HVAC Maintenance, Cleaners and Treatments

Pan Treatment Technology by Trane

Background

All cooling units, whether they are air conditioners, dehumidifiers, or other refrigeration equipment, extract water from the air. Some undesirable consequences may result. These potential consequences may include overflow from clogged air conditioner drain pans due to the formation of slime. This can cause expensive damage to the ceiling and other property. Water in the drip pan supports the growth of fungus, mold, mildew, bacteria and other microorganisms. Contaminants found in drain pans can cause foul smelling odors. Retained water and bacterial growth in that moist environment can cause corrosion and premature failure of the drain.

Dealing with Concerns

The Trane Time-Release Pan Treatment addresses these concerns. The product may be used safely in air conditioners and refrigerator drain pans, dehumidifier water tanks, or any other nonpotable water retention area. EPA registered.

Features and Benefits

A solid-package strip releases the actives, leaving only the used polymer shell to be discarded. The system provides dependable, sustained time release protection for only pennies a day. The system adds a light, pleasant scent to the air as it works.

Premium Grade Condenser Coil Cleaners by Trane

Nu-Clear Coil Cleaner Treatment

Outperforms acid products in the removal of contaminants found on air-conditioning coils and component parts. Special surfactants, tackifiers, and sequestering agents that penetrate and emulsify contamination, which is lifted from the surface with a foaming action for easy rinsing with water, contains no hazardous petroleum or chlorinated solvents, and are nonflammable.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00261	1 gal bottle
CHM00733	30 gal container
CHM00042	55 gal drum

HVAC Maintenance, Cleaners and Treatments

Premium Grade Condenser Coil Cleaners by Trane

Outdoor Coil, Non-Acid

Industrial-strength cleaner with no acid. Diluted with two parts water and sprayed between the fins with a low pressure sprayer. CHM00050 foams and pushes contamination outward from the condenser. This foam and contamination should then be thoroughly rinsed with water. Will effectively remove grease, exhaust residues and other contaminants.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00050	1 gal bottle

Outdoor Coil, Non-Acid Base

Non-acid nature removes grease, exhaust fumes, and other residue from condensers with an expanding foaming action. Spray and rinse to remove debris. Non-acid base increases user safety.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00246	1 qt bottle

Premium Grade Evaporator Coil Cleaners by Trane

Indoor Coil Cleaner Base, Nontoxic

Nontoxic, self-rinsing concentrate effectively cleans dirty evaporator coils in one step while system is operating. Spray on air-inlet surface of coils and airflow causes complete coil penetration. No rinsing required. The cleaner drains as condensate, cleaning the condensate pan and drains as well. USDA approved.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00247	1 qt bottle

Indoor Coil Cleaner, Nontoxic

Premium Non-Rinse Evaporator Cleaner

Heavy-duty and economical liquid coil-cleaning concentrate containing a balanced blend of organic and inorganic ingredients together with sufficient alkalinity for fast cleaning as well as effective action against corrosion. No rinsing required.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00271	1 gal bottle

Environmentally-Safe Coil Cleaner by Trane

Enviro-Coil Cleaner Treatment

Safely cleans both the evaporator and condenser coil without damage to equipment, personnel, or the environment. Contains no butyl ether, acid phosphates, petroleum solvents, potassium hydroxide, or sodium hydroxide. Enviro-Coil is biodegradable, non-combustible, and odorless.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00255	1 gal bottle
CHM00725	30 gal container
CHM00034	55 gal drum

HVAC Maintenance, Cleaners and Treatments

Coil Coatings And Anti-Foulants by Trane

Air-Cooled Condenser Protectant Aerosol

Specially formulated coating containing acrylic polymers and anti-corrosion agents designed to protect painted or unpainted surfaces from rust and corrosion. Seals and protects aluminum, copper, brass, bronze, chrome, galvanized metal, titanium, and stainless steel. Ideally suited for use on air-cooled condensers located in corrosive environments such as paper mills, chemical plants, airports, and salt air.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00275	16 oz aerosol

Coil Pre-Clean for Use Prior to Anti-Foulant Treatment

Specially formulated for cleaning air conditioning coils and parts prior to application of anti-foulant coatings. Contains no harsh acids or alkalis and will leave no residue. Odorless and safe to use.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00274	1 gal bottle

Stay Kleen Cooling Coil Anti-Foulant

Safe, easy to use, water-based anti-foulant designed for use on cooling coils. Stay Kleen forms a microscopically thin coating that renders cooling surfaces self-cleaning for up to one year. Fungus or similar organisms will not grow on the Stay Kleen coil coat. Coils to be treated should be thoroughly cleaned. We recommend use of Pre-Clean, which is designed to have no harmful effect on the coating.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00272	1 qt bottle
CHM00273	1 gal bottle

General Cleaners by Trane

Parts Cleaner

Concentrated heavy-duty, water-soluble solvent, specially formulated for cleaning permanent air cleaners, fan blades, blowers, air ducts, grills, and other miscellaneous parts. Nonflammable and safe to use.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00251	1 gal bottle

Ice Machine Cleaner

Safe to use on all types of ice machines. Drain machine and refill with fresh water. Add 6 to 8 ounces per gallon of circulating water and circulate for 30 minutes. Brush cleaning solution on surfaces not contacted by the solution during circulation. After scale is removed, drain and flush thoroughly with fresh water.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00244	8 oz bottle
CHM00253	1 gal bottle

HVAC Maintenance, Cleaners and Treatments

Leak Detectors by Trane

Leak Detectors

Convenient dauber attached to inside of cap makes application of leak-detecting fluid easy. Noncorrosive, nonstraining, high viscosity fluid detects any type of gas leak. Blue Leak Reactant is non-clogging and biodegradable in convenient spray.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00245	Leak Detector, 8 oz bottle
CHM00276	Spray-Type Blue Leak Detector, 1 qt spray
CHM00277	Spray-Type Blue Leak Detector, 1 gal bottle

Water Treatment by Trane

Microbiocide, Single Treatment

Patented polymeric quarternary ammonium microbiocide effective in controlling algae, iron bacteria, and slime-forming microorganisms that contribute to biological fouling of cooling towers, heat exchangers, and other parts of recirculating water systems. Equally effective in both acid and alkaline environments.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00252	Microbiocide, 1 gal bottle

Rust/Corrosion Inhibitor

Prevents corrosion in recirculating water systems that are shut down for winter storage. Combination of surfactants and patented chemical that disperses readily in water.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00009	5 gal pail

Scale Remover, Hydrochloric Base with pH Indicator

Blend of hydrochloric acid and inhibitors with unique color system built in. Eliminates necessity of checking the activity of the solution with pH paper. If red, it's active; if yellow, add more scale remover. When the circulating solution remains red for 1 hour, all scale has been removed.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00250	1 gal bottle

Scale Remover, Open Recirculating

Safer replacement for fuming acids now in use. Made up of blend of food-grade acids, penetrating agents, and a special patented inhibitor. Will clean the entire waterside of the system including condensers, pipes, and cooling towers while system is in operation.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00249	1 gal bottle

Premium HVAC Chemicals by Trane

- High quality, effective degreasing solvent
- High flash point

Acid Detector for POE Oils

Acid Detector for POE Oils is a test kit designed for use in the field to detect acid in Polyol Ester (POE) air conditioning and refrigeration oils. It quickly detects unacceptable amounts of acids in Polyol Ester type refrigeration oils without having to wait for a laboratory analysis.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
KIT06754	45006	Kit; detector, acid for POE oils

Acid-Away

Acid-Away is a unique patented chemical treatment for use in air conditioning and refrigeration systems that have experienced a burnout, or operating systems that are showing a buildup in acid content. It circulates quickly throughout the system and chemically neutralizes acids that are always left in an air conditioning or refrigeration system after a burnout occurs. Once neutralized, this acid can no longer continue its corrosive attack and cause another burnout. Acid-Away may be used in either hermetic or semi-hermetic compressors that operate with standard CFC or HCFC refrigerants using mineral oil and alkbenzene-type refrigeration oils. Acid-Away has been tested in accordance with ANSI/ASHRAE standard 86-1983 and 97-1989 along with various ASTM standards. Additionally, Acid-Away was extensively field tested in a wide variety of compressor sizes, types, and brands with a wide range of burnout conditions. U.S. Patent No. 5.503.757.

Duct Sealants

Air-Lock 181

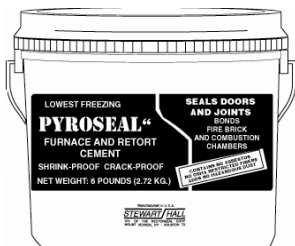

AIR-LOCK 181 is a non-flammable, non-toxic, safe-to-use water-based duct sealant. It is reinforced with fibers for superior gap sealing performance. This non-sag formula won't drip off, is easy to spread, and may be used inside and outside on low- to high-pressure systems. It is waterproof and resistant to ultraviolet light when cured. For use with UL181 Listed rigid fiberglass air ducts and UL181 listed nonmetallic flexible duct. Air-Lock 181 cures to a tough flexible film that will expand and contract with temperature changes. It may be used for sealing systems up to 25" W.G. It has an in-service range between -20°F and 400°F. Cleans easily while wet with soap and water. Color: White.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION

243 Threadlocker Oil Resistant/Medium Strength

LOCTITE® 243™ is designed for the locking and sealing of threaded fasteners which require normal disassembly with standard hand tools. The product cures when confined in the absence of air between close fitting metal surfaces and prevents loosening and leakage from shock and vibration. Particularly suitable for applications on less active substrates such as stainless steel and plated surfaces, where disassembly with hand tools is required for servicing. The thixotropic nature of LOCTITE® 243™ reduces the migration of liquid product after application to the substrate. A general purpose, medium strength threadlocker with improved oil tolerance. For fasteners between 1/4" and 3/4" (6 to 20 mm) diameters.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
SEL00932	24077	Threadlocker 243 Removable, 10 ml Bottle

Loctite 262 Threadlocker

Medium to high strength threadlocker from Loctite. A permanent, high strength product that is applied to fasteners up to 3.4" (20 MM) in diameter before assembly. High lubrication for easy assembly. Excellent for preventing rust and corrosion in extreme chemical/environmental conditions. Localized heat and hand tools are required to separate parts. Solvents will not weaken the adhesive bond. Approved for use in or around food processing areas.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	Description
SEL00954	26221	Loctite 262 Threadlocker, 10 ml, Red

271™ Threadlocker High Strength

LOCTITE® 271 is designed for the permanent locking and sealing of threaded fasteners. The product cures when confined in the absence of air between close fitting metal surfaces and prevents loosening and leakage from shock and vibration. Typical applications include the locking and sealing of large bolts and studs (M25 and larger). The thixotropic nature of LOCTITE® 271 reduces the migration of liquid product after application to the substrate. A high strength, low viscosity threadlocker for fasteners up to 1" (25 mm) diameter.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION

SLT00046	27131	Threadlocker 271 High Strength, 50 ml Bottle

277 Threadlocker High Strength

LOCTITE® 277 is designed for the permanent locking and sealing of threaded fasteners. The product cures when confined in the absence of air between close fitting metal surfaces and prevents loosening and leakage from shock and vibration. Typical applications include the locking and sealing of large bolts and studs (M25 and larger).

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
SLT00038	27731	Threadlocker 277 High Strength/Large Bolts, 50 ml Bottle
SLT00037	21434	Threadlocker 277 High Strength/Large Bolts, 10 ml Bottle

290 Threadlocker Wicking Grade

LOCTITE® 290 is designed for the locking and sealing of threaded fasteners. Because of its low viscosity and capillary action, the product wicks between engaged threads and eliminates the need to disassemble prior to application. The product cures when confined in the absence of air between close fitting metal surfaces and prevents loosening and leakage from shock and vibration. The product can also fill porosity in welds, casting and powder metal parts. A medium strength threadlocker for pre-assembled bolts up to 1/2" (12 mm). Penetrates threads by capillary action. Secures set screws and other assemblies after settings are completed. Seals welds and porous metal parts. Protects threads from rust and corrosion. Localized heating and hand tools are needed for disassembly.

565 PST® Thread Sealant Controlled Strength

LOCTITE® 565 is designed for the locking and sealing of metal pipes and fittings. The product cures when confined in the absence of air between close fitting metal surfaces and prevents loosening and leakage from shock and vibration. A general purpose instant sealant for tapered and straight/tapered fittings. Controlled strength for ease of disassembly.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
SLT00042	56507	Thread Sealant 565 PST Controlled Strength, 6 ml Tube

567 PST Thread Sealant High Temperature

LOCTITE® 567 is designed for the locking and sealing of metal tapered threads and fittings. The product cures when confined in the absence of air between close fitting metal surfaces and prevents loosening and leakage from shock and vibration. The high lubricating properties of this compound prevent galling on stainless steel, aluminum and all other metal pipe threads and fittings. LOCTITE® 567 is recommended for industrial applications in the chemical processing, petroleum refining, pulp/paper, waste treatment, textile, utilities/power generation, marine, automotive, industrial equipment, gas compression and distribution industries. It is also recommended for industrial plant fluid power systems.

HVAC Maintenance Products by Loctite

Chisel® MC-FREE Gasket Remover

Free of Methylene Chloride, Chisel® MC-FREE Gasket Remover has a foaming action that lifts off gaskets from any type of assembly in minutes. Performs better than Methylene Chloride formulations on silicone gaskets and removes most spray paints from steel panels in less than 30 seconds. Convenient spray liquid penetrates and cleans intricate shapes and will not run off, even on vertical surfaces. Suitable for wood and plaster. Not for use on plastics, linoleum, or synthetic fibers.

PRODUCT FEATURES

Chisel® MC-Free Gasket Remover is a chemical liquid that works to remove pre-cut conventional gasket cements as well as formed-in-place chemical gaskets.

It is packaged in a convenient spray that penetrates and cleans intricate shapes and will not run off, even on vertical surfaces.

Chisel® MC-Free Gasket Remover is ideal for removing:

- Baked-on gaskets and gasket cements from any type of metal surface.
- Chemical formed-in-place gaskets, including RTV silicone and anaerobic materials.
- Gaskets from aluminum components without scraping or damaging machine surfaces.
- Gaskets from small to difficult-to-reach components.
- Built-up carbon deposits from interior engine/combustion surfaces.
- Baked-on grease and oil deposits (excellent pre-cleaner prior to solvent washing - keeps solvent baths cleaner, longer).
- Paint and varnish from wood surfaces (excellent for removing surface coating from delicate wood, carved surfaces without scraping or damaging surfaces).

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
CHM00210	34663	Chisel® MC-FREE Gasket Remover, 15.25 oz. Net wt. aerosol

Flange Sealant 515 Gasket Elimitor®

LOCTITE® 515™ cures when confined in the absence of air between close fitting metal surfaces. It seals close fitting joints between rigid metal faces and flanges and will flex with minor flange movements. Provides resistance to low pressures immediately after assembly of flanges. Typically used as a form-in-place gasket for pumps, thermostats, compressors, transmission housings and axle covers.

TYPICAL APPLICATIONS

- Seals close fitting joints between rigid metal faces and flanges and will flex with minor flange movements.
- Provides resistance to low pressures immediately after assembly of flanges.
- Typically used as a form-in-place gaskets for pumps, thermostats, compr.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION

HVAC Blue Pipe Joint Compound

LOCTITE® H.V.A.C. Blue Pipe Joint Compound is a tough, pliable pipe joint compound formulated specifically for heating, air conditioning and refrigeration applications.

PRODUCT FEATURES

- Keeps joints tight in areas of high vibration and thermal expansion and contraction.
- Won't shred like Teflon® tape.
- Easily washes off hands with soap and water.
- Resists temperatures to 400°F (204°C).
- Allows immediate assembly and pressurization.
- Seals natural and LP gas, refrigerants, hot water, steam, heating oils and much more.
- Non-flammable.
- Joints can be disassembled months after application.

TYPICAL APPLICATIONS

- Sealing metal pipe threads and fittings including brass, copper, aluminum, iron and stainless steel.
- Gasket and flange sealing.

Loctite Superflex Blue RTV Silicone Adhesive Sealant

Cures to a tough flexible rubber. Makes reliable "formed-in-place" gaskets that resist shrinking, cracking, and migrating. Coats pre-cut gaskets to increase reliability. Temperature range is -65 F to 500 F (-54 C to 260 C) intermittent, low volatility. Fills gaps to 0.25:.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	Description
SLT00056	30533	Loctite Superflex Blue RTV Silicone Adhesive Sealant, 300 ml cartridge, Blue

Loctite® QuickStix™ 534™ Hi-Tack Gasket Dressing

Loctite QuickStix 534 holds a precut gasket in place for positioning and assembly. It is ideal for sealing and bonding rubber, cork, paper, felt, and metal gaskets. This patented semi-solid formula offers added convenience and portability and will not spill or leak.

FEATURES AND BENEFITS

- Allows a precut gasket to be positioned holding it in place for assembly
- Holds aggressively yet still allows for repositioning of the cut gasket
- Seals up to 300 degrees F (149 degrees C)
- Offers added control and ease of use
- Solvent free and low odor

TYPICAL APPLICATIONS

- Seals and bonds rubber, cork, paper, felt, and metal gaskets
- Ideal for use in applications requiring oil resistance

Loctite Quickstix 548 Gasket Eliminator

Patented semi-solid formula is ideal for on the spot repairs or when a conventional gasket is out of stock. Can be applied quickly and neatly on a variety of metal surfaces, including aluminum, and forms a flexible, solvent-resistant seal. Seals to 300 F and fills gaps to 0.010".

Features and Benefits

- Color: Orange
- Fills gaps to 0.010"
- Cures rigid in less than 3 hours with or without primer
- Works in temperatures from -65 F to 300 F

Typical Applications

- Vertical applications
- Cast metal housings

ODC-Free Cleaner & Degreaser (Naphtha)

LOCTITE® ODC-Free Cleaner & Degreaser is a nonaqueous, hydrocarbon-based, non-CFC solvent designed for cleaning and degreasing of surfaces to be bonded with adhesives. It is an alternative to 1,1,1-trichloroethane (methyl chloroform) for general industrial cleaning. A non-aqueous, hydrocarbon-based solvent designed for cleaning and degreasing surfaces to be bonded with adhesives, as well as for general purpose industrial cleaning. Safe on aluminum, rubber, and most plastics, and will not cause flash rusting on water sensitive parts. Dries residue free. Contains no ozone-depleting compounds. (Formerly referenced as 7070.)

TYPICAL APPLICATIONS

Used as a final pre-assembly cleaning treatment to remove most greases, oils, lubrication fluids, metal cuttings and fines, for all surfaces to be bonded with adhesives. It is designed to be used as a spray or in immersion cleaning processes, at room temperature or heated.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
SOV00019	20260	ODC-Free Cleaner 7070 (Naphtha), 1 Gal. Can

Primer T 7471 (Acetone)

LOCTITE 7471 is used where increased cure speed of Loctite anaerobic products is required. It is especially recommended for applications with passive metals or inert surfaces and with large bond gaps. LOCTITE® 7471 is particularly recommended when prevailing temperature is low (<15 °C).

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
CHM00208	22477	Primer T 7471 (Acetone), 4.5 Oz. Net Wt. Aerosol Can

Silicone Lubricant

LOCTITE® Silicone Lubricant is a non-curing silicone paste that seals, lubricates, protects, waterproofs, and electrically insulates metal, rubber, and plastic parts. Use it as a moisture barrier for electrical contacts, a rubber and plastic lubricant, a mold release agent, and a packing lubricant for shafts and valve stems.

ADVANTAGES:

- Water and steam resistance
- High and low temperature stability
- Electrical resistance
- Lubricates rubber and plastic
- Mold release

TYPICAL APPLICATIONS

- Useful as a stopcock lubricant, plug or ball valve lubricant, valve stem packing lubricant, and protector for electrical contacts.
- Protects electrical connections against water infiltration, arcing, keeps moisture from forming a conductive film on electric mounts and insulators.
- Stops leaks.
- Makes rubber and plastic parts move easily.

Refrigeration and Air Conditioning Flushing Compound

Description

Based on new and patented HFC solvents developed by DuPont, Rx11 is ozone-safe, non-toxic, nonflammable and compatible with most materials in a refrigeration system. The cleaner itself has excellent solvency characteristics and it is packaged in a convenient pressurized container, sufficient to purge a moderately contaminated five to seven ton air conditioning or refrigeration system.

Features And Benefits

- Safe, nontoxic, and nonflammable
- Used the same way as R-11
- Low Boiling point enhances complete evaporation
- Cleaning is fast, efficient and verifiable
- Can be used for new system cleaning or retrofits
- Modern packaging minimizes solvent exposure to hands, eyes, and lungs
- The solvent is approved as part of the U.S. EPA's Significant New Alternatives Program (SNAP)

NO. 220CP POLY SPRAYER 4771-3

- Durable polyethylene construction.
- Has funnel top for easy filling.
- The 2-1/2 gallon tank holds 2 gallons of solution which provides good capacity without being too big to handle.
- Built-in air pump allows good working pressure to be obtained within moments.
- The spray nozzle gives a complete range of spray patterns.

Refrigeration Oils & Vacuum Pump Oil

Zerol Ice

Zerol Ice is a revolutionary advancement in lubrication technology. When introduced to an air conditioning, refrigeration system, it enhances the lubricity of the oil... Mineral, Alkylbenzene and POE... ultimately reducing friction drag in the compressor. And because of the reduced drag, energy consumption as shown in testing is reduced and equipment service life is increased. The product also enhances the hydrodynamic of fluid properties of the oil. This helps lubricity as well, but it also results in small gains in heat transfer or cooling performance in the evaporator. Zerol Ice is packaged into a pressurized container that is designed for use on R-22 systems. One can treats up to a 5 ton system, and larger R-22 system (i.e. packaged units) can be easily treated using one can for every 5 tons.

Capacitors

OEM Capacitors by GE

Run Capacitors

370VAC Oval Run Capacitors

Replacement motor run capacitors are available in both 370 VAC and 440 VAC, from 3 MFD to 60 MFD. Capacitors are available in both the oval and round configurations. Nine motor run capacitors are supplied with a .22 meg ohm bleed resistor. These are used on compressors with a tricklecharge, oil-sump heater system. On these systems, the capacitor is out of circuit when the main disconnect is shut off, so the capacitor does not bleed down. For safety a bleed resistor is required on these units.

Motor Starter Capacitors

Motor starter capacitors are available in capacitance ratings from 21 to 259 mfd.

Most models are rated 330 VAC. All motor starter capacitors are supplied with a two-watt, 15,000-ohm bleed resistor. The bleed resistor is required, for safety purposes, to discharge the capacitor before the unit is serviced.

Furnas Definite Purpose Contactors—Premium Line by Siemens

The Furnas Centurion 2000 offers a high new standard in definite-purpose control. The largest, most complete line of definite-purpose motor controls in the industry, it is ideal for many applications including HVAC. Features include: 2, 3, and 4 pole, 25-60 FLA, 60 Hz, 600VAC Max, compact size, interchangeable mounting, snap-on electrical/mechanical interlocks, and long life.

Furnas Heavy Duty Contactor, Full Voltage Non-Reversing by Siemens—Class 40

3 Pole, Three Phase

Class 40 industrial magnetic contactors are designed for electrical loads such as heating, lighting, transformer and capacitor switching, and AC motor starter. Features include: rugged industrial design, front removable auxiliary interlocks, easy coil access, horsepower rating, and motor-matched sizes.

Furnas Special Use Solid-State Overloads, Class 958 by Siemens

Trip Curve A

Furnas special use solid-state overload relays are self-powered, requiring no separate source to power the circuit board. They provide excellent protection of hermetically sealed compressors and artificially cooled motors, which require ambient insensitivity and quick trip-response times. Features include: hermetically sealed compressor motor applications. Phase-loss protection-trips within 3 seconds. 2% repeat-trip accuracy. Manual reset or self reset. Must hold amps adjustment dial. Wide adjustment range. Self-powered overload. Heaterless design.

Heavy Duty Motor Starters Solid-State Overload, Manual Reset, Class 14 by Siemens

3 Phase, 3 Pole

Heavy-duty starters are designed for across-the-line starting of single-phase and polyphase motors. These controls are available in NEMA sizes 0 through 6. In addition to the usual NEMA starter sizes, Siemens-Furnas offers four exclusive half sizes; 13/4, 21/2, 31/2, and 41/2. These integral sizes offer the same rugged, industrial construction as our NEMA sizes and ensure efficient operating performance. Half sizes exceed the motor ratings. Features include: rugged industrial design, wide range of accessories, easy coil access, Class 48 solid-state overload relay, half sizes for cost and space savings.

Solid-State Overload Relays And Field Modification Kits, Class 48

Manual-Reset Class 20

Furnas ESP100 solid-state overload relays are self-powered, requiring no separate 120V source to power the circuit board. They provide phase loss protection, fewer connection points and high repeat-trip accuracy, which results in longer motor life and cost savings. ESP100 panel mounted overloads can be used to upgrade existing starter applications where panel mounted thermal overloads are used. In addition, ESP100 overloads can be panel mounted when used with other types of controllers, such as DP, IEC contactors, and soft starts. Features include: broadest line in the industry, Class 10 tripcurve, tripfree design, phase loss protection, 2% repeat-trip accuracy, manual- and self-reset versions, FLA adjustment dial with wide adjustment range, and heaterless design.

60 amp, 15 amp - 600 Volt Dual Element Time Delay Cartridge Fuse

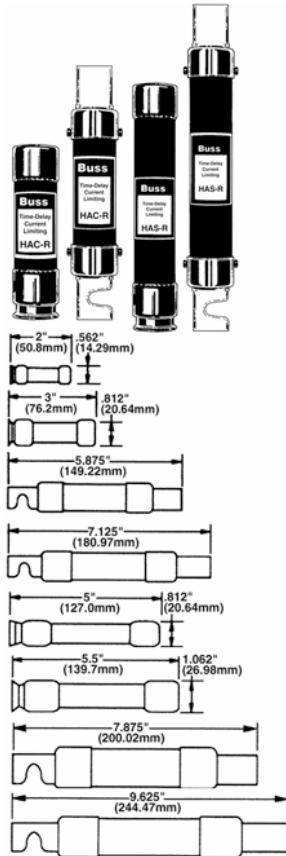

A general purpose 60 amp, 600 Volt AC, UL listed, time-delay, current-limiting, cartridge fuse with rejection feature is used in residential and light-duty motor protection. It passes motor overload starting currents without needlessly opening.

Fuses

Bussman H Series Fuses

The Fusetron® fuse (FRN-R and FRS-R) has long been the standard for industrial application. It is designed and built to protect industrial equipment and large motors with critical time/current requirements. The H series (HAC-R and HAS-R) are specially designed to protect commercial and residential heating/air conditioning and refrigeration equipment.

FRN-R Fusetron Fuses 250 Volt Ac

Dual-Element Time-Delay

Unlike the single-element fuses, the dual-element fuse can be applied in circuits subject to temporary motor overloads and surge currents to provide both high-performance short circuit and overload protection. Oversizing in order to prevent nuisance opening is not necessary.

HLD00079	HLO-3 2/10	10	For use with type GLO-2 to 3 amp and type GMO-2 to 3 2/10 amp fuses

Fuses

Fuse Holders and Blocks

Class J (finger-safe) fuse holders

Safety J™ — JT(N)60030 & JT(N)60060

30 Amp Version 60 Amp Version

Features and Benefits

- Short Circuit Current Rating of 300,000A with Cooper Bussmann LPJ___SP fuses.
- Rapid, flexible 35 mm DIN rail mounting.
- One piece interlocking design for assembling multiple pole blocks reduces inventory costs.
- Removable fuse carrier allows fuse replacement away from base while maintaining finger-safe rating.

Typical Applications

- Industrial Controls
- Process Controls
- Small HP VFDs

Fuses

Low Voltage Supplementary Fuses

13/32" x 1 1/2" Time-delay fuses

FNM

Features and Benefits

- Low cost supplemental protection of 125V and 250V inductive circuits.

Typical Applications

- General Purpose Circuits
- Lighting Circuit Protection
- Meter Circuits
- Upgrading to LP-CC product will reduce SKU investment and minimize potential for misapplying fuse.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	Volts	Amps	Dimensions
FUS01650	FNM-1-1/4	Time-delay supplementary fuse.	250Vac (or less)	1-1/4	13/32" x 1 1/2"(10.3 x 38.1mm).

Fuses

Low Voltage, Branch Circuit Rated Fuses

CC-Tron® rejection-type fuses

FNQ-R Class CC

Features and Benefits

- Time delay compatible with inrush characteristic of small control transformers.
- Current limitation at Class CC levels provides maximum component short-circuit current rating protection.
- 200,000A interrupting rating provides high ratings for control circuit locations.
- Class CC rejection feature, with appropriate fuse block, prevents inserting lesser-rated supplementary fuses.

Typical Applications

- Specialized Circuits
- Industrial Control
- Isolated, In-Line Fuse Holders
- Line Protection, Small Control Transformers

Controls

Fuses

Low Voltage, Branch Circuit Rated Fuses

Fusetron® dual-element, time-delay fuses

FRS-R (600V) Class RK5

Features and Benefits

- 2:1 selective coordination ratio (within RK5 fuse family) prevents electrical shutdowns from extending beyond the failed circuit.
- Insulated end caps for 70-600A fuses reduces exposure to live parts and extends air gap to distance between blades of adjacent mounted fuses or to housing.

Typical Applications

- Power Panelboards
- Motor Control Centers
- Combination Starters
- Machinery Disconnects

Fuses

Low Voltage, Branch Circuit Rated Fuses

Limitron® fast-acting fuses

JKS Class J

Features and Benefits

- Current limitation for non-inductive circuits provides Class J current-limiting response to maximum ground fault and short-circuit conditions.
- 200,000A interrupting rating provides high ratings at all circuit locations.
- Economical solutions for high-fault circuits.

Typical Applications

- Power Panelboards
- Machinery Disconnects

Limitron® rejection-type fuses

KTK-R Class CC

Features and Benefits

- Current limitation at Class CC levels provides maximum component short-circuit current rating protection.
- 200,000A interrupting rating provides high ratings for control circuit locations.
- Class CC rejection feature, with appropriate fuse block, prevents inserting lesser-rated supplementary fuses.

Typical Applications

- Specialized Circuits
- Industrial Control
- Isolated, In-Line Fuse Holders (street lighting)

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	Volts	Amps	Dimensions

Controls

Fuses

Low Voltage, Branch Circuit Rated Fuses

Low-Peak® dual-element, time-delay fuses

LPJ_SP Class J

Features and Benefits

- Separate overload and short-circuit elements provide time delay for sizing of high inrush loads linked with Class J current limitation.
- Selective coordination ratio of 2:1 (within Low-Peak fuse family) prevents electrical shutdowns from extending beyond the failed circuit.
- Series combination ratings with branch circuit breakers allows broad range of coverage, independent of breaker manufacturer.

Typical Applications

- Power Panelboards
- Branch Circuit Breaker Panelboard Mains
- Machinery Disconnects
- Industrial Control

LPS-RK_SP (600V) Class RK1

Features and Benefits

- Separate overload and short-circuit elements provide time delay for close sizing of high inrush loads linked with K1 current-limitation and selective coordination ratio of 2:1 (within Low-Peak fuse family) prevents widespread blackouts.
- Inventory consolidation of Class RK1, RK5 and H fuses for reduced SKU investment and minimizing potential for misapplying fuse.
- 300,000A RMS symmetrical interrupting rating provides adequate ratings without obsolescence for all electrical systems, big or small.
- Insulated end caps reduces exposure to live parts and extends air gap to distance between blades of adjacent mounted fuses or to housing.

