Material Number NSAC07H, F-619-RWS-SON - Gate Valve - Ductile Iron, Resilient Wedge, Square Operating Nut

The NIBCO® resilient wedge ductile iron gate valve features flanged, flat face end connections for easy installation and accessibility. Non-rising stem gate valves are recommended when positive shutoff is required and where space is a premium. These valves may be operated with a hand-wheel or square operating nut and wrench (wrench not included). Please refer to NIBCO technical data sheets, chemical resistance guides and catalogs for engineering and installation information. Choose NIBCO® gate
