

Washroom & Shower

Manual Dispensers

PRODUCT DESCRIPTION

Unique range of 1 liter and 2 liter closed, sealed cartridge dispensers that meet the distinct needs of any office or public facility environment.

WHERE TO USE

For exclusive use with SC Johnson Professional Cleanse Washroom foam soaps and shower products.

METHOD OF USE

Large, 'easy-push' buttons dispense a controlled dose of product appropriate for the application required and empty cartridges are easily replaced in seconds.

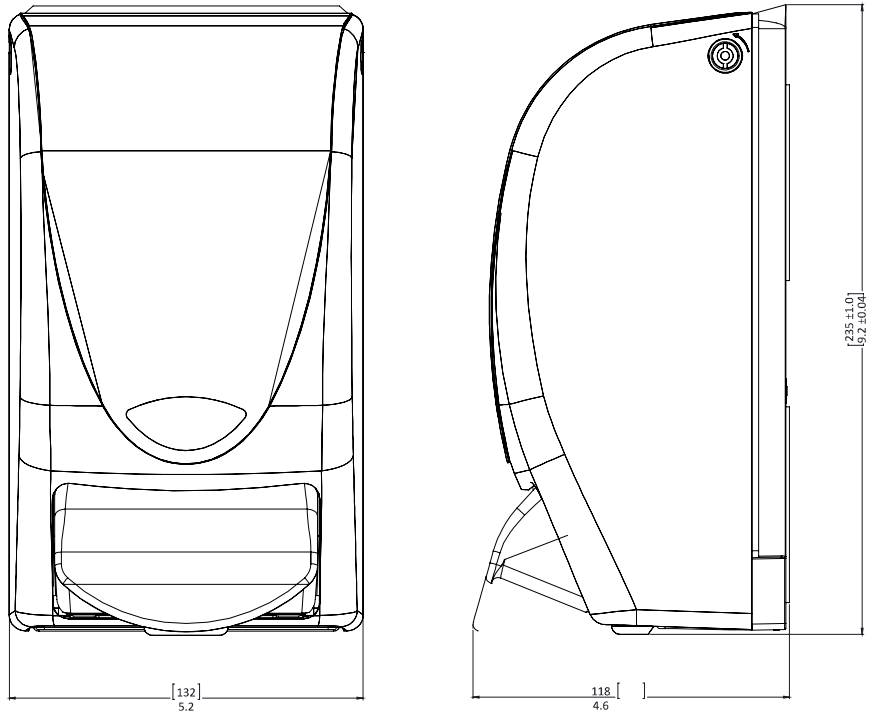

FEATURES		BENEFITS
Guaranteed for Life		Dispensers are manufactured from durable plastic components and rigorously tested for high usage environments, providing assurance of quality and long-term cost efficiency.
BioCote® Protected		Dispenser push buttons are exclusively protected by BioCote®, a silver-based antimicrobial agent that is incorporated into the plastic components at the time of manufacture and inhibits the growth of a broad spectrum of bacteria and molds; BioCote® will not wear-out or rub-off and is effective for the lifetime of the dispenser.
Large Push Buttons		Minimize the operation force required to allow easy use by hand or elbow; suitable in hygiene sensitive areas.
Fixed Product Dose		Delivers the exact amount required, controlling usage and reducing waste.
Unique Locking Mechanism		Helps prevent unauthorized access, pilferage and product contamination.
Sight Glass		Indicates the level of product in the cartridge which helps identify when product needs replacing
Simple Cartridge Replacement		Designed for exclusive use with SC Johnson Professional skin care system products to enable cartridges to be replaced in seconds, reducing maintenance time and costs.
Hygienic, Airless Cartridges		The ultrasonically sealed cartridge and pump mechanisms prevent the ingress of air into the cartridge during use to help prevent product contamination and ensure 'fresh' product is dispensed every time.
No Wastage		The air-tight cartridges are designed to collapse during use ensuring full evacuation of product with no wastage.