Typical Applications

- Large Distribution Switchboards
- Power Panelboards
- Machinery Disconnect Switches

Low Voltage, Branch Circuit Rated Fuses

Low-Peak® time-delay, rejection-type fuses

LP-CC Class CC

A general purpose 15 amp, 600 Volt AC, UL listed, time-delay, current-limiting, cartridge fuse with rejection feature is used in residential and light-duty motor protection. It passes motor overload starting currents without needlessly opening.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	Volts	Amps	Dimensions
FUS01714	LP-CC-1/2	Time-delay, current-limiting, rejection-type fuse – 12 seconds (minimum)at 200% rated amps.	600Vac (or less)	2-Jan	13/32" x 1 1/2"(10.3 x 38.1mm).
FUS01463	LP-CC-8/10	Time-delay, current-limiting, rejection-type fuse – 12 seconds (minimum)at 200% rated amps.	600Vac (or less)	10-Aug	13/32" x 1 1/2"(10.3 x 38.1mm).
FUS00903	LP-CC-4	Time-delay, current-limiting, rejection-type fuse – 12 seconds (minimum)at 200% rated amps.	600Vac (or less)	4	13/32" x 1 1/2"(10.3 x 38.1mm).
FUS01291	LP-CC-5-6/10	Time-delay, current-limiting, rejection-type fuse – 12 seconds (minimum)at 200% rated amps.	600Vac (or less)	5/6/2010	13/32" x 1 1/2"(10.3 x 38.1mm).
FUS01292	LP-CC-7	Time-delay, current-limiting, rejection-type fuse – 12 seconds (minimum)at 200% rated amps.	600Vac (or less)	7	13/32" x 1 1/2"(10.3 x 38.1mm).
FUS01096	LP-CC-12	Time-delay, current-limiting, rejection-type fuse – 12 seconds (minimum)at 200% rated amps.	600Vac (or less)	12	13/32" x 1 1/2"(10.3 x 38.1mm).
FUS00943	LP-CC-20	Time-delay, current-limiting, rejection-type fuse – 12 seconds (minimum)at 200% rated amps.	600Vac (or less)	20	13/32" x 1 1/2"(10.3 x 38.1mm).

Plug fuses

Fustat Fuse Adapters

Features and Benefits

- Fustat adapters screw into the “Edison” thread fuse sockets of standard fuse boxes making it easy to retrofit existing fuse installations
- Available in various amp ratings to cover a wide range of rating requirements

Typical Applications

- Plug fuse installations where it is desirable to restrict fuse amp ratings

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
ADP00146	SA 6 1/4*	Adapters for using Type S and SL rejection fuses in Edison base fuse sockets.
ADP00971	SA-15**	Adapters for using Type S and SL rejection fuses in Edison base fuse sockets.

Fuses

Low Voltage, Branch Circuit Rated Fuses

Plug fuses

S and T Series

Features and Benefits

- Time-delay, dual-element T Series Edison base plug fuses provide small motor overload protection when used with box cover units.
- Time-delay, dual-element S Series plug fuses provide a rejection feature (when used alone or with Fustat adapters to retrofit Edison base holders) to prevent overfusing of branch circuits.

Typical Applications

- S Series - Residential Load Centers
- T Series - Box Cover Units for small motor overload protection
- Applications benefiting from fuse rejection (S Series only)

Time-delay fuses

SC Class G

Features and Benefits

- Current limiting for component protection, providing Class G energy-limitation for branch circuit protection.
- 100,000A interrupting rating provides cost-effective branch circuit fusing.
- Variations in length help prevent overfusing.

Typical Applications

- Fusible Branch Panelboards
- HVAC Branch Circuit Protection

S Type High-Performance Plug Fuse (125 Volt)

Time-Delay Dual-Element

For the purpose applications. Like two fuses in one. A simple link element for short circuits and dangerous overloads plus a series-connected element that lets the harmless overload starting currents of motors pass w/o opening. Uses less energy; operates cooler; provides superior protection. Use the SRD type holders.

Gas Valves

36C Replacement Gas Controls With Side Taps by White-Rodgers

Ideal for general-purpose replacement. Furnished with natural-to-LP conversion kit, reducer bushings, and self-adhesive label with pilot-lighting instructions. Valve may be mounted in any position except upside down. Both main valve seat and line-interrupter seal with line pressure, ensuring positive gas sealoff. Inlet screen, pilot gas filter, and top-operated main valve provide maximum protection against chips and dirt. Gas cock knob, pilot adjust screw, and regulator adjustment are on top of control. Easy-grip pipe boss simplifies installation. Built-in regulator system provides constant outlet pressure throughout entire usable capacity of valve, regardless of inlet-pressure fluctuations. Natural gas type.

Gas Valves

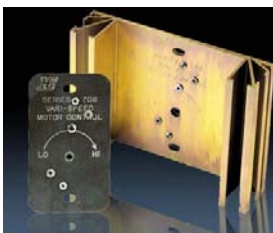

36E Redundant Gas Valves by White-Rodgers

Compact multifunction valve designed to meet the requirements for use with all types of intermittent ignition systems (cycle pilot, proven, pilot, direct-spark ignition and hot-surface ignition). All valve adjustments and features, as well as the system's interface wiring panel, have been designed on the top surface of the control for simplified servicing and easy accessibility. Poppet-style manual valve. Conical inlet and outlet screens protected from pipe damage. Keyed wiring. Direct-acting solenoid valve with high sealing force. Controlled gasket clinch between castings to withstand high inlet pressures. May be mounted horizontal, vertical, and 90° from horizontal. Tamper-resistant screws. Regulator setting: 3.5" W.C. Natural gas type.

Head Pressure Controls by ICM

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
CNT02905	ICM325H	Head-pressure control, input 24VAC, output 120VAC to 480VAC, hard start, low temp. cutoff, high temp. bypass. Integral heat pump circuitry allows electronic bypass of speed control during heat pump operation
CNT02906	ICM326H	Head-pressure control, 120 or 208/240V, built-in transformer, hard start, low temp. cutoff, high temp. bypass, for heat pumps
CNT02907	ICM3237HC	Line voltage head pressure
CNT03524	ICM336	Control, 3-phase head pressure, with LCD diagnostics, 240 VAC
CNT03525	ICM337	Control, 3-phase head pressure, with LCD diagnostics, 460 VAC

Fan Control Center

Description and Usage : The ICM275 Gas Furnace Control Center is a new generation control for the replacement market. The ICM275 Gas Furnace Control Center is designed to function similarly to previous control center designs, while incorporating some of the latest features in furnace control center technology.

It is a direct replacement for the following Carrier control center part numbers: HH84AA021, HH84AA001, HH84AA003, HH84AA005, HH84AA009, HH84AA014, HH84AA015, or CESO110019.

Freeze Protection Modules

The ICM308/309/310 are low cost, fixed, single setpoint temperature controls that provide freeze protection.

Features

- Single setpoint temperature control
- Provides freeze protection
- Small, compact package
- Epoxy encapsulated for moisture protection
- Temperature sensor included

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	Dimensions	Temperature Cut-Out (OFF)	Temperature Cut-Out (ON)

Three Phase Monitor

The ICM401 is a low cost 3-phase line monitor that protects against phase loss, phase reversal and phase unbalance. Ideally suited to protect scroll & screw compressors from reverse rotation.

Features

- Low cost, single side 3-phase protection
- Bright LED indicators for fault and load energized
- Easy to install, no adjustments
- Wide operating range: 190-600 VAC
- Less than 1-second phase loss response
- Automatic reset from a fault condition
- Compact packaging: fits almost anywhere
- Rugged, epoxy-encapsulation for extreme conditions
- Works great with the ICM450 for load side monitoring of part winding start motors and multiple compressor systems

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	Control Voltage	Relay	Dimensions
MON00004	ICM401C	190-600 VAC	18-30 VAC	SPST	3.0" x 3.2" x 1.4"

Three Phase Monitor

The ICM402 is a low cost 3-phase line monitor, with a 30 amp output that protects against phase loss, phase reversal and phase unbalance. Ideally suited to protect scroll & screw compressors from reverse rotation.

Features :

- Low cost, single side 3-phase protection
- 30 amp output
- Bright LED indicators for fault and load energized ON and FAULT
- Easy to install, no adjustments
- Wide operating range: 190-600 VAC
- Less than 1 second phase loss response
- Automatic reset from a fault condition
- Compact packaging: fits almost anywhere
- Rugged, epoxy-encapsulation for extreme conditions
- Works great with the ICM450 for load side monitoring of part winding start motors and multiple compressor systems

ICM

Three Phase Line Monitor

The ICM409 is a low cost three-phase voltage monitor with fault indicator.

Protects Against...

- Low Voltage
- High Voltage
- Unbalanced Voltage
- Power Interruptions
- Phase Loss
- Phase Reversal

Features :

- Adjustable delay-on-make timer for staggered starting
- Adjustable delay-on-break for anti-short cycle protection
- Adjustable universal voltage from 190 VAC to 480 VAC
- Adjustable voltage unbalance from 2-8% of the line voltage

Delay on Break

- 3 or 5 minute fixed, 10 minute adjustable.
- Works with anticipator type thermostats.

INSTALLATION - Step-by-step

1. Disconnect power.
2. Connect terminals as shown in the system diagram below.
3. Select desired time delay (adjustable models only).
4. Reapply power, check operation.

Invensys (Ranco Controls)

Ranco 4-Way Reversing Valves

- Designed for minimal pressure drop to allow higher system efficiencies.
- 4-way pilot valve uses high and low side refrigerant pressure to push and pull the main valve slide for positive reversals at low pressure differentials.
- Hermetic construction using high quality materials (brass, copper, stainless steel) to eliminate external leakage for longer system life
- Teflon® lubricated sliding surfaces provide reduced internal friction and high contaminant resistance to provide longer valve durability and reliability (V4- V12).
- Low solenoid power consumption provides a Class B UL thermal rating for AC coils
- Solenoid coils have 1/4 male quick connects and are color coded by voltage.
- Solenoid coils can be removed within the length of the valve body and can be shipped attached to the valve in a choice of 4 positions.
- Available W29 wiring harnesses are shipped separately.
- Wiring harnesses can be specified at various lengths, terminations, and identification

CNT04808	O12-4833	Control, Dual Pressure, 12" to 50 PSI 48" Cap

Temperature Controls

A22 Controls

- Fixed or adjustable temperature settings.
- Laser welded stainless steel sensing elements
- Constant ON or OFF positions available.
- A wide variety of mounting brackets, adjustment ranges, and shaft styles available.
- Standard 1/4" quick-connect terminals with optional screw terminals.
- A22 can be used as a heat/cool thermostat by using a separate changeover switch.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	Control Type	Switch	Temp Range °F	Adj Range °F	Min °F	Max °F

Electronics

ETC Controls

- Wide temperature range (-30 F to 220 F).
- Adjustable differential range (1 F to 30 F).
- LCD Digital Display.
 - Temperature at the sensor.
 - Control settings.
 - Relay status.
 - Onboard diagnostics.
- Simple Key Pad settings.
- Remote temperature sensing - up to 400 feet.
- Selectable Heat or Cool modes.
- Selectable Fahrenheit or Celsius modes.
- One Horsepower output relay.
- Concealed lockout switch to prevent tampering.
- Both one and two stage models available.
- 0-10 VDC analog output available.
- Settings retained in the event of a power failure.
- Sensor included with control.

E15 Series Timer-Initiated Heat Pump De-Ice Controls

Provides field-adjustable timer control for de-icing of heat pump outdoor coils. Defrost cycle starts every 30, 45 90 minutes. Interlock prevents more than one defrost cycle per time period and temperature must be 28°F or lower to start. Termination temperature is adjustable from 55° to 78°F.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	Voltage
CNT04814	E15-2601	240V

Pressure

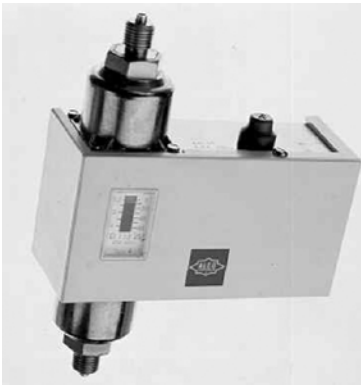

Dual Pressure Controls by Emerson Flow Controls

PS2. Combines the functions of a single high-pressure limit control and a single low-pressure control in one enclosure. Two independent SPDT switches are controlled by the high- and low-pressure sides of the control. The low-pressure, automatic-reset side provides all the features available with a single SPDT low-pressure control. The high-pressure side provides the conventional high-pressure cutout function with a contact for a high-pressure cutout alarm. A "convertible" reset feature on the high-side pressure returns to normal levels. A removable jumper between the high- and low-pressure switches provides you with conventional low/high pressure control operation with the option of an alarm on either, or both, the higher low-pressure side. Removal of the jumper allows you to operate the high- and low-side functions as two totally independent circuits.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	CONNECTION	LOW RANGE (PSIG)	HIGH RANGE (PSIG)	LOW DELTA ADJUST	HIGH DELTA ADJUST

Oil Pressure Safety Controls by Emerson Flow Controls

FD113. Supply Voltage: 24V to 240V (AC/DC). Senses the effective oil pressure on pressure-lubricated compressors. If inadequate oil pressure exists, a time delay is energized. If the oil pressure does not recover to safe levels within the time delay setting, the compressor is shut down. The time delay allows the compressor adequate time to establish oil pressure on startup, and avoids nuisance shutdowns on pressure drops of short duration during the run cycle. Maximum application flexibility is ensured by providing an adjustable differential-pressure switch that can be adjusted to the compressor's minimum required oil pressure needs. An adjustable electronic time delay allows you to select the length of time the compressor runs below the minimum pressure before shutdown. An SPDT switch is used in the pressure portion of the control, which allows the addition of a "safe light" if desired. The electronic timer is adjustable from 20 to 150 seconds. A factory-installed jumper allows the control to be powered from a single source. Should separate circuits be desired for the timer and "lockout" switch, the jumper can be removed.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	PRESSURE RANGE	TIME RANGE	DESCRIPTION
CNT02196	FD113-ZU	4 to 65	Factory set at 120 sec	1/4" SAE Male

FEATURES

- Exclusive "convertible" reset for manual or automatic high pressure reset on some models
- NEMA 1 enclosure with non-conductive cover
- Front-located captive cover screw
- Large, easy-to-read scale plate
- SUPER CAP® capillary protection system
- Universal mounting and compact design
- Color coded flare nuts

Fan Control Center Relay And Transformer by White-Rodgers

A one-package transformer and relay combination. Rugged controls for remote mounting. Incorporates over/under bobbin-wound, energy-limiting, Class 2 transformer and fan relay on a common plate for mounting on a standard four-inch junction box. Contact ratings for 120VAC: 13.8 full load, 82.8 locked rotor. Contact ratings for 240VAC: 6.9 full load, 41.4 locked rotor.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION

Invensys (Ranco Controls)

Temperature Controls

O Series Custom and Wide Range Temperature Controls

O 10 Series Temperature Controls - Low

SPECIFICATIONS

- Maximum adjustment accuracy with 7 revolution range adjustment screws
- NEMA 1 enclosure with non-conductive cover
- Front-located captive cover screw
- Large easy-to-read scale plate
- Universal mounting and compact design
- Laser-welded bellows for extended life

The O60, which uses the industry's most advanced sensing element technology, has these additional features:

- Virtually unaffected by ambient temperature
- 10 times the setting sensitivity of most other wide range controls
- Gas-filled, nonposition-sensitive bulb
- Adjustable differential

GRD01151	F29-0238	Opaque (beige)

Thermostats

TS1 Temperature Controls by Emerson Flow Controls

Wide Range—Bulb Sensing

Designed to sense space or surface temperature in cooling or heating applications for cycling and alarm applications. SPDT switch allows control of heating as well as cooling applications. Heavy-duty 24 amp SPDT switch allows the handling without the use of a contactor. Non-ambient-sensitive. Standard accessories include mounting bracket, knob, and lock plate.

Wide Range-Bulb Sensing

Sensing controls utilize a power element, which responds to the bulb only, regardless of capillary or control-body temperature. While this is necessary when cross-ambient control applications are encountered, the disadvantage is the control responds slower to temperature changes than a vapor-filled control, due to the mass of the bulb and the power element design.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	RANGE	DIFFERENTIAL	ELEMENT
CNT02200	TS1-X4F 32/41	-22 to +95	5 to 36	10' Cap w/ 3/8"×2" Bulb

Remote Coiled Bulb—Vapor Charged

Fast-response, vapor-filled power element. Responds to the coldest point on the bulb, capillary, or power element head. Ideally suited to temperature control in refrigerators or freezers sensing return or discharge air, or evaporator temperature.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	RANGE	DIFFERENTIAL	ELEMENT
CNT02201	TS1-X1A -4/0	-49 to +14	3 to 29	10' Cap w/ 3/8"×2" Bulb
CNT02202	TS1-X2A 21/30	-22 to +59	3 to 29	10' Cap w/ 3/8"×2" Bulb

Air Coil—Room Sensing

Fast-response, vapor-filled, air-coil capillary for space temperature sensing. Ideally suited to walk-in coolers and freezers, ventilation fans, and space heater temperature control.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	RANGE	DIFFERENTIAL	ELEMENT
CNT02203	TS1-X2E 36/40	-22 to +59	3 to 29	Air Coil for space temp

HVAC Supplies and Accessories

Sheet Metal Accessories by McDaniel Metals

Accommodator Filter Housing

Features:

- Accommodates standard filters
- Uses pleated, electrostatic or throwaway filters in 1", 2", 4" filters
- Embossed heavy-gauge steel construction
- Gasket provides tight seal
- Hinged door for easy access
- Completely insulated
- Individually boxed for convenient shipping and warehousing
- Sizes to fit all furnaces through 5 tons
- Filter may be purchased at your local wholesaler or distributor
- Made in USA
- Honeywell F25 filters for 1625
- Handles 1", 2" or 4 3/8" filters
- Available in one size
- Designed for side return application
- Heavy gauge embossed steel construction
- Insulated

The Accommodator filter housing is the professional's choice for performance, quality and ease of installation. It allows homeowners easy access to filters without entering the furnace. Models fit a full range of filter sizes and efficiencies. You can't make a better choice for your installers and your customers than the Accommodator. It installs with most central heating/ cooling systems in upflow, lowboy, highboy, horizontal, vertical and downflow applications.

HUS03669 (ACG 1625 6-H)

- Honeywell F25 filters for 1625
- Handles 1", 2" or 4 3/8" filters
- Available in one size
- Designed for side return application
- Heavy gauge embossed steel construction
- Insulated

Labor Saver Filter Housing

Gas Furnace

Electric Air Handler

Features:

- Adjustable filter rack 1", 2", 4"
- Uses standard filter sizes
- Easy access from both sides
- Box reverses for left hand and right hand arrangement
- No need to construct platform saves time and money
- Lined with 1" insulation
- Embossed heavy-gauge steel construction
- Filter positioned on an angle for maximum surface area
- No hardware to remove for filter access
- Filter may be purchased at your local wholesaler or distributor
- Made in USA

The Labor Saver is an affordable solution for residential and light commercial applications. The Labor Saver enables the homeowner access to the filter without entering the furnace.

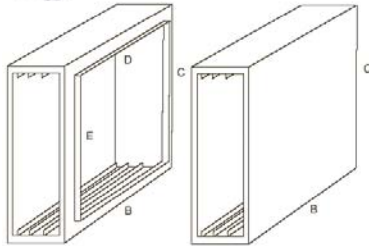

The Labor Saver is designed for the new age of shortened furnaces which is easily installed with most central heating and cooling systems. The Labor Saver raises the furnace to the plenum making installation fast and efficient saving contractor time and labor with a professional installation.

Horizontal Filter Housing

Model HR

Model HRB

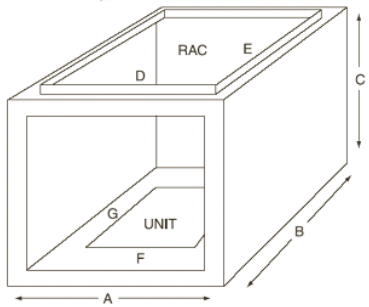

Features:

- Accommodates standard filter 1", 2" or 4"
 - For horizontal applications
 - Individually boxed for convenient shipping and warehousing
 - Completely insulated
 - Four models to choose from
 - HR Model is open on one side and blocked off on the other side, cut blocked side to your furnace specifications
 - HRB Model is blocked off on both sides, cut to fit your furnace specifications and the existing plenum
- The Horizontal filter housing gives the homeowner the option of a 1", 2" or 4" filter.
The Horizontal filter housing gives you many choices of filter types and sizes.

HVAC Supplies and Accessories

Sheet Metal Accessories by McDaniel Metals

Downflow Supply Plenum

Features:

- Available in two sizes (1-5 Ton)
- Heavy gauge steel construction
- Elevated box for non-contact with floor
- Insulated
- 18" sleeve available 8 x 24 and 12 x 24

Model DFSP (3 Ton)

- 1 1/2 through 3 tons
- Top opening 14 3/4 x 19 3/4
- Side supply opening 8 x 24
- Overall dimensions 22" wide x 28 1/2" deep x 18" tall

Model DFSP (5 Ton)

- 3 1/2 through 5 tons
- Top opening 24 x 19 3/4
- Side supply opening 12 x 24
- Overall dimensions 26 1/2" wide x 28 1/2" deep x 18" tall

insulated with turning vanes, 20 gauge galvanized steel

PLN00875	DFSP824	8 x 24 Side Supply Opening
PLN00876	DFSP1224	12 x 24 Side Supply Opening

Cold Air Drop (CAD)

Features:

- Provides fast and professional installation
- Constructed of 26 gauge galvanized steel
- Non-insulated
- Individually boxed for convenient shipping and warehousing
- Comes knocked-down
- Saves time and money - no elbow needed
- Two sizes available: 1620 or 1625
- Easy open access door

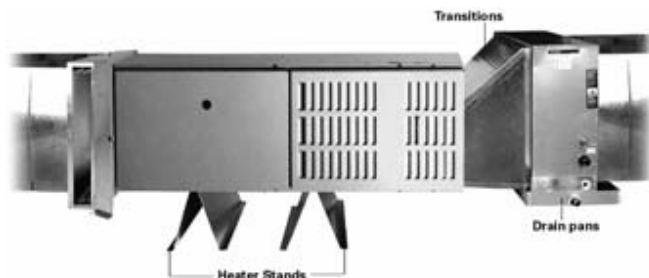

24 gauge galvanized steel

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
PLN00877	CAD1620	Accommodates two 16 x 20 filters
PLN00878	CAD1625	Accommodates two 16 x 25 filters

Platform Drain Pans

Features:

- Model HBCP available in two sizes
- HBCP drainpan air handler platform
- HFCP gas drainpan platform
- HFP horizontal furnace or air handler platform
- Makes a professional installation
- 20 gauge drainpan
- 6" high furnace feet
- 3/4" steel tubing
- Platform can be placed directly on ceiling joists or suspended

Condensate Pumps and Products by Diversitech

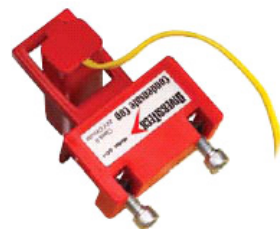

Safety Overflow Switch (SOS™)

Safety Overflow Switch (SOS™) is designed for use on 3/4" PVC condensate drain line. The SOS snaps easily over existing drain line tubing and can be glued in place using PVC cement if desired. The SOS works by electronically sensing water near the inside wall of the PVC drain tubing. By locating the SOS with its body away from the normal flow it can be used to detect a possible overflow condition when the PVC drain line becomes full with water. Like a culvert, condensate drain line is normally mostly empty with a small amount of water flowing in the lower parts of the horizontal run. Since the sensor component of the SOS only covers part of the tubing, a low volume of flowing water does not activate the switch. The pipe must be full or near full to activate the switch. The SOS can be mounted horizontally, vertically, or at any angle. The SOS works with 24 VAC control circuits and typical contactors. When not detecting water the SOS is normally closed and allows normal air conditioner operation. When water approaches the SOS's sensor the switch triggers and the control circuit is opened. The LED indicator lights to show that there may be system trouble, and the SOS is doing its job. Furnished complete with switch, 5' (1.5 meter) 18 AWG, 2 wire lead, and a 3/4" PVC male fitting adaptor for direct coupling to a primary pan drain line connection. Now available with Push to Test button.

Condensate Cop™

Condensate Cop™ is a unique clamp on float switch intended for HVAC drain pan installation. The Condensate Cop™ features a large over clamping area that fits easily over the edge of all types of drain pans; including formed plastic and galvanized sheet metal. A separate float/probe assembly swivels to accommodate drain pans having sloped sides. The swivel action allows the installer to position the float switch for best operation and then clamp it into place. The probe features an inlet grill which prevents the float from being blocked or damaged by insulation or other debris. Sealed inside the probe is a magnetically actuated normally closed switch. The switch opens when rising water presents a potential flooding condition. Two wire connection for easy hook up to a thermostat "Y" (compressor) circuit. Provided complete with 5' (1.5 meter) leads, wire nuts, and clamping screws. Small size, 24V/1.5 amp NC reed switch.

Wet Switch Flood Detector

Wet Switch Flood Detector is a solid state control designed to help prevent flooding, damage to carpets, walls, furniture, ceilings, etc. Now has a built-in test and reset button for easier installation.

It turns system off when detecting moisture due to condensate or drain leaks. One or two drops will cause Wet Switch to turn off a unit, alerting a serviceman to a moisture problem. A lit LED indicates the Wet Switch is activated and has turned the unit off. Re-set simply by drying the absorbent pad with a paper towel and pressing the reset switch. Connects to 24

VAC. More than one unit may be connected to a system. 2 amp contact rating. Simple 3 wire installation. Sales displays available.

CP-22 Condensate Pump

CP-22 Condensate Pump is suitable for use with condensate from high efficiency condensing furnaces and boilers which produce acidic condensate. This rugged pump has 22 feet of lift, compared to the typical 20 feet. The CP-22 has a number of features and benefits including vibration dampening feet and motor mounts, metal hang tabs, four versatile inlet holes, an easy to understand indicator display, a simple float switch and check valve, and a pan pill dispenser.

Integrating the CP-22 into your system is easy. 1/4" inch quick connect terminals provide easy connection to the built in overflow switch. Three terminals are provided allowing the installer flexibility to connect air-handler shut-down and optional alarm as needed. Switch features SPDT isolated contacts ready for connection to building automation systems.

- Continuous duty 140F°.
- Maximum inlet temperature 160F°.
- Not suitable for contact with steam or gasses that exceed 160F°.

Flow-Plus™ Pump Treatment Tablets

Flow-Plus™ is a unique polymer pan treatment is available in a tablet form for use exclusively in DiversiTech's condensate pump. The tablet dispensing drawer in the pump holds 3 tablets.

A dosage lasts up to 3 months depending on the volume of condensate generated. Even when fully dissolved, the tablets provide a lasting treatment in the pump and downstream drain line. Flow-Plus™ provides long-lasting treatment that controls slime growth over time and can extend the life of the pump.

Condensate Overflow Monitoring Counter Mat and Wet Switch Counter Mat

Condensate Overflow Monitoring Counter Mat and Wet Switch Counter Mat can be placed on any tabletop surface in a high-traffic area. Its a great way to get customers familiar with the Condensate Cop™, Safety Overflow Switch (SOSTM), and Wet Switch.

These Counter Mats have an easy to navigate layout full of useful information on the installation and operation of each product. Detailed closeups and installation photos help to illustrate the DiversiTech advantage of the Condensate Cop™, Safety Overflow Switch (SOSTM), and Wet Switch for the customer's applications.

Mat size is 20" W x 16" H and laminated in a heavy duty clear plastic for long lasting durability.

DiversiTech

Abrasive Cloths

All Purpose Cleaning Pads

For cleaning copper tubes and fittings. Nylon will not rust. Can be used wet or dry. Leaves no residue and is long lasting.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
PAD00961	ACP-10	All Purpose Cleaning Pads	1 Box

Grip-Cut™

Open mesh sand screen cloth. Aluminum oxide grain resin bonded to synthetic nylon cloth. 100% waterproof, but can also be used dry for sanding by hand or with portable tools. Most effective where clogging is a problem, such as soft materials. 180 grit.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
TOL01783	SCM-5	Grip-Cut™ 1-1/2" x 5 yds.	12
TOL01784	SCM-10	Grip-Cut™ 1-1/2" x 10 yds.	24
TOL01785	SCM-25	Grip-Cut™ 1-1/2" x 25 yds.	12

Aluminum oxide, high quality 120 grit, abrasive cloth to thoroughly clean copper and steel tubing. Works wet or dry. Exceeds industry standards for abrasive cloth.

Pro-Tite™ Resin Based Thread Sealant

Resin based thread sealant that adheres to internal surfaces, fills voids while forming a flexible fluid tight seal. Specifically formulated for use on metals and plastics subject to extreme vibration. Serviceable at temperatures from 100° F to 400° F and from full vacuum to 10,000 PSI. Pro-Tite is impervious to most chemicals including refrigerants, petroleum products, gases, steam, etc. Alcohol based.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
SEL00881	CLL-1	Pro-Tite, 1-1/3 oz. squeeze tube	12
SEL00882	CLL-4	Pro-Tite, 4 oz. brush top	12
SEL00883	CLL-16	Pro-Tite, 16 oz. brush top	12

Acid Test and Prevention

Oil Tap

Oil Tap is installed on a semi-hermetic compressor for the changing of oil and testing procedures. The internal pressure helps discharge the oil from the crankcase and acid tests can be made while the compressor is running. Allows the addition by vacuum or removal by pressure of oil while compressor is running. And, you can detect hazardous refrigerant pooling in the crankcase before start-up and control the removal using a compound gauge. Oil Tap can be permanently installed.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
FTG00942	OT-1808	Oil Tap	1

DiversiTech

Acid Test and Prevention

Refrigeration Oil Acid Test Kits

Fast and easy one step kits designed to indicate the presence of destructive acid contamination in mineral, alkylbenzene and POE refrigeration oils. Now available in three versions. The original ATK-4 test kit is effective on mineral and alkylbenzene oils and provides an economical 4 tests per kit. The ATK-1 is a single test version of the original ATK-4 kit. The ATK-1P is a newly designed single test kit for POE refrigeration oil.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
KIT08028	ATK-4	4 Tests/Kit for Mineral and Alkylbenzene Oil	1

Aerosols

Coil Cleaning Foam Blast

A heavy duty foam detergent coil cleaner in the convenience of an aerosol can. Nonflammable and water based, it contains no chlorinated solvents. Blasting foam stream reaches into tight areas for maximum cleaning. The foaming alkaline detergent blend quickly liquefies dirt, grease, oil or other residue. The clinging foam is completely self rinsing on condensate producing coils.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00299	358-20	19 oz. Foaming Coil Cleaner	12

Coil Cleaning Solvent

This high solvency formula quickly and easily liquefies dirt, grease, oil or other residue while the blasting nozzle powerfully separates the materials from the surface. This nonflammable and nonconductive formula is safe to use on or near live equipment.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
SOV00051	357-20	18 oz. Coil Cleaning Solvent	12

Heavy Duty Adhesive Spray

This wide web spray adhesive is ideal for both temporary or permanent bonding. Waterproof, transparent and non-staining. Use for the toughest adhesive applications with leather, cardboard, most plastics, polyethylene sheeting and insulation in HVAC applications. Cleans with mineral spirits. Not for use on vinyl.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00211	315-20	12 oz. Adhesive Spray	12

Wasp & Hornet Killer

Kills wasps, hornets and yellow jackets. Very fast acting when insects are hit directly. Allow approximately 24 hours for those that were not directly hit. This container delivers a 20 foot jet blast to knock down the insects and allow for the user to remain at a safe distance.

