BrassCraft® Speedi Plumb® PLUS Connector

The Most Corrosion Resistant Connector

BrassCraft Speedi Plumb PLUS Performance, PLUS Advanced Construction and Appeal.

The BrassCraft Speedi Plumb PLUS connector is the world's most advanced flexible water connector. Designed for longer life under the harshest conditions, the BrassCraft Speedi Plumb PLUS connector features tough polymer-coated fibers tightly braided around a reinforced PVC inner hose. The result is a corrosion resistant, highly flexible, extremely reliable water connector for use with faucets, toilets, dishwashers, washing machines, water heaters, icemakers and humidifiers.

Allows for Speedier Connections.

The braided polymer-coated fibers bend freely, without kinking or crimping. Installation is easier, especially in cramped quarters.

Stop End Provides More Secure Connections.

Deep threads in the compression nut assure secure engagement, while the rubber seal eliminates metal-to-metal connections which have been known to damage water stops.

Patented Engineered Polymer Braid.

Patented construction features a high tenacity, multi-filament core yarn, protected by a special polymer coating. The result is optimum corrosion resistance, and durability.

Reinforced PVC Inner Hose Ensures Durability.

Long Wing Nuts for Quick & Sure Connections.

Hand-tightened wing nuts offer quicker connections to faucets and toilets, while the long nut ensures dependable thread engagement.

8-Sided Pneumatic Crimp for Greater Dependability.

Precise 8-sided crimp ensures reliable nut-to-hose connections.

Cone Washer for Universal Fit and Sure Seal.

The cone washer's large sealing surface ensures a secure connection and a universal fit.

BrassCraft Speedi Plumb PLUS Connectors Resist Corrosion.

The braided polymer-coated fibers in BrassCraft Speedi Plumb PLUS connectors are specially engineered to resist corrosion caused by chemicals found in common household tile and glass cleaners including:

- Ammonia
- Phosphoric Acid
- Sodium Hypochlorite
- Hydrogen Chloride
- Muriatic Acid
- Dimethyl Benzyl Ammonium Chloride

The BrassCraft Speedi Plumb PLUS engineered polymer-braided jacket also resists corrosion from solder flux from installation and repair, and completely protects the inner tube, even in a harsh chemical environment.

✓ No Lead The BrassCraft Manufacturing Commitment to Compliance.

As an industry leader, we are continuously developing solutions for the ever-changing marketplace. In 2009, we were one of the first manufacturers to introduce no-lead* products compliant with California's low-lead legislation. As this legislation expands to a nationwide implementation in January 2014, we continue our commitment to provide a full range of high quality compliant products, including Speedi Plumb connectors.

BrassCraft Speedi Plumb PLUS Connectors for Every Application.

Choose from our complete inventory of BrassCraft Speedi Plumb PLUS connectors for faucet, toilet, dishwasher, washing machine, ice-maker and humidifier hook-ups, and supply kits for dishwashers and "Low Boy" toilets.

Water heater connectors are also available, featuring specially coated fibers for continuous exposure to high heat. Choose from a full line of end fitting configurations.

BrassCraft Speedi Plumb PLUS connectors are IAPMO and CSA listed to ASME A112.18.6-2009/CSA B125.6-2009, the only national standard for flexible water connectors.

*BrassCraft Manufacturing is in compliance with the National Reduction of Lead in Drinking Water Act which becomes effective nationwide on January 4, 2014. This legislation changes the legal definition of "lead free" from 8% lead to a weighted average lead content of 0.25% with respect to wetted surfaces.

BrassCraft®

Speedi Plumb® Vinyl Connectors

Practical Solution.

Available in a variety of thread styles, Speedi Plumb connectors accommodate standard sink and toilet connections. Product features include:

- Reinforced PVC inner hose.
- Complete and ready to use. No washers, rings, inserts or sleeves needed.
- Cone washer for universal fit and sure seal.
- Requires no special tools for installation.

*8-sided
pneumatic
crimp for
greater
dependability*

*Brass
barb and
ferrule*

*Long wing nuts for
quick and sure
ballcock connections*

*Flexible hose
for speedier
connections*

✓ No Lead

BF1-**DL / BF3-**DL Speedi Plumb® PLUS Braided Toilet Connector - Flare Inlet

Use: For use in potable water distribution systems in accessible locations only.

Design Features:

- **Engineered polymer braided** fibers bend freely without kinking or crimping
- **Reinforced PVC inner hose** ensures durability
- **Rubber washers** provide a large pliable sealing surface and ensure a long lasting water-tight connection
- **Long wing nuts** allow for quick connection and ensure dependable thread engagement
- **8-sided pneumatic crimp** provides greater dependability for reliable nut-to-hose connections
-  **No Lead**

Operating Specifications:

Temperature: 40°- 140° F, intermittent to 180° F

Pressure: 125 PSI maximum

Tubing Diameter: 0.300" ID (0.550" OD)

MATERIAL SPECIFICATIONS

Inner Hose	<i>Reinforced PVC</i>
Braiding	<i>PVC coated polyester yarn</i>
Barb	<i>Brass</i>
Ferrule	<i>Zinc-plated steel</i>
Nut	<i>Polypropylene</i>
Washer	<i>Rubber</i>
Compression Nut	<i>Brass, chrome plated</i>
