

Specialty Vacuums

14 GALLON WITH CERTIFIED HEPA FILTRATION

The RIDGID® Model RV2400HF professional wet dry vac is a 14-gallon, 2-stage wet dry vacuum with certified HEPA Filtration that meets EPA's definition under the RRP rule for lead paint renovations. It delivers the high-lift suction, large capacity, rugged construction for pro, contractor and industrial use.

- **11.5 Amp Motor** – Drives two blower wheels to optimize suction and deliver industry-leading performance.
- **Longer Motor Life** – Over 700 hours on average.
- **2-Piece Polypropylene Drum Construction** – Rugged construction to meet the higher demands found at worksites
- **2-Stage Motor** – Creates powerful “high-lift” suction and more efficient air flow. Result – more suction power and quieter operation.
- **3 Layers of Filtration** – Disposable high-efficiency filter bags collect larger debris. Then a washable fabric filter cover captures particles down to 0.5 microns. The certified HEPA filter then captures the smallest particulates down to 0.3 microns.
- **Oversized Drain** – Large drain located at the lowest point of the drum for emptying of water.
- **Sound Reduction Technology** – Scroll Noise Reduction® is a patented feature that provides quiet operation by precisely controlling the flow of air through the vac.
- **Accessory Storage Bag** – Keeps accessories organized and close by for easy access.
- **Cord-Wrap/Large Handle** – Large carry handle provides an area for the storage of the 25' power cord.
- **Blowing Capacity** – Blow leaves from walkways or decks and debris from job sites, tools, etc.
- **Professional Locking Hose** – The ultra-flexible hose won't pull loose during use, and is four times more durable than our standard hose. This 2-½" x 10' hose has a smooth interior surface to reduce clogging.
- **Locking Accessories** – Included accessories lock together, so nothing falls off when in use.
- **Qwik Lock® Filter Fastening System** – Install or remove your filter quickly, easily and secure without tools or fasteners.
- **Includes** – Vacuum, owner's manual, 2 extension wands, 2 ½" x 10' premium locking pro hose, utility nozzle, wet nozzle, 14" floor brush, crevice tool, muffler/diffuser, filter bag, cloth pre-filter, certified HEPA filter, “beater bar” turbo brush with connector, and dusting brush.

SPECIFICATIONS

- **Accessory Diameter** – 2 ½"
- **Amperage** – 11.5A
- **Built-In Accessory Storage** – Yes
- **Built-In Drain** – Yes
- **Casters** – Yes
- **Filter Type** – HEPA Filter