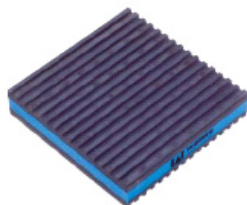

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00218	436-20	Wasp & Hornet Spray	12

Anti-Vibration Pads

E.V.A. Anti-Vibration Pad

The latest generation in vibration dampening technology - the new EVA pad. The most effective vibration dampening pad available on the market today. We tested the EVA Pad against other pads at four different vibration settings. In the most severe vibration extremes, the new EVA Pad outperforms cork and rubber by a margin of greater than 3:1, and outperforms our competitor's "waffle" pad by a margin of greater than 8:1! This enhanced performance is due to the special composite foam center. The composite foam is much more structurally sound than cork. It is not affected by oils or chemicals that can sometimes break down cork, and is much more effective at vibration dampening than solid rubber. In essence, the EVA Pad gives you the best of both worlds, at a very competitive price.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK

Iso-Cube Anti-Vibration Pad

Natural rubber pads, designed to reduce vibration and noise emanating from refrigeration and air conditioning equipment. The circular design in each pad offers a suction cup effect, which eliminates the need to bolt the pads down. A standard 18" pad is divided into eighty-one 2" segments, each of which may be cut or torn to provide smaller pads. These 50 durometer pads will withstand a load of 180 psi with greater resiliency.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
PAD00956	ISO-2	2" x 2" x 3/4" Iso-Cube	24
PAD00957	ISO-4	4" x 4" x 3/4" Iso-Cube	12
PAD00958	ISO-18	18" x 18" x 3/4" Iso-Cube	6

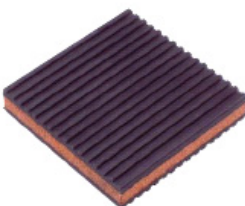

Rubber Anti-Vibration Pad

Highest quality elastomeric oil resistant padding. Designed to withstand 50 lbs. per square inch. The rubber pads are corrugated on both sides. Ideal for air conditioners, compressors, cooling towers, presses, machines, etc.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
PAD00936	MP-2	2" x 2" x 3/8" Rubber	48

Leak Finder with Brush-On Applicator

Formulated for refrigeration and air conditioning systems. Seeks and finds refrigerant and air leaks quickly and safely. Actually pinpoints the leak when applied to the suspected area. Leak-Finder has body and will never fail to bubble at even the slightest leak. Leak-Finder is non-toxic, will not stain and meets Mil Spec. MIL-L-25567A for oxygen and compressed gases. Ideal for automotive air conditioners where flame type detectors could be hazardous. Leak-Finder also makes the perfect companion to electronic leak detectors.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00302	CL-8	8 fl. oz. Leak Finder	12

Radiant Leak Finder

The radiant color of this viscous leak detector lets the user easily see even the slightest bubble. Withstands temperatures down to 0°F before freezing. Below zero, it forms a gel and becomes liquid again in only a few minutes of room temperature. Now available in a pull-a-spout bottle.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00515	CLR-8	8 fl. oz. Radiant Leak Finder	12

Epoxy-A-Leak All Purpose Epoxy Kit

Formulated to repair leaks on aluminum evaporators and condensers. Ideal for joining all metal to metal parts. Sets fast, cures fast, just 7 to 10 minutes. Has shear strength in excess of 2000 PSI within 30 minutes. Bursting pressure 4000 PSI. Withstands temperatures from -40° to 212°F. Refrigeration systems can be recharged within one hour after repair. Packaged in economy-sized one ounce tubes. Kit includes two 1 oz. tubes (1 resin, 1 hardener), mixing spatulas, emery cloth, plus saturated cleaning swabs.

Cushion Clamps

Cushion clamps are an industry standard, universal clamp that mounts to standard strut. The clamps are steel with electro-dichromate finish to resist corrosion. The lock nut features a nylon insert to assure a positive lock. The polymeric grommet withstands temperatures from -25°C to 125°C and resists the effects of most oils, chemicals, and industrial cleaning compounds. Available in 14 sizes from 1/4" to 4-1/8".

Degreasers

HDX Heavy Duty Degreaser

Quickly removes oil, grease, and dirt. Fast acting, non-flammable. Very fast evaporation. Does not contain CFCs. Does not require rinsing or wiping. Not flammable or conductive.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00239	LPS-7X	19 oz. HDX Heavy Duty Degreaser	12

Precision Clean

Quickly removes oil, grease, and dirt. Biodegradable. Super industrial strength. USDA approved, non-toxic. Slow evaporation. Does not contain CFCs. Does not require rinsing or wiping. Non flammable. Conductive. Now available in a foaming aerosol!

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00242	LPS-728	28 oz. Precision Clean	12

PreSolve

Quickly removes oil, grease, and dirt. Natural based solvent. Moderate evaporation. Does not contain CFCs. Does not require rinsing or wiping. Flashpoint 104°. Not conductive.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00240	LPS-7PS	15 oz. PreSolve	12

ZeroTri

Quickly removes oil, grease, and dirt. Evaporates completely and very rapidly. Does not contain CFCs. Does not require rinsing or wiping. Flashpoint 0°F. Not conductive.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00241	LPS-7Z	15 oz. ZeroTri	12

Contact Cleaners

CFC-Free Electro Contact Cleaner

A fast penetrating, quick evaporating, non-residue cleaner for precision parts. Ideal for electrical and electronic fine parts. Penetrates to remove light greases, oil, dirt and other contaminants. Contains no CFCs, HCFCs, or 1,1,1 trichlorethane. No rinsing or wiping necessary. Will not stain fabric. Good solvency, low odor, low toxicity. Non conductive, safe on metals and plastics.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00236	LPS-4CF	11 oz. CFC-Free Electro Contact Cleaner	12

Electro 140° Contact Cleaner

Ideal for electrical/electronic parts. Flash point above 140°F. No rinsing or residue. Contains no CFCs or 1,1,1. Superior wetting and penetrating action.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00235	LPS-4-140	11 oz. Electro 140° Contact Cleaner	12

HVAC Supplies and Accessories

DiversiTech

All Purpose Lubricant

Compared to all the others, TKX by LPS is the best all-purpose lubricant. “Wicks” faster and penetrates quickly due to lower surface tension. Formulated to deliver greater clinging power and better protection. Safest to use on operating equipment. High 175°F flashpoint. Exclusive “invertavalve” permits spraying in all positions - even upside down.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
LUB00043	LPS-40	11 oz. All Purpose Lubricant	12

All Purpose Sprayers

All-purpose spray bottles. Gallon size bottle has a 28” flexible hose and easy-to-carry handle. Lightweight and versatile. Best for the really big jobs in hard-to-reach places. Adjustable nozzle will atomize any low viscosity liquid. Will adjust from a mist to a 12’ jet stream or anything in between. The one pint container is imprinted with a measured ounce guide. Ideal for spraying water treatment chemicals.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
TOL01890	BS-16	Pint Size Sprayer	12
TOL01891	BS-32	Quart Size Sprayer	12

Greaseless Lubricant

Thin film lubrication. Water displacer dries out wet electrical/electronic components. Contains no chlorinated solvents. Ideal for delicate mechanisms. Fast penetrating and no oily mess. Safe on rubber, paint, plastic, fabrics. Won’t attract dust or dirt.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
LUB00044	LPS-1	11 oz. Greaseless Lubricant	12
LUB00045	LPS-1G	Gallon Greaseless Lubricant	1

Heavy Duty Silicone Lubricant

Dry film lubricant. Water based and ideal for surfaces where petroleum based products are unsuitable. Contains no chlorinated solvents and is safe on metal, plastic, rubber, vinyl, leather and wood. Non-stain, anti-static, and approved by USDA for use in federally inspected meat and poultry plants. Approved for use in areas with incidental food contact.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
LUB00048	LPS-6	13 oz. Heavy Duty Silicone Lubricant	12

Industrial Strength Lubricant

Leaves light oily coating. Quick release for seized mechanisms. Reduces wear caused by friction corrosion. Contains no chlorinated solvents. Safe on rubber, paint, plastic, fabrics.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
LUB00046	LPS-2	11 oz. Industrial Strength Lubricant	12
LUB00047	LPS-2G	Gallon Industrial Strength Lubricant	1

Lubricants

Cold Galvanize

95% zinc rich coating inhibits corrosion up to three years. Works as a primer or finish coat to repair damaged or worn hot-dipped galvanized coatings. Leaves a matte gray finish. Works on rusted surfaces and all metals. Won’t crack, chalk, or peel.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00233	LPS-5	16 oz. Cold Galvanize	12

DiversiTech

Lubricants

Heavy Duty Rust Inhibitor

Forms heavy waxy coating. Effective corrosion inhibition under severe conditions and corrosive environments indoors and outdoors up to two years. Safe on rubber, paint, plastics, fabric. Excellent anti-seize compound. Superior chain lubricant.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
INH00016	LPS-3	11 oz. Heavy Duty Rust Inhibitor	12
INH00017	LPS-3G	Gallon Heavy Duty Rust Inhibitor	1

LST Penetrant

Specially formulated with low surface tension for fast penetrating action. Displaces moisture. Powerful foaming action provides complete surface coverage. Flash point of 175°F.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00234	LPS-8	11 oz. LST Penetrant	12

Pull-A-Spout Oiler

All purpose oiler with a 14" telescoping spout. Zooms out for long shots, and in for short shots, even zooms around corners. Squeeze bottle action. Perfect lubricant for general industrial use. Contains four ounces of finest quality carbon free, rust and oxidation inhibited lubricating oil. Plastic container won't short out around electrical connections. No leakage.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
OIL00091	CO-1	Pull-A-Spout Oiler(4 oz.)	12 (Display)

Rust Breaker

Quickly loosens rusted bolts, screws, shafts, piping, and all types of "Frozen" connections and assemblies. The answer for rusty or corroded fastenings on cars, trucks, trailers, tractors, farm machinery, appliances, washing machines, plumbing, water pumps, fishing reels, power tools, gardening equipment, and hundreds of other mechanisms. Packaged in a handy telescoping spout applicator.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00232	CR-1	Rust Breaker (4 oz.)	12 (Display)

White Lithium w/Teflon

Pure white lubricant with Teflon additives. Provides maximum lubrication. Rust and oxidation inhibitors protect metal. Heat and water resistant. Rapidly forms into a pure white grease that won't melt or wash away.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
LUB00049	LPS-9	10 oz. White Lithium Lubricant	12

NoFlash NU Precision Contact Cleaner

New patent-pending non-flammable formula. Fast evaporating, quick penetrating, no residue formula. Safe on most surfaces. Replaces HCFC 141b or other chlorinated solvents. No flash point.

Tools

Fin Tools

Multi-Head Fin-Tool

Conveniently straightens and cleans condenser and evaporator fins. Each nylon head slides into the master handle and tightens in place. The heads are designed to fit units with fin spacing of 4 - 24 fins per inch. Each head is engraved with its own size and is color coded for fast identification. The heads are angled so that when inserted in the handle, the hand is a safe distance from the sharp fins. Fin-Tool heads may also be reversed in the handle, so that combing with an upward stroke (recommended method) may be done easily, with proper leverage. The master handle rests comfortably in a man-size grip, is rigid and long lasting.

Foam Products, Sealants, Adhesives

Foam Sealant – One Component

One component closed-cell expanding polyurethane foam sealant for lineal caulking applications. Air-moisture cure. Tack free in 20 minutes; fully cured in 12 hours. Paintable. Use for insulating and sealing around windows, doors, pipes, ducts and vents. Non-toxic when cured. Paint to protect from UV exposure. R” value 4.7 (1” thickness). Foam contains fire retarding chemical and is U.L. Listed but not rated as a firestop product. Environmental concerns have led us to replace CFC’s and HCFC’s with hydrocarbon material in our one component foam products. See instructions on each product to ensure safe use and quality results.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
SEL00885	1714	Foam 12 oz. can – Yields 275’(3/8” bead)	12
SEL00886	1724	Foam 20 oz. can – Yields 460’(3/8” bead)	12

Geocel Caulking Sealant

Exceptional bonding and sealing caulk for interior and exterior applications involving seams, joints, ductwork, flashing and any similar use. Excellent adhesion to virtually any surface (metals, fiberglass, wood, concrete, brick and most plastics) even if moisture is present. Resealable, paintable, flexible. Will not crack, chip or peel. Specially formulated for the HVACR industry. “Brush Grade” Geocel is a thinner viscosity co-polymer sealant which may be applied with a brush to form a flexible, waterproof seal/coating for roofs, walls, ducts, drain pans and other related applications.

Hard Start Kits

Torque Plus – DST-5 300% Boost, DST-6 500% Boost

Totally solid state, our DST-5 is just right for all permanent split capacitor (PSC) compressors from 1/2 to 10 H.P. It can be used on units that operate on 120 through 288 Volts. The DST-6 offers a larger capacitor for severely hard-to-start compressors. The DST-6 can be used on all PSC single phase compressors from 1-1/2 to 10 H.P. A unique combination of relay and safety timer. The capacitor is automatically disconnected in 0.5 seconds if the compressor fails to start.

Kimberly-Clark Waterless Hand Wipes

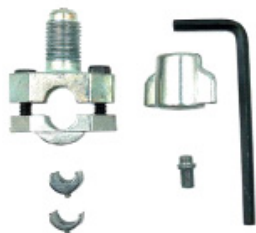

These wipes go wherever hands go to get dirty. Full sized 12" x 12" wipes for full sized cleaning. Natural cleaning agent is tough on grease, grime, ink, and paint. Dual textured - smooth for wiping on one side and tough for scrubbing on the other. More wipes with our new 75 count bucket.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
TOL01755	5-42272	Kimberly-Clark Waterless Hand Wipes	1 Bucket

Line Piercing Valves and Tools

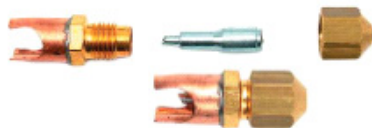

"MAC" – The Ultimate in Line Piercing Valves

Install valve. Connect charging hose. Service. That's all there is to it! MAC features uniport: 1 connection for piercing and servicing. Sealed with refrigerant resistant "O" rings. Needle automatically back seats after servicing, leaving line free of restriction. Connect to tubing with 2 socket-head screws. (Hex wrench is included with each valve.) Needle depressor is inserted into head of needle. Wing cap is turned down easily by hand until line is pierced. Wing cap is removed and system may be serviced with any charging hose with built-in depressor. When hose is removed, spring loaded needle back-seats forming a leak proof seal. Needle depressor is discarded and wing cap forms extra precautionary seal.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
VAL07548	QTM-1	"Mac" 1/4", 5/16", 3/8" O.D. Tube Size	36
VAL07549	QTM-2	"Mac" 1/2", 5/8" O.D. Tube Size	36

Copper Saddle Valve

For copper-to-copper brazing. Penetrates line in one easy operation with no holes to drill. Steel pin with valve core pierces line and is locked into valve body by tightening cap. Teflon ring assures positive seal. Available in sizes from 1/4" to 1-1/8".

TOL01760	VCR-1	Core Remover and Storer	1

DiversiTech

Line Piercing Valves and Tools

Quick-Tap

Similar to Tap-A-Line but features a valve core in the 1/4" male port. Simply pierce the line and back seat the needle. Flow starts when depressor type charging hose is connected. Flow shuts off automatically when hose is removed. If valve core is not desired, it may be removed. Connect hose, pierce line and back seat needle. This method offers full unrestricted flow. Valve core can be removed or changed at any time without loss of refrigerant if needle is front seated.

Permanent Air Filters

DiversiTech Permanent Air Filters

Every filter makes trade-offs between letting too much air through (good for the unit) and trapping too much "stuff" (good for the homeowner). Where is the right balance? What is best for the homeowner and their unit? DiversiTech offers two permanent air filters. Choose the **Red Label Filter** for a good balance between ample air flow and ability to trap dust. Choose the **Blue Label Filter** if you feel greater air flow is needed, perhaps for older units.

RED LABEL FILTER	
0.12 Initial Resistance	76% Average Dust Arrestance
82% Peak Dust Arrestance	147 gm. Dust Holding Capacity
BLUE LABEL FILTER	
0.08 Initial Resistance	67% Average Dust Arrestance
73% Peak Dust Arrestance	99 gm. Dust Holding Capacity

PRO-TREAT Tablets

PRO-TREAT 151 Premium Condensate Drain Pan Treatment

PRO-TREAT 151 premium tablets penetrate and help remove sludge that can plug drain pans and drain lines and foul humidifier pans. PRO-TREAT 151 tablets kill odors associated with slime and sludge, minimizing maintenance problems from overflow and water damage caused by fouled pans, plugged traps, or drain lines. PRO-TREAT 151 tablets are 100% soluble, easy to use, and do not form any deposits in the pan or drain line. Approved for use in computer rooms. Dosage: 1 tablet per 3 tons each month. PROTREAT 153 contains 6 PT-151 tablets per card. PT-151 and PT-153 are EPA registered.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00308	PT-151	PRO-TREAT 151 – 100 Tablets per Jar	12
CHM00310	PT-153	PRO-TREAT 153 – 6 Tablets per Pack	24

PRO-TREAT 152 King-Size Premium Condensate Drain Pan Treatment

King-size premium tablets with the same formulation as PRO-TREAT 151. One PRO-TREAT 152 tablet lasts 3 times longer than the smaller PRO-TREAT 151 tablet. Dosage: 1 tablet per 3 tons every 3 months.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
CHM00309	PT-152	PRO-TREAT 152 King-Size Tablets – 12 per Jar	6

PRO-TREAT 154 Evaporative Air Cooler Cleaner and Deodorizer

Regular use of PRO-TREAT 154 tablets extends equipment life, helps maintain unit efficiency (saving energy) and prevents musty swamp odors from forming. Approved for computer room use. Dosage is determined from the cubic feet per minute of air flow. Typically treatment is one tablet per 5300 CFM.

Refrigerant Charging

Insta-Charge

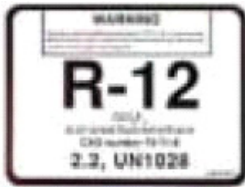

Faster, safer and more economical method for charging LIQUID refrigerant through the low pressure side of an air conditioning or refrigeration system, without damaging the compressor. Insta-Charge's unique internal restrictor reduces liquid flow to a level below the capacity of the compressor. Converts liquid refrigerant to a saturated vapor for fast entry. Insta-Charge connects directly to the refrigerant can or cylinder valve. Adds liquid tracing dye faster. Eliminates heating of refrigerant cylinder. Made of light weight aluminum. Sold at a fraction of the cost of other fast charging devices.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
TOL02456	RC-1	Insta-Charge	1

Refrigerant Labels

DiversiTech Refrigerant ID Labels

These 3" x 4" self-adhesive vinyl labels use a high-tack acrylic adhesive and UV cured screen printing. Color coded to conform to refrigerant labeling convention. Each label indicates the type of refrigerant (eg. R-11), the chemical name (eg. Trichloromonofluoromethane) and the UN No. (eg. UN 1078). Avoid costly mistakes by properly identifying the type of refrigerant contained in recovery cylinders and air conditioning and refrigeration equipment. Custom labels available.

High Temperature Wire, 400° F, 600 V.

7 strand tin coated copper wire with silicone rubber insulation protected by a braided fiberglass jacket. Use on the front of all gas furnaces with spark ignition because of flame roll-out on start up. Also on all power feeds to electric strip and duct heaters. Also used on all heat producing food preparation equipment.

LED00368	CT800	Multi Color Test Leads	1

Replacement Compressor Leads

Extreme heat within compressors typically causes failure of wiring insulation. This can cause corrosion to the inner strands of copper within the wire used for compressor hook-up. This reduces the power flow to the compressor causing the unit to overheat and can prevent the compressor from starting. A MINIMUM of 12" of wire must be removed. The DiversiTech Replacement Compressor Leads are ideal for replacing this corroded wiring. 24" leads also available for replacing wire all the way to the contactor and capacitor.

Wet Switch Flood Detector

A solid state control designed to help prevent flooding, damage to carpets, walls, furniture, ceilings, etc. Turns system off when detecting moisture due to condensate or drain leaks. One or two drops will cause Wet Switch to turn off a unit, alerting a serviceman to a moisture problem. A lit LED indicates the Wet Switch is activated and has turned the unit off. Re-set simply by drying the absorbent pad with a paper towel and momentarily interrupting the power. Connects to 24 VAC. More than one unit may be connected to a system. 2 amp contact rating. Simple 3 wire installation. Sales displays available. U.S. Patent No.4,787,212.

Time Delays/Monitors

007 Control Checker

A lifetime tool for monitoring and checking safety controls and operating controls. One unit for all voltages 24-460 VAC or DC without switching dials or meters. Compact, 4 oz, reliable. Saves troubleshooting. For normally closed controls, 007 connects in parallel with safety control. When the safety control opens in response to a problem in the system, 007 red LED turns on and remains on until reset manually. With intermittent problem, the LED remains on indicating the control is open. For operating controls, 007 verifies the status of all types indicating if there is power to the holding coil, the NC contact is open or closed, the thermostat contacts are open or closed, there is power to the contactor or starting holding coil, the overloads are open or closed, or there is a bad connection either on control or power side. NOTE: May use with lockout relays. Features battery check and reset switch. Includes 9-volt battery. 007 may be used over and over. U.S. Pat. No. 4,092,625.

Time Delays/Monitors

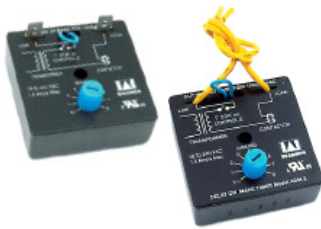

Adjustable Delay on Break Timer

Adjusts from 6 seconds to 8 minutes. Spin-proof knob. Works with 24, 120 or 240 VAC control circuits. Supports up to 1.5 Amps. Two wire hookup for easy installation. Solid state with quick disconnect terminals. Mounts with one self-tapping screw. Conformal coated circuitry protects against moisture and shock. UR recognized for USA and Canada. Works with anticipator type thermostats. **HOW IT WORKS:** Immediately upon application of power, the Delay on Break timer enables circuit operation. Once power is interrupted, the circuit opens for the time set on the dial. After the time period elapses, the circuit closes, allowing the protected motor or compressor to start. For typical HVAC applications, the operation of the timer is transparent and will go unnoticed.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION	STANDARD PACK
TMR00205	ADB-1	Adjustable Delay on Break	1

Adjustable Delay on Make Timer

Ideal for random starting of multiple units. Adjusts from 6 seconds to 8 minutes. Spin proof knob. Works with 24, 120 or 240 VAC control circuits. Supports up to 1.5 Amps. Two wire hookup for easy installation. Solid state with quick-disconnect terminals. Mounts with one self-tapping screw. Conformal coated circuitry protects against moisture and shock. UR recognized for US and Canada. Works with anticipator type thermostats. **HOW IT WORKS:** These timers delay circuit closure upon application of power. Only after the set time period elapses and power remains ON will the circuit close, allowing the protected motor or compressor to start. For typical HVAC installations, timers are adjusted to random times to prevent power circuit overloads. They are sometimes called random start timers.

Digital Three Phase Line Voltage Monitor

Offers continuous protection against voltage anomalies which can damage compressors, motors and other sensitive electrically operated devices.
PROTECTION: Loss of Phase, Phase Reversal, Voltage Imbalance, Low Voltage, High Voltage
DISPLAY: Large custom LCD display indicates all operating conditions at a glance. Three large sets of digits provide easy system troubleshooting.
VOLTMETER: Three independent voltmeters read both line and contactor load (backside) voltages.
MONITORED VOLTAGE: 160 to 600 Volts 50-60 Hz.
POWER SUPPLY: Power for the WPC-500 is automatically derived from any active phase. System operation is not dependent on the control voltage or a specific phase for power.
CONTROL VOLTAGE: 19-277 VAC. Anticipator load is provided for operation with 24 volt electronic and mechanical thermostats.
OPERATING VOLTAGE SET POINT: 175 to 650 VAC. Digitally adjustable in one volt increments.
VOLTAGE TRIP POINT: Adjustable in 1% increments between 6% and 18% of selected operating voltage. Restart voltage set point (hysteresis) fixed at cutout voltage + 3%.
VOLTAGE SYMMETRY: Adjustable imbalance trip point from 2% to 25% of selected operating voltage.
RESPONSE TIMES: Phase Loss/Reversal: 100 mS max. Imbalance: Adjustable Response Timer Over or Under Voltage: Adjustable Response Timer
LOCKOUT DELAY TIMER: Fully adjustable 0 to 720 Seconds (0 to 12 minutes). Digital display shows remaining time and user set points.
SEQUENTIAL START TIMER: 0 to 30 seconds in one second increments.
RESPONSE TIMER: 0.1 to 20 Seconds. Digital display shows remaining time and user set points.
MEMORY: Up to 25 past fault conditions are stored for later retrieval and analysis. The faults may be displayed or cleared by the front panel buttons.

Time Delays/Monitors

Tattle-Tale Control Monitor

Identifies open controls in seconds. A single use monitoring device for determining which, safety control has opened in response to a malfunction. Saves wasted hours tracing a safety control shutdown, even if intermittent.

A quick, inexpensive way to visually spot where the problem is. Simply install in parallel with each safety control. When a control opens, the red indicator flag pops up. You will know immediately which area of the system is experiencing problems. Disposable, safe, simple to use, and pocket sized. Monitors safety controls, fuses, overload relays, motor protectors, freeze controls, limit controls, safety switches, fusible links, or steam control. CAUTION: Not to be used with lockout relays, use TC-007.

Tube and Hose Cutters

Big Helper™ PVC Pipe Cutter

Ratchet style pipe cutters cut up to 2-1/2" Sch. 40 PVC Pipe. Ratchet action requires minimal pressure to easily cut through PVC pipe. Molybdenum stainless steel blade won't rust or break and lasts twice as long as most competitor's. The new Mega-Cutter is now available - the strongest pipe cutter on the market today!

Mark II Molded Plastic Manometers

Dwyer Mark II series molded manometers are of the inclined and inclined-vertical types. The curved inclined-vertical tube of the Model 25 gage provides higher ranges with more easily read increments at low readings. The Model 25 is excellent for general purpose work. The Model 40 inclined gage provides linear calibration and excellent resolution throughout its range. The Model 40 is ideally suited for air velocity and air filter gage applications. Both gage types are capable of pressure measurements above and below atmospheric as well as differential pressure measurements.

Accessories Static Pressure Sensors

These sensors are for use with Manometers, Magnehelic® Gages, Pressure Switches and other Controllers to pick up or sense static pressure drop across air filters and cooling coils, blower input and discharge pressures, etc. The angled tips shown have 4" insertion depth. Each has four radially drilled .040" sensing holes. All except Model A-303 mount in 3/8" hole in duct. For portable use, a magnet holds No. A-303 in place. No. A-305 is used where a very low actuation or sensing point is required on a pressure switch or gage or where response time is critical. No. A-307 and A-308 are suitable for use in low velocity systems or where the need for accuracy is less critical.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
SEN01276	A-302	Static Pressure Tip, for 3/16" and 1/8" ID plastic or rubber tubing
SEN01275	A-301	Static Pressure Tip, for 1/4" metal tubing connection
SEN01279	A-306	Outdoor Static Pressure Sensor, provides average outdoor pressure signal for reference in building pressurization applications, includes sensor, 50 ft vinyl tubing, mounting bracket and hardware
TIP00171	A-301-C	Static Pressure Tip, for 1/4" metal tubing connection with 12" insertion depth

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
SEN01277	A-303	Portable Static Pressure Tip, for 3/16" ID rubber or plastic tubing with 4" insertion
TUB11284	A-201	Rubber Tubing, 3/16" ID, 9 ft length
FLG01114	A-345	Flange, aluminum with gasket and sheet metal screws, 1/8" NPT

Accessories Valves - Connectors

Instrument valves for permanent installation. They mount in part A-316, A-317, type C Manometer connections or Magnehelic® Gage and connect to metal tubing or 1/8" pipe. Gage Connectors for Manometers. Molded nylon construction, threaded .786 x 27 N.S., with O-ring seal.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
VAL08310	A-310A	3-Way Vent Valve, plastic, 1/8" NPT to 1/4" metal tubing. 80 psi rating. Replaces former Model A-310 (brass)
CON01272	A-315	Gage Connector, shutoff type, for 3/16" rubber tubing

Air Filter Kit

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
KIT09668	A-602	Air Filter Kit, accessory package for using switch without a gage, includes two pressure tips with integral compression fittings, two 5' lengths of 1/4" aluminum tubing & two 1/8" NPT to 1/4" tubing compression fittings

Gage Fluids

Gage fluids in the 3/4 ounce size are furnished in unbreakable plastic dispenser type bottles. Larger sizes are supplied in plastic bottles with screw caps. Mercury is supplied only in the single size plastic container. CAUTION: Use only Dwyer fluids in Dwyer gages. Red Gage Oil, .826 sp. gr. The standard fluid for use in inclined manometers, "D" type vertical manometers and all Dwyer gages using red oil.

PMP01707	ASP-HFB1-230	High flow basic size 1 condensate pump, 0.3 gallon tank, 230V

MSA's NFL hard hats meet OSHA head protection requirements, as they are compliant with ANSI Z89.1-2003, Class E. MSA Safety Works hard hats use the same logos as the NFL helmets (only slightly smaller), for an authentic high quality look. The most popular sport in America is football, and MSA Safety Works' NFL Hard Hats give fans a distinctive way to show their team loyalty. These licensed NFL hard hats are now available through ServiceFirst.

Features and Benefits:

- NFL-licensed product drives sales in safety category
- 32 teams available for use at work, home or the game.
- Designed to take all the hardest hits on the jobsite.
- Adjustable nape strap suspension holds that securely in place.
- Nylon crown suspension straps fit comfortably.
- Lightweight and balanced for all-day wear.

Floor Display:

- Buy four cut cases of any team(s) and get a free floor display, including the free display helmet shell. Add a notation to your PRIDE 11i order stating "Send MSA's NFL hard hat display p/n 10046556 at no charge with this order."
- Attracts customers' attention resulting in impulse buying.
- Patented display sets up in less than a minute so you can spend more time selling.

Safety Equipment by MSA Safety Works

NFL Hard Hats

The most popular sport in America is football, and MSA Safety Works' NFL Hard Hats give fans a distinctive way to show their team loyalty. These licensed NFL hard hats are now available through ServiceFirst. MSA's NFL hard hats meet OSHA head protection requirements, as they are compliant with ANSI Z89.1-2003. MSA Safety Works hard hats use the same logos as the NFL helmets (only slightly smaller), for an authentic high quality look.

Features and Benefits

- NFL-licensed product drives sales in safety category
- 32 teams available for use at work, home or the game.
- Designed to take all the hardest hits on the jobsite.
- Adjustable nape strap suspension holds that securely in place.
- Nylon crown suspension straps fit comfortably.
- Lightweight and balanced for all-day wear.

Approvals and Standards

MSA Safety Works Hard Hats meet all applicable requirements of the American National Standards Institute, ANSI Z89.1-2003, Type I, Classes E (Electrical) and G (General). NFL Properties, the NFL and its Member Clubs make no express or implied claims with respect to the effectiveness and safety of these products and have not manufactured or endorsed these products in any way.

Air Cleaners by Dynamic (Electrostatic Polarization)

1" Panel Filters, Carbon, 24 volt

Dynamic Air Cleaners are the next generation of air-cleaning technology. They employ a revolutionary and patented process that has proven itself in commercial, industrial, and medical facilities. Now available for residential applications. Dynamic Air Cleaners will remove the sub-micron particles that other filters miss. Effectively remove allergens, such as pollen, molds, and dust. Become more effective as they load. Keep your entire home cleaner. Easy and economical to maintain.

Electrical Specifications

Main Supply: 120 VAC/60 Hz 220 VAC/50 Hz

Onboard Voltage: 24 volts AC supplied by external transformer

High Voltage Electrode: 6 KV supplied by dynamic power supply

Carbon Media 1-Piece

Dynamic Polarized-Media Electronic Air Cleaners With efficiency of 97% at .3 microns, Dynamic Air Cleaners are unsurpassed for removing particles, odors, VOCs and other airborne pathogens. Yet the biggest feature of the Dynamic Air Cleaner is its versatility. With over 30 standard sizes to fit most furnace filter racks and return air grilles, and custom sizes readily available, dealers have a high efficiency electronic air cleaner to offer to their customers on ANY call--with minimal labor and without any ductwork modifications. Low static pressure. Easy to maintain - media pads are easily replaced two to four times a year. Dynamic Air Cleaners are available in 1" and 2" panels that run on 24V and wire directly to the furnace control board or plug into a standard 110V outlet using an optional plug-in transformer. Always sized for the right cfm. Order using nominal filter size. Actual size is 1/4" less than nominal. First dimension is powerhead side (e.g. 1P1625C24 power head is on 16" side). Retrofit models are also available to fit Aprilaire, SpaceGard, F50, AirBear cabinets.

Energy Recovery Ventilation by VENMATE®

VENMATE® 300-750 CFM

600H Indoor

A new energy-recovery ventilation product offering from VENMATE® has served customers with innovative heat recovery solutions for the residential and commercial markets. VENMATE® products are available from heat recovery ventilators 300 to 2,800 CFM with plate heat exchangers - ideal for pre-cooling or pre-heating outdoor air entering the space to preconditioners 300 to 950 CFM with total energy wheel heat exchangers - ideal for mating to existing rooftop air conditioners to pre-cool or pre-heat outdoor air using building exhaust air which can often extend the cooling and heating capacity of the rooftop air conditioner.

