HARVEY HISTORY

HARVEY

Omaha, Nebraska

Harvey was founded in 1944, based upon the invention by William H. Havey, Sr. of a pre-formed wax gasket for setting toilet bowls. A master plumber by trade, William Sr. used seven different kinds of wax to make a mixture that would not harden, deteriorate, or dry out. The Bol-Wax® toilet gasket remains one of Harvey's premier products today, with over 500 million rings having been produced and sold since the company's inception. As the company expanded through the years, it diversified its product offering to now include over 1,000 plumbing specialty items in the Harvey line. Harvey has worked hard through the years to earn its reputation as a respected partner for hardware stores, building products distributors and plumbing wholesalers nationwide. In late 2006, Harvey became a wholly-owned subsidiary of Oatey Co., bringing together two strong family-owned companies with solid positions in the plumbing industry. Based in Omaha, Nebraska, Harvey operates from a 271,000 square foot facility that has been the company's home since 1990. Distributing from its central location, Harvey has the capability to efficiently serve customers throughout North and South America. All Harvey products are backed with exceptional customer service, innovative research and development, reliable technical support, LEAN manufacturing techniques and associates dedicated to quality and service.

Multi-Purpose Solvent Cement

MP-6 Multi-Purpose Milky Clear Cement

for ABS, PVC and CPVC pipe and fittings up to 6"

- Medium bodied, medium set, multi-purpose milky clear cement for use on all schedules and classes of ABS, PVC and CPVC pipe and fittings up to 6" diameter with interference fit
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Recommended for potable water, conduit and drain, waste and vent applications
- Recommended application temperature 40°F to 110°F / 4°C to 43°C
- Meets performance requirements of ASTM D 2235, D 2564 & F 493
- Always check local codes for acceptability of this product

Product	Item Number	U.P.C. Number	Case Pack	Carton Wt. (Lbs.)
4 fl. oz. (1/4 pint) dauber in can	018000-24	078864 180008	24	10
8 fl. oz. (1/2 pint) dauber in can	018010-24	078864 180107	24	15
16 fl. oz. (1 pint) dauber in can	018020-12	078864 180206	12	15
32 fl. oz. (1 quart) dauber in can	018030-12	078864 180305	12	28
1 gallon can	018040	078864 180404	6	53

MP-6 Multi-Purpose Cement Kits

MP-6 Multi-Purpose Clear Cement is available in three handy kit forms. The MP-6 Solvent Cement Kit on a blister card contains one 4 fl. oz. can MP-6, one 4 fl. oz. can Purple Primer and one 1 fl. oz. tube of Harvey's Power Scrub Hand Cleaner. The MP-6 Twin Pack box contains one 4 fl. oz. can MP-6 and one 4 fl. oz. can Pipe Cleaner. The MP-6 Solvent Cement Kit 3-Pack box contains one 4 fl. oz. can MP-6, one 4 fl. oz. can Purple Primer and one 4 fl. oz. can Pipe Cleaner. Great for those small jobs!

MP-6 solvent cement kit on blister card	019500	078864 195002	6	5
Twin Pack 4 oz. MP-6 / Pipe Cleaner in box	019520	078864 195200	6	5
MP-6 solvent cement kit 3-pack in box	019700	078864 197006	6	7

PVC Solvent Cements

P-4 Regular Bodied Clear PVC Cement

for PVC pipe and fittings up to 4"

- Regular bodied, fast set clear cement for use on all schedules and classes of PVC pipe and fittings up to 4" diameter for Sch. 40 and 2" diameter for Sch. 80
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Recommended for potable water, pressure pipe, conduit and drain, waste and vent applications
- Recommended application temperature 40°F to 110°F / 4°C to 43°C
- Meets ASTM D 2564

4 fl. oz. (1/4 pint) dauber in can	018100-6	078864 181005	6	2
dauber in can	018100-24	078864 181005	24	9
8 fl. oz. (1/2 pint) dauber in can	018110-24	078864 181104	24	15
16 fl. oz. (1 pint) dauber in can	018120-12	078864 181203	12	15
32 fl. oz. (1 quart) dauber in can	018130-12	078864 181302	12	28
1 gallon can	018140	078864 181401	6	54

Boldface U.P.C. number indicates U.P.C. symbol printed on package. § indicates Spanish/English packaging.

