.50" (90 mm)
- Height = 5.125" (131 mm)
- Depth = 1.125" (30 mm)
- Option wall plate: Part no. WP011, 4.5" (115 mm) X 5.5" (140 mm) X 0.125" (4 mm)

Carton Pack Quantity

- 10 pieces

UPC Code

- 0 21079 07010 7

Installation

Compatible With

- 24V 2 wire heating only systems
- 1 stage heat gas or oil systems with no fan
- 2 wire heat hydronic systems (hot water, baseboard and radiator)
- Millivolt systems (wall heaters/furnaces and gas fireplaces)

Not Compatible With

- Cooling systems
- Heat pump systems
- 3 wire hydronic systems
- Line voltage systems (120/240 VAC)

Compatible With	<ul style="list-style-type: none"> ▪ 24V 2 Wire Heating Only Systems ▪ 1 Stage Heat Gas or Oil Systems With No Fan ▪ 2 Wire Heat Hydronic Systems (Hot Water, Baseboard & Radiator) ▪ Millivolt Systems (Wall Heaters / Furnaces & Gas Fireplaces)
Not Compatible With	<ul style="list-style-type: none"> ▪ Cooling Systems ▪ Heat Pump Systems ▪ 3 Wire Hydronic Systems ▪ Line Voltage Systems (120 / 240 VAC)

Perfect for Fireplaces, Stoves, In-floor Radiant Heating Systems

Heating Only with Fan Switch

Product Highlights

- ✓ Perfect controls for heating-only systems such as fireplaces, pellet burning stoves, wood burning stoves, coal burning stoves and in-floor radiant heating systems.
- ✓ Digital accuracy, 24V or millivolt compatibility, large easy-to-read backlit displays, and are battery powered (no hardwiring required!)
- ✓ Easy to install for quicker job turnovers, simple to operate for reduced customer call-backs, and are priced for better profitability.

Product Features

- Digital Accuracy
- Fan Switch
- Battery Powered Only
- Large Illuminated Display
- Attractive Slim Design
- Soft Touch Buttons
- Fahrenheit/Celsius Switchable
- Easy Installation
- Optional Wall Plate Available

Installation

Compatible With

- Most 24V Heating Systems
- 1 Stage Heat Only: Gas, Oil or Electric (Non Heat-Pump) Systems
- 2 Wire Heat Only Hydronic Systems (Hot Water, Baseboard & Radiator)
- Millivolt Systems (Wall Heaters / Furnaces & Gas Fireplaces)

Not Compatible With

- Cooling Systems
- Heat Pump Systems
- 3 Wire Hydronic Systems
- Line Voltage Systems (120 / 240 VAC)

Digital Electronic Non-Programmable Thermostats for Heating & Cooling

Non-Programmable Heating & Cooling

Product Highlights

- ✓ Digital thermostat with a large easy-to-read display with backlight.
- ✓ Temperature control set from factory at a fixed value of +/- 0.5° F/C.
- ✓ Battery Powered Only version.

Product Features

- 1 Stage Heat / 1 Stage Cool
- Battery Powered Only
- Large Illuminated Digital Display
- Attractive Slim Design
- Soft Touch Buttons
- Default Set Temps: 65F Heat / 78F Cool
- Fahrenheit/Celsius Switchable
- Adjustable Temperature Stops
- 5 Minute Compressor Protection
- Easy Installation
- Optional Wall Plate Available

Installation

Compatible With

- Most 24V Heating and A / C Systems
- 1 Stage Heat / 1 Stage Cool: Gas, Oil, Electric, or Single Stage Heat Pump Systems
- 2 Wire Heat Only Hydronic Systems (Hot Water Baseboard & Radiator)
- Millivolt Systems (Wall Heaters / Furnaces & Gas Fireplaces)

Not Compatible With

- Multi-stage Heat Pumps
- 3 Wire Hydronic Systems
- Line Voltage Systems (120 / 240 VAC)