Building codes often require a minimum rate of outdoor air be brought into your building and a similar amount of air be exhausted from the building. In any season, preconditioning the outdoor air with energy from the exhaust air through a flat plate heat exchangers reduces the burden on your main air conditioning and heating systems. This reduction lowers your energy consumption and saves you money.

Energy Recovery Ventilation by VENMATE®

VENMATE® Preconditioner 300-399 CFM

350P Outdoor

300-399 CFM

A new energy-recovery ventilation product offering from VENMATE® has served customers with innovative heat recovery solutions for the residential and commercial markets. VENMATE® products are available from heat recovery ventilators 300 to 2,800 CFM with plate heat exchangers - ideal for pre-cooling or pre-heating outdoor air entering the space to preconditioners 300 to 950 CFM with total energy wheel heat exchangers - ideal for mating to existing rooftop air conditioners to pre-cool or pre-heat outdoor air using building exhaust air which can often extend the cooling and heating capacity of the rooftop air conditioner. Building codes often require a minimum rate of outdoor air be brought into your building and a similar amount of air be exhausted from the building. In any season, preconditioning the outdoor air with energy from the exhaust air through a flat plate heat exchangers reduces the burden on your main air conditioning and heating systems. This reduction lowers your energy consumption and saves you money.

Filter Driers and Sight Glass

ADK Block-Style Liquid-Line Filter-Drier by Emerson Flow Controls

Use with CFC and HCFC refrigerants (R-410A through 16 CI only). ADK series. Emerson Climate Technologies Flow Controls block filter-driers are specifically designed to protect the refrigerant system from liquid and solid contaminants. They incorporate a desiccant specially formulated and blended for maximum moisture, and include advanced materials to remove acid and prevent wax buildup.

AMI Moisture Indicators by Emerson Flow Controls

AMI Series. Single indicator for all common refrigerants. Accurate color calibration (safe, caution, unsafe). Wide-angle viewing. Straight-through flow pattern. High visibility. Exclusive fused-glass eyepiece; no leakage. Easy assembly with standard wrench. Simple O-ring seal construction. Forged solid brass body. SWP: 500 PSI. Burst pressure: 2500 PSI. For CFC, HCFC, and HFC refrigerants including R-410A.

Acid Test Kit by Emerson Flow Controls

The Emerson Climate Technologies Flow Controls Universal Acid Test Kit is a quick and easy test kit for use with all types of refrigeration oils, including polyolester (POE) oils. It contains two bottles and a four-step procedure to provide consistent test results. By changing the percentage of oil sample taken, the acid number of the oil can be accurately determined. The phase separation provides a positive color change regardless of the color or condition of oil. Each kit contains everything needed to conduct one test. When in doubt, use the ACID ALERT UNIVERSAL REFRIGERATION OIL TEST KIT.

CSFD Suction-Line Filter Drier Compact With Access Valves by Emerson Flow Controls

The Emerson Climate Technologies Flow Controls CSFD filter-drier should be used for motor-burnout cleanup applications. It uses a molded desiccant core block that effectively removes and holds a maximum amount of contaminants with a minimum pressure drop. Compressor manufacturers recommend the installation of suction-line filter-driers to protect their equipment from contaminants left in the system after a burnout.

Filter Driers and Sight Glass

Filter-Drier Cores by Emerson Flow Controls

For ADKS and STAS shells. System protectors. Take-a-part liquid and suction cores. 12 per pack unless otherwise noted.

D-48 Standard Capacity Block-The block provides system protection from water and acids in the majority of general-purpose applications. It is used singly or in multiples in shells of 48 through 192 cubic inches.

H-48 and 100 High Capacity Block-The filter-drier block similar to the SC-48, except with much greater water capacities for critical applications or where system conditions indicate the presence of an abnormal amount of water.

W-48 and 100 Burnout Block-A filter-drier block possessing water capacities comparable to the high capacity block, and also featuring activated carbon to afford optimum contaminant cleanup following a motor burnout. This ingredient also provides wax and resin control on R-22 and R-502 low-temperature applications.

A-Series Thermo Expansion Valve, Universal Replacement, By Emerson Flow Controls

The HAA charge is a special high-stability charge designed for R-22 HVAC applications. The HAA widerange charge provides greater superheat stability, allowing (in most cases) two valves to cover a wide range of capacities from 1 to 5 tons. The HAA charge is now available for "A" series expansion valves for R-22 applications.

1. 1.5" Stud Ext., shaft end only, 40°C ambient, double flats and Economizer® rated.
 2. Includes 4 holes in shell for Rheem mount.

Condenser Fan

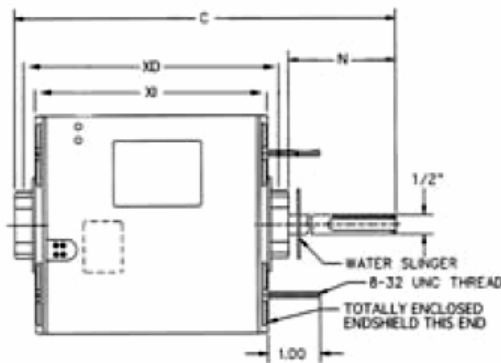

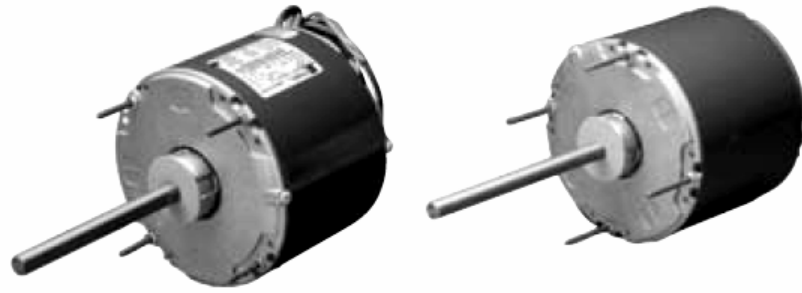

Emerson Permanent Split Capacitor

5.6" Diameter Open Dripproof

Stud Mount, Shaft Up or Horizontal, Without Capacitor

Features

- High efficiency Economizer® rated (except as noted)
- 60 Hz
- Capacitor mounting holes in frame band
- Continuous duty, air over
- Water slinger
- Designed for 370V capacitors
- Automatic thermal overload protector
- Sleeve bearings have all angle thrust system
- Green ground lead
- Reversible
- Class B insulation
- Extended studs are 8-32 unless
- Otherwise noted
- 30" leads
- Double flats on shaft
- Enclosed end shield at shaft end

2. Not Economizer®, Class B Insulation, Studs shaft side only, Ball bearings.
3. No stud extension.

Replacement Motors

Direct Drive Fan and Blower

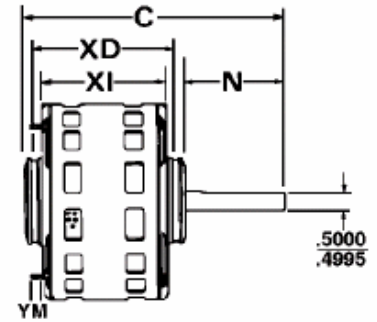

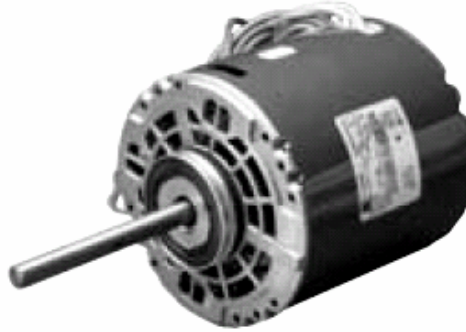

Emerson Permanent Split Capacitor

5.6" Diameter Open

Permanent Split Capacitor, 5.6" Dia., Stud or Hub Ring Mount (2.5"), with Capacitor - Single Speed

Features

- Reversible
- Class A insulation
- Sleeve bearing motors have all angle thrust system
- Continuous duty, air over
- Designed for 370V capacitors
- 24" line leads unless otherwise noted
- Automatic thermal overload protector
- Connection and capacitor information furnished in the nameplate data
- When furnished, the capacitor and its mounting hardware is supplied detached
- 2.5" diameter hub rings included

Belted Fan and Blower

Emerson Split Phase

Open Dripproof

Resilient Base - Single Speed (48/56 Frame)

Features

EZ-Fit®

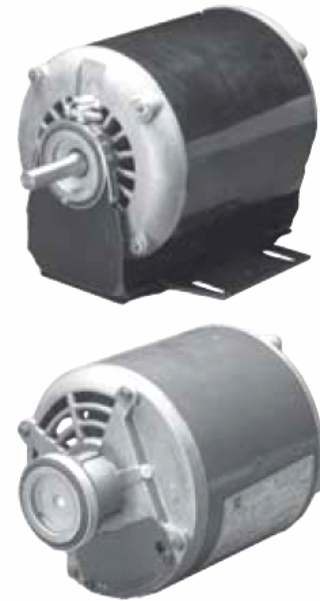

- Extra long hub with sliding hub ring at terminal end
- Adjusts to most base lengths
- Includes shaft adapter for conversion to 5/8" shaft
- Additional expanding metal outer rings allow fit to either 2-1/4" or 2-1/2" diameter mounting

Dual Base

- 48 frame diameter motor supplied with both 56 and 48 frame bases
- Includes shaft adapter for conversion to 5/8" shaft
- Reversible

48/56 Frame

- 48 frame diameter motor on NEMA 56 base
- Includes shaft adapter for conversion to 5/8" shaft
- 3 1/2" shaft height
- Reversible

Replacement Motors

Fan and Blower

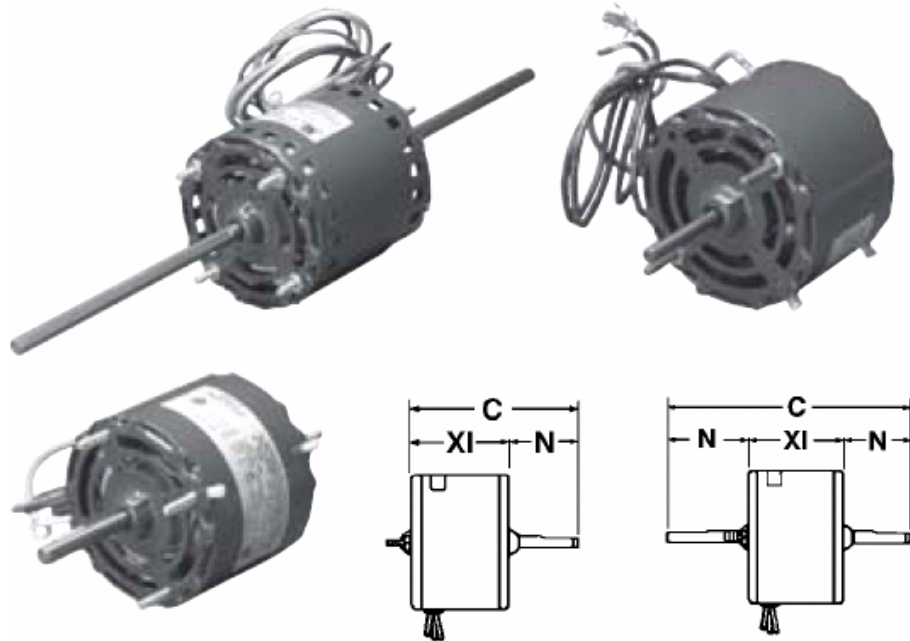

Emerson Shaded Pole

3.3" Diameter Open, Air Over

Stud Mount, (4), Both Ends - 2 Speed (Figure A)

Features

- Four motors replace most original 21 frame GE motors
- Sleeve bearings
- Holes provided for attaching a BX connector
- Resilient hub rings, 2 1/4" diameter
- Rotation CCW lead end except 1468
- 30" leads
- Dual voltage easily changed by quick connects
- Class B insulation
- 3/8" diameter shafts with 1/2" adapters
- Extended thru-bolts
- Automatic thermal overload protector
- Mounting bracket provided at shaft end:
 1. Can be moved on extended-thru bolts to fit existing base
 2. Has mounting holes and bolts to match 21 frame bolt circle for stud mounting
 3. Can be resilient mounted, band mounted or end mounted.

Replacement Motors

Air Moving Motors

GE Commercial Motors by REGAL-BELOIT

Furnace Blower, Belt Drive, Single Phase

Single Phase - Split phase - open - resilient base

Features:

- Ball bearings
- Reversible rotation
- 48Y frames have mounting holes for both 48 and 56 frame

Applications

Designed for replacement of virtually any NEMA 48 and 56 frame belt drive furnace blower motors. PDQ models have 1 1/2" extended splined hub on opposite shaft end for quick and easy positioning of resilient ring to properly fit the pre-existing motor base.

SERVICEFIRST ITEM NO	HP	RPM	Volts	NEMAFram e	SF	PROT	Base	FLA @ NP	Cat.#

Direct Drive Furnace & Central Air Conditioning Single Phase

Single Phase - Permanent split capacitor - 5 1/2" diameter - two & three speed

Features:

- Reversible rotation
- Mounting holes in shell for capacitor bracket
- Designed for 370 Volt capacitor (not furnished)
- 4" shaft extension
- Extended clamp screws on shaft end with a ring kit provided
- Ring kit allows both 2 1/4" and 2 1/2" resilient ring mounting
- Automatic thermal overload protection

Applications

Designed for continuous air over applications, such as furnace blowers or central air handling units with single shaft requirements.

Air Moving Motors

GE Commercial Motors by REGAL-BELOIT

Life-Line™ Multi-Horsepower Motors, Single Phase

Single Phase - Direct drive fan & blower

Features:

- Permanent split capacitor
- Automatic thermal overload protection
- Ball and sleeve bearings
- Holes in motor shell for mounting brackets
- Different capacitor/speed combinations to fit various HP applications
- Class B insulation
- Extended clamp screws and resilient rings to fit multiple mounting requirements

Applications

Designed for continuous air over applications, such as direct drive residential, commercial and industrial air conditioners, fan and blowers.

Replacement Motors

Air Moving Motors

GE Commercial Motors by REGAL-BELOIT

Life-Line™ Multi-Horsepower Motors, Split Phase

Split Phase - Condenser fan & heat pump

Features:

- Permanent split capacitor
- Automatic thermal overload protection
- Ball bearings
- Water slinger on shaft
- Different capacitor/speed combinations to fit various HP applications
- Class B insulation
- Designed for 370 Volt capacitor
- Holes in motor shell for mounting brackets
- Extended clamp bolts or studs for mounting

Applications

Designed for condenser fan and heat pump units requiring vertical shaft up or vertical shaft down positioning with "belly band" or extended clamp screw mounting.

Air Moving Motors

GE Commercial Motors by REGAL-BELOIT

Condenser Fan & Heat Pump, Single Phase

Single Phase - Permanent split capacitor - shaft up or down application

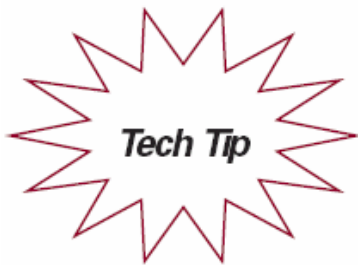

Features:

- Sleeve or ball bearings
- 26" motor leads
- Water slinger on shaft
- 6" shaft extension with 2 flats 90° apart
- Mounting holes in shell for capacitor bracket
- Designed for 370 Volt capacitor

Applications

Designed for condenser fan and heat pump units requiring vertical shaft up or vertical shaft down positioning with "belly band" or extended clamp crew mounting.

On PSC motors, capacitor should always be replaced with the motor. Be sure to use the correct value for the replacement motor!

Replacement Motors

General Purpose, Three Phase

U.S. Motors

Open Dripproof EPACT Energy Efficient

Features:

- Fully comply with EPACT '92 and NRCAN efficiency standards
- Suitable for wye-delta start on 250T frame and larger
- Dual voltage ratings suitable for part wind start on lower voltage
- Full 50 and 60 Hz operating data on nameplate (Yes 50 Hz)
- Voltage on 50 Hz is 190/380
- Class F insulation system, class B rise at service factor
- NEMA Design B performance (60Hz)
- 56-320T rolled steel frame construction
- 360T-404T cast iron frame construction 1.15 service factor on 60 Hz, 1.0 on 50 Hz

Typical 213T Frame, F1 construction

*F1 construction: Conduit Box on left hand side of motor when facing motor shaft.

**F2 construction: Conduit Box on right hand side of motor when facing motor shaft.

General Purpose, Three Phase

U.S. Motors

Totally Enclosed Fan Cooled Premium Efficient

Features

- Exceeds EPACT '92 and NRCAN efficiency standards
- Class F insulation system, class B rise at service factor
- NEMA Design B performance (60Hz)
- 140T steel frame construction
- 180T-280T aluminum frame construction
- 320T-405T cast iron frame construction
- 1.15 service factor

Typical 320T Frame, F1 Construction

Replacement Motors

Cooling Tower Duty Motor

U.S. Motors

New Cooling Tower Duty Motor A Premium Plus Product

- Cast Iron Construction (140 frame rolled steel)
- Inverter Grade Wire
- 100% Solids Polyester Varnish (Double Dip)
- Double Sealed Ball Bearings
- Exxon Polyrex EM Grease
- Heavy Gasketed Conduit Box and Cover
- Sealed Bracket-to-Frame Registers and Lead Openings
- Forsheda V-Ring
- Umbrella-Type Seal for Shaft-up Mounting
- Condensation Drains for Multi-Position Mount

Special Application Three Phase

U.S. Motors

TEFC, Cooling Tower Duty Energy Efficient, 2-speed, 1-and 2-winding

Features:

- Pulse Endurance "Tough Coat" Inverter Grade® Wire
- NEMA Design B performance (4)
- Class F insulation, 1.15 Service Factor @ 60Hz
- 40°C ambient continuous duty
- Exxon Polyrex EM® grease
- Double Dip and Bake 100% Solids Insulation on Windings
- Double sealed bearings
- Cast iron end-shields
- Corrosion resistant mill and chemical duty paint
- Corro-Duty Treatment on Rotor and Shaft
- Forsheda V-Ring on pulley end for IP 54 protection
- External Umbrella-Type Seal for W-8 (Shaft Up) Mount
- Stainless steel nameplate and zinc plated hardware
- Cast iron frame construction 180T frame and larger, steel frame construction 140T frame
- Designed for Horizontal or Vertical (Shaft Up) Mounting
- Condensation drains with plastic plugs
- Horizontal Lifting Provisions on 180T frame and larger
- Vertical Lifting Lugs Available with Conversion
- Suitable for Direct-Connected or Belted Loads (per NEMA specifications and tolerances)
- Heavy Gasketed Conduit Box, F-2 Position Standard
- Convertible to F-1 Position as USEM Conversion
- Sealed Bracket-to-Frame Registers and Leads
- Lead-positioning Gasket with Sealant 140T-250T frame
- Potted Leads 280T frame and larger
- Additional Options Available (See "Conversions - Modifications - Accessories" Section)

Typical 184T Frame

TEAO, Cooling Tower Duty Energy Efficient, 2-speed, 1-and 2-winding

Features:

- Pulse Endurance "Tough Coat" Inverter Grade® Wire
- NEMA Design B performance
- **See Min. Air Velocity Chart This Section**
- Class F insulation, 1.15 Service Factor @ 60Hz
- 40°C ambient continuous duty
- Exxon Polyrex EM® grease
- Double Dip and Bake 100% Solids Insulation on Windings
- Double sealed bearings
- Cast iron end-shields
- Corrosion resistant mill and chemical duty paint
- Corro-Duty Treatment on Rotor and Shaft
- Forsheda V-Ring on pulley end for IP 54 protection
- External Umbrella-Type Seal for W-8/W-5 Mount
- Stainless steel nameplate and zinc plated hardware
- Exxon Polyrex EM® grease
- Cast iron frame construction 180T frame and larger, steel frame construction 140T frame
- Designed for Horizontal or Vertical (Shaft Up or Down) Mounting
- Condensation drains with plastic plugs
- Horizontal and Vertical Lifting Provisions on 180T frame and larger
- Suitable for Direct-Connected or Belted Loads (per NEMA specifications and tolerances)
- Heavy Gasketed Conduit Box, F-1 Position Standard
- Convertible to F-2 Position as USEM Conversion
- Sealed Bracket-to-Frame Registers and Leads
- Lead-positioning Gasket with Sealant 140T-250T frame
- Potted Leads 280T frame and larger

Additional Options Available (See "Conversions - Modifications - Accessories" Section)

Typical 184T Frame

The Nameplate tells the story

Model or Catalog Number

- One of the most important items on the nameplate of a motor that needs to be replaced.

Rated Volts

The most frequently occurring domestic voltages are 230 and 460. In Canada 575 volts is common. Standard induction motors are designed to tolerate voltage variations plus or minus 10%. A motor with a nameplate voltage rating of 230 could be expected to give satisfactory performance when supplied with power ranging from a low value of 207 to a high extreme of 253 volts.

Rated Frequency and Number of Phases

This indicates the frequency for which the motor is designed in Hertz (cycles per second). 60 Hz power is utilized throughout the United States, Canada and most of Latin America. 60 Hertz is also used in a few foreign countries; however, 50 Hertz is dominant elsewhere. If motor is used in U.S., you don't need a 50/60 Hz rating. A 3 phase motor can't be used on single phase.

Rated Full Load Speed

The speed at which the motor will run under full torque conditions when applied voltage and frequency are held constant at the rated values. On standard induction motors, the rated full load speed will normally be between 94 and 96% of synchronous speed. Match the rated speed within 3%.

Rated Speed	Synchronous Speed	Number of Poles
3450	3600	2
1725	1800	4
1140	1200	6
850	900	8

The formula for obtaining the synchronous speed is:

$$S = 120 \times \frac{F}{P}$$

Where:

S = Speed in revolutions per minute

F = Frequency in Hertz

P = Number of poles in motor

Rated Ambient

Heat is a Critical Item Relating to Life. The maximum allowable safe operating temperature occurring at the hottest spot within a motor is determined by: 1. The thermal capability of all the insulating materials used within the motor. This is insulation class and is on the nameplate. 2. The heat created within the motor due to losses. This is the temperature rise and not on the nameplate. 3. The temperature of the air surrounding the motor. This is the ambient temperature and is on the nameplate. Common Ambient is 40°C. Matching the Rated Ambient is the most important.

Time Rating

General purpose motors will be rated for continuous duty. You can always replace a motor which is not designed for continuous duty with one that is designed for continuous duty.

Rated Horsepower

This represents the rated mechanical power output. When application horsepower requirements fall between two standardized values, choose the larger size. This adds a margin of safety that will reduce the motor's operating temperature rise and extend the operating life of the motor.

Standard Horsepower Ratings

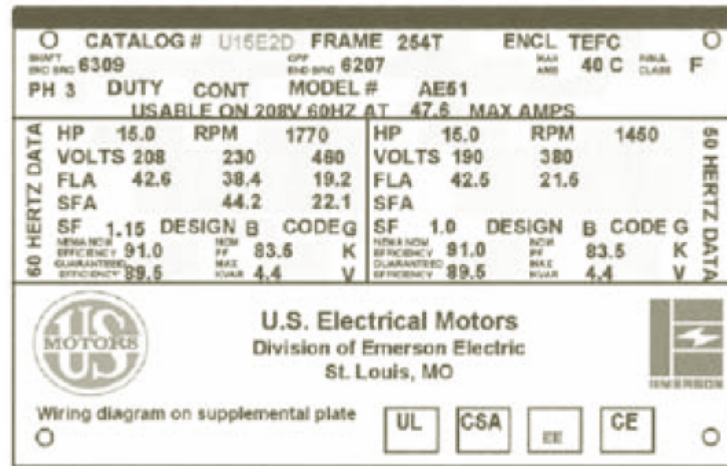

1 thru 100 HP	
1	30
1-1/2	40
2	50
3	60
5	75
7-1/2	100
10	
15	
20	
25	

Motor Service Factor

- An AC motor is suitable for continuous operation at rated load under usual service conditions. When the voltage and frequency are maintained, the motor may be overloaded up to the horsepower obtained by multiplying the rated horsepower by the service factor shown on the nameplate. 3 HP X 1.15 = 3.45 HP
- If a motor has a service factor, replace it with one that has an equal or better service factor or go to the next highest HP.

Purposes

- To accommodate inaccuracy in predicting system horsepower needs.
- To lengthen insulation life by lowering winding temperature at rated load.
- To handle intermittent or occasional overloads.
- To allow occasionally for ambient above 40°C.
- To compensate for low or unbalanced supply voltages. Use 230 volt motor with service factor for 200 volt line.

Replacement Motors

The Nameplate tells the story

Enclosure Types

The motor enclosure must protect the windings, bearings and other mechanical parts from moisture, chemicals, mechanical damage and abrasion from grit. The most popular types of enclosures are:

• Open Dripproof

The ODP motor has a free exchange air with the ambient; drops of liquid solid particles do not interfere with the operation at any angle from 0 to 15° downward from the vertical. You can use an enclosed motor for replacement in a pinch.

• Totally Enclosed Fan Cooled

The TEFC type enclosure prevents free air exchange but still breathes air. A is attached to a stub shaft at the opposite load end and pushes air over the frame during operation to help in the cooling process. You cannot use open motor to replace it.

• Explosionproof

The Explosionproof type motor is totally enclosed and designed to withstand an explosion of a specified gas or vapor inside the motor casing and prevent the ignition outside the motor by sparks, flashing, or explosion. Type C, D, E, F, G. You must replace this exactly.

• WPI & WP11

These are modified ODPs, with filters, screens, guarded pipe-vent, etc.

• Totally Enclosed Non-Ventilated

The TENV enclosure does not utilize fan for cooling - but is used in situations where no air is being blown over the motor shell for cooling.

• Totally Enclosed Air Over

This motor relies on the driven fan load to provide cooling air. Do not use in other applications.

• Frame Designation-Size

Motor frame dimensions have been standardized with a uniform frame size numbering system. Based on enclosure, horsepower and speed. The NEMA system for designating frames consists of a series of numbers in combination with letters:

– For Integral HP motors, the first two digits of the frame number are equal to four times the D dimension (shaft height). 256 frame has a shaft height of 25/4 or 6.25".

– The third and, when required, the fourth digit of the frame number is obtained from the value of 2F (distance between mounting holes when viewed from side).
– Covers from 143T to 445T, most motors in the range of 1 through 200 horsepower.

• You must use the same frame size.

Frame Designation-Types

• "T" Frame

– Current NEMA standard
– Re-rated (frame size reduction) because of advancements in motor technology relating mainly to higher temperature ratings of insulating materials, improved magnetic steels and improved bearings

• "U" Frame

– Used between 1952 and 1964
– In many automotive manufacturing and some process industries, there is still a preference for the "U" frame. Frame is larger, more material, than an equivalent "T" frame motor

• "Original" Frame

– Pre-1952

Frame Designation-Suffixes

• The following letters immediately follow the frame number to denote variations:

– C Type C Face Mounting
– D Type D Flange Mounting
– HP, HPH, Type P Flange Mounting for LP, LPH Vertical Solid Shaft
– P, PH Type P Flange Mounting for Vertical Hollow Shaft
– JM, JP Type C Face Close Coupled Pump Mounting
– S Standard short shaft for direct connection
– T Current NEMA frame designation
– U "U" Frame Automotive Duty
– V Vertical Mounting
– VP Type P Flange Mounting for Vertical Solid Shaft
– Y Special Mounting Dimensions. Be careful of these.
– Z Standard Mounting Dimensions except Shaft Extension. Be careful of these.

Your replacement must have the same suffix letters.

Torque Characteristics

- Design A (and Design E)
 - Normal Starting Torque
 - High Starting Current
 - Brief heavy overloads, such as an injection molding machine. Can B.
- Design B
 - Normal Starting Torque
 - Low Starting Current
 - General purpose applications. Superstandard. Replaces A & E.
- Design C
 - High Starting Torque
 - Low Starting Current
 - Starting heavy loads. Cannot use
- Design D
 - High Starting Torque
 - Low Starting Current/ High Slip
 - High slip, such as a low speed punch press with a heavy flywheel, or hoisting applications. Cannot use

Additional Nameplate Data

• Bearing Part Numbers

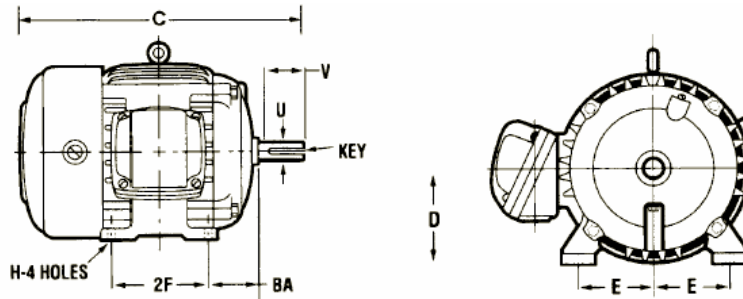

– Bearing part numbers are shown the nameplate so that, when required, procurement of replacement bearings can be made prior to taking the motor offline.
– You should not use a replacement motor with a smaller size bearing.

• Unique or Special Features

– This information could include special features such as refined balance, special insulation treatments, space heaters, internal motor overheat protection or any of many other special construction features.
– If the motor to be replaced has these, your replacement should also. This is particularly true of overheat protection.

Replacement Motors

Motor ID Guide

Replacement Motors

ID Guide designed for single phase HVAC motors. Manufactured under Nema standards.

Introduction

The Motor Identification Guide has been prepared as an aid for the speedy replacement of unknown motors. In order to keep it simple and uncomplicated for the non-technical user, it has been designed to identify most but not all of the NEMA standard HVAC motor replacements used in residential and light commercial applications. The Guide does not address the replacement of three phase and capacitor start-capacitor run motors.

To identify the defective unknown motor, start at the Flow Chart on the first page and identify the type of motor. To determine the correct speed(s), go to the Determining Speed Section for the particular type of motor. All of the other information needed to determine the correct replacement can be found in the General Information Section.

Preidentification Motor Check List

Motor Type: Shaded Pole, Permanent Split Capacitor, Split Phase, Capacitor Start

Speed(s): Typical Nameplate RPM

No. of poles	Synchronous RPM	Split Phase & Capacitor Start	Permanent Split Capacitor	Shaded Pole
2	3600	3450	—	3000
4	1800	1725	1625	1550
6	1200	1140	1075	1050
8	900	840	825	—

Frame Size 42 Fr 48 Fr 56 FR
or or or
Diameter: 3.3 in. 4.4 in. 4 ^{7/8} in. 4 ^{1/2} in. 6 ^{1/4} in.
Horsepower: 1/100 to 1/6 usually shaded pole
 1/6 to 1/2 usually PSC or Split Phase
Enclosure: Open Air Over Open Drip-Proof Open One End Enclosed Totally Enclosed Air Over
Type: Totally Enclosed Non Vented Totally Enclosed Fan Cooled
Voltage: 115 208 230 277 460
Mount Rigid Base Torsion Flex Cradle Mount Flange Mount
Type: Stud Mount Adjustable Band Double Wire Ring
Lead Wires: White Black Green Purple Yellow Brown Red Blue Violet
Rotation: Clockwise Counterclockwise
Bearings: Ball Sleeve (Oil Holes have Yellow Plugs)

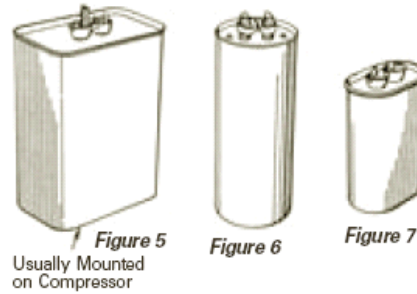

Replacement Motors

Motor Types

Does it have 1 or more brown leads? → Yes
and / or
Does it have at least one capacitor? → Yes

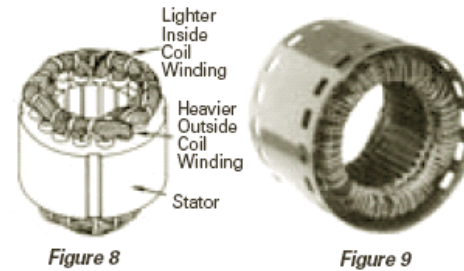

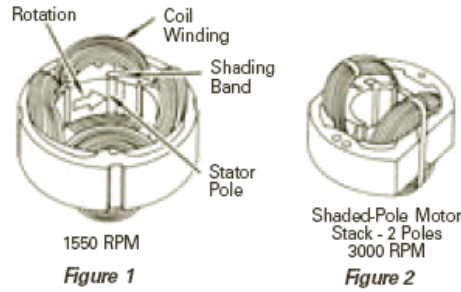

Does the capacitor have a metal case and one of these three shapes? → Yes → Go to Permanent Split Capacitor
(Figure 5) (Figure 6) (Figure 7)

Does it have visible pole pieces? → Yes → Shaded Pole
(Figure 1) (Figure 2) (End Plate must be removed for visual inspection)

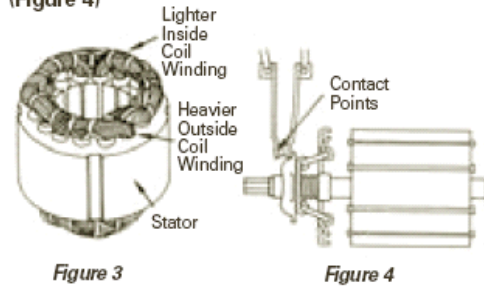

Shaded Pole motors have individual stator coil windings and a copper band (shading coil) around one side of each stator pole (Figure 1) (Figure 2).