P-4 PVC Solvent Twin Pack

The P-4 Twin Pack box contain one can P-4 PVC Cement and one can Purple Primer

Product	Item Number	U.P.C. Number	Case Pack	Carton Wt. (Lbs.)
Twin Pack 4 oz. P-4 / Purple Primer in box	019530	078864 195309	6	5

P-6 Medium Bodied Clear PVC Cement
for PVC pipe and fittings up to 6"

- Medium bodied, medium set clear cement for use on all schedules and classes of PVC pipe and fittings up to 6" diameter with interference fit
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Recommended for potable water, pressure pipe, conduit and drain, waste and vent applications
- Recommended application temperature 40°F to 110°F / 4°C to 43°C
- Meets ASTM D 2564

4 fl. oz. (1/4 pint) dauber in can	018150-24	078864 181500	24	9
8 fl. oz. (1/2 pint) dauber in can	018160-24	078864 181609	24	15
16 fl. oz. (1 pint) dauber in can	018170-12	078864 181708	12	15
32 fl. oz. (1 quart) dauber in can	018180-12	078864 181807	12	29
1 gallon can	018190	078864 181906	6	53

P-6E Electrical Clear PVC Conduit Cement
for electrical PVC conduit & plumbing PVC applications

- Medium bodied, medium set clear cement for use on duct and conduit PVC pipe and fittings up to 6" diameter with interference fit
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Recommended for duct and conduit applications
- Recommended application temperature 40°F to 110°F / 4°C to 43°C
- Meets ASTM D 2564

4 fl. oz. (1/4 pint) dauber in can	018450-24	078864 184501	24	9
------------------------------------	-----------	----------------------	----	---

P-12 Heavy Bodied Clear PVC Cement
for PVC pipe and fittings up to 12"

- Heavy bodied, medium set clear cement for use on all schedules and classes of PVC pipe and fittings up to 12" diameter with interference fit
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Thick formula fills gaps in large diameter pipe and loose fitting joints
- Recommended for potable water, pressure pipe, conduit and drain, waste and vent applications
- Recommended application temperature 40°F to 110°F / 4°C to 43°C
- Meets ASTM D 2564

4 fl. oz. (1/4 pint) dauber in can	018200-24	078864 182002	24	9
8 fl. oz. (1/2 pint) dauber in can	018210-24	078864 182101	24	16
16 fl. oz. (1 pint) dauber in can	018220-12	078864 182200	12	15
32 fl. oz. (1 quart) dauber in can	018230-12	078864 182309	12	30
1 gallon can	018240	078864 182408	6	57

Boldface U.P.C. number indicates U.P.C. symbol printed on package. § indicates Spanish/English packaging.

P-12G Heavy Bodied Gray PVC Cement
for PVC pipe and fittings up to 12"

- Heavy bodied, medium set gray cement for use on all schedules and classes of PVC pipe and fittings up to 12" diameter with interference fit
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Thick formula fills gaps in large diameter pipe and loose fitting joints
- Recommended for potable water, pressure pipe, conduit and drain, waste and vent applications
- Recommended application temperature 40°F to 110°F / 4°C to 43°C
- Meets ASTM D 2564

Product	Item Number	U.P.C. Number	Case Pack	Carton Wt. (Lbs.)
4 fl. oz. (1/4 pint) dauber in can	018250-24	078864 182507	24	9
8 fl. oz. (1/2 pint) dauber in can	018260-24	078864 182606	24	16
16 fl. oz. (1 pint) dauber in can	018270-12	078864 182705	12	15
32 fl. oz. (1 quart) dauber in can	018280-12	078864 182804	12	28
1 gallon can	018290	078864 182903	6	56

Special Conditions PVC Solvent Cements

All Temp, All Weather Clear PVC Cement
for PVC pipe and fittings up to 6"

- Medium bodied, very fast setting, all weather clear cement for use on all schedules and classes of PVC pipe and fittings up to 6" diameter with interference fit
- Formulated for fast initial set up at temperatures down to -15°F
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Recommended for potable water, pressure pipe, conduit and drain, waste and vent applications
- Recommended application temperature -15°F to 110°F / -26°C to 43°C
- Meets ASTM D 2564
- No primer needed on non-pressure DWV installations through 4" diameter, **where local codes permit**

16 fl. oz. (1 pint) dauber in can	018320-12	078864 183207	12	14
32 fl. oz. (1 quart) dauber in can	018330-12	078864 183306	12	29
1 gallon can	018340	078864 183405	6	55

Wet Set, Wet Conditions Hot Blue PVC Cement
for PVC pipe and fittings up to 6"

- Medium bodied, very fast setting hot blue cement for use on all schedules and classes of PVC pipe and fittings up to 6" diameter with interference fit
- Formulated for use with wet conditions or when quick pressurization is necessary
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Recommended for potable water, pressure pipe, conduit and drain, waste and vent applications
- Recommended application temperature 40°F to 110°F / 4°C to 43°C
- Meets ASTM D 2564
- No primer needed on non-pressure DWV installations through 4" diameter, **where local codes permit**

4 fl. oz. (1/4 pint) dauber in can	018400-6	078864 184006	6	2
dauber in can	018400-24	078864 184006	24	9
8 fl. oz. (1/2 pint) dauber in can	018410-24	078864 184105	24	16
16 fl. oz. (1 pint) dauber in can	018420-12	078864 184204	12	15
32 fl. oz. (1 quart) dauber in can	018430-12	078864 184303	12	29
1 gallon can	018440	078864 184402	6	56

Boldface U.P.C. number indicates U.P.C. symbol printed on package. § indicates Spanish/English packaging.

