

AS FEATURED IN THE PROFLO® COMPLETE TOILET PACKAGE

JET-POWERED FLUSH FOR A WHOLE-BOWL CLEAN

HyJetic flushing technology from PROFLO leaves waste and residue nowhere to hide.

Low Flow, High Hygiene

HyJetic rimless flushing technology sends a surge of water around the bowl with each flush—leaving no portion of the bowl unrinsed.

No Nooks, No Crannies

The rimless design eliminates the hidden and hard-to-reach surfaces of a conventional box rim to make the whole bowl accessible for cleaning.

HyJetic Flush

Traditional Flush

Low Flow, High Hygiene

HyJetic technology optimizes the toilet's hygiene using just 1.28 gallons of water per flush, so the PROFLO Complete Toilet is WaterSense certified.

PROFLO Complete Toilet Kit

All-in-one kit includes everything you need for installation: toilet with HyJetic rimless flush, slow-close seat, wax ring and flange bolts.

PFCT300HEWH (Round), PFCT301HEWH (Elongated), PFCT303HEWH (Elongated ADA)
