

Water Treatment Guide

2016-2017

Need more information? Ask one of our associates!

100% Environmentally Friendly

This is your answer to your whole house water conditioning needs without the use of costly potassium or salt.

Clack Digital Valve
100% maintenance free.

Solid Tank Construction
The tank is made of polyethylene surrounded by fiberglass with a polished stainless steel outer sleeve.

Granular Activated Carbon
High grade catalytic carbon. Removes chlorine, organics, and odor. Improves water taste.

Quartz Filter
A "Totally Green" product that saves water and money through higher cleaning capabilities.

Scale Prevention Resin
Treats hard water and removes existing scale from pipes by going after Calcium and Magnesium ions.

What are the problems with scale?

Calcium deposits form in many places in the home. Reduction of flow can result after years of build-up.

Scale could also be a source for bacteria growth which has specific health related concerns for drinking water.

The ProScale™ Scale Prevention System converts Calcium ions into Calcium crystals. These crystals are small enough to flow through pipes and not attach to pipe walls, surfaces, hardware or other elements in contact with water.

What are the benefits?

- Automated and Maintenance Free
- Reduces scale build-up and removes existing scale from pipes
- Filter system keeps ProScale™ resin lasting longer
- No Salt / Brine Water Waste
- Safe for You and the Environment
- Great for tank and tankless water heaters
- Keeps water using appliances lasting longer

5 Year Warranty on Clack Digital Valve
10 Year Warranty on Tanks

Note: All tanks come with stainless steel covers.

ProCarbon™ Water Filtration System

Item Description

100%
Environmentally
Friendly

“Whole House Water
Filtration System”

Sparkling Fresh Water

Our conditioner refines, filters, clarifies, and polishes your own tap water, making it crystal clear and odor free as any Mountain Spring bottled water. It also removes bacteria, environmental pollutants including detergents, iron, and other suspended matter.

What are the benefits?

- Refines, filters, clarifies, and polishes your own tap water, making it crystal clear and odor free as any Mountain Spring bottled water.
- Removes bacteria, environmental pollutants including detergents, iron, and other suspended matter.
- Clean Water
- No Salt
- Superior Design and Construction
- Safe for You and the Environment

Clack Digital Valve

100% maintenance free.

Solid Tank Construction

The tank is made of polyethelene surrounded by fiberglass with a polished stainless steel outer sleeve.

Granular Activated Carbon

High grade coconut shell. Removes chlorine, organics, and odor. Improves water taste.

KDF 55

Prohibits bacteria growth and removes over 98% of dissolved lead, mercury, arsenic, and other heavy metals.

Quartz Filter

A “Totally Green” product that saves water and money through higher cleaning capabilities.

5 Year Warranty on Clack Digital Valve
10 Year Warranty on Tanks

Note: All tanks come with stainless steel covers.

Reverse Osmosis System

Item Description

4-Stage System

Under the sink Reverse Osmosis System

Why Reverse Osmosis?

It's the most effective water filtration method.

Reverse Osmosis gives you the same clear, odor free and great tasting pure water at your kitchen sink for pennies on the dollar compared to expensive bottled water. We offer 3, 4, or 5 stage Reverse Osmosis systems that deliver up to 50 gallons of water per day.

Complete system comes with faucet and is ready to connect under your sink

Benefits

- Delicious, sparkling-clear drinking water.
- Pristine, flavorful coffee, tea and juice.
- Cleanly rinsed fresh fruits and vegetables.
- Crystalline, harder and clearer ice cubes.
- Better tasting soups, sauces and meals.
- Cost effective.
- No more paying for bottled water.
- Fresh, clean water, ready at your tap.
- Fresh water for your plants and flowers.
- Fill your aquarium with clean, clear water.
- Provide fresh water for your pets.

Reverse Osmosis™

4-Stage System

Description

Complete system comes with faucet and is ready to connect under your sink

- 50gpd 3/8 line, comes with air gap faucet, 3.2 gallon tank
- Reverse Osmosis gives you the same clear, odor free and great tasting pure water at your kitchen sink for pennies on the dollar compared to expensive bottled water. We offer 3, 4, or 5 stage Reverse Osmosis systems that deliver up to 50 gallons of water per day.