Wet Set PVC Cement Twin Pack

The Wet Set Twin Pack 4 oz. Box contains one 4 fl. oz. can Wet Set PVC Cement and one 4 fl. oz. can Purple Primer

Product	Item Number	U.P.C. Number	Case Pack	Carton Wt. (Lbs.)
Twin Pack 4 oz. Wet Set / Purple Primer in box	019550	078864 195507	6	5

CPVC Solvent Cement

C-4 Regular Bodied Orange CPVC Cement
for CPVC pipe and fittings up to 4"

- Regular bodied, fast set orange cement for use on all schedules and classes of CPVC pipe and fittings up to 4" diameter with interference fit
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Recommended for potable water, pressure pipe, conduit and drain, waste and vent applications
- Recommended application temperature 40°F to 110°F / 4°C to 43°C
- Meets ASTM F 493 & D 2846

4 fl. oz. (1/4 pint) dauber in can	018700-6	078864 187007	6	2
dauber in can	018700-24	078864 187007	24	9
8 fl. oz. (1/2 pint) dauber in can	018710-24	078864 187106	24	15
16 fl. oz. (1 pint) dauber in can	018720-12	078864 187205	12	15
32 fl. oz. (1 quart) dauber in can	018730-12	078864 187304	12	28
1 gallon can	018740	078864 187403	6	54

Transition Solvent Cement

Transition Cement
for ABS to PVC pipe and fittings

- Medium bodied, fast set green cement for use in joining ABS to PVC in non-pressure transition joints from the drainage system to the sewer system up to 6" diameter
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Always check local codes for acceptability of this product
- Recommended application temperature 40°F to 110°F / 4°C to 43°C
- Meets ASTM D 3138

16 fl. oz. (1 pint) dauber in can	018570-12	078864 185706	12	14
-----------------------------------	-----------	----------------------	----	----

Boldface U.P.C. number indicates U.P.C. symbol printed on package. § indicates Spanish/English packaging.

ABS Solvent Cement

A-6 Black ABS Cement for ABS pipe and fittings up to 6"

- Medium bodied, medium set black cement on all schedules and classes of ABS pipe and fittings up to 6" diameter with interference fit
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Recommended for non-pressure applications
- Recommended application temperature 40°F to 110°F / 4°C to 43°C
- Meets ASTM D 2235

Product	Item Number	U.P.C. Number	Case Pack	Carton Wt. (Lbs.)
4 fl. oz. (1/4 pint) dauber in can	018500-24	078864 185003	24	9
8 fl. oz. (1/2 pint) dauber in can	018510-24	078864 185102	24	15
16 fl. oz. (1 pint) dauber in can	018520-12	078864 185201	12	14
32 fl. oz. (1 quart) dauber in can	018530-12	078864 185300	12	27
1 gallon can	018540	078864 185409	6	53

Primers and Cleaners

Clear Primer for PVC & CPVC pipe and fittings

- Professional grade clear primer for use on all schedules and classes of CPVC and PVC pipe and fittings
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Removes surface dirt, grease and grime, as well as softens the pipe surface to allow a fast, secure solvent weld
- Meets ASTM F 656

4 fl. oz. (1/4 pint) dauber in can	019000-24	078864 190007	24	9
8 fl. oz. (1/2 pint) dauber in can	019010-24	078864 190106	24	14
16 fl. oz. (1 pint) dauber in can	019020-12	078864 190205	12	14
32 fl. oz. (1 quart) dauber in can	019030-12	078864 190304	12	27
1 gallon can	019040	078864 190403	6	51

Purple Primer for PVC & CPVC pipe and fittings

- Professional grade purple primer for use on all schedules and classes of CPVC and PVC pipe and fittings
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Removes surface dirt, grease and grime, as well as softens the pipe surface to allow a fast, secure solvent weld
- Purple tint ensures piping has been primed prior to solvent cement application
- Meets ASTM F 656

4 fl. oz. (1/4 pint) dauber in can	019050-6	078864 190502	6	2
dauber in can	019050-24	078864 190502	24	8
8 fl. oz. (1/2 pint) dauber in can	019060-24	078864 190601	24	14
16 fl. oz. (1 pint) dauber in can	019070-12	078864 190700	12	14
32 fl. oz. (1 quart) dauber in can	019080-12	078864 190809	12	26
1 gallon can	019090	078864 190908	6	49

Boldface U.P.C. number indicates U.P.C. symbol printed on package. § indicates Spanish/English packaging.