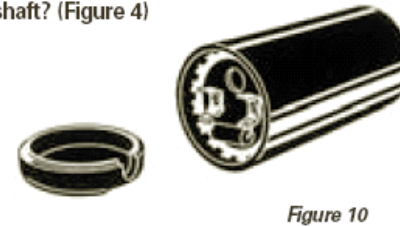

Permanent Split Capacitor motors have a connected capacitor. There are also coils wound around the stator face (Figure 8) (Figure 9).

Does it have two internal windings (Figure 3) and a switch mechanism on the shaft? → Yes → Go to Split Phase (Figure 4)

Does the capacitor have a round, black, plastic case (Figure 10) and does the motor have an internal switch on the shaft? → Yes → Go to Capacitor Start

The centrifugal switch (Figure 4), which is concealed inside the motor frame, is controlled by the speed of the motor shaft. The switch closes automatically at low speeds and opens at high speeds.

No → Must Be 3 Phase Motor
Not Covered in Guide

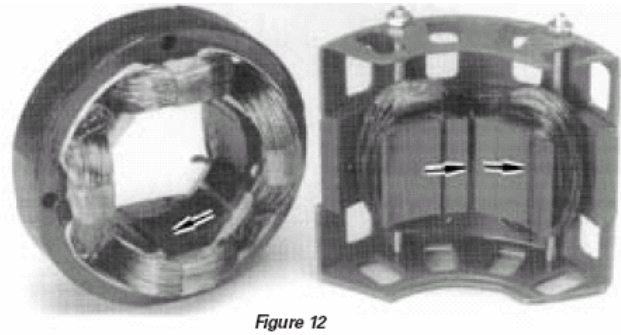

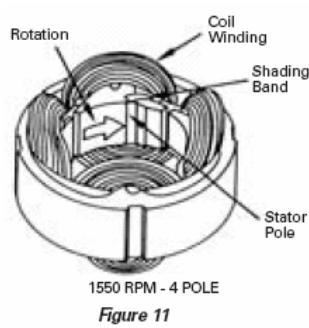

Are there at least 2 capacitors? → Yes → Must Be Capacitor Start Capacitor Run
One of the capacitors must be a round black plastic and the other metal oval.

Not Covered in Guide

Speed Shaded Pole

Determining Shaded Pole Speeds

Shaded Pole motors have individual stator coil windings and a copper band (shading coil) around one side of each stator pole (Figure 11) (Figure 12 and Figure 12A).

To determine the speed for a single speed motor, count the poles and refer to Chart A.

Chart A

Number of Poles	Normal High Speed
2	3000 RPM
4	1550 RPM
6	900 to 1150 RPM

Check the colors on the wiring to determine if it is multiple speeds (Diagram 2). The number of poles from Chart A determines the highest speed.

Typical Wiring Diagram for Shaded Pole Motors with standard wiring color codes as used by most manufacturers (Diagram 1 and Diagram 2).

For Direction of Rotation, Rotates towards shading.
 Rotation

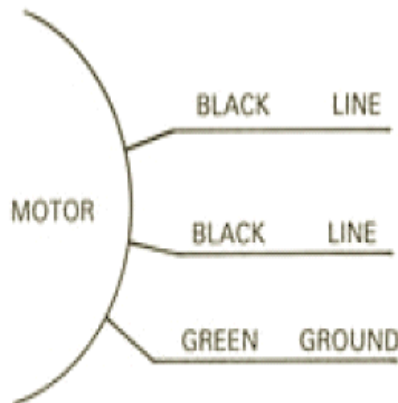

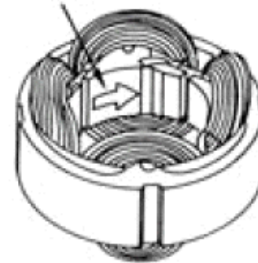

Diagram 1 - Single Speed

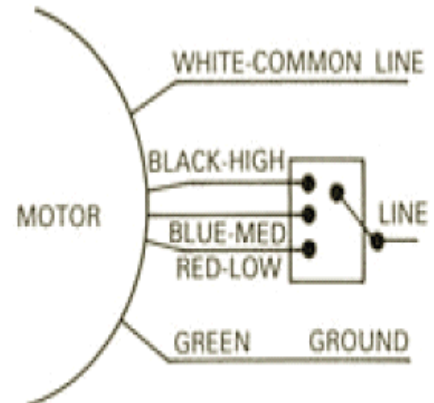

Diagram 2 - Three Speed

Replacement Motors

PSC Speed

Determining PSC Speed

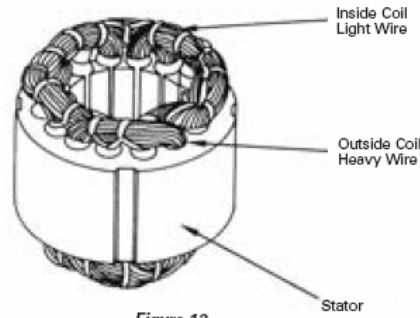

Figure 13

Figure 13A

Count the number of coils on either the inside or the outside set for single speed. For multiple speeds, the number of coils in either the inside or outside set will determine the highest speed (Chart B). PSC Motor: Two rows of windings distinguish PSC motors. Main windings are typically located on the outside. Start or auxiliary windings are located on the inside (Figure 13 and Figure 13A).

Chart B

Number of Coils	Normal High Speed
4	1625 RPM
6	1075 RPM
8	825 RPM

See Figure 24 for more information on counting coils.

For multiple speeds refer to the following charts.

Permanent-Split Capacitor motors have many different kinds of wiring arrangements. The standard for most manufacturers is shown (Diagram 3) (Diagram 4) (Diagram 5) (Diagram 6).

Typical Wiring Diagram for P.S.C.

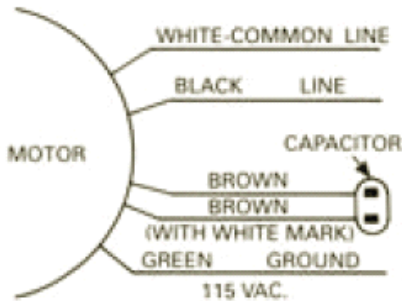

Diagram 3 - Using 2 Capacitor Leads

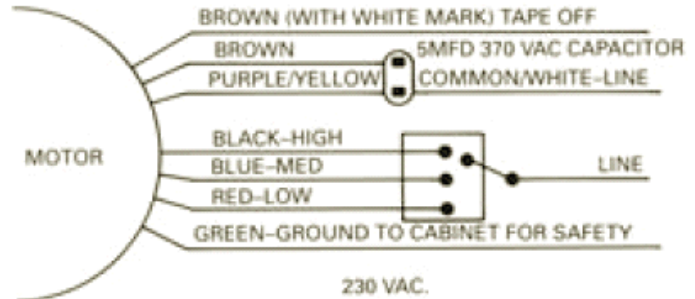

Diagram 5 - Using 1 Capacitor Lead

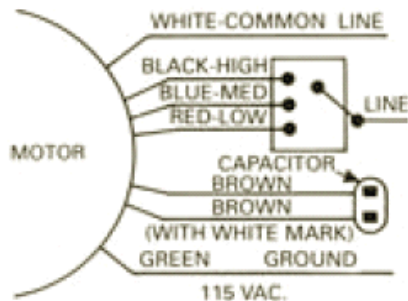

Diagram 4 - Using 2 Capacitor Leads

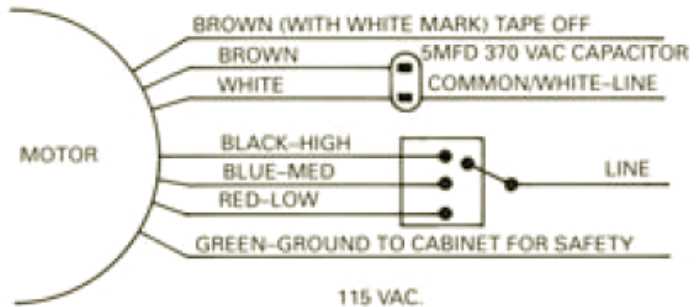

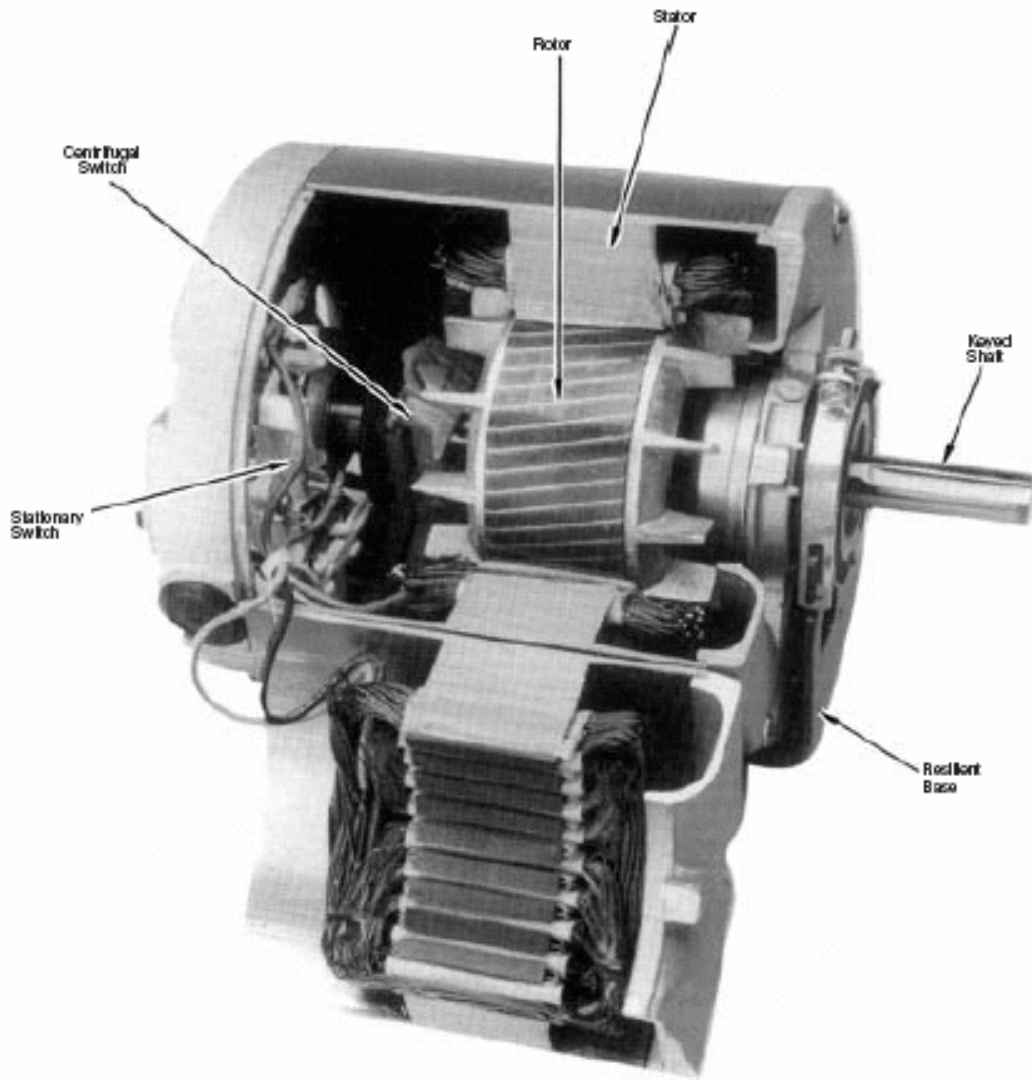

Diagram 6 - Using 1 Capacitor Lead

Speed Split Phase
Split Phase

Replacement Motors

Speed Split Phase

Determining Split Phase Speed

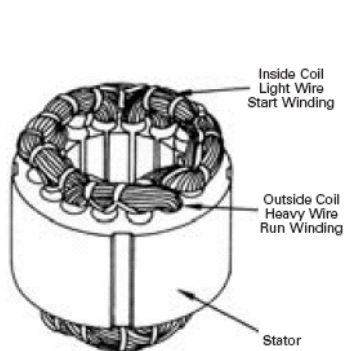

Figure 14

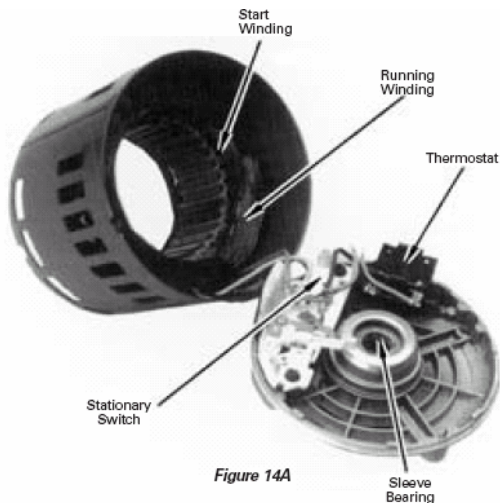

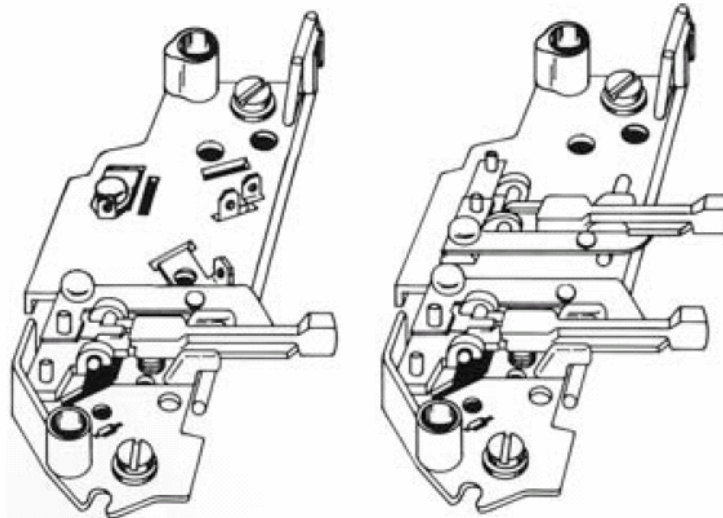

Figure 14A

1 Speed Switch

2 Speed Switch

Count the number of coils on either the inside or the outside set for single speed (Figure 14). For multiple speeds, the number of coils in either the inside or outside determine the highest speed (Chart C).

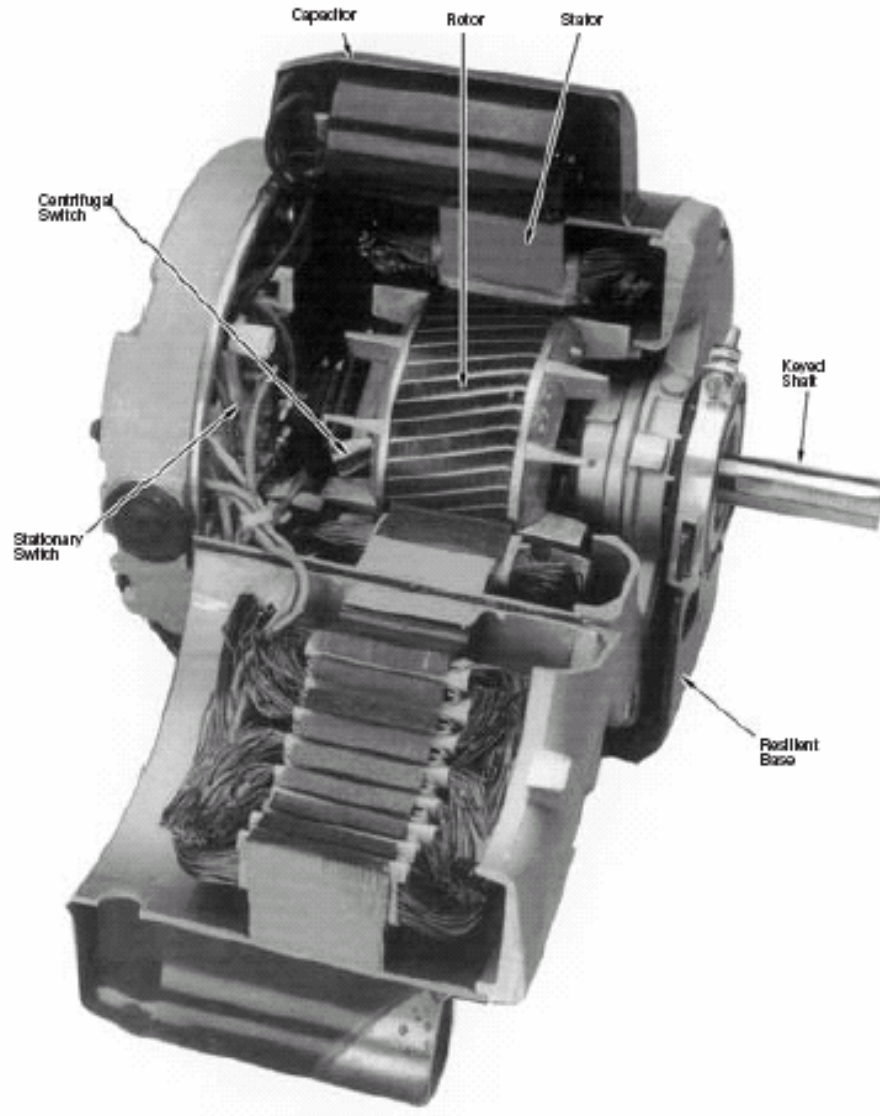

See Figure 24 for more information on counting coils.

Chart C

Number of Coils	Normal High Speed
2	3450 RPM
4	1725 RPM
6	1140 RPM
8	840 RPM

- Motors with multiple sets of switch contacts are multiple speeds.

Speed Capacitor Start

Replacement Motors

Speed Capacitor Start

Determining Capacitor Start Speeds

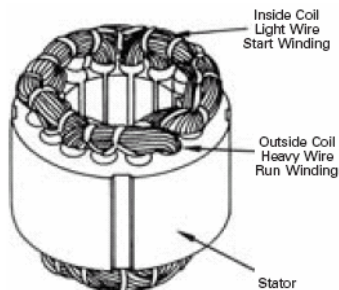

Figure 15

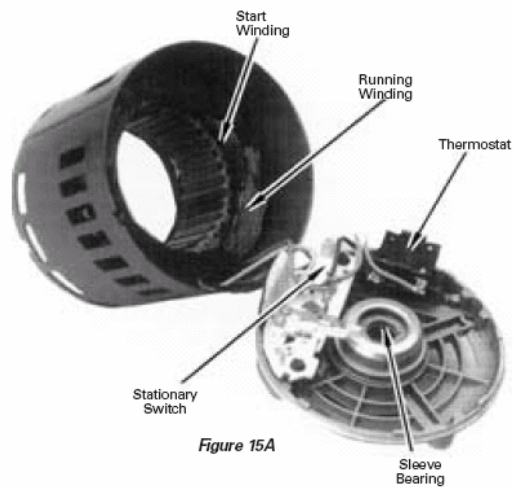

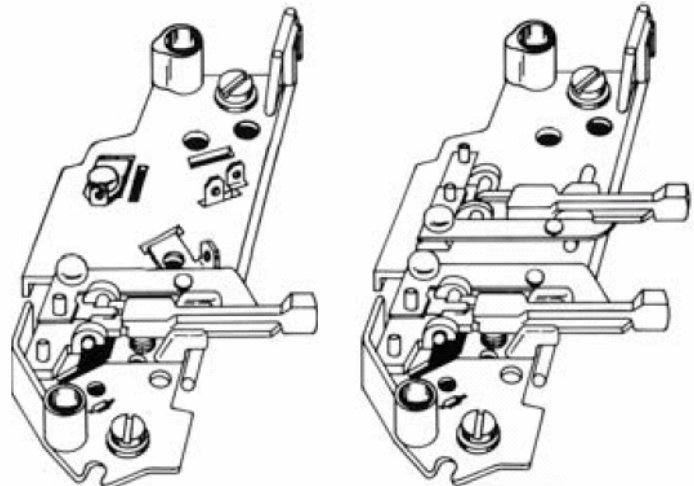

Figure 15A

1 Speed Switch

2 Speed Switch

Count the number of coils on either the inside or the outside set for single speed Figure 15). For multiple speeds, the number of coils in either the inside or outside determine the highest speed Chart D).

See Figure 24 for more information on counting coils.

Chart D

Number of Coils	Normal High Speed
2	3450 RPM
4	1725 RPM
6	1140 RPM
8	840 RPM

- Motors with multiple sets of switch contacts are multiple speeds.

General Information

Frame Size

The Nema chart is the National Electrical Manufacturer's Association coding for motor frame size and mounting construction. The frame designation refers to the number of 16/ths of an inch from the shaft center line to the base mounting dimension. For example, a NEMA 48 frame is 48/16th's or 3 inches from shaft center line to the base. Frame size is associated with split phase and capacitor start motors because they are typically base mounted. Shaded pole and permanent split capacitor motors are normally not base mounted and are designated by diameter

rather than frame size. The diameter can be determined by measuring the diameter of the motor at the face of the end shield. Find the corresponding frame size on Chart E.

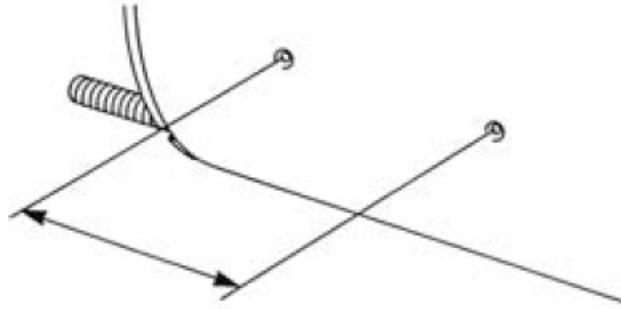

Chart E

Motor Diameter (+ or - 1/4)	Frame Size
6 1/4"	56 Frame
5 1/2"	48 Frame
4 7/8"	42 Frame

Determining Horsepower

Generally, motors of the same type, same number of poles, same diameter, and same stator stack length are the same nominal horsepower. The stator stack length can be determined by measuring the core dimples that are created when the stator core is staked to the shell by the manufacturer. Measuring these dimples will give a close approximation of the stack length. See Figure 15B. A more precise method would be to remove the ends shields to get into the stator bore and measure the stack. The stator stack length for multiple speed PSC and shaded pole motors will be slightly longer than a single speed motor of the same horsepower.

For examples of 42 and 48 frame stack to horsepower relations, see Chart F on horsepower vs. stack length.

Motor Enclosure Types

Always try to match the replaced motors ventilation. Poor cooling will cause overheating.

Hint: In most applications a totally enclosed can be substituted for an open motor. Do not replace totally enclosed motors with open.

Open - Has ventilation holes in shell and/or endshield. Used in dry, clean areas. Air moving over the coils produces maximum ventilation.

OPAO - Open Air Over, must be mounted in the airstream

Hint: Probably a direct drive blower or fan motor.

OPDF pf - Open Drip-proof, openings are located to prevent drops falling from less than 15 degrees from vertical. Usually both endplates and the top half of the motor is enclosed.

Hint: Probably a belted blower motor.

One End Enclosed - For use in vertical positions with the shaft either up or down. The up facing end shield is enclosed to prevent rain from entering.

Hint: Probably a condenser fan motor.

Totally Enclosed - Has no openings in either the shell or endshield. Used in dirty moist areas.

TEAO - Totally Enclosed Air Over, must be mounted in airstream produced by the driven fan or blower.

Hint: probably a direct drive blower or fan motor.

TENV - Totally Enclosed Non Vented, not necessary to mount in airstream.

Hint: Drives a belted fan in dirty locations.

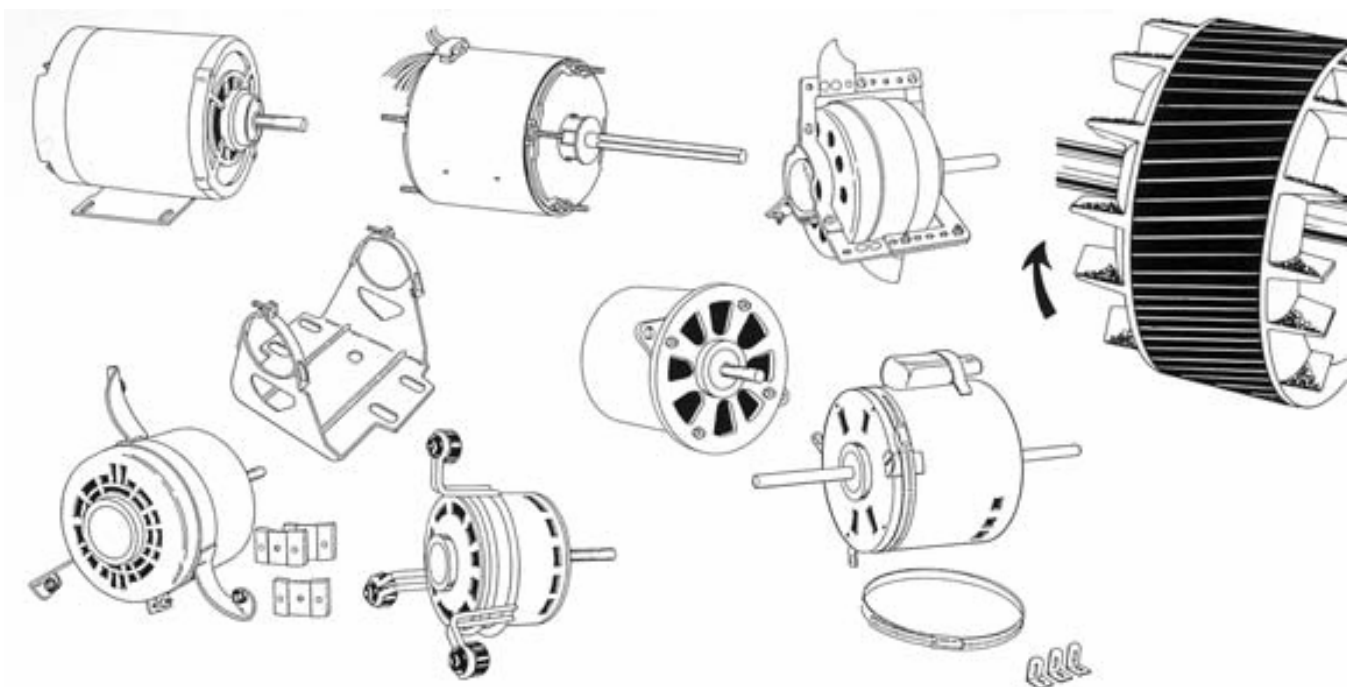

TEFC - Totally Enclosed Fan Cooled, has an external fan directly mounted to the motor shaft. Usually a shroud surrounds the fan and directs cooling air over the motor.

Hint: Usually mounted in dirty areas with reduced or no air flow.

Replacement Motors

General Information

Motor Mountings

Wiring Color Code for Shaded Pole and P.S.C. Motors

White - 115 Volt Common Black - Hi Speed Yellow or Purple - 120 Volt Common Blue - Medium Speed Green - Ground Red - Low Speed Brown - Capacitor leads. Capacitor leads usually have flag connectors. OEM motors usually have one capacitor lead and replacement motors usually have two capacitor leads. One of the two capacitor leads on a two lead motor has a white stripe.

Rotation

Most manufacturers determine single shaft motor rotation from the shaft end. An exception is G.E. that determines it from the lead end (where lead wires leave end shield). Rotation on a double shaft motor is usually determined from the lead end where lead wires leave end shield). Dust deposits on the leading edge (Figure 16) of the rotor studs or a fan indicate the direction of rotation.

Rotation is in the direction towards the deposits.

In cases where the correct rotation motor is not available as a replacement, here are a few hints.

- A shaded pole can be replaced by a PSC. A PSC cannot be replaced by a shaded pole.
- Shaded pole motors are not electrically reversible but some are mechanically reversible. Remove an end shield and turn the stator around making sure that the stator is exactly centered in the relationship to the rotor.
- Select a double shaft motor and cut one shaft off.

General Information

Bearings

Capacitor Leads

P.S.C. original equipment motors usually have one brown capacitor lead. P.S.C. replacement motors usually have two brown capacitor leads. One of the two replacement motor capacitor leads has a white band or white piece of tape around it. How to replace a one capacitor lead motor with a two capacitor lead motor. Insulate the terminal on the white banded lead and don't use it. Connect the remaining lead (Figure 22). How to replace a two capacitor lead motor with a single lead motor. Use a jumper wire to connect the remaining capacitor terminal to the common line (Figure 23).

Clamp-On Meters by Fieldpiece

Series 40 Mini Clamp-On Meters By Fieldpiece

SC44 is the basic clamp meter with NCV in a size that easily fits on a tool belt or in a tool case. SC45 adds temperature and capacitance. SC 46 adds true RMS and backlight.

Unique Features for SC44, SC45 and SC 46

- **Non-contact Voltage**
Loud beeper and bright LED indicate the NCV tab is near AC voltages greater than 24V.
- **Temperature**
Thermocouple plugs in directly for accurate readings, even in fast changing environments.
- **Wire Grabbing Jaw**
Jaw shaped to make grabbing a wire easy.
- **Capacitance**
For motor-run and motor-start capacitors.
- **And More**
Backlight.
True RMS.
Auto-power off to extend battery life.

KIT09382	179/1AC KIT	Combo Kit

170 Series Digital Multimeters

- True RMS voltage and current measurements
- 0.09% basic accuracy (177, 179)
- 6000 count resolution
- Digital display with analog bargraph and backlight (177, 179)
- Manual and automatic ranging
- Display Hold and Auto Hold
- Frequency and capacitance measurements
- Resistance, continuity and diode measurements
- Temperature measurements (179)
- Min-max-average recording
- Smoothing mode allows filtering of rapidly changing inputs
- Easy battery exchange without opening the case
- Closed case calibration through front panel
- Ergonomic case with integrated protective holster
- EN61010-1 CAT III 1000V / CAT IV 600V
- Measures twice as fast as other multimeters

T+PRO ELECTRICAL TESTERS

Added functionality available only on the T+PRO:

- Backlit LCD display for easier viewing
- Display resolution of 0.1 V, ideal for troubleshooting low-voltage lighting
- Resistance (Ohms) to 9.99 kOhms
- Rotary Field Indication
- Display Hold for easier viewing in hard-to-test areas

Features and benefits of the T+PRO and T+:

- 3 forms of ac/dc voltage indication: light, sound, and vibration for added user protection and convenience
- Detect live voltage even when the batteries are dead
- Extra heavy-duty, replaceable test leads for more flexibility and durability
- CAT IV 600 V, CAT III 1000 V rated for added user protection
- Continuity beeper
- Bright LED flashlight for work in poorly lit areas
- GFCI Trip
- On/Off switchable beeper, selectable according to your environment
- Compliant with latest NFPA 70E recommendations*
- Replaceable test probes for added flexibility and convenience
- Convenient probe storage on the back
- Probe holder for easier testing
- Hazardous voltage warning light for added user protection
- Test lead strap included for better test lead management
- AC/DC Voltage: 12 V - 600 V on LED bar, 10.2 V - 600 V on LCD (LCD on T+PRO only)
- Auto-off saves battery power
- 2-year warranty

T+PRO ELECTRICAL TESTERS

Electrical Tester and AC Voltage Detector Kit

The T+PRO-1AC Kit combines two troubleshooting tools, in one convenient combo pack. The T+PRO Electrical Tester has all of the advantages of a traditional solenoid tester, with added functionality, but none of the typical drawbacks. With voltage measurement, continuity, built-in flashlight, GFCI trip capability, and the legendary ruggedness and reliability of Fluke, the tester is an excellent choice for most residential, commercial, and industrial applications. The 1AC-II is the pocket-sized voltage detector that can quickly test for energized circuits - a "must have" for any electrician.