Dimensions	3.25" (83mm) wide x 5.05" (128mm) tall x 1.10" (28mm) deep Wall plate: 4.50" (114 mm) wide x 5.45" (138 mm) tall
Heat/Cool Terminals	RH, RC, W1, Y1, G, O/B
Electrical Ratings	11/2 AMPS at each terminal, 3 AMPS total 24 VAC Battery Powered Only: 2 "AA" Batteries

The contractor's non-programmable choice for 1h/1c systems

Non-programmable

Product Highlights

- ✓ Large back-lit display
- ✓ Dual powered: system or battery
- ✓ Horizontal or vertical mount
- ✓ 5 year warranty

Product Features

- Easy installation
- Horizontal or vertical mount
- Easy-view back light
- Optional wall plate model# WP567
- Dual powered (2AA) Alkaline Batteries (included)
- Adjustable compressor delay
- Display option: fahrenheit or celsius temperature
- Low battery indicator
- Adjustable temperature swing
- 9-step temperature swing
- Temperature calibration
- High & low adjustable temp limits

Installation

Compatible With

- For most single stage 24V heating and A/C systems
- 1 heat/1 cool and single stage heat pumps
- 2-wire hydronic systems & hydronic air handling systems
- Millivolt systems (wall heaters/furnaces, gas fireplaces and/or pellet stoves.)

Not Compatible With

- Multi-stage heat pumps
- Multi-stage gas or oil furnaces
- 3-wire hydronic systems
- 120V/240V line voltage systems (without transformer)

MECHANICAL THERMOSTATS

For jobs that still need mechanical thermostats, LUX offers the mercury-free features that get the work done, quickly.

PSM30SA	52
PSM40SA	53
PSM400SA	54

Snap action mechanism

Heat-Only Mechanical

Product Highlights

- ✓ Easy to use
- ✓ Mercury free
- ✓ 5 year warranty

Product Features

- Clean, attractive design
- Snap action mechanism
- Value priced
- Adjustable heat anticipator
- Contains no mercury

Electrical Ratings:

- 24 VAC (30 VAC maximum)

Anticipator Rating:

- 0.15 A to 1.2 A

Temperature Control Range:

- 45°F to 90°F (7° to 32°). Accuracy: $\pm 1^\circ\text{F}$ over a range of 50°F to 95°F

Environmental Limits:

- Moisture and dust: meets IP20
- Operating humidity: 20% to 90% non-condensing
- Operating temperature: +32°F to +95°F (+0°C to +35°C)
- Storage temperature: -4°F to +130°F (-20°C to +54°C)
- Electrical immunity: meets relevant CE specifications

Installation

Compatible With

- Most 24V gas, oil, electric heating systems
- 2 wire hydronic systems
- Millivolt systems
- Hydronic air handlers
- Single-stage heat pumps

Not Compatible With

- 3 wire hydronic systems
- Multi-stage heat pumps
- 120V/240V systems

Physical Dimensions (When Mounted):

- Width = 3" (77 mm)
- Height = 3.50" (90 mm)
- Depth = 1.25" (32 mm)
- Optional wall plate: Part no. MTO84S, 4.75" (121 mm) X 4.75" (121 mm)

Packaging:

- Packaged in box - carton quantity = 50
- Carton specifications: 16.50" long X 14.75" wide X 12.375" deep. Carton weight: 17 lbs.

Single-Pole Line-Voltage

Heat-Only Mechanical

Product Highlights

- ✓ Easy to use
- ✓ Mercury free
- ✓ 5 year warranty
- ✓ Single-Pole Line-Voltage

Product Features

- Easy to install and use
- Clean attractive design
- Contains no mercury
- ETL certified (USA, Canada)
- Single bi-metallic temperature sensing strip
- 5 year warranty

Thermostat Electrical Ratings:

- Resistive: 22A at 120/208/240/277 VAC (2640W @ 120V, 5280W @ 240V)
- Inductive: 1/2 HP @ 120V, 3/4 HP @ 240V

Physical Dimensions (When Mounted):

- Width = 2.75" (70 mm)
- Height = 4.50" (115mm)
- Depth = 1.50" (40mm)