Purple Primer/Cleaner

for PVC & CPVC pipe and fittings

- Dual purpose purple primer/cleaner for use on all schedules and classes of CPVC and PVC pipe and fittings
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Removes surface dirt, grease and grime, and softens pipe surface in preparation for solvent welding
- Always check local codes for acceptability of this product

Product	Item Number	U.P.C. Number	Case Pack	Carton Wt. (Lbs.)
1 gallon can	019150	078864 191509	6	46

Electrical PVC Conduit Purple Primer

for electrical PVC conduit & plumbing PVC & CPVC pipe & fittings

- Professional grade purple primer especially formulated for use with electrical PVC conduit pipe and fittings
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Removes surface dirt, grease and grime, as well as softens the pipe surface to allow a fast, secure solvent weld
- Meets ASTM F 656

4 fl. oz. (1/4 pint) dauber in can	019200-24	078864 192001	24	8
------------------------------------	-----------	----------------------	----	---

Pipe Cleaner

for ABS, PVC & CPVC pipe and fittings

- All purpose clear cleaner for ABS, PVC and CPVC pipe and fittings
- Lo-VOC Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and other environmental requirements
- Fast acting cleaner removes surface dirt, grease and grime from the pipe surface
- Apply sparingly to ABS pipe and fittings

4 fl. oz. (1/4 pint) dauber in can	019100-6	078864 191004	6	2
dauber in can	019100-24	078864 191004	24	8
8 fl. oz. (1/2 pint) dauber in can	019110-24	078864 191103	24	14
16 fl. oz. (1 pint) dauber in can	019120-12	078864 191202	12	13
32 fl. oz. (1 quart) dauber in can	019130-12	078864 191301	12	25
1 gallon can	019140	078864 191400	6	48

Boldface U.P.C. number indicates U.P.C. symbol printed on package. § indicates Spanish/English packaging.

Daubers & Accessories

Daubers

specifically sized to fit 4, 8, 16 and 32 fl. oz. cement cans

Daubers have a polyethylene liner in cap and allow application of the proper amount of cement to ensure a good solvent weld.

Product	Item Number	U.P.C. Number	Case Pack	Carton Wt. (Lbs.)
4 fl. oz. dauber —1-3/4" cap with 2-7/8" stem	019181-48	078864 191813	48	1
8 fl. oz. dauber —1-3/4" cap with 3-1/4" stem	019182-48	078864 191820	48	1
16 fl. oz. dauber —1-3/4" cap with 3-5/8" stem	019183-48	078864 191837	48	2
32 fl. oz. dauber —1-3/4" cap with 4-5/8" stem	019184-48	078864 191844	48	2

Adjustable Dauber

fits can sizes 1/2 pint up to 1 quart, for use on 1/2" to 4" pipe

Adjustable Daubers are the best tool for applying solvent cement and primers. Telescoping stem allows you to get more cement from the can. Sturdy handle means less cement on your hands. The specially constructed easy-open, easy-close sealing collar controls evaporation of solvents and primers and prevents spillage. The dauber is designed to adjust to various can dimensions and allows application of the proper amount of cement to ensure a good solvent weld.

1-1/2" telescoping applicator with barcode	019180-12	078864 191806	12	1
--	-----------	----------------------	----	---

Swabs and Rollers

fits gallon can openings; covers large areas quickly

jumbo swab	019185	078864 191851	6	2
jumbo roller	019186	078864 191868	6	3

Boldface U.P.C. number indicates U.P.C. symbol printed on package. § indicates Spanish/English packaging.

PTFE Thread Seal Tape

PTFE Thread Seal Tape on plastic spool

PTFE Thread Seal Tape is made of virgin white PTFE. Economy grade, low density tape. Multi-purpose for use on a wide range of threaded pipe. Nonflammable. Meets Federal Specification T-27730A.

PTFE String

in string form

PTFE String is made with pure PTFE in string form for gaskets and packing valves; will withstand vibration and high pressure. Recommended for plastic, stainless steel, aluminum, ceramic, synthetic rubber, nylon, monel, carbon pipe, chemicals, corrosives, Freon 22, hydraulic fluids and aromatic fuels. Same tolerance as PTFE tape.

Pipe Thread Compounds

TFE Paste

white thread compound

TFE Paste is a white thread compound made with PTFE. Paste lubricates all threaded joints, is non-hardening , non-separating and withstands up to 3,000 psi on gases from -50 to +400°F, and 10,000 psi on liquids from -50 to +500°F. For use with plastic or metal threaded pipe carrying water, steam, caustics or dilute acid.

HarveyLoc
blue thread compound

Certified to NSF/ANSI 61

HarveyLoc is a multi-purpose blue thread compound. Paste lubricates all threaded joints, is non-hardening, non-separating and withstands up to 3,000 psi on gases from -50 to +400°F, and 6,000 psi on liquids from -50 to +400°F. For use with PVC, CPVC, ABS, polyethylene, polypropylene, iron, steel, copper or brass threads up to and including 2". Lubricates and seals threads on water, steam, caustics or dilute acid lines.

Pipe Joint Lubricant

ready to use

Pipe Joint Lubricant is ideal for assembly of push-on type joints with rubber or synthetic rubber type gaskets. Does not support the growth of bacteria. Can be spread easily and thinly to give superior lubrication. Adheres well to wet or dry pipe. Can be used at 10°F to 120°F. For potable water, drain, waste, vent and sewer systems.

