Material Number NSAC05K, F-619-RWS - Gate Valve - Ductile Iron, Irrigation, Resilient Wedge

The NIBCO® resilient wedge ductile iron gate valve features flanged, flat face end connections for easy installation and accessibility. Non-rising stem gate valves are recommended when positive shutoff is required and where space is a premium. The valve may be operated with a hand-wheel. Please refer to NIBCO technical data sheets, chemical resistance guides and catalogs for engineering and installation information. Choose NIBCO® gate valves for one of the most versatile and economical valve
