

For more than 100 years, Ingersoll Rand® has helped transform the way the industry works. For heavy duty to specialty grinding, Ingersoll Rand has a complete line-up of extended, vertical, horizontal or angle configured grinders that deliver superior performance, as well as outstanding safety and ergonomics. Ingersoll Rand grinders are built to withstand the rigors of today's most demanding industrial environments and conditions, delivering power and precision for enhanced performance.

G1, M2, G3 SERIES GRINDERS

The **G1, M2 and G3 Series** are the premium grinder offering by Ingersoll Rand. With superior power to weight ratio, these tools crush the daily grind with ease. Different speed ratings across the full range of premium grinders ensure we have one for virtually any job.

G1 SERIES GRINDERS

The **G1 Series** grinders pack **0.4 hp** in a small package, ideal for light material removal, cleaning rough castings, deburring parts, cleaning up welds, and other finishing tasks.

M2 SERIES GRINDERS

The **M2 Series** grinders run longer and cooler than our G1 Series on a **1 hp** lube-free motor. These grinders are suited for heavy-duty grinding, cutting, cleaning, and polishing applications. An added feature to the M2 Series angle tools, spindle locks make changing accessories easier and faster.

G3 SERIES GRINDERS

The **G3 Series** grinders are the toughest of the premium grinder line-up delivering a mighty **1.35 hp** on every job. Ideal for industrial-duty material removal with burrs, grinding wheels and coated abrasives. The vibration reducing handle allows for extended operation.