All-Purpose Gas Leak Detector

Gas Leak Detector

in four convenient sizes

Detect any gas leak in just a few seconds on all types of tubing, valves, cylinders, pressurized tanks or any system under air, gas or oxygen pressure with Harvey's **Gas Leak Detector**. May be used at temperatures between -50°F to +160°F. Biodegradable, user friendly, non-corrosive and non-irritating to most skin. Will not stain floors or carpet.

Plumber's Epoxy Putty

Epoxy Putty single stick

Epoxy Putty hardens like steel in 20 minutes! Ideal for temporary repair of plumbing, electrical, auto and home. Plugs, seals, patches holes and cracks and mends almost anything broken. Excellent for fabricating or rebuilding parts and for use as an all-purpose adhesive for metals, wood, glass, masonry, ceramics and many plastics. Can be drilled, tapped, filed, sanded and painted like metal. **Do not use with polyethylene or polypropylene.**

Plumber's Putty

Plumber's Putty professional grade

Plumber's Putty is easy to use and long lasting. Remains flexible and will not harden, shrink, crack or crumble even if cup is left open. Will not support bacteria. Putty is professional grade and is widely used for setting bowls, rims, strainers, faucets, etc. Meets Federal Specification TT-P-1536A. **Do not use on marble, synthetic marble, other porous surfaces or on plastic lavatories and fixtures. For these applications we recommend Harvey's Siliconized Tub Seal Latex or 100% RTV Silicone.**

Siliconized Sealants and Caulk

Siliconized Tub Seal Latex available in clear, bone, white or biscuit

Siliconized Tub Seal Latex is a water based acrylic caulk with silicone for added adhesion and low temperature flexibility. Provides a weather resistant seal against air, moisture, dirt, dust and insects. Use indoors or out. Easy application; soap and water cleanup. Fast drying. Nonflammable. Provides excellent adhesion to brick, ceramic, vinyl, wood, glass, china, plaster, drywall and metal. Caulks around tubs, showers, enclosures, sinks, tile, walls, door moldings and windows. Also resets loose tiles. Fills joints up to 3/8" wide x 3/8" deep. Tack free in 30 minutes; paintable in 2 hours with latex or oil based paints.

100% RTV Silicone Rubber Sealants

available in clear, white or aluminum

100% RTV Silicone Rubber Sealant creates a flexible, durable weather resistant seal between similar and dissimilar materials; provides excellent adhesion to tile, glass, porcelain, ceramic, fiberglass, non-oily woods, plaster, painted surfaces, metal, many plastics, rubber and other common building materials. It will withstand temperature extremes from -60°F to +450°F. and is waterproof for indoor/outdoor use. Dries to the touch in one hour, cures and bonds in 24 hours. Meets Federal Specifications for use in establishments operating under Federal Meat and Poultry Inspection Program. When cured and washed ingredients remaining or which could migrate to food are listed on FDA Regulation No. 21 CFR 177.2600. Federal Specification TT-S-001543A, TT-S-00230C and ASTM-920-86. **Do not top-coat; paint will not adhere to silicone.**

Specialty Sealants

Furnace Cement

high temperature, ready to use, no mixing

Furnace Cement withstands the same temperatures as fire brick for use on coal or wood burning furnaces and stoves. Repairs casting cracks; fills voids in and around furnace and stove parts. Excellent firebrick mortar repair. Furnace can be used immediately. Withstands temperatures up to 3000°F and dries to a hard **gray** finish.

Roof Seal

wet/dry black plastic flashing

Roof Seal is a flashing and roof compound for wet or dry application. A highly flexible cement specially formulated with asphalt and selected additives to provide adhesion to wet surfaces and is recommended for installation and repair of flashing and roofs. Roof Seal is a filler and sealer for patching cracks and breaks in roofing surfaces, firewalls, chimneys, gutters, flashings and roof mounted heating and cooling units. Roof Seal offers outstanding resistance to water. It can be used to stop leaks around vent pipes, spouts, flashing and gutters and is suitable for sealing metal building seams and foundations. This special formulation of highly refined asphalt remains soft and pliable for years. Meets Federal Specification SS-C-00153a Type 1.

Toilet Tank Accessories

Toilet Tank Liner Kits

in plastic hanging bags, easy to install

Toilet Tank Liner Kit includes expanded polystyrene that insulates the cold water in your toilet tank from the warm humid air in your bathroom, preventing condensation from forming on the outside of the tank. Saves water by reducing the amount of water in the tank without sacrificing flush efficiency. Precut sheets fit most tanks.

Product	Item Number	U.P.C. Number	Case Pack	Carton Wt. (Lbs.)

4-in-1 Fitting Tool

1/2" & 3/4" I.D., 5/8" & 7/8" O.D.—a must for any tool box!

The **4-in-1 Tool** is a combination brush that cleans and prepares joints for solder. Removes dirt and debris from connecting parts; use Harvey's Abrasive Sandcloth to polish end of tubing after cleaning away corrosion with brush. Joints to be soldered must be free of any grease, grime, corrosion, hand prints or contamination in order to form a seal. Ideal battery post and terminal cleaner. Saves space, combines four tools into one.