Installation

Compatible With

- 1-stage heat only: single-pole (2-wires) and 120/240 VAC systems up to 22 amps

Not Compatible With

- Conventional 24V heating applications
- Millivolt heating applications
- Cooling applications

Carton Pack Quantity:

- 5 pieces

UPC Code:

- 0 21079 14262 0

Double-Pole Line-Voltage

Heat-Only Mechanical

Product Highlights

- ✓ Easy to use
- ✓ Mercury free
- ✓ 5 year warranty
- ✓ Double-Pole Line-Voltage

Product Features

- Easy to install and use
- Clean attractive design
- Contains no mercury
- 5 year warranty
- ETL certified (USA, Canada)
- Single bi-metallic temperature sensing strip

Thermostat Electrical Ratings:

- Resistive: 22A at 120/208/240/277 VAC (2640W @ 120V, 5280W @ 240V)
- Inductive: 1/2 HP @ 120V, 3/4 HP @ 240V

Physical Dimensions (When Mounted):

- Width = 2.75" (70 mm)
- Height = 4.50" (115mm)
- Depth = 1.50" (40mm)

5/2-day Programmable

Programmable • Non-Programmable

Product Highlights

- ✓ Requires 2-AA batteries
- ✓ Pre-programed settings
- ✓ 5 year warranty
- ✓ Line Voltage

Product Features

- Easy installation
- Programmable 5/2-day
- Easy-view back light
- Optional wall plate model# WP510
- Positive on/off switch
- Requires (2AA) Alkaline Batteries (included)
- UL approved
- Display option: fahrenheit or celsius temperature
- Vacation hold
- Temporary temperature override
- Line Voltage

Installation

Compatible With

- 1 stage heat only; single or double pole 120/240 VAC systems
- Line voltage (120/240V)
- Hydronic (hot water) systems with motors up to 1/4 HP
- 120V (1,800W resistive)/240V (3,600W resistive) line voltage systems (without transformer)
- Max 15 amps

Not Compatible With

- Conventional 24 V heating and cooling systems

Dimensions	2.7" (69mm) wide x 4.7" (119mm) tall x 2.4" (61mm) deep

IMPORTANT: If not installed properly, this unit could cause a fire. For applications such as baseboard electric heat (resistive), the max load is 15 Amps, from 20 Amp circuit breaker. For heat applications such as a hot water circulating pump (inductive), the maximum load is 1/4 HP @ 120Volts (this thermostat is not compatible with heating appliances which contain both an electric heating element (resistive) and a blower fan (inductive load) within the same device. This product should be installed by a licensed electrician.

ACCESSORIES

LUX has a solution for all your needs with LUX Accessories from Décor Snap Covers, the colorful options homeowners will love, alternative powering options like the LUX Power Bridge for homes without a C-wire or USB Power kits as another way to power your LUX/GEO, & locking guards that make a secure option for landlord controlled locations.

LUX Power Bridge	66
USB Power Kit.....	66
KONO Décor Snap Covers	67
Thermostat Guards.....	68
AirSMART IAQ.....	69

LUX Power Bridge

The LUX Power Bridge provides 24V AC power to thermostats in homes without C-wires. Thermostats that connect to WiFi networks and home automation systems like Amazon Alexa and Apple HomeKit need a consistent 24V AC power source for optimal performance. The LUX Power Bridge allows homes with 3 and 4 wire systems to reap the benefits of smart thermostats without requiring a new wire to be installed between the furnace and the thermostat.

Recommended Application

- Conventional 4-wire systems (Y, W, R, G)
- Heat Pump 4-wire systems (O/B, Y, R, G)
- Cool-only 3-wire systems (Y, R, G)
- Heat-only 3-wire systems (W, R, G)

Works With

- KONO Smart
- KONO Z
- GEO
- GEOx

In the Box

- Power Bridge (installed at the furnace)
- Y-splitter (installed at the thermostat)
- Manual and wiring guide
- Wiring labels

Product Specification

- Color: White
- Height: 2.5"
- Width: 2.5"
- Depth: 0.875"