CLAMP METERS

These affordable instruments combine a compact package with a strong feature set:

- New smaller size fits easily into tight places
- Precise measurements with 1.8% basic accuracy
- Resolution up to 0.01A and 0.1 V
- Measures AC current to 400 A
- Measures AC volts to 600 V
- Measures DC volts to 600 V (Fluke 322 only)
- Resistance measurement to 400 Ω
- Continuity for quick checking of shorts
- Automatic low battery indicator
- Display hold function
- Two year warranty

Safety Conformance

All inputs are protected to EN61010-1, 600 V CAT III, UL, CSA and TÜV listed.

INSULATION MULTIMETERS

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
MTR00955	1577	Insulation Multimeter
MTR00954	1587	Insulation Multimeter

INSULATION TESTERS

- Insulation test range:
 - 1507: 0.01 M Ω to 10 G Ω
 - 1503: 0.1 M Ω to 2000 M Ω
- Insulation test voltages:
 - 1507: 50 V, 100 V, 250 V, 500 V, 1000 V
 - 1503: 500 V, 1000 V
- Save both time and money with Automatic calculation of Polarization Index and Dielectric Absorption Ratio (only available on the 1507)
- Make repetitive tests simple and easy with the 1507's Compare (Pass/Fail) function (only available on the 1507)
- Repetitive or hard-to-reach testing is easy with the remote test probe
- Live circuit detection prevents insulation test if voltage > 30 V is detected for added user protection
- Auto-discharge of capacitive voltage for added user protection
- AC/DC voltage: 0.1 V to 600 V
- 200 mA Continuity
- Resistance: 0.01 Ω to 20.00 k Ω
- Save battery power with auto power off
- Read measurements easily with large, backlit display
- CAT IV 600 V overvoltage category rating for added user protection
- Remote probe, test leads, probes and alligator clips included with each tester
- Accepts optional Fluke TPAK magnetic hanging system to free your hands for other work
- Four AA alkaline batteries (NEDA 15 A or IEC LR6) for at least 1000 insulation tests
- One year warranty

MULTI-FUNCTION PROCESS CALIBRATORS

The Fluke 725 Multifunction Process Calibrator is a powerful, yet easy-to-use field calibrator. Use the measure and source functions to test and calibrate almost any process parameter.

- Small, streamlined shape makes it easy to carry
- Rugged, reliable design stands up to field use
- Easy to read measure/source screen lets you view input and output simultaneously
- Measure volts, mA, RTDs, thermocouples, frequency, and ohms to test sensors and transmitters
- Source/simulate volts, mA, thermocouples, RTDs, frequency, ohms, and pressure to calibrate transmitters
- Measure/source pressure using any of 29 Fluke 700Pxx Pressure Modules
- Source mA with simultaneous pressure measurement to conduct valve and I/P tests
- Support flow meter testing with frequency and CPM functions
- Perform fast linearity tests with auto- step and auto-ramp features
- Power transmitters during test using loop supply with simultaneous mA measurement
- Handling of fast pulsed RTD transmitters and PLCs, with pulses as short as 10 ms
- Store frequently used test setups for later use
- Backlight lets you work in poor light
- Large battery capacity of four AA cells
- Battery door for easy changes

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
TOL02595	725	Multifunction Process Calibrator

LOOP CALIBRATORS

The fast, one-handed tool for loop checks. Just click to calibrate.

This feature-rich solution combines the best features push-button and knob-base loop calibrator and offers:

- Large display and simple, quick-click interface for easy one-handed operation.
- Simultaneous mA and % readout for quick, easy interpretation of readings.
- mA accuracy of 0.015%, superior to other loop calibrators in this price range.
- 1 μ A resolution for mA source, simulate and measure.
- Push button 25% steps for fast, easy linearity checks.
- 0-100% "span check" for fast confirmation of zero and span.
- Selectable slow ramp, fast ramp, and step ramp to provide smooth outputs for valve slewing and loop functional tests.
- 24 volt internal loop supply, so you can power and read a transmitter at the same time without carrying a DMM.
- Measures V dc to 28 V.
- Single 9V battery that is easily changed without braking calibration seal
- 0 - 20 mA or 4 - 20 mA default start up modes.
- Innovative output adjustment dial with 1 μ A and 100 resolution.
- HART™ mode connects 250 Ω resistor in series with 24 V loop for compatibility with HART communicators.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
MTR00907	707	Loop Calibrator

Volt/mA Calibrator

Features at a Glance:

- Measure loop current (0-20 mA, 4-20 mA) signals with very high accuracy of 0.015% and 1 mA resolution
- Measure voltage output process signals from PLCs, transmitters
- Source or simulate 24 mA loop current
- Source voltage to 100 mV or 10V
- 24V loop supply with simultaneous current measurement
- Enhanced voltage and current measure and source accuracy
- Improved battery life
- 250 ohm HART resistor with loop power
- Holster features test lead storage
- Compatible with toolpack magnetic hanging system
- Step and linear ramp output function
- Configurable zero and span settings

THERMAL IMAGERS

- Easy to use; just point, focus, and shoot
- Scans quickly and smoothly
- Displays thermal image and temperature
- Has a temperature measurement range of -10 °C to 250 °C
- Has a Laser sighting aid that can easily be turned on or off
- Includes professional analysis and reporting software - InsideIRT™
- Has industry leading battery life (> 5 hours continuous use)
- Runs off both a rechargeable battery pack and standard or rechargeable alkaline AA batteries

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
MTR00974	Ti30	Thermal Imager

INFRARED THERMOMETERS

- Backlit display for poorly lit areas
- Last ten temperature readings displayed on bar graph for easy reference
- Enhanced optics (distance to spot ratio up to 60:1) allow measurements of smaller objects from farther away
- Coaxial three-dot laser sighting system highlights the true diameter of measurement spots at all distances (90% energy)
- Extra bright appearing 635nm laser (tested to the same safety and power standards as less bright laser sights) to clearly highlight the targeted area
- Close-focus option available for specialized applications
- MIN/MAX measurements calculations instantly computed
- Audible and visible HI temperature alarm for instant recognition
- Comfortable, overmolded pistol grip makes target sighting easy
- Adjustable emissivity setting (.01 increments) for more accurate measurement
- Durable hard plastic storage case included
- DIF/AVG measurement calculations instantly computed
- 100 temperature data logging capability for easy route review
- 30 pre-set common material emissivity values for most accurate temperature readings
- Audible and visible HI and LO temperature alarm for instant recognition
- Thermocouple K probe input for contact temperature measurements with same unit
- Customizable log names, alarms, and emissivity values for more efficient, less error-prone predictive maintenance routes
- *Unique to the 574 Model*
- Windows-based (Windows NT/ 2000/XP) software for data storage and analysis
- Software to log, graph, and analyze temperature data via RS232 connection

FLUKE-975 AIRMETER

The Fluke 975 offers an unparalleled featureset for HVAC and facilities technicians, helping them work more quickly and accurately, with the ease of use and durability customers expect from a Fluke meter.

- Simultaneously measures, logs, and displays temperature, humidity, CO₂, and CO on a bright, backlit LCD display
- One-touch air flow and velocity with available probe*
- Wet bulb and dew point temperature
- % of outside air calculation
- CO₂ and CO field calibration feature
- Self-test function at startup
- Auto-backlight
- Automatically compensates for barometric pressure changes
- Min/Max/Average on all measured and calculated readings
- Multi-language user interface
- Metric or standard units
- Audible and visual threshold alarms
- Extensive discrete or continuous data logging capacity, downloadable to PC via USB interface
- Keypad lock for security
- Included FlukeView Forms® software

True-Rms HVAC Clamp Meter

Features:

- Designed for HVAC applications with capacitance, DC Current (µA), and temperature measurements
- Small body and jaws fit perfectly in your hand and into tight places
- Handy 'Display Hold' button keeps measurements on the display
- Meter controls are positioned so current measurements can be done with one hand (index finger on clamp opening lever and thumb on rotary switch)
- Large, backlit display is easy-to-see in less than ideal conditions
- Auto shut-off maximizes battery life so the meter works when you need it Three year warranty

INDOOR AIR QUALITY TOOLS:

Temperature Humidity Meter

- Backlit dual display of humidity and temperature
- Measures dew point and wet bulb temperatures
- 99 record storage capacity
- Ergonomic design with belt clip and protective holster
- Quick-response capacitance sensor with twist-open protective cover
- Compact and lightweight (188 g/6.6 oz)
- Temperature range from -20 °C to 60 °C (-4°F to 140 °F)
- Relative humidity from 5 % to 95 %
- Min/Max/Avg Data hold
- Low battery indicator

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
MTR00976	971	Temperature Humidity Meter

The Fluke 983 Particle Counter simultaneously measures and displays six channels of particle size distribution, temperature and humidity. This compact, lightweight, self-contained tool allows for one-handed operation. The Fluke 983 maintains its accuracy when used in any position. The 8 hour rechargeable battery together with a large 5000 sample record capacity allows for uninterrupted performance during air quality surveys. The Fluke 983 is the ideal tool for determining size distribution of airborne particles or tracking down a particle source.

- Simultaneously measure and display 6 channel of particle sizes, temperature and humidity
- Measure particle size down to 0.3 µm
- Selectable sample time, count data, programmable delay
- Store 5000 records of date, time, counts, relative humidity, temperature, sample volumes, alarms and location label
- Upload stored data to a PC with included software
- Compact, self-contained package allows for one-handed operation
- Intuitive, easy to use user interface
- Always ready to run, with no fluids to refill
- Backlit LCD for use in any lighting condition
- 8 hour rechargeable NiMH battery
- Protective holster

ScopeMeter Test Tools

ScopeMeter 190 Series : All this power in your hand!

ScopeMeter 190C and 190B Series have specifications you typically only find on high-end bench oscilloscopes. They offer up to 200 MHz bandwidth for capturing high frequency signals, as found in today's state-of-the-art electronics, 2.5 GS/s real-time sampling and advanced memory and triggering functions. They're rugged, compact and battery powered.

- Dual-input - 200, 100 or 60 MHz bandwidth
- Up to 2.5 GS/s real-time sampling per input
- Choice between a high resolution Color display (190C Series) or Black & White display (190B Series)
- High waveform resolution of 3,000 datapoints per channel (NEW)
- Connect-and-View™ automatic triggering and a full range of manual trigger modes
- Frequency Spectrum Analysis using FFT (190C) (NEW)
- Digital Persistence for analyzing complex dynamic waveforms like on an analog scope
- Fast display update rate for seeing dynamic behavior instantaneously
- Automatic capture and replay of 100 screens
- 27,500 points per input record length using ScopeRecord™ mode
- TrendPlot™ paperless chart recorder for trend analysis up to 22 days
- Up to 1000 V independently floating isolated inputs
- Waveform reference for visual comparisons and automatic pass/fail testing of waveforms
- Vpwm function for motor drive and frequency inverter applications.
- 1000 V CAT II and 600 V CAT III safety certified
- Four hours rechargeable Ni-MH battery pack

Deluxe Electronic Test Lead Kit

Features at a Glance:

The TL81 kit consists of a quadfold nylon pouch containing two each (one black and one red) of the following items:

- One meter long test lead with a safety shrouded, right angle banana connector on one end and a stainless steel test probe on the other end, rated up to 10A. Silicone-insulated leads have superior flexibility in cold temperatures and resistance to high temperatures
- Insulated alligator clip rated up to 5A
- Insulated probe tip extender rated up to 3A
- Modular test probe with banana connector in the handle, rated up to 10A
- Modular hook-style clip test lead with banana connector, rated up to 5A
- Modular pinch-style clip test lead with banana connector, rated up to 5A
- Modular alligator clip with banana connector, rated up to 5A
- Slide-on IC probe tip adapter (rated up to 3A) and test lead couplers
- Bare spade lug with banana connector, rated up to 10A
- CAT III 300V
- Compatible with Fluke and other multimeters that accept safety shrouded, standard diameter banana connectors
- UL approved
- One year warranty

5-Way Test Lead Set

5 ways to connect:

1. U-shaped nose for blade-shaped terminals;
 2. Notched jaw for gripping screw heads, bare wire or terminals;
 3. Serrated teeth for gripping threaded or wire-wrapped terminals;
 4. Cluster of sharp needles for piercing small gauge (#22-#28 AWG) wires;
 5. Large piercing needle for penetrating larger gauge wires.
- 60" (1.5m), silicone-insulated leads, useable from -80°C to +150°C (-112°F to +302°F). Rated for 30V, 10A. One red, one black.

Rigid Back Probe Pins

Better than a test probe alone - these two inch long rigid back probe pins easily pass between the weather pack seal and wire. A sharp point ensures good contact to the electrical connector, and the pin's insulation protects it from shorting to other wires.

- Slides onto test probes measuring 2 mm (0.08 inches)
- Tested to 60 V DC

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
TOL02874	TP88	Rigid Back Probe Pins

High Voltage Probe - 80K-6

The 80K-6 is a high voltage probe designed to extend the voltage measuring capability of an AC/DC voltmeter to 6000 volts peak AC or DC Overvoltage Category I. This means the probe can only be used to make measurements on energy limited circuits within equipment. Examples include high voltage within televisions or photo copy machines. DO NOT use this probe to measure high voltages on power distribution systems. The probe provides high accuracy when used with a voltmeter having 10 Megohm input impedance.

- A high voltage probe that allows a multimeter to measure up to 6,000V. Intended for low energy applications only
- One year warranty

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
TOL02099	80K-6	High Voltage Probe

High Voltage Probe - 80K-15

The 80K-15 is a high voltage probe designed to extend the voltage measuring capability of an AC/DC voltmeter to 15,000 volts peak AC or DC Overvoltage Category I. This means the probe can only be used to make measurements on energy limited circuits within equipment. Examples include high voltage within televisions or photocopy machines. DO NOT use this probe to measure high voltages on power distribution systems. The probe provides high accuracy when used with a voltmeter having 10 Megohm input impedance.

- **Voltage Range:** 0 to 15kV DC or peak AC, 10kV rms AC
- **Basic Accuracy:** DC +/- 2% 60Hz: +/- 5%
- **Division Ratio:** 1000:1
- **Safety Standards:** IEC 1010-2-031:1993, Type B, 40 kV DC or peak AC, 28kV rms AC, Overvoltage Category I (voltage derived from limited energy transformer).
- **Input Resistance:** 1000 Megohm
- **Required Meter Input Resistance:** 10 Megohm

MFM300 Multi-Function Instruments by Cooper Atkins

Lighten your load and increase your capabilities by using the MFM300. It's your single choice for the following separate instruments and tools: Digital thermometers, Anemometers, Slish Psychometers, Data loggers, Gauge sets, P-T charts.

The MFM300 has the ability to measure, calculate and display temperature (3 zones, delta T, min, max and average), pressure, superheat & sub-cooling, psychometrics, airflow, and data logging.

MFM300 Specifications:

Temperature

Temperature Measurement Range: -58 to 302°F / -50 to 150°C

Accuracy: ±0.3°F/0.2°C or ±0.5% of Reading whichever is greater Temperature Display Resolution: 0.1 Degree

Humidity

Relative Humidity Measurement Range: 0% to 99% RH Accuracy: ±2% RH

Relative Humidity Display Resolution: 1% RH

Dry-bulb Measurement Range: -40 to 185°F / -40 to 85°C Accuracy: ±0.5°F/0.3°C

Dry-bulb Display Resolution: 0.1 Degree

Pressure

0 to 500 PSI Accuracy: ±1% Full-Scale

0 to 1000 PSI Accuracy: ±1% Full-Scale

Air Flow

Temperature Range: 32 to 150°F / 0 to 65°C Accuracy: ±2°F / 1°C

Velocity: 100 to 6,000 FPM / 0.5 to 30 MPS ±3% of Reading, +0.5% FS at 77°F / 25°C

Resolution: 1 FPM / 0.01MPS

Refrigerants

P/T Data for 15 refrigerants already installed: R-11, R-12, R-22, R-123, R-134A, R-401A, R-401B, R-402A, R-402B, R-404A, R-408A, R-409A, R-410A, R-502, R-507

MFM300 Ambient Operating Conditions: 32 to 120°F / 0 to 50°C 10% to 90% RH

Power

Power Source: 4 - AA Alkaline Batteries (Included) Battery Life: 100 Hours

Warranty

Instrument: Warranty 2 years (Extended warranty is available) Probes: 1 year warranty

Humidity/Temperature Instrument

Where temperature and relative humidity readings are important, Model SRH77A is the expert's choice. Whether it be HVAC/R applications, storage management, computer room monitoring or troubleshooting, you will find this to be an accurate and fast service tool. The bright blue rugged carry case makes this tool easy to find when on location or in the back of a service truck.

Features include a backlight display for dark environments, sealed keypad which protects the instrument from spills and dust, and a battery eliminator jack.

- 3-zone.
- Min/Max memory
- Scan mode
- Auto shut-off after 15 minutes of non-use or continuous ON mode
- Temperature differential between zones 1 and 2
- %RH and wet bulb
- Switchable °F/°C

HVAC and R Tools and Instruments by Bacharach

ECA 450 Combustion Analyzer

Combustion Efficiency & Environmental Analyzer

The ECA 450 from Bacharach conducts accurate combustion and emissions tests that will help you meet environmental regulations and ensure your equipment is burning efficiently. The ECA 450 measures oxygen, carbon monoxide (low range or high range), nitric oxide, nitrogen dioxide and sulfur dioxide, as well as combustibles, temperature and draft. It also calculates combustion efficiency, excess air, carbon dioxide, NOX (Nitrogen Oxides) and pollution units.

The ECA 450 takes continuous samplings of furnaces, boilers and other industrial combustion equipment for up to eight hours and generates precise, reliable combustion and environmental measurements and calculations. And it generates this complex data easily - even at selected intervals - enabling plants to make more accurate equipment adjustments and better assess pollution levels. The ECA 450 helps improve overall combustion efficiency, reduce fuel costs and determine emissions compliance.

Applications:

The ECA 450 is ideal for professionals concerned about combustion efficiency, environmental compliance or both. It enables plant maintenance engineers and managers, industrial boiler/furnace service technicians, energy coordinators, compliance officers, environmental auditors and safety managers to ensure that industrial equipment is burning efficiently while environmental regulations are being met.

ECA 450 Combustion Analyzer

Combustion Efficiency & Environmental Analyzer

Technical Data

Measurements & Ranges

Oxygen	0.1 to 20.9%
Carbon Monoxide	0 to 4000 ppm (hydrogen compensated)
Carbon Monoxide (high)*	4001 to 80000 ppm
Nitric Oxide*	0 to 3500 ppm
Nitrogen Dioxide*	0 to 500 ppm
Sulfur Dioxide*	0 to 4000 ppm
Combustibles*	0 to 5.00% (application dependent)
Stack Temperature	-4 to 2400 degrees F (-20 to 1315° C)
Primary/Ambient Temperature	-4 to 999 degrees F (-20 to 999° C)
Pressure/Draft	-27.7 to 27.7 inches of H2O

Calculations & Ranges

Combustion Efficiency	0.1 to 100.0%
Excess Air	1.0 to 250%
Carbon Dioxide (dry basis)	0 to fuel dependent maximum
NOX (NOX=NO+NO2)	0 to 4000 ppm
NOX referenced to % O2	0 to 17000 ppm
CO referenced to % O2	0 to 99999 ppm
NO referenced to % O2	0 to 14900 ppm
NO2 referenced to % O2	0 to 2100 ppm
SOX referenced to % O2	0 to 17000 ppm

Accuracy

Oxygen	±0.3% O2 on practical concentration of flue gas
Stack or Flue Gas Temp.	±4°F between 32 and 255°F (±2°C between 0 and 124°C) ± 6°F between 256 and 480°F (±3°C between 125 and 249°C) ± 8°F between 481 and 752°F (±4°C between 250 and 400°C)
Primary-air/ambient Temp.	± 2°F between 32 and 212°F (±1°C between 0 and 100°C)
Pressure/Draft	±2% of reading or ± .02 in wc whichever is greater
CO	±5% of reading or ± 10 ppm, whichever is greater between 0-200 ±10% of reading between 2001 to 40000 ppm CO
NO	±5% of reading or ± 5 ppm, whichever is greater between 0-2000
NO2	±5% of reading or ± 5 ppm, whichever is greater between 0-500
SO2	±5% of reading or ± 10 ppm, whichever is greater between 0-200
HC	±5% of full scale
Selectable Fuels	Natural Gas, Oil #2, Oil #4, Oil #5, Oil #6, Propane, Coal, Wood, Kerosene, Bagasse
Power	Universal AC adapter and an internal battery pack. Adapter will accept input voltages from 100 to 240V. Fully charged battery pack provides a minimum of 8 hrs of operation
Pumps & Probe	Two pumps are included. The first pump supplies gas sample to the sensors. The second pump supplies fresh air to purge the low range CO sensor when CO levels exceed 4000 ppm. Probe includes a standard probe and hose assembly equipped with a water trap, particulate filter, probe stop, 15 feet of hose, and 12-inch probe tube.
Size	13.5" H x 18.5" W x 9" D (34.3cm x 47.8cm x 22.9cm)
Weight	25 lbs. (11.34 kg)
Warranty	1 year, extended warranty available

* *Optional*

HVAC and R Tools and Instruments by Bacharach

PCA® Portable Combustion Analyzer

The PCA is the perfect tool for service technicians and boiler contractors who need to determine carbon monoxide (CO) safety, combustion efficiency and emission testing in combustion applications. The PCA directly measures and displays flue gas O₂, temperatures, draft, differential pressure, NO(X) and CO. Simultaneously, the instrument calculates and displays combustion efficiency, excess air, CO₂, NO(X)-Ref. O₂ and CO air free. The large display shows eight different values simultaneously with backlight. The PCA provides seven (7) fuels: natural gas, oil 2, oil 4, oil 6, kerosene, liquid propane and coal, for calculating combustion values.

The PCA offers communication features to track and analyze combustion safety tests, efficiency calculations and environmental analysis for residential and commercial applications.

The advanced communication features of the PCA 65 allow the user to store up to 100 tests, customize each combustion test with customer information, generate a personalized printout, and download all of this information to a personal computer for record keeping and trend analysis.

Instrument comes complete with:

Carrying case, probe and hose assembly, factory calibrated and installed sensor(s), instruction manual, user guide, batteries (packaged separately) and a two-year warranty. All instruments can be upgraded to include CO, Draft, NO(X) and other option combinations are available on request.

Each PCA that is equipped with Draft / Differential Pressure includes gas pressure test tubing with fittings for ease of appliance line and manifold gas pressure measurement.

PCA2 - Portable Combustion Analyzer

PCA® 2 Ordering Information

The PCA®2 is a commercial grade, handheld combustion and emissions analyzer for on-demand or semi-continuous sampling of light industrial, institutional, commercial and residential furnaces, boilers and appliances. The PCA®2 is the perfect tool for service technicians and boiler contractors who need to ensure safe operating conditions, determine combustion efficiency, or perform emissions testing in combustion applications.

The PCA®2 directly measures and displays flue gas Oxygen (O₂), Carbon Monoxide (CO), Stack Temperature, Draft, Differential Pressure, Combustion Air Temperature and optionally measures and displays Nitric Oxide (NO), Nitrogen Dioxide (NO₂) and Sulfur Dioxide (SO₂). Simultaneously, the PCA®2 calculates and displays combustion efficiency (EFF), Excess Air (EA), Carbon Dioxide (CO₂), NO_x and Oxygen reference values. The PCA®2 performs combustion calculations for ten fuels including, Natural Gas, Oil #2, Oil #4, Oil #6, Propane, Coal, Wood, Kerosene, Bagasse and Digester Gas. The large backlit graphic displays shows eight different measurements and calculated values simultaneously, and also has zoom capabilities.

Features & Benefits

Smart Sensors

- Field replaceable
- Pre calibrated
- Easy access
- Quick and accurate response

Measures 4 Gases Simultaneously

- Standard - O₂, CO-H₂
- Optional - CO (high), NO, NO₂ & SO₂

Automatic CO Overrange Protection

Versatile Power Management

- Disposable batteries
- Rechargeable batteries
- Optional universal power supply

Graphic Display

- 160 x 160 graphic liquid crystal display
- Easy to read
- Backlit
- Zoom

Fyrite® Pro Residential Combustion Analyzers

Ordering Information

Our popular Fyrite® Pro Residential Combustion Analyzer just got better. Service technicians have always been able to rely on the Fyrite® Pro to verify the performance and adjust residential furnaces and appliances quickly and easily. Now packed with new features such as memory and sensor strength, the Fyrite Pro offers technicians the best features in measurement precision at an affordable price.

Low Maintenance Operation

Stronger pump and improved water trap design allows for easy particle filter replacement.

New Accessories

A new AC adapter (P/N 24-1254) provides you with an alternative power source and an easy way to economize

on battery replacement.

All combustion models are now supplied with a protective rubber boot with magnet. The Fyrite Pro Model 25 is now supplied with a probe stop.

New Sensor Features:

Displays O₂ sensor strength to indicate when the sensor needs to be replaced. Automatic purge cycle will protect your CO sensor in the event of high CO readings during shut-off.

Memory Capability

Store up to 10 complete test records that can be recalled to the display and printed.

Low Maintenance Operation

Stronger pump and improved water trap design allows for easy particle filter replacement.

Fyrite® Tech Combustion Analyzers

The Fyrite® Tech combustion analyzers by Bacharach offer service technicians the easiest and most affordable way to venture into electronic-combustion testing.

Affordable

Some service technicians may shy away from electronic combustion analyzers due to cost. The Fyrite Tech was

not only designed to provide "The Measurable Difference," it was priced to be the most affordable electronic analyzer currently on the market.

Built to Last

Based on the winning technology of the Fyrite Pro, the Fyrite® Tech analyzers are built to handle natural gas, oil, propane and kerosene. Four alkaline batteries typically offer up to 18 hours of continuous operation with an automatic "power off" feature that saves energy. User-friendly filter replacements also make maintenance a breeze.

Easy to Use

With the Fyrite® Tech you are up and ready to test in 3 easy steps:

1. Turn the unit on
2. Select the fuel
3. Insert the probe

Features & Benefits:

- Affordable - The most affordable combustion analyzer currently on the market.
- Simple to use - Turn the unit on, select the fuel, and insert the probe. It's that easy.
- Quick payback - The Fyrite Tech reduces service call time by providing accurate, electronic test results instantly.
- Accurate operation - Tactile feedback from the instrument's keypad assures that the appropriate key has been pressed.
- Purchase protection - Our two-year warranty on each analyzer and its sensors ensures worryfree operation.
- Ergonomically designed - The instrument is lightweight and fits in the palm of your hand, making it easy to handle. Comes with soft carrying pouch for ease of transport instrument protection.
- Long battery life - Four alkaline batteries typically offer up to 18 hours of continuous operation with an automatic "power off" feature that saves energy.
- High quality - Based on the same technology as the Fyrite Pro Combustion Analyzers.

Oil Burner Combustion Testing Kits

Bacharach Combustion Testing Kits continue to offer you the most economical means of testing for oil burner efficiency during installation or servicing. Each kit is designed with the service technician in mind.

Components (Standard Kit 10-5022)

- Fyrite CO₂ Indicator - The Fyrite Carbon Dioxide Indicator measures the percent CO₂ in a flue gas sample.
- True Spot Smoke Tester and Oil Burner Smoke Scale - With the True Spot Smoke Tester and Smoke Scale, you can get an accurate indication of smoke content in flue gas.
- Fire Efficiency Finder/Stack Loss Slide Rule - The Fire Efficiency Slide Rule is a quick and easy way of determining combustion efficiency and stack loss from the results of the CO₂ and stack temperature tests.
- Tempoint Dial Thermometer - High stack temperatures are cause for special concern and may indicate a serious condition.
- Model MZF Draft Gauge - The intensity of draft determines the rate at which combustion gases pass through the boiler or furnace. With the MZF Draft Gauge, you can determine if draft is excessive or insufficient.
- Carrying Case (large) - Instruments for Bacharach Oil Burner combustion Testing Kits come in a rugged, plastic carrying case.
- Moisture Absorb. Material
- Sampling Hose Assembly.

True Spot® Smoke Test Kit

The Bacharach True Spot Smoke Test Kit determines efficient combustion and is internationally recognized as the standard method for evaluating smoke density in the flue gases from distillate fuels. Too much smoke is one of the most common causes of excessive fuel usage and expensive service requirements. That is precisely why the smoke test is an indispensable part of any oil burner service job; and with the True Spot, an accurate smoke reading takes less than a minute. The True Spot smoke test method has long been recognized as the accepted standard for oil burner smoke tests. It is used by Underwriters' Laboratories in approval testing of oil burners; and it is the test method specified in the Installation Standards of the National Oil Fuel Institute by U.S. Department of Commerce, Testing materials (D2156-65), and German Standard DIN 51-402.

Comfort Chek 200

Handheld Indoor Air Quality Analyzer

The Bacharach Comfort Chek is a versatile handheld analyzer that is ideal for verifying indoor air comfort and quality.

Model 200 - measures CO₂, barometric pressure, temperature, humidity and CO (features an internal pump for remote gas sampling) Each reading is displayed separately, but by pressing the f3 button the user can easily scroll through all the readings. Peak readings can also be displayed by pressing and holding down the f3 button. Both models feature data- logging, charge-and-run capability and a userzero function for all gases. There is enough memory to store up to 125 sets of data. Power is provided by a long-life NiMH battery, which is capable of providing up to 12 hours of continuous operation from one charge. The Comfort Chek is small enough to fit in the palm of your hand, remarkably easy to use and is ideal for trend analysis and record keeping.

Applications

IAQ-Indoor air quality checks, environmental health and general safety, CAP-X Controlled atmosphere monitoring, trend analysis using Data-Logging.

Features:

- Available in two models:
 Model 100 measures CO₂, barometric pressure, temperature and humidity.
 Model 200 measures CO₂, barometric pressure, temperature, humidity and CO (built-in pump)
- Data Logging for storing up to 125 sets of data, ideal for trend analysis
- Model 100 measures CO₂, barometric pressure, temperature and humidity
- Convenient zero function for all gas sensors
- Long Life Infrared CO₂ sensor
- Electrochemical CO sensor
- Charge-and-Run capability for longterm monitoring
- Stored data can be easily downloaded through optional host software using an IrDA communications link
- Peak reading mode

Sling Psychrometer

The uniquely compact Bacharach Sling Psychrometer accurately determines percent relative humidity without the necessity of consulting complex tables. There is no need to wet the wick each time a reading is taken; the Sling Psychrometer contains a slide rule calculator which correlates wet and dry bulb thermometer indications for direct reading of relative humidity. When not in use, the thermometer case telescopes into the handle for protection.

Features:

- Designed for portability (7.5" long x 1" diameter)
- Slide rule construction quickly converts temperature to relative humidity
- Built-in water reservoir holds sufficient water for several hours of testing
- Thin bulb design gives fast thermal response
- Thermometers constructed of shock resistant glass; stems have deep-etched numerals and 1° scale divisions for easy reading
- Accurate to within ±5% R.H.