Utility Brushes

Utility Brushes

with brass or stainless steel bristles

Utility Brushes are available with brass bristles for soft materials or stainless steel bristles for tough materials. Keep a pair of these utility brushes at home and a pair in the workshop, too! Use the stainless steel bristle brush for tough jobs such as cleaning debris and rust from welds, threads, fittings, tools and corrosion from battery terminals. Use the brass bristles for such materials as leather clothing and shoes, golf clubs and plastics.

E-Z Clean Abrasive Sandcloth

aluminum oxide, water resistant, 120 grit

E-Z Clean Abrasive Sandcloth is a flexible yet strong cotton fabric combined with a tough, hard aluminum oxide abrasive—120 grit to provide faster cleaning. Two layers of a special adhesive and water resistant resin make a plumber's roll that provides consistently stronger solder joints.

Wet-Cut Abrasive Sandcloth

100% waterproof, 120 grit

Wet-Cut Abrasive Sandcloth is ideal for deburring, cleaning and polishing plumbing parts exposed to water. This plumber's roll features an epoxy acrylic bonding system with special backing that is 100% impervious to deterioration caused by water, cutting oils, grease and chemicals.

1-1/2" x 10 yards in box	095405	078864 954050	24	13
1-1/2" x 25 yards in box	095505	078864 955057	12	15

Boldface U.P.C. number indicates U.P.C. symbol printed on package. § indicates Spanish/English packaging.

Open Mesh Abrasive Sandcloth premium grade, 100% waterproof, 180 grit

Open Mesh Abrasive Sandcloth is our best grade for cleaning and preparing copper tubing and fittings for soldering. It is fully waterproof; 180 grit gives smooth finish. Open mesh combines open nylon fabric with phenolic resin adhesive and aluminum oxide to give a sharp cutting plumber's roll. If cloth becomes loaded with metal filings, simply rinse in water or tap on hard surface. Can be used on both sides...lasts twice as long!

Table with 5 columns: Product, Item Number, U.P.C. Number, Case Pack, Carton Wt. (Lbs.). Rows include 1-1/2" x 1 yard, 1-1/2" x 5 yards, 1-1/2" x 10 yards, and 1-1/2" x 25 yards.

Soldering Paste and Flux

Liquid Soldering Flux —NSF listed for use on potable water systems

Liquid Soldering Flux is formulated with a strong cleaning agent to ensure a fast and effective soldering operation.

Certified to NSF/ANSI 61

Table with 5 columns: Product, Item Number, U.P.C. Number, Case Pack, Carton Wt. (Lbs.). Row: 4 fl. oz. (1/4 pint) in plastic squirt bottle.

Soldering Paste —NSF listed for use on potable water systems lead-free

Soldering Paste cleans, fluxes and protects most metals such as copper, brass, steel and other easy-to-solder coated metals for potable water supply lines when used with lead-free solders.

Certified to NSF/ANSI 61

Table with 5 columns: Product, Item Number, U.P.C. Number, Case Pack, Carton Wt. (Lbs.). Rows include 1.7 fl. oz. tin, 4 fl. oz. (1/4 pint) cup, 8 fl. oz. (1/2 pint) cup, and 16 fl. oz. (1 pint) cup.

Water Soluble Paste/Flux —NSF listed for use on potable water systems safe, clinging, rinsable paste cleans, fluxes, protects

Water Soluble Paste/Flux is 100% petroleum free and is formulated with biodegradable chemicals in a nonhazardous base for use with all potable water systems. Safe for use on brass.

Certified to NSF/ANSI 61

Table with 5 columns: Product, Item Number, U.P.C. Number, Case Pack, Carton Wt. (Lbs.). Row: 8 fl. oz. (1/2 pint) in plastic jar.

Flux & Solder Combination

for sweat fittings or soldering or tinning of copper, brass, steel, iron and coated metals

Paste form allows one-step fluxing, tinning and solder for general repairs. 40% higher shear strength and withstands working pressures up to 3 times greater than 50/50 tin/lead solder. One pound equals 3 to 4 pounds of wire solder plus flux. For use where expansion and contraction or vibration may occur. Not for use on potable water lines.

50/50 Flux & Solder replaces wire solder plus flux. Fluxes, tins and solders in one step.

Table with 5 columns: Product, Item Number, U.P.C. Number, Case Pack, Carton Wt. (Lbs.). Row: 50/50 solder flux, 4 oz. (1/4 pint) net wt. jar.

Boldface U.P.C. number indicates U.P.C. symbol printed on package. § indicates Spanish/English packaging.

Tinning Flux

in paste form, lead-free

Tinning Flux is a lead-free paste that cleans, tins and fluxes in one step. It contains 8% silver lead-free solder. Safe for potable water systems when used with lead-free solder.

Harvey Heat Antifreeze

Harvey Heat Antifreeze

nontoxic, non-corroding, inhibited propylene glycol blend

Harvey Heat Antifreeze is for winterizing hydronic heating, cooling, potable water and closed loop solar systems. Contains inhibited propylene glycol which provides unsurpassed rust and metal corrosion protection.

