

# COLDWEATHER WIND RESISTANT

## COLD WEATHER HAND PROTECTION

When the wind picks up and the temperature drops, reach for a pair of our Wind Resistant gloves to ward-off the elements. Comfortable microfleece lines the entire glove and C40 3M™ Thinsulate™ traps warm air to help regulate your body temperature in the bitter cold. The Wind Resistant features an internally bonded wind barrier that prevents cold air from pushing through when the gusts are strong. Stay Connected™ to your touchscreen devices, without removing your gloves, with AX™ Double Connect on your thumb and index finger. The palm features a durable layered construction with rugged Armortex® reinforcement so you can conquer the work that lies ahead.

### INSULATION

C40 3M™ Thinsulate™ traps warm air to help regulate your body temperature.

### GRIP

Rugged Armortex® palm provides durable gripping power.