Alternative LUX Power Options

USB Power Kit

- Provides an additional powering option for GEO family of thermostats
- Contains micro-USB cable and wall adapter
- Optimizes performance for smart home systems

Works With

- Geo
- Geox

KONO Décor-Snap™ Cover

Product Highlights

- Add a splash of color or match your home's decor
- Quick, simple installation
- Robust construction
- Simple Snap off / Snap On
- Works with KONO Smart / KONOz

Locking Thermostat Covers Are Made From Strong, Durable Plastic

BB3001 - 004

BB2001 - 005

Whether your customer desires additional assurance or needs to deter tampering with settings, thermostat locking guards from LUX Products, provide the protection they're looking for. Made of strong durable plastic, these guards come in two sizes to fit all thermostats. Perfect for the office or rental properties, LUX locking guards limit unwanted access and eliminate accidental fluctuations when someone bumps into the thermostat.

System (GEOx specific)

- Conventional heat & A/C up to 2h/2c
- Heat Pumps: up to 3h/2c Aux/Emergency heat and dual fuel systems with fossil fuel furnace back-up.
- Hydronic heat: when 24V system common (c-wire) is present.
- Power: C wire or LUX Power Bridge (included).

Product

- Foobot provides visible event detection with light from orange to blue
- GEOx, when triggered by event communication automatically switches HVAC fan to circulation mode
- Foobot can detect fine particulates & VOCs
- For complete IAQ Solution, add a UV light to HVAC system (ask LUX rep for details)

Connectivity

GEOx

- Radio: WiFi certified 802.11 b/g/n
- Frequency: 2.4 GHz
- Encryption: SHA256RSA
- Platforms: Amazon Alexa enabled devices

Foobot

- Radio: WiFi 802.11 b/g/n
- Frequency: 2.4 GHz
- Encryption: open/WEP/WPA/WPA2 personal
- Platforms: Amazon Alexa enabled devices

SPECIFICATIONS BUNDLE # ASO1-BO1

	GEOx	FOOBOT
Dimensions	Height: 3.12" (79mm) Width: 5.7" (145mm) Depth: 1.32" (33mm)	Height: 6.75" (172mm), Depth: 2.8" (71mm)
Heat/Cool Terminals	R,Y1, Y2, G, W1, W2/O/B, C, U/U (for separate humidifier/de-humidifier)	-
Electrical Ratings	1.5 Amps per terminal @24Volts	-
Temperature Control Range	Control Range: 45°F to 90°F (72°C to 32°C) Display Range: 32°F to 99°F (0°C to 37°C) Temp differential: adjustable from ±0.25F to ±2.25F	-
Environmental Limits	Moisture and Dust: Up to IP20 Operating Limits: +14°F to 122°F (+10°C to 50°C) Operating Humidity: 20% to 90% non-condensing Storage Limits: +40°F to +140°F (-20°C to +60°C)	operating limits: 32°F to 140°F (0°C to 60°C) ±1 operating humidity: 30% - 90% non condensing - RH+5%
WiFi Specifications	2.4GHz: 802.11 b/g/n SHA256RSA data encryption Network commissioning through iOS/Android app or WPS Program and system settings stored on the device for set up and function – with or without WiFi	2.4GHz: 802.11 b/g/n Security open/WEP/WPA/WPA2 Personal Network commissioning through iOS/Android app.
Compatible With	For conventional heat & A/C up to 2h/2c. Heat pump universal compatibility up to 3h/2c including AUX/EMERG heat and dual fuel systems -with fossil fuel furnace back-up. Hydronic heating applications if 24V system common (c-wire) is present.	HVAC system must support control of circulation fan to be effective. Works with Amazon Alexa enabled devices. Power with AC-DC 5V 0.5A USB power adapter
Not Compatible With	120V/240V line voltage systems. Gas millivolt heaters, gas fireplaces and other 2-wire heat applications.	HVAC systems without circulation fan
Packaging	ASO1-BO1 Includes: 1 LUX GEOx, 1 Power Bridge and 1 Foobot UPC: 0 21079 17011 1	

Accessories

- Includes wall plate