Product	Item Number	U.P.C. Number	Case Pack	Carton Wt. (Lbs.)
Harvey Heat RV provides maximum burst protection. Ready to use—no need to dilute.				
1 gallon in plastic jug	016880	078864 168808	6	54
55 gallon in drum	016895	078864 168952	1	485

Harvey Heat -50. Ready-to-use antifreeze with burst protection to -50°F. No need to mix with water. Use for the same applications as Harvey Heat -100 plus use for winterizing plumbing, boats, recreational vehicles, trailers, vacation homes, vacant apartments, spas and swimming pools.

1 gallon in plastic jug	016800	078864 168006	6	54
5 gallon in plastic pail	016810	078864 168105	1	45

Harvey Heat -100. Concentrated. Burst protection to -100°F. Non toxic, Propylene Glycol-based hydronic fluid and anti-freeze. Inhibited for use in hydronic heating, cooling, potable water and closed looped solar systems. Also for non-drainable fire hydrants and sprinkler systems. May be diluted with water. Contains 70% actives.

1 gallon in plastic jug	016850	078864 168501	6	55
5 gallon in plastic pail	016860	078864 168600	1	47
55 gallon in drum	016870	078864 168709	1	505

Harvey Heat -100A. Concentrated. Burst protection to -100°F. Specially inhibited for aluminum hydronic heating systems/boilers and solar systems. Protects against freeze damage and corrosion. Compatible with aluminum, brass, copper, cast iron, steel, stainless steel, solder, silver and cobalt. The ideal premium all-purpose hydronic fluid. May be diluted with water. Contains 70% actives.

1 gallon in plastic jug	016750	078864 167504	6	55
5 gallon in plastic pail	016760	078864 167603	1	47

Harvey Heat Arctic Grade. Inhibited pure concentrate version of Harvey Heat-100A for aluminum. Contains over 98% actives. Contains 94% to 96% pure Propylene Glycol with built-in inhibitor package to prevent corrosion. Safe for all systems containing plastic, vinyl or rubber components. Freight and space saver. Dilutes with water.

1 gallon in plastic jug	016910	078864 169102	6	56
5 gallon in plastic pail	016905	078864 169058	1	45

Inhibitor Booster

Liquid corrosion protection additive. Use to adjust pH of hydronic systems charged with Harvey Heat antifreeze. One bottle will raise pH about one level per 20-gallon content. Recharges older systems.

16 fl. oz. (1 pint) in plastic bottle	016920	078864 169201	12	12

Hand Cleaners

Professional Strength Hand Cleaners

no water needed!

NEW AND IMPROVED **Cit-Grit Hand Cleaner** with pumice has natural emollients and moisturizers that will not dry skin. This fresh citrus-based hand cleaner is biodegradable and contains natural glycerine to condition hard working hands. It can be used to safely remove tough grease, grime, dirt, resins, printer's ink, paint, glue, rubber gasket and tile cements.

Power Scrub Hand Cleaner with pumice is biodegradable and is an excellent plastic pipe cement and paint remover. Freshly scented, it is a safer alternative to harsh solvents and thinners. Contains natural glycerin and pure mineral oil for superior moisturizing. Won't clog drains. Our most powerful hand cleaner.

Drain Cleaners and Openers

Granular Drain Cleaner/Opener professional strength

Granular Drain Cleaner/Opener cleans drains and removes sewer line obstructions. Regular use prevents slow drains, clogs and buildups. Starts to work on contact—removes even the toughest clogs. Non-acid formula will not harm metal or plastic pipes or septic systems. Deodorizes drain odors.

Product	Item Number	U.P.C. Number	Case Pack	Carton Wt. (Lbs.)
1 lb. net wt. (16 oz.) in plastic jar	039700	078864 397000	12	14

Enzyme Cleaners in liquid or granular form

Enzyme Cleaners contain safe, scientifically formulated strains of live bacteria and enzymes that will clean sinks, drain lines, septic systems, RV holding tanks, porta-toilets, garbage disposals and grease traps of organic matter such as grease, food particles and waste. They actually digest most clogs and keep pipes clean and deodorized. Both contain the maximum strains and counts of bacteria available today. Works great as a septic tank activator.

Repair Coupling Copper

variety of sizes female sweat x female sweat

Cut out entire damaged section of tube and de-burr the O.D. of both ends. Center repair coupling over cut-out section and solder into place.

1/2" x 6" copper coupling labeled	014730	078864 147308	10	2
1/2" x 12" copper coupling labeled	014735	078864 147353	10	3
3/4" x 6" copper coupling labeled	014740	078864 147407	10	3
3/4" x 12" copper coupling labeled	014745	078864 147452	10	5

Repair Coupling Copper

full slip compression connection

Eliminates need for soldering. Safe for repair of cold and hot water lines. Ideal for tight spaces.