Dual-Channel Digital Thermometer

Model TH3000

Features:

- Temperature: -50°F ~ 1999°F (-50°C ~ 1300°C)
- 2 K-Type 39" Thermocouples
- T1-T2 differential measurement
- Resolution: 1°F / 1°C
- Data-hold and max-hold functions
- Flip-up stand
- Includes protective boot and battery

Humidity-Temperature Meter

Model TH1800

Features:

- Humidity: 10% RH ~ 95% RH
- Temperature: -4°F ~ 140°F (-20°C ~ 60°C)
- Resolution: 0.1°C / 0.1°F / 0.1%RH
- Wet bulb and dew point temp. readings
- Data-hold and relative function
- Dual LCD display with bargraph indication
- Includes soft carrying case and batteries

Analyzers & Monitors

Monoxor III Carbon Monoxide Analyzer

Bacharach's Monoxor[®] III offers service technicians the easiest and most affordable way to locate CO in ambient air as well as stack gases. The Monoxor[®] III CO Analyzer is a battery powered, hand-held instrument that can quickly and accurately measure levels of CO between 0 and 2,000 ppm. In addition to locating CO in ambient air, the Monoxor[®] III is supplied with a stainless steel probe and five feet of tubing to sample CO found in flue gases of residential furnaces, combustion appliances, commercial and industrial boilers. An optional wireless IrDA printer provides a permanent record of the detected CO level.

Leak Detection

Leakator® Jr.

Leakator® Jr is a handheld combustible gas leak detector used to pinpoint combustible gas leaks in commercial, residential and industrial applications, including surveying gas pipelines and inspecting valves, regulators and meters on gas equipment. When combustible gases are sensed, audible and visual indication will be given. Combustible gases detected include: Acetone, Acetylene, Benzene, Butane, Ethanol, Ethylene Oxide, Gasoline, Hexane, Hydrogen, Industrial Solvents, Iso-Butane, Methane, Methanol, Paint Thinners, Propane, Natural Gas and Naptha.

Features:

- **Visual Indicator**
1 LED (Variable Frequency)
- **Audible Indicator**
Loud audible ticking rate
- **2 Sensitivity Levels**
Aids in pinpointing leak detection
- **Operational Status LED**
- **Low Power Metal Oxide Sensor**
Plug-in sensor
- **12 Inch Flexible Probe**
- **Tough ABS Plastic Housing**
Durable and rugged
- **UL Classified**
- **Automatic Calibration**
- **Micro Processor Controlled Circuitry**
- **Easily Replaced AA-Batteries**
Battery life is 14 hours
- **New Compact Design**
Fits in the palm of hand (6"L x 2"W x 1.5"D)
- **2 Year Warranty**

Ordering Information

Leak Detection

Leakator® 10

Bacharach's Leakator® 10 is a low maintenance combustible gas leak detection unit, small enough to be operated with just one hand, yet loaded with the kind of advanced features and technology professionals demand. Powered for up to 30 hours of continuous operation by alkaline C-cell batteries, Leakator® 10 comes complete with a flexible 20-inch long probe for hard-to-reach areas and a solid state sensor that will last for up to five years. Leakator® 10 allows you to pinpoint large and small leaks quickly, while checking a relatively large area in a short amount of time.

Features and Benefits:

- **Visual Indicator**
10 Ultra-bright LEDs
- **Audible Indicator**
Loud audible ticking rate
- **30 Hour Battery Life**
Easily replaced C-cells
- **Sensitivity Thumb-Wheel**
Aids pinpointing leak detection
- **Operational Status LEDs**
English and international systems
- **Solid State Sensor**
Plug-in sensor, five year typical life
- **20 Inch Flexible Probe**
For hard to reach locations
- **Also Available for ETO**
Part No. 19-7063
- **UL Listed**
Intrinsically safe
- **CE Mark**
Electronic performance standard

Ordering Information

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
TOL02705	19-7051	Leakator 10, in custom carrying case, flexible 20 inch probe for combustible gases and vapors, with instruction manual (batteries not included)

Specifications	
Housing	Molded, three piece ABS plastic in bright yellow color, includes carrying strap
Power	Five alkaline C-cells, not provided 30 hours typical life for continuous operation
Warm-up Time	Automatic, self check, about ten seconds to operational condition
Sensor	Semiconductor type. Five year typical life. Plug-in replacement
Probe	Self storing 20 inch flexible probe. Accommodates integral sensor
Sensitivity	20 ppm useable sensitivity (methane)
Status Indicators	Visual: 10 ultra-bright red LED's. Audible: Variable speed ticking sound. Earphone available for use in noisy environments. Power-On ultra-bright green LED, Fail ultra-bright yellow LED. Low Battery ultra-bright yellow LED
Environments	23° to 130° F (-5° to 54°C), 10% to 90% relative humidity, non condensing
Dimensions / Weight	Leakator®: 18 oz. (0.51Kg.), 8.5" x 2.25" x 1.75" (21.6 cm x 5.7 cm x 4.4 cm) Case: Black HDPE, 17 oz. (.48Kg), 10.5" x 7" x 3" (26.7 cm x 17.8 cm x 7.6 cm)
Safety Approvals	UL listed, intrinsically safe, for use in Class I, Division 1, Groups A, B, C, and D classified areas
Warranty	One year limited warranty. See warranty card for more information

Leak Detection

Tru Pointe® Refrigerant Leak Detector

Bacharach's newest refrigerant leak detector, the Tru Pointe®, is designed specifically for technicians looking for a premium quality leak detector at an affordable price. The Tru Pointe® is designed to be instantly responsive to all refrigerants. It is even accurate when used in environments where high levels of refrigerant vapors are present. No manual sensitivity adjustments are necessary during the inspection process. Simply turn the unit on, and let it mark the spot!

Features:

- Detects all CFC, HFC, and HCFC refrigerants using patented heated diode sensor technology
- Instantaneous response time
- Innovative sensor replacement design
- Up to 20 hours continuous operation on 2 'D' alkaline batteries
- Battery-powered with low battery indication
- Long-life, DC brushless fan
- High and low-sensitivity modes
- Automatic zero and background compensation
- Audible & visual leak indication
- Easy to use, one-handed operation
- No user calibration required

Ordering Information

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
TOL02782	19-8106	Tru Pointe®, instruction manual, 2 'D' Batteries and hard carrying case
SEN01375	19-0559	Sensor

Specifications

Sensing Elements	
Type:	Patented Heated Diode, Plug-in
Life Expectancy:	150 Hours or 1 year of normal use
Refrigerants Detected	All CFC, HCFC and HFC refrigerants, including R-12, R-22, R-123, R-134a and blends R-404a, R-408A, R-409A, and R-410A (i.e. any refrigerant containing Chlorine, Fluorine or Bromine gas)
Alarm Sensitivity of R-134a (Hardest refrigeration to detect)	0.5 oz / year (14g/year) per SAE J1627 0.1 oz / year (3g/year) when probe is held over leak source for at least 5 seconds
Alarm Types	Variable-intensity audible and visual alarms
Power Source	Two 'D' Alkaline Batteries
Warm-Up Time	10 seconds
Response Time	Instantaneous
Battery Life*	15 hours minimum
Probe	14" (35.6cm) flexible
Size	2" W x 9.4" L x 2.5" H (5 cm W x 23.8 cm L x 6.3 cm H)
Weight	1.16 lb (0.53kg) w/ batteries
Agency Approvals	UL Listed in accordance with SAE J1627, CE
Warranty	One year, including sensor

*As tested in low sensitivity mode using Duracell Ultra MX 1300 alkaline batteries.

Leak Detection

Informant® 2

The Informant 2 leak detector allows pinpoint detection of both refrigerant and combustible gas leaks with the same instrument. Its unique combination of state-of-the-art patented sensor technology, advanced software design and microprocessor-controlled circuitry offers you unmatched precision coupled with tremendous speed. The Informant 2 utilizes a patented semiconductor sensor technology to detect combustible gases and patented heated diode sensor technology to detect refrigerants. Swap sensor tips within seconds and never worry about adjusting sensitivity levels - it's taken care of automatically - even where high levels of background vapors or refrigerants are resent. The efrigerant sensor tip is finely tapered to a 0.2" diameter - so you can get in between coils and fittings, gaining access to hard to reach areas. The Informant 2 leak detector features an audible indicator with a mute option coupled with sequential LEDs to monitor increasing concentrations of refrigerant or combustible gases. Dual bar graph displays offer visual confirmation no matter what position the instrument is in. And, a flashing light at the tip of the probe helps to visually define your sampling location.

Features and Benefits:

- Detects both refrigerants and combustible gases (with respective sensor installed)
- Audible indicator with mute feature
- Sensor set at the tip for pinpoint accuracy and instantaneous response time
- Sensors are interchanged quickly and easily
- Flashing probe tip, LED display
- Low battery indicator
- Optional boot and flashlight
- Lightweight and ergonomically designed
- Microprocessor controlled for accuracy and reliability
- Sensitivity is adjusted automatically
- Hydrophobic filter prevents moisture contamination
- Rugged rubber boot holds flashlight (optional)
- Flashing probe tip, dual LED displays and loud tick rate indicates relative concentration levels
- The Informant 2 leak detector is a modular system which is totally upgradable. Order the complete dual system or choose dedicated refrigerant or combustible gas units and upgrade to the dual configuration at any time in the future.
- Lifetime warranty available

Refrigerant Recovery Units

Stinger

The improved Stinger, with its new compressor, will evacuate refrigeration systems faster than ever. The new compressor, coupled with increased condenser capacity, will speed up the recovery process, even on the hottest days. The Stinger's rugged construction will provide you with many seasons of reliable operation. The Stinger is capable of recovering all commonly used* CFC, HFC and HCFC refrigerants, including R-410A (Puron™).

The unit is easy to operate and is ideal for evacuating both residential and light commercial systems. A simple purge system prevents cross-contamination of refrigerants without changing hoses.

*Not for use with R-11, R-113 or R-123

New Compressor

- Lower cost of ownership - new compressor is virtually maintenance free
- 243% larger compressor piston enables faster recovery
- Unlike competitive units, the new and improved Stinger is capable of pulling vacuum for an extended period of time without damaging the compressor
- The new compressor is capable of running continuously on air for more than 1,000 hours

Features:

- Lightweight and compact - weights only 24 pounds
- New compressor provides a 20% increase in vapor recovery rate
- Recovers all commonly used CFCs, HFCs and HCFCs, including R-410A (Puron™)
- Capable of pumping virgin refrigerant without damaging the compressor
- 1 year over the counter warranty replacement

Hyperwatt

- Cycles chiller water at up to 20 gpm through 30kW vessel.
- Microprocessor displays step-by-step operating instructions.
- When desired chiller pressure level is reached, the pump shuts down.
- Automatically re-energizes to maintain stable pressure.

GLS00850	VENTILATED SAFETY GOGGLES

YELLOW JACKET® Original 1/4" Charging Hoses

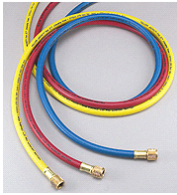

Charging Hoses - The YELLOW JACKET original charging hose has been the standard of the industry for more than 50 years. All-weather flexible; the patented Adjust-a-Valve™ Opener allows you to easily open all troublesome, out of tolerance Schrader valves; 2500 psi (172 bar) min. burst and 500 psi (34 bar) max. working pressure mean a 5-to-1 safety factor; specially formulated rubber tube resists most refrigerants and assures long work life; blow-off groove channels refrigerant out of the front of the nut to help prevent spray back; hose cover pin-pricked to resist bubbling and bursting; 6" to 100' lengths in yellow, red, blue, and white. Longer lengths are available; brass fittings; operating temperature -20° to 180°F (-28.8° to 82.2°C).

YELLOW JACKET® PLUS II™ 3/8" "B" Charging Hose

Special design puts YELLOW JACKET features in a larger volume hose for fast, high vacuum or charging. Hose uses PLUS II hose technology which includes double barrier and higher working pressure. Burst pressure is 3000 psi (207 bar) min. burst with 600 psi (41 bar) max. working pressure. Operating temperature -20° to 200°F (-28.8° to 93.3°C). Larger selection of fittings to fit customer needs.

YELLOW JACKET® PLUS II™ 3/8" Heavy Duty Combination Charging/Hi-Vacuum Hose

Pull a vacuum much faster with this 3/8" heavy duty hose than with the 1/4" hose. Permeation resistant PLUS II barrier; Operating temperature -20° to 200°F (-28.8° to 93.3°C); 3000 psi (207 bar) min. burst, 600 psi (41 bar) max. working pressure; Note: Longer hose lengths available. Longer than 8' not recommended for evacuation.

Refrigerant Handling

YELLOW JACKET® PLUS II™ 1/2" and 5/8" Heavy Duty Combination Charging/Hi-Vacuum Hose

Heavy-use construction with PLUS II barrier technology for use with most refrigerants. Reduces permeation and vacuum loss. Large ID reduces vacuum time substantially over 1/4" or 3/8" hose. Pull a more complete vacuum; faster refrigerant transfer; faster charging on large systems; 3000 psi (207 bar) min. burst, 600 psi (41 bar) max. working pressure; 1/2" and 5/8" assemblies; various fittings available on request; 1/4" access valve connection standard on one end of CA and DA hoses; operating temperature -20° to 200°F (-28.8° to 93.3°C). Note: Black only. Longer lengths available. Hose with access valve connection - 36" hose will pull to 25 microns and lower. Hoses longer than 8' not recommended for evacuation.

RNG01747	O-RING; O-RING SET FOR RITCHIE 18990 AND 18993 VALVESRING; O-RING SET FOR RITCHIE 18990 AND 18993 VALVES

YELLOW JACKET® Parts Kits & Empty Boxes

19003 complete kit includes gaskets, valve openers and SealRight parts in a 12 compartment case.

- Five 1/8" gaskets
- Five 1/8" valve openers
- 100 3/16"-1/4" gaskets
- Ten 1/4" adjustable CH14 valve openers
- Ten 1/4" CH75 flat valve openers
- Ten 3/8" CH11 gaskets
- Ten 1/2"-5/8" CH80 gaskets
- Ten cylinder valve flat gaskets
- Ten SealRight "O" rings
- Four SealRight plug and seal assemblies
- Four 1/4" SealRight nuts and clips

SERVICEFIRST ITEM NO	DESCRIPTION
KIT07451	KIT; HOSE, MAINTENANCE

YELLOW JACKET® Quick Coupler Gaskets and "O" Rings

The only gaskets designed for optimum performance with YELLOW JACKET® Charging Hoses. Works with all refrigerants. Manufactured to strict tolerances to resist blow out.

SERVICEFIRST ITEM NO	DESCRIPTION
GKT03847	GASKET;CH20/100 Gaskets for 1/4" Hose
KIT07452	KIT; GASKET/VALVE REPL. PAK
KIT07453	KIT; CH-11 BULK GASKET
RNG01858	O-RING; QUICK COUPLER O-RING FOR RITCHIE 3/4 INCH HOSE, PACKAGE OF 10
GKT03872	GASKET; CH80 QUICK COUPLER GASKETS FOR 1/2" - 5/8" HOSES

HSE01483	HOSE; RED BALL VALVE ADAPTER, 29601

YELLOW JACKET® Snap-It™ Coupler

Snaps on over 1/4" flare threads with Schrader cores and forms tight connection immediately. Instantly activates the Schrader in access fitting. Instantly shuts off end of hose when sleeve is pulled back and coupler pops off access fitting. Virtually no gas release to atmosphere. Eliminates frostbite. One piece construction. For up to 600 psi.

SERVICEFIRST ITEM NO	DESCRIPTION
CPL00926	COUPLING; Snap-It Coupler

YELLOW JACKET® SealRight™ Quick Couplers

Innovative SealRight fittings automatically and immediately trap refrigerant in the hose when disconnected, helping meet non-venting regulations and preventing finger burns. One-piece attaches quickly, saving up to 50 percent in time compared to 2-piece quick couplers. Works with or without Schrader core. Gaskets resist deterioration from CFC, HCFC, HFC refrigerants, and new oils. Field serviceable. Not recommended for R-410A systems.

SERVICEFIRST ITEM NO	DESCRIPTION
CPL01002	COUPLING, SET OF RITCHIE 19109 AND 19209 QUICK COUPLERS
CPL00924	COUPLER; 1/4" SEALRIGHT STR X 1/4" MALE FL.

Refrigerant Handling

YELLOW JACKET® Adjust-a-Valve™ Openers

The patented "Adjust-a-Valve" opens out of tolerance Schrader valves in 1/4", 3/16" and 5/16" couplers. Simply rotate the opener with needle nose pliers to desired height. When finished, rotate back. "Adjust-a-Valve" for 1/4" & 5/16" hoses is the same.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01509	TOOL; 1/4" VALVE OPENER, 10-PAK
TOL01465	TOOL; CH14 ADJUST-AVALVE OPENER, 10 PACK
TOL01508	TOOL; 3/16" VALVE DEPRESSOR, 10-PAK

YELLOW JACKET® PLUS II™ 1/4" Charging Hoses with Double Barrier Protection

YELLOW JACKET PLUS II hoses have proven performance benefits of the original line, plus double barrier protection for CFC, HCFC and HFC. Nylon permeation barrier meets UL requirements. 1/4" PLUS II hose is also a UL 1963 recognized component for R-12, R-22, R-500, R-502 and R-134a; Moisture barrier provides improved resistance to moisture migration which contaminates expensive refrigerant; 4000 psi (276 bar) min. burst and 800 psi (55 bar) max. working pressure for a 5-to-1 safety factor; Color-coded 3-Pak has an operating temperature of -20° to 180°F (-28.8° to 82.2°C).

Refrigerant Handling

YELLOW JACKET® PLUS II™ 1/4" with SealRight™ low loss anti-blow back fitting

Low loss anti-blow back SealRight fitting immediately traps refrigerant in the hose when disconnected, helping meet non-venting regulations and prevent finger burns.

- Rubber layer for permeation, braid for strength and outer cover for protection
- Fully UL recognized assemblies (File SA9737)
- 45° end for easy installation in tight areas
- Gaskets resist deterioration from existing CFCs, plus new HFC refrigerants and oils
- Available with SealRight fittings on both ends
- Operating temperature -20° to 180°F (-28.8° to 82.2°C)
- 4000 psi (276 bar) min. burst, 800 psi (55 bar) max. working pressure
- Use PLUS II hose with compact ball valve for R-410A.

Tools and Test Equipment

Refrigerant Handling

YELLOW JACKET® PLUS II™ 1/4" Hose with FlexFlow™ Valve

Improved smaller ergonomic valve with zero restriction for maximum flow.

- The patented Adjust-a-Valve™ Opener easily opens all out of tolerance Schrader valves
- Rubber layer for permeation, braid for strength, and outer cover for protection
- Fully recognized assemblies (File SA9737)
- Valve handle position shows when valve is opened or closed
- Flexible length of hose between valve and fitting makes access easier to tight areas
- Metal handle
- 4000 psi (276 bar) min. burst and 800 psi (55 bar) max. working pressure
- Operating temperature -20° to 180°F (-28.8° to 82.2°C)

YELLOW JACKET® Automotive Manifold Hoses for R-134a Systems

These 1/4" hoses combine PLUS II hose with 1/2" Acme fittings to meet SAE requirements. You get PLUS II double-barrier protection in a hose manufactured specifically for automotive applications. Threads are 1/2" Acme Female, 14 mm Male and 1/2" Acme SealRight™ fittings.

- 4000 psi (276 bar) min. burst, 800 psi (55 bar) max. working pressure
- Operating temperature -20° to 180°F (-28.8° to 82.2°C)

Note: Longer lengths available. These fittings are not suitable for regular HVAC/R applications.

SERVICEFIRST ITEM NO	DESCRIPTION
HSE01359	HOSE; 3-PAK AUTO, 60 INCH RYB
HSE01317	HOSE; PLUS II 134A AUTOMOTIVE CHARGING HOSE, 36IN, BLUE

Refrigerant Handling

YELLOW JACKET® PLUS II™ 1/4" with Compact Ball Valve End

Improved compact design ball valve with metal handle at end of hose fits tight areas and traps all the gas.

- The patented Adjust-a-Valve™ Opener easily opens all out of tolerance Schrader valves
- Rubber layer for permeation, braid for strength, and outer cover for protection
- Fully recognized assemblies (File SA9737)
- Full flow valve for faster recovery
- Low loss fitting
- Hose and ball valve rated for higher pressure. 4000 psi (276 bar) min. burst and 800 psi (55 bar) max. working pressure uses standard gasket and valve opener
- Operating temperature -20° to 180°F (-28.8° to 82.2°C)

YELLOW JACKET® PLUS II™ 1/4" for 5/16" Service Ports for R-410A

Available with standard fittings or compact ball valve.

- Moisture barrier provides maximum resistance to moisture migration which contaminates expensive refrigerants.
- 4000 psi (276 bar) min. burst and 800 psi (55 bar) max. working pressure
- Compatible with both POE and PVE oils
- Operating temperature -20° to 180°F (-28.8° to 82.2°C)

SERVICEFIRST ITEM NO	DESCRIPTION
HSE01340	HOSE; PLUS II HOSE WITH REGULAR FITTINGS AND 1/4" X 5/16" 45 DEG BALL ANGLE VALVE, 60", YELLOW
HSE01341	HOSE; PLUS II HOSE WITH REGULAR FITTINGS AND 1/4" X 5/16" 45 DEG BALL ANGLE VALVE, 60", BLUE
HSE01342	HOSE; PLUS II HOSE WITH REGULAR FITTINGS AND 1/4" X 5/16" 45 DEG BALL ANGLE VALVE, 60", RED

YELLOW JACKET® PTFE Hoses and Assemblies

Specially-designed hose provides strength with stainless steel braid over a PTFE core.

- Resistance to most corrosive materials
- Temperatures range from -65° to 450°F (-53.9° to 232.2°C)
- Variety of applications - high and low pressure chemical lines, hot water, steam, oil, air, petroleum products, food processing and more
- 3/16" - 3/4" Female flare swivel brass fittings; 1/8" - 1" NPT Male brass fittings
- 1/4" 90° x 1/4" straight flare
- Minimum length 12"

Note: Not recommended for refrigerants because of permeation rate.

SERVICEFIRST ITEM NO	DESCRIPTION
HSE01551	HOSE; ASSEMBLY, 1/4" FF/90 DEGREE X 24" PTFE
HSE01550	HOSE; PTFE, 1/4" FF/FF X 24"
HSE01332	HOSE; YELLOW JACKET PTFE HOSE, 36IN, RITCHIE NO. 31236
HSE01349	HOSE; YELLOW JACKET PTFE HOSE, 5/16" ID, 24" LENGTH, BRASS SAE FE FL EACH END
HSE01559	HOSE; YELLOW JACKET TEFLON PTFE HOSE 5/8 IN. FLARE X 18 IN. PTFE

Refrigerant Handling

YELLOW JACKET® Vacuum Pump Adapter

Convert a 3/8" or 1/2" vacuum pump intake into 1/4" R-12 and 1/2" Acme R-134a compatible fittings.

SERVICEFIRST ITEM NO	DESCRIPTION
ADP01121	ADAPTER; 1/2" PUMP ADAPTER WITH 1/4" FLARE AND 1/2" ACME MALE FITTING, RITCHIE 36018
ADP01122	ADAPTER; 3/8" PUMP ADAPTER WITH 1/4" FLARE AND 1/2" ACME MALE FITTING, RITCHIE 36018
KIT07453	KIT; CH-11 BULK GASKET
GKT03872	GASKET; CH80 QUICK COUPLER GASKETS FOR 1/2" - 5/8" HOSES

YELLOW JACKET® R-134a and R-12 Can Taps

With side tap, handles slip around and close to pierce the can. Small inserts for use with lubricant cans. Check valve on side taps help prevent back pressure into can. Not for use with other refrigerants

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02559	R-12 SIDE CAN TAP, RITCHIE 36193

YELLOW JACKET® Retrofit Accessory Tools

Valve core removers/installers.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02142	TOOL; R-134A UNIVERSAL LARGE BORE CORE REMOVER/INSTALLER, RITCHIE 36271

YELLOW JACKET® NH3 Ammonia Manifold and Hose

This heavy-duty manifold features cast iron body and full size metal handles. Finger-tight one-piece valve stem for positive seal on nylon seat. Dual temperature/pressure R717 gauge has bar with °C and psi with °F ammonia scales.

SERVICEFIRST ITEM NO	DESCRIPTION
MFD00933	MANIFOLD; AMMONIA MANIFOLD BODY W/VALVES
MFD00944	MANIFOLD; STEEL AMMONIA MANIFOLD AND GAUGES
GAG00955	GAUGE; AMMONIA MANIFOLD WITH 48IN HOSES

YELLOW JACKET® Ammonia Gauges °F

Ammonia gauges are designed for use on manifolds and as permanent gauges on any system or equipment charged with ammonia. The bourbon tube is made of 316 stainless. The sockets are steel. The dials show dual temperature and pressure scales. All gauges are equipped with restrictors to protect the gauges against pulsating pressure. Steel gauge cases are painted black. Gauges calibrated to 3-2-3% accuracy. 1/4" NPT Male connection. 2-1/2" & 3-1/2" with dual scale dials.

SERVICEFIRST ITEM NO	DESCRIPTION
GAG00899	GAUGE; AMMONIA GAUGE, 30" -0- 150PSI, 1/4" MPT
GAG00900	GAUGE; AMMONIA GAUGE, 30" -0- 400 PSI, 1/4" MPT

YELLOW JACKET® Manifold Parts

SERVICEFIRST ITEM NO	DESCRIPTION
KNB00138	KNOB; Yellow Knob for Series 49 and 47 Manifold
KNB00144	KNOB; BLUE KNOB ASSEMBLY FOR RITCHIE SERIES 49 MANIFOLD
KNB00139	KNOB; Red Knob for Series 49 and 47 Manifold
KNB00143	KNOB; WHITE KNOB ASSEMBLY FOR RITCHIE
TOL01512	TOOL; HANGING HOOK FOR MANIFOLD
RNG01750	ORING; RETAIN NUT ORING FOR RITCHIE MANIFOLD

YELLOW JACKET® Single Valves

Individual manifolds for high and low sides of system. Individual valves are available in two or three port versions. Nylon seals with double "O" rings.

SERVICEFIRST ITEM NO	DESCRIPTION
MFD00986	MANIFOLD; HIGH-SIDE MANIFOLD WITH GAUGE
MFD00987	MANIFOLD; LO-SIDE MANIFOLD WITH GAUGE
VAL07246	VALVE; 3-PORT, 1/8"NPT FEMALE X TWO 1/4" MALE FLARES

Refrigerant Handling

YELLOW JACKET® Automotive R-134a A/C Coupler

Premium - Couplers interface with R-134a service ports. 14 mm female thread or 1/4" male flare available. Quick, easy connect/disconnect; Control valve for access to systems even at working pressures; Integral safety sleeve holds coupler securely to service port; Highest flow characteristics; Low profile for tight applications.

SERVICEFIRST ITEM NO	DESCRIPTION
CPL01089	COUPLING; HIGH SIDE 90 DEGREE AUTO COUPLING 14M, 40321
CPL01084	COUPLING; 40322 LO SIDE 90@ AUTO CPLR 14M
CPL01083	COUPLER; R134A PREMIUM A/C COUPLER, 1/4 MALE FLARE, 90 DEG HIGH SIDE, WITH CONTROL VALVE, 40323
CPL01082	COUPLER; R134A PREMIUM A/C COUPLER, 1/4 MALE FLARE, 90 DEG LOW SIDE, WITH CONTROL VALVE, 40324

YELLOW JACKET® Single Test Gauges

Quick pressure checks - use low or high side gauge with quick coupler to attach directly to system or tanks.

SERVICEFIRST ITEM NO	DESCRIPTION
GAG00915	GAUGE; RED PRESSURE GAUGE W/QUICK COUPLER FOR RECOVERY TANK PRESSURE CHECKS
GAG00916	GAUGE; BLUE COMPOUND GAUGE W/QUICK COUPLER FOR RECOVERY TANK PRESSURE CHECKS
GAG00933	GAUGE; YELLOWJACKET RED PRESSURE GAUGE W/QUICK COUPLER AND 12" HOSE
GAG00934	GAUGE; YELLOWJACKET BLUE COMPOUND GAUGE W/QUICK COUPLER AND 12" HOSE

YELLOW JACKET® Digital Refrigeration System Analyzer

For time saving diagnostics, the easy-to-read pressured bar graphs of this patented unit quickly tell you more than you could ever see with the vibrating needle of a typical pressure gauge. You see pressure dynamics to readily know if the system's thermostatic expansion valve is modulating properly, if liquid is flooding back into the systems, and more. Saturation, subcooling, and superheat readings are automatic to eliminate fishing in your wallet for reference cards. This almost immediate knowledge of system behavior and faults can help save up to 10 minutes and more on many jobs.

Features:

- Profiles 23 common refrigerants: R-12, 22, 134a, 290, 401A, 401B, 402A, 402B, 404A, 406A, 407C, 408A, 409A, 410A, 414B, 416A, 417A, 420A, 422A, 502, 507, 508B, 600A (Upgradeable probe for new refrigerants)
- Integrated temperature probe for automatic superheat and subcooling readings
- Max and min pressure monitoring for control set-up
- Auto zero key to eliminate manual recalibration
- Vacuum detection in Hg
- Easy-to-read LCD screen with large 3/8" digits
- Rugged case construction with rubber boot to tolerate impact and resist typical oils, acids, and sunlight
- 2 year warranty

Easy to Use:

- Bar graph segments shows changes from digital reading (range of ±2 psi on low side, ±8 psi on high side)
- Digital readings show resolution of 1/4 psi on low side, 1 psi on high side
- Temperature in middle is corresponding bubble and dew points for current pressures
- Temperature, superheat or subcooling shown on lower right (eg. 14°F superheat)

Specifications:

- Pressure accuracy: 0.5% F.S. ± 1 least significant digit, calibration traceable to NIST
- Pressure ports: Two 1/8" acting as low and high side gauges
- Working pressure: Low side: 0-200 psi (1350 kPa, 13.5 bar) High side: 0-550 psi (3790 kPa, 37.9 bar)
- Proof pressure: Low side: 600 psi (4100 kPa, 41 bar) High side: 1500 psi (10300 kPa, 103 bar)
- Temperature sensor range: -40° to 250°F (-40° to 125°C)
- Temperature accuracy: ±0.9°F (±0.5°C) between 32° to 158°F (0° to 70°C)
- Usage environment: Indoor/Outdoor dew, splash and rain resistant; do not immerse in water
- Storage and operational temperature: -4° to 122°F (-20° to 50°C)
- Power supply: 9V (approx. 6 months under normal use)
- Weight: 1.6 lb. (.725 kg)
- Dimensions: 6.7" x 4.8" x 2.5" (17 cm x 12.2 cm x 6.4 cm)

SERVICEFIRST ITEM NO	DESCRIPTION

FTG01118	FITTING; 3/8" BANTAM ANCHOR FITTING
KIT09704	KIT; BANTAM SIGHT GLASS ASSEMBLY, INCLUDES GLASS, RING AND SEAL, 41061
SRN00842	SCREEN; PARTICULATE SCREEN 41063, FOR RITCHIE BANTAM MANIFOLD
RNG01829	RING; BANTAM O-RINGS

YELLOW JACKET® TITAN™ Replacement Parts

Replacement parts for TITAN manifolds

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01512	TOOL; HANGING HOOK FOR MANIFOLD
HDL01019	HANDLE; 41041 TITAN YELLOW HANDLE
HDL01010	HANDLE; TITAN BLUE HANDLE
SCR02117	SCREW; TITAN/BANTAM FEED SCREW, 41056
SCR01887	SCREW; FEED SCREW FOR MANIFOLD
NUT01014	NUT; RETAINING NUT FOR YELLOW JACKET MANIFOLD
KIT07495	KIT; Repair Kit for Ritchie Manifold, Includes screws and washers for valve handles(set of 2)
COV03690	COVER; SET OF 3 1/8" GAUGE BOOTS

YELLOW JACKET® BRUTE II™ Replacement Parts

Replacement parts for BRUTE II manifolds.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01512	TOOL; HANGING HOOK FOR MANIFOLD
HDL01012	HANDLE; BRUTE II YELLOW HANDLE
HDL01026	HANDLE; BRUTE II RED HANDLE
PST00107	PISTON; 3/8" PISTON FOR BRUTE MANIFOLD
SCR01991	SCREW; BRUTE MANIFOLD FEED SCREWS
KIT08015	KIT; BRUTE MANIFOLD OVERHAUL KIT, INCLUDES 4 PISTONS AND 4 SCREWS
COV03690	COVER; SET OF 3 1/8" GAUGE BOOTS

YELLOW JACKET® Manifold Parts Kits

Yellow heavy-duty molded, sectioned case to protect and secure manifold parts for Series 41, TITAN, and BRUTE II™ Manifolds

SERVICEFIRST ITEM NO	DESCRIPTION
KIT13668	KIT; 2005 MANIFOLD REPAIR KIT FOR SERIES 41, BRUTE II AND TITAN MANIFOLDS
HDL01010	HANDLE; TITAN BLUE HANDLE
SCR02117	SCREW; TITAN/BANTAM FEED SCREW, 41056
HDL01012	HANDLE; BRUTE II YELLOW HANDLE
HDL01026	HANDLE; BRUTE II RED HANDLE
SCR01887	SCREW; FEED SCREW FOR MANIFOLD
NUT01014	NUT; RETAINING NUT FOR YELLOW JACKET MANIFOLD
KIT07495	KIT; Repair Kit for Ritchie Manifold, Includes screws and washers for valve handles(set of 2)
PST00107	PISTON; 3/8" PISTON FOR BRUTE MANIFOLD
SCR01991	SCREW; BRUTE MANIFOLD FEED SCREWS
HDL01019	HANDLE; 41041 TITAN YELLOW HANDLE
RNG01692	RING; "O" rings for Ritchie Series 41 Manifold, 10-pack

Refrigerant Handling

YELLOW JACKET® Manifold Carrying Case

Blue heavy-duty blow molded case to protect manifold and tools. Long lasting hinge. Handle for easy carrying.