1/2" x 12" repair coupling labeled	014750	078864 147506	10	5
3/4" x 12" repair coupling labeled	014760	078864 147605	10	8

Closet Flange Spacer Kit

closet flange spacer kit PVC 4" in card	012760	078864 127607	6	5
--	--------	----------------------	---	---

Boldface U.P.C. number indicates U.P.C. symbol printed on package. § indicates Spanish/English packaging.

Tape, Ties and Stakes

Pipe Wrap

2" x 100' stretch wrapped roll

Pipe Wrap is a high quality polyethylene adhesive backed pipe wrap for industrial use. Superior all-weather moisture proof pipe protection. U.P.C. listed.

Product	Item Number	U.P.C. Number	Case Pack	Carton Wt. (Lbs.)
10 mil thick black	014100	078864 141009	24	33
20 mil thick black	014130	078864 141306	24	58

Duct Tape

stretch wrapped roll

Duct Tape is a strong plumbing and industrial grade for contractors. Repairs HVAC systems, mends pool liners, vinyl upholstery, hose breaks, stops minor plumbing leaks and seals windows. Polycloth has a rubber resin adhesive that offers superior laminate strength. Harvey's tape is ideal where adhesion to many kinds of surfaces is necessary. It has good conformability. Straight tear and minimum curl make it easy to apply.

2" x 60 yards silver	014398	078864 143980	24	40
2" x 60 yards black	014390	078864 143904	24	39

Plastic Ties

packed in bulk plastic bags

standard duty ties (bags of 1000)				
7.4" ties for 1.75" diameter	013100	078864 131000	1 bag	3
11.5" ties for 3" diameter	013105	078864 131055	1 bag	6
heavy duty ties (bags of 50)				
24" ties for 7" diameter	013125	078864 131253	10 bags	13
34" ties for 10" diameter	013130	078864 131307	10 bags	17
48" ties for 15" diameter	013135	078864 131352	10 bags	29

Rubber Tie-Down Straps

made of durable EPDM rubber

Super strong with 2-1/2" galvanized s-hook

15" rubber tie down strap labeled	013330	078864 133301	12	5
22" rubber tie down strap labeled	013335	078864 133356	12	5
31" rubber tie down strap labeled	013340	078864 133400	12	6

HarveyStake ground stakes

sturdy steel, 14" length

Steel Ground Stakes prevent pipe from floating or moving during concrete pours. Hold pipe from 1-1/2" to 6" in diameter.

HarveyStake	012150	078864 121506	25	17
--------------------	--------	---------------	----	----

Insulating Products

Cold Weather Faucet Cover easy to install!

Faucet Cover is constructed of a 5/8" expanded polystyrene thermal shell that insulates outdoor faucets in cold weather and provides maximum freeze protection.

Product	Item Number	U.P.C. Number	Case Pack	Carton Wt. (Lbs.)
faucet protector	012200	078864 122008	12	2
in bulk pack	012200-24	078864 122008	24	3
in display dump bin	012200-D	078864 122008	72	6

Tools

Plastic Pipe Cable Saw fast and easy to use!

Plastic Pipe Cable Saw has comfortable plastic hand grips and a 27" rustproof stainless steel cable designed to cut through almost any plastic pipe. It is perfect for in-ground or other tight space repairs—1/4" clearance is all you need.

cable saw in header bag	093070	078864 930702	12	1
in header bag on clip strip	093070-C	078864 930702	12	1

Plastic Pipe & Hose Cutters stainless steel blades

The smaller **Plastic Pipe and Hose Cutter** cuts rubber hose and tubing, polyethylene, ABS and PVC pipe up to 1-5/8" O.D. Both cutters offer tough, durable glass-filled nylon handles and replaceable hardened stainless steel blades that retract into handles for safe carrying and handling.

small pipe cutter in blister card	093040	078864 930405	6	2
small replacement blade in clamshell	093045	078864 930450	6	1

The larger **Plastic Pipe and Hose Cutter** cuts PVC class pipe through 1-1/4" I.D. and rubber tubing through 2" I.D.

plastic pipe cutter in plastic hanging bag	093050	078864 930504	6	2
in blister card	093055	078864 930559	6	2

Tote Tray and Caddies

Tote Tray
made of heavy gauge, high density polyethylene

Tote Tray comes with 4 removable, adjustable dividers to accommodate many different needs. A terrific truck organizer that saves on time, missing parts and tools.

15" x 9" x 5" with reinforced handle	015605	078864 156058	6	11
--------------------------------------	--------	---------------	---	----

Nipple Caddies
perfect for every plumber's truck!

The **Nipple Caddy** is made of high density polyethylene that is strong enough to take abuse, yet half the weight of metal. It will withstand harsh chemicals, acids and oils and will not rust or corrode. Bottom design holds nipples and keeps them out of water and other liquids. Drain holes let caddy drain. Great in cold weather—tested to -40°F. Available in six different styles.

1/2" nipple caddy	015610	078864 156102	4	8
3/4" nipple caddy	015615	078864 156157	4	10