SERVICEFIRST ITEM NO	DESCRIPTION
CAS01207	CASE; BRUTE MANIFOLD CARRYING CASE, 13-1/2" X 10" X 4-5/8"
CAS00968	CASE; BRUTE MANIFOLD CARRYING, 15 1/2" X 12 1/2" X 5 1/2"

YELLOW JACKET® "O" Ring Lubricant

To lubricate "O" rings in manifolds when pistons or "O" rings are being replaced. Use sparingly.

SERVICEFIRST ITEM NO	DESCRIPTION
LUB00042	LUBRICANT; O-RING

YELLOW JACKET® Manifold Particulate Filter

These fittings trap the particles before they damage valve seats or pass into your recovery equipment. Replaceable, cleanable screens.

SERVICEFIRST ITEM NO	DESCRIPTION
FLR04535	FILTER; RITCHIE 1/4IN MANIFOLD PARTICULATE FILTER
FLR04536	FILTER; RITCHIE 3/8IN MANIFOLD PARTICULATE FILTER
FLR04537	FILTER; RITCHIE 1/2IN MANIFOLD PARTICULATE FILTER
SRN00831	SCREEN; RITCHIE MANIFOLD REPLACEMENT FILTER SCREEN, 5-PACK

YELLOW JACKET® Liquid Charging Adapter

Liquid charging is recommended when charging blends into refrigeration and air conditioning systems. Since compressors cannot compress liquids you need a liquid charger adapter for safe and fast liquid (saturated vapor) charging through the low pressure side of a system. The YELLOW JACKET adapter connects to the cylinder valve or refrigerant can. To protect the compressor, adapter orifice reduces liquid flow to a level below compressor capacity. Refrigerant flashes off into a saturated vapor to speed entry. Eliminates the time and work of heating cylinders. Blue color-coded aluminum.

SERVICEFIRST ITEM NO	DESCRIPTION
ADP01099	ADAPTER; 1/4" LIQUID CHARGING, 41123
ADP01050	ADAPTER; 5/16 INCH LIQUID CHARGING ADAPTER
RNG01867	O-RING; RITCHIE 41132 REPLACEMENT O-RING FOR 1/4" ADAPTER

YELLOW JACKET® Sight Glass

Use with YELLOW JACKET RecoverX and RecoverXL machines. Indicates when all liquid has been recovered so you can switch immediately to vapor cycle and speed-up the recovery process. 1/4" flare x 1/4" female flare.

SERVICEFIRST ITEM NO	DESCRIPTION
GLS00875	GLASS; RITCHIE SIGHT GLASS, 1/4IN FLARE X 1/4IN FEMALE FLARE

YELLOW JACKET® Series 41 Replacement Parts

Replacement parts for Series 41 manifolds.

SERVICEFIRST ITEM NO	DESCRIPTION
KIT07497	KIT; Complete Handle Assembly for Ritchie Series 41 Manifold, Includes Piston w/seal, "O" rings, Feed Screw, Retaining Nut and Handle w/Screw and Washer
KIT07495	KIT; Repair Kit for Ritchie Manifold, Includes screws and washers for valve handles(set of 2)
SCR01887	SCREW; FEED SCREW FOR MANIFOLD
NUT01014	NUT; RETAINING NUT FOR YELLOW JACKET MANIFOLD
TOL01512	TOOL; HANGING HOOK FOR MANIFOLD
KIT07496	KIT; REPAIR KIT FOR RITCHIE SERIES 41 MANIFOLD, INCLUDES PISTONS W/ O RINGS AND SEAL
KIT07494	KIT; Repair Kit for Ritchie Series 41 Manifold, Includes Handle, screw and washer

Tools and Test Equipment

Refrigerant Handling

YELLOW JACKET® Series 41 2-1/2" Gauges

Forged brass body with metal valve handles. Forged body is solid brass for durability. Full porting maximizes capacity. Metal valve handles are full size for easy operation. Hose anchors are forged into back of body at 45°.

- Pretested. Every manifold is individually tested for reliability before shipping
- Limited Lifetime Warranty on manifold bar and valves - not gauges. See manifold instructions for details
- Flutterless™ Technology. Surge protector and silicone dampened movement helps minimize needle pulsation for easier, more accurate readings
- Sliding double "O" ring pistons. Non-rotating design reduces wear. Only 1-1/2 turns give you full flow. Long-life nylon seat is also for vacuum and R-134a, R-404A, R-507, R-407C, R-410A, etc
- YELLOW JACKET Hoses. Most manifolds include color-coded YELLOW JACKET charging hoses
- Easy-to-read 2-1/2" steel case gauges (°F) with 3-2-3% accuracy

Refrigerant Handling

YELLOW JACKET® R-134a A/C Coupler

Economy - A basic R-134a service coupler with no control valve. Snaps on for instant flow. Professionals should use professionals couplers.

SERVICEFIRST ITEM NO	DESCRIPTION
GKT04051	GAKSET; O-RING REPLACEMENT FOR AUTOMOTIVE R-134A A/C COUPLERS, 6 PIECES, RITCHE 41305
CPL00957	COUPLING; R134A HIGH SIDE A/C AUTO COUPLER WITH 1/4 IN. MF, RITCHE NO. 41317
CPL00958	COUPLING; R134A LO SIDE A/C AUTO COUPLER WITH 1/4 IN MF, RITCHE NO. 41318

YELLOW JACKET® Automotive R-134a Manifolds

"Series 41" automotive manifold comes complete with R-134a gauges, environmental PLUS II hoses, and special R-134a A/C couplers with control valves. The hoses meet SAE J2196 and are UL 1963 recognized.

SERVICEFIRST ITEM NO	DESCRIPTION
MFD00974	MANIFOLD, AUTO ONLY R-134a MANIFOLD 2/60 IN HOSES
MFD00936	MANIFOLD; AUTO ONLY R-134A A/C, 60" HOSES, W/AUTO AIR COUPLERS
MFD00988	MANIFOLD; AUTO ONLY 134A MANIFOLD, 60" HOSES W/ACME FITTINGS AND 14MM FITTINGS, INCLUDES R134A COUPLERS AND CARRYING CASE
MFD00973	MANIFOLD; SERIES 41 MANIFOLD FOR R410A W/60IN PLUS II HOSES WITH FLEX FLOW FITTINGS
MFD00919	MANIFOLD; W/GAUGES, R410A, WITH 60 IN PLUS RYB HOSES WITH STD FTG
MFD00965	MANIFOLD, SERIES 41-45 MANIFOLD IN CLAMSHELL PACK, R134A, 404A, 507
MFD00925	MANIFOLD; 2-VALVE W/RED AND BLUE GAUGES, HOOK AND ANCHOR IN CLAMSHELL PACKAGING, R-410A
MFD00920	MANIFOLD; W/GAUGES, R-410A, W/60" HBW HOSES

YELLOW JACKET® Series 41 3-1/8" Gauges

This field-proven manifold line has been expanded to include larger, easier to read color-coded gauges in rugged steel cases with polycarbonate crystals. Most importantly, these gauges feature 1% accuracy for an exact reading in critical charge systems.

- Wide choice of refrigerant combinations including:
 - R-22, R-134a, R-404A
 - R-12, R-22, R-134a
 - R-22, R-404A, R-410A
- Color-coded scales with bold, easy to read dials
- Dials with 1% accuracy (Class 1) for critical charge systems
- Proven sliding double "O" ring pistons reduce wear
- Long life nylon seats
- Forged brass body for durability
- Full porting maximizes capacity and flow
- Some models include color-coded, 60" PLUS II™ hoses with standard 1/4" flare fittings
- Hose assemblies UL recognized for 4000 psi (275 bar) burst and 800 psi (55 bar) working pressure. File# SA9737

YELLOW JACKET® Series 41 Class 1 Brass Gauges

These manifolds have all the same features as the regular "Series 41" and an important upgrade - the gauges. Manifolds are also available with a variety of hoses. YELLOW JACKET® is the only U.S.-made manifold to incorporate all the following important features into a truly premium gauge.

- Upgraded movement with phosphor bronze plates, stainless gears and pinions. Dissimilar parts create less friction and last longer. Flutterless™ technology included.
- Movement calibrated at more points with tighter tolerances for full range Class 1 (1% accuracy)
- Polished solid brass case.

SERVICEFIRST ITEM NO	DESCRIPTION
MFD01154	MANIFOLD; SERIES 41 TWO VALVE DELUXE BRASS GAUGES, WITH 60" HOSE, PLUS II WITH COMPACT VALVE, RITCHE 42235, R12, R22, R502
MFD01155	MANIFOLD; SERIES 41 TWO VALVE DELUXE BRASS GAUGES, WITH 60" HOSE, PLUS II WITH COMPACT VALVE, RITCHE 42436, R134A, R404A, R507 ritche 42436
MFD01027	MANIFOLD; YELLOWJACKET 43235 MANIFOLD W/60 INCH HOSES, R-12, 22, 502

Tools and Test Equipment

Refrigerant Handling

YELLOW JACKET® BRUTE II™ Manifolds °F and °C

The new BRUTE II™ 4-Valve Test and Charging Manifold has been trimmed down for lighter weight but with the same powerful performance of the original model. This streamlined unit continues to provide the flow that's proven faster than any conventional manifold. And even though sleeker and more compact, the aluminum alloy is forged for strength and reliability with 3/8" bores through the body to speed the job.

- Fourth hose enables connection to high/low sides, refrigerant tank, and recovery unit or vacuum pump for diagnostics, evacuation and charging without switching hoses
- 1/4" high/low sides 3/8" vacuum port for regular jobs, or;
- 3/8" high/low sides with 1/2" vacuum port for larger systems
- Front access for easy field recalibration
- Proven, double "O" ring piston for reliability and long service life
- Exclusive 100-mesh filter in-line on all flare fittings helps keep out particulate material and extend the life of the seat
- Contoured easy-grip handles for positive control; color coded for ready identification
- Sight glass to easily view refrigerant movement and condition during charging and recovery
- Heavy-duty hook won't pull out
- Also available with YELLOW JACKET 3-1/8" (80mm) red and blue liquid-filled gauges

SERVICEFIRST ITEM NO	DESCRIPTION
MFD01106	MANIFOLD; RITCHIE 46000, BRUTE II 4-VALVE, WITHOUT HOSES

YELLOW JACKET® 2-1/2" Steel Case Gauges °F and °C

All YELLOW JACKET gauges feature bold high-visibility dials with color coded temperature scales for easy reading.

- Flutterless™ technology with surge protector minimizes the needle pulsation for improved accuracy
- Compound gauges feature over-pressure protection to 350 pounds
- 1/8" NPT Male lower mount fitting
- Steel cases
- Class B (3-2-3% accuracy)
- Calibration traceable to NIST standards

YELLOW JACKET® 3-1/8" Gauges °F and °C

Forged aluminum alloy body for increased strength and reliability. The new TITAN Test and Charging Manifold is the first forged aluminum manifold in the industry.

Special aluminum alloy body makes this unit lightweight for handling ease with the durability and reliability required for repeated, rugged use.

- Large, easy-to-read 3-1/8" (80 mm) steel case red and blue, 1% accuracy (Class 1) gauges; front access for easy field recalibration; optional protective gauge boots available
- Proven, double "O" ring piston for reliability and long service life
- Exclusive 100 mesh filter in-line on all flare fittings helps keep out particulate material and extend the life of the seats
- Sight glass to easily view refrigerant movement and condition during charging and recovery
- Heavy duty hook won't pull out

4-Valve Features/Benefits

- Fourth hose to enable connection to high/low sides, refrigerant tank, and recovery unit or vacuum pump for diagnostics, evacuation and charging without switching hoses
- 3/8" vacuum port for use with larger hose to cut evacuation time by up to 33 percent (all other fittings on unit are 1/4")
- Also available with YELLOW JACKET® 3-1/8" (80 mm) red and blue liquid-filled gauges

YELLOW JACKET® 1 1/2" - 3 1/2" General Use Gauges °F

General use gauges for multiple applications where pressure or vacuum gauges are required. Brass internals are suitable for air, gas, water and oil plus many more industry applications.

- No restrictor
- Recalibration feature is standard on 2-1/2" and 3-1/2" gauges
- Steel cases painted black with glass crystal and metal ring
- Gauge accuracy is 3-2-3%

YELLOW JACKET® Premium Tube Cutters

Enclosed precision feed mechanism for easy, smooth cutting. Resists jams.

Other features include:

- Wide rollers with flare cut-off groove. Ground surface for easy rolling
- Wheel recessed into cutter body
- Made from high quality alloy steel, YELLOW JACKET wheels are thinner than those made from carbon steel or lower quality steel. This means a sharper cutting wheel edge for less burr on copper, aluminum and mild steel tubing. Does not "bottom out." Pinned rather than screwed in position
- Spare 60100 wheel attached
- Corrosion-resistant finish on lightweight aluminum frame
- Retractable reamer
- Flare cut-off groove

YELLOW JACKET® Heavy Duty Mini-Cutters

Mini-cutter for heavy duty cutting from 1/8" to 7/8" O.D. Wide body for easy grip. Large rollers and flare cut-off groove.

Small-Mini

Smallest version of the heavy duty model cuts 1/8" to 5/8" with a turning radius of only 13/16".

Big-Mini

A larger version with a heavy duty cast body cuts from 1/4" to 1-1/8" O.D. and is still compact. Field proven.

YELLOW JACKET® Premium Double and Single Flare 45° Tool

One-piece tool single flares six sizes of copper, brass, aluminum and most mild steel tubing. Forms flare above clamping block without thinning flare. Deeper grooves in bar for improved gripping power.

- Hardened steel block and steel handles and body for durability
- Automatic flare cone centering for consistent flare precision

60202 also features a swing away yoke so tool can also double flare 3/16" to 1/2" tubing when used with 60203 double flare bar (order separately).

SERVICEFIRST ITEM NO	DESCRIPTION

TOL01405	TOOL: DELUXE FULL RANGE, FLARING, 1/8" TO 3/4"

YELLOW JACKET® Large Size 45° Flaring Tool

Tool designed to flare on the larger size tubing - up to 1-1/8". Flaring bars are hardened and grip tubing securely. Yoke slips over flaring bar and locks in place. Long handle and precision threaded feed screw ensure easy flaring.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01476	TOOL: LARGE FLARING TOOL, 3/4, 7/8, 1, 1-1/8 OD
TOL01477	TOOL: LARGE FLARING TOOL, 3/4, 7/8, 1, 1-1/8 OD, FLARING BAR ONLY
TOL02452	TOOL: FLARING YOKE FOR 60290 FLARING TOOL

YELLOW JACKET® Eccentric Cone Flaring Tool

- Off-center hardened steel cone produces a rolling action for uniform flare walls without galling in 3/16" to 3/4" O.D. tubing. Large feed screw handle turns with little effort for smooth operation.
- Black oxide-finished steel flaring bars are heat-treated for durability and secure grip on tubing
 - Recommended for soft materials such as copper and aluminum
 - Recommended by some mini-split manufacturers for R-410A flare

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02120	TOOL: RITCHIE 60295 ECCENTRIC CONE FLARE TOOL

YELLOW JACKET® Ratchet Hand Bender

- TOL01441 (Ritchie 60331) includes all items required to bend 1/4", 5/16", 3/8", 1/2", 5/8", 3/4" and 7/8" soft copper, aluminum and light hydraulic tubing.
- Includes YELLOW JACKET Premium 60101 Tube Cutter and 60161 Tube Reamer/Burr Remover

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01441	HAND RATCHET TUBE BENDER KIT (See above description for kit contents.)
TOL02910	1/2 INCH OD BENDING MANDREL, 60333
TOL01868	3/4" MANDREL FOR RITCHIE RATCHET TUBE BENDER
TOL02070	7/8IN MANDREL FOR YELLOW JACKET RATCHET HAND BENDER
TOL01470	CROSS-BAR ASSEMBLY FOR RITCHIE NO. 60331
TOL01471	RATCHET BODY FOR RITCHIE NO. 60331
ADP01018	ADAPTER; REVERSE BEND ADAPTER FOR RITCHIE 60331 RATCHET HAND BENDER
HUS03735	RITCHIE 60343 BENDER BODY HOUSING FOR 60331 HAND BENDER
NUT01047	WING NUT AND E-CLIP, RITCHIE 60348

YELLOW JACKET® Spring Tube Bender

Specially designed YELLOW JACKET spring benders slip over soft copper and aluminum tubing during bending to help prevent tube collapse. Silver-plated finish. Conforms to Fed. Spec. GGG-B-191-a Type IV.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01530	TOOL: 6-PIECE SPRING TUBE BENDER, 6-SIZES
TOL01466	TOOL: SPRING TUBE BENDER, 1/4", 3/8", 1/2", 5/8" OD
TOL01549	TOOL: 4-PIECE SPRING TUBE BENDER, 1/2 IN, 5/8 IN, 3/4 IN AND 7/8 IN OD, RITCHIE NO. 60353
TOL02125	TOOL: RITCHIE 60354 1/4 INCH SPRING BENDER
TOL02126	TOOL: RITCHIE 60355 5/16 INCH SPRING BENDER
TOL02127	TOOL: RITCHIE 60356 3/8 INCH SPRING BENDER
TOL02128	TOOL: RITCHIE 60357 7/16 INCH SPRING BENDER
TOL02129	TOOL: RITCHIE 60358 1/2 INCH SPRING BENDER
TOL02130	TOOL: RITCHIE 60359 5/8 INCH SPRING BENDER
TOL01557	TOOL: SPRING TUBE BENDER FOR 3/4IN OD TUBE, RITHIE NO. 60360
TOL01558	TOOL: SPRING TUBE BENDOR FOR 7/8IN OD TUBE, RITCHIE NO. 60361

YELLOW JACKET® Full Range Heavy Duty Tube Benders

Make fast bends on almost every size of soft copper, brass, aluminum, steel and soft stainless steel tubing to 180°. 60390 is a compact three-in-one bender for 1/4", 5/16" and 3/8" O.D. tubing. Calibrated markings for bends up to 180° help you duplicate angles. The balance of the line features special hardened wearing surfaces to help maintain accuracy. Conforms to Fed. Spec. GGG- B-191-a Type III, Class 2.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01888	TOOL: FULL RANGE HEAVY DUTY TUBE BENDER, 1/4IN
TOL01887	TOOL: FULL RANGE HEAVY DUTY TUBE BENDER, 3/8IN
TOL01514	TOOL: 1/2IN TUBE BENDER 1-1/2IN BENDING RADIUS
TOL01531	TOOL: FULL RANGE HEAVY DUTY 5/8IN TUBE BENDER, 2-1/4IN BENDING RADIUS
TOL01478	TOOL: 3/4" TUBE BENDER
TOL01479	TOOL: 7/8" TUBE BENDER
TOL01515	TOOL: 3-IN-1 TUBE BENDER, 14IN - 5/16IN - 3/8IN, 15/16IN RADIUS
TOL02082	TOOL: HOOK/BOLT FOR RITCHIE 60378 TUBE BENDER

YELLOW JACKET® Tubing Expander/Swager

With long handles for comfortable leverage, you can easily expand 5/16" to 1-5/8" O.D. soft copper and aluminum tubing in seconds. Handles, tapered expanding pin, and other moving surfaces are heat treated for long-term durability. Select from nine expander heads to attach to the front of the handles.

- Precise swaging on the job
- Re-round deformed tube and fitting ends
- Help salvage shorts and scrap to make couplings
- Use on 0.063" wall soft copper and aluminum to 1-5/8" O.D. (anneal hard copper prior to use)
- Use on 0.047" wall soft steel to 1-1/8" O.D.
- Use on 0.039" wall stainless steel to 7/8" O.D.

The savings of precise swages instead of couplings

- 100% of couplings
- 50% of solder points
- 50% of soldering material
- 50% of time
- Possible leaks

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02058	TOOL: RITCHIE 60407 COMPLETE EXPANDER KIT
TOL02091	TOOL: RITCHIE 60413 EXPANDER HEAD, 5/16
TOL02092	TOOL: RITCHIE 60422 EXPANDER HEAD, 1-3/8
TOL02093	TOOL: RITCHIE 60424 EXPANDER HEAD, 1-5/8

YELLOW JACKET® Swaging and 45° Flaring Tools

This combination tool both flares and swages soft or annealed copper and similar materials.

3/16" to 3/4" Tube Sizes

Six hardened and plated alloy steel adapters are interchangeable to easily convert sizes and functions. Slip-on self-centering steel yoke has a feed screw with extra long handle. For a sure grip when attaching adapters to the feed screw, adapters are deeply knurled. Flaring bars are hardened and chrome plated for durability.

Kit comes complete with six swage adapters, flaring cone, two flaring bars, yoke, and a deluxe case.

ALSO AVAILABLE

1/2" to 3/4" Tube Sizes

Mid-size swaging and flaring tool for 1/2", 5/8" and 3/4" O.D. tubing.

3/4" to 1-1/8" Tube Sizes

Swages 3/4", 7/8" and 1-1/8" O.D. tubing. Flares 3/4", 7/8", and 1-1/8" O.D. tubing.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01407	TOOL: SWAGE/45 DEG. FLARING, 3/16" TO 3/4"
TOL02056	TOOL: RITCHIE 60443 COMPLETE YOKE FOR 60453/60440
ADP01100	ADAPTER: 3/16" AND 3/8", RITCHIE 60444
KIT08421	KIT: RITCHIE 60453 SWAGE/FLARE KIT-COMplete, 1/2IN - 3/4IN OD
TOL01480	TOOL: LARGE SWAGE/FLARING TOOL, 3/4" TO 1-1/8" OD

YELLOW JACKET® Punch-Type Swaging Tool

Durable heat-treated and plated alloy steel tool expands one end of copper tubing for connecting same size tubes.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01440	TOOL; MULTI SWAGE PUNCH, 6 SIZES-3/16 THRU 5/8
TOL02572	TOOL; 6 PC SWAGING SET
TOL02121	TOOL; RITCHIE 60463 SWAGE PUNCH, 3/16 INCH
TOL02122	TOOL; RITCHIE 60464 SWAGE PUNCH, 1/4 INCH
TOL02123	TOOL; RITCHIE 60465 SWAGE PUNCH, 5/16 INCH
TOL01481	TOOL; 3/8" OD FLARING PUNCH
TOL01992	TOOL; 1/2 INCH OD PUNCH TYPE SWAGING TOOL
TOL01993	TOOL; 5/8 INCH OD PUNCH TYPE SWAGING TOOL
TOL01482	TOOL; 3/4" OD FLARING PUNCH
TOL01483	TOOL; 7/8" OD FLARING PUNCH
TOL01516	TOOL; 4-PIECE SWAGING SET, 1/4, 3/8, 1/2 AND 5/8IN
TOL01445	TOOL; 5 PIECE SWAGING KIT IN POU, 1/4, 5/16, 3/8, 1/2 AND 5/8"

YELLOW JACKET® 3-in-1 Swaging and Flaring Tool

This revolutionary tool swages soft and hard copper and flares soft copper. Swaging hard copper lowers the cost of joining, eliminating the time and expense of annealing.

- One-piece construction with hardened steel clamping dies
- Quick-change swaging adapters heat-treated to take continual use
- Automatic self-centering of swaging adapters and flaring cone for consistent results
- Set includes heavy duty carrying case and 60161 tube reamer

SERVICEFIRST ITEM NO	DESCRIPTION
KIT08033	KIT; THREE IN ONE SWAGING AND FLARING TOOL, SIX SIZES 3/16 - 5/8 INCH
TOL02396	TOOL; RATCHETING DRIVER WRENCH WITH BITS, 60584
TOL01510	TOOL; YELLOW JACKET FAN BLADE PULLER
TOL01511	TOOL, REPLACEMENT FINGERS FOR YELLOW JACKET FAN BLADE PULLER(4)

YELLOW JACKET® Retaining Ring Pliers

Compact pliers with interchangeable tips. Work on internal and external retaining rings where bearings are used, where a shaft must be held in a bore, under the dashboard and more.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02867	TOOL; SMALL RETAINING RING PLIERS
TOL02088	TOOL; RITCHIE 60594 RETAINING RING PLIERS FOR 3/8" - 2" INTERNAL RINGS; 1/4" - 2" EXTERNAL RINGS

YELLOW JACKET® Premium Forged Service Wrenches

Enclosed ratcheting mechanism to keep out debris that could jam the action.

- Higher torque ratings than 60613
- 72 teeth per end for 5°/6° ratcheting
- No reversing mechanism to wear out; simply turn wrench over for reversing
- Uses less work room for ratcheting
- Heat-treated chrome vanadium forging for durability

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01788	TOOL; RITCHIE 60600 REFRIGERATION RATCHET, 1/4" & 3/8" SQUARE
TOL01789	TOOL; RITCHIE 60601 REFRIGERATION RATCHET, 3/16" & 5/16" SQUARE
TOL01790	TOOL; RITCHIE 60600 REFRIGERATION RATCHET, 1/4" & 3/8" SQUARE, BULK PACK
TOL01791	TOOL; RITCHIE 60601 REFRIGERATION RATCHET, 3/16" & 5/16" SQUARE, BULK PACK
TOL02025	TOOL; YELLOWJACKET 60629 2-PIECE WRENCH SET

YELLOW JACKET® Service Wrench and Adapter

Combination service wrench with 60609 hex adapter for accessing liquid and suction based valves on residential and commercial units up to 7.5 tons. Heat-treated hex works for 3/16" and 5/16" hex valves. New adapter for some York/Coleman units

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01410	TOOL; HEX KEY ADAPTER
TOL01517	TOOL; SERVICE WRENCH AND ADAPTER, CONSISTS FO RITCHIE NOS. 60613 AND 60609
TOL02254	TOOL; HEX KEY ADAPTER FOR SOME YORK, GOODMAN AND AMANA VALVES

YELLOW JACKET® Service Wrenches

Straight, Heavy Duty, and Offset service wrenches offered.

Straight - Standard reversible ratchet wrench with square openings: 1/4" and 3/16" at one end; 3/8" and 5/16" at other end.

Heavy Duty - This version of original 60613 comes with heavier handle and larger gear. Stronger gear teeth are combined with strong reversing mechanism for long service life. Square opening 3/16" and 1/4" at one end; 3/8" and 5/16" at other end.

Offset - KNUCKLE-SAVER™ design for convenience in tight areas. Square opening 1/4" and 3/16" at one end; 3/8" and 5/16" at other.

Refrigeration - Reversible wrench for larger service valves. 3/8" square one end; 1/2" square at other.

7" Long Ratchet - Heavy duty reversible ratchet wrench with hex openings 1/2" and 9/16" at one end; and square 3/16" and 1/4" at other end.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01435	TOOL; Heavy Duty Refrigeration Wrratchet Wrench, 7" Long
TOL01408	TOOL; STFT. REF. RATCHET, 1/4", 3/16", 3/8", 5/16"
TOL01484	TOOL; LARGE REF. RATCHET, 3/8" SQUARE X 1/2" SQUARE
TOL01409	TOOL; OFF-SET REF.RATCHET, 1/4", 3/16", 3/8" 5/16"
TOL01523	TOOL, HEAVY DUTY SERVICE WRENCH, SQUARE OPENING, 3/16, 1/4, 3/8 AND 5/16
TOL01416	TOOL; BULK PACKAGE OF 60613 STR, SERVICE RATCHET, 50/BX
TOL01417	TOOL; BULK PACKAGE OF 60016 OFF SET SERVICE RATCHET, 50/BX

YELLOW JACKET® Sporlan Value Wrench

Spanner end tightens packing nut around super heat adjustment stem. 1/8" square end adjusts Sporlan solenoid valves with manual lift stems as on Series B6 and E6 through MA 50. Also 3/16" square at same end for expansion valves.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01524	TOOL, SPORLAN VALVE WRENCH

YELLOW JACKET® Knuckle-Saver™ Hex Wrench Sets

The unique offset design of these YELLOW JACKET wrenches saves your knuckles in tight places.

- Accurately sized and broached
- Finger control reversing
- Chrome plated for durability

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01448	TOOL; 5 PC. KNUCKLE-SAVER HEX WRENCH SET, 1/4" - 7/8"
TOL01764	TOOL; RITCHE KNUCKLE-SAVER 3-PC HEX WRENCH SET, 1/4" - 9/16"
TOL01467	TOOL; KNUCKLE SAVER REFRIGERATION RATCHET, 1/4" X 5/16"
TOL02028	TOOL; KNUCKLE-SAVER HEX WRENCH, 3/8 X 7/16
TOL01468	TOOL; KNUCKLE SAVER REFRIGERATION RATCHET, 1/2" X 9/16"
TOL02526	TOOL; HEX RATCHET WRENCH, 5/8 X 11/16, RITCHE 60636

YELLOW JACKET® Strap Wrench

Easy-to-use strap attaches easily for quick gripping of chrome or nickel finished pipe without gouging the finish. Sturdy one-piece construction.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01485	TOOL; STRAP WRENCH, 17" CAPACITY

YELLOW JACKET® Pinch-Off Tools

- 60661 pinches off copper and other lines quickly. Trigger release.
- 60665 will pinch off and reround 1/4", 5/16", 3/8" and 1/2" copper

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01419	TOOL; VISE GRIP PINCHOFF
TOL01474	TOOL; PINCHOFF AND ROUNDING TOOL FOR 1/4, 5/16, 3/8 AND 1/2IN COPPER
TOL01565	TOOL; VISEGRIP RR PINCH-OFF TOOL

Refrigerant Handling

YELLOW JACKET® E-Z Grip Ratchets

Easy-to-hold handles and reversing mechanism provide comfortable operation even when used frequently. Heat-treated gear hex for long life.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02868	TOOL; E-Z GRIP 6 PIECE WRENCH SET

YELLOW JACKET® Recovery Pliers

The fastest and easiest way to evacuate refrigerant before disposal of a unit. Snaps onto refrigerant line and punctures super large hole for immediate and maximum full flow to recovery unit. One adjustable tool fits all sizes from 3/16" to 7/8".

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01564	TOOL; REFRIGERANT RECOVERY PLIERS, USE ON 3/16IN - 7/8IN OD HARD TUBING
KIT07729	KIT; REPLACEMENT NEEDLE AND GASKET FOR RITCHEE NO. 60667

YELLOW JACKET® Hex Keys

All YELLOW JACKET hex keys from 1/20" to 5/16" are premium 8650 heat-treated steel alloy for rugged use.

- Chamfered square cut ends for easy socket insertion
 - Corrosion-resistant finish
 - Patented organizer case with identifying slots that lock keys in place when not in use
 - Ball end keys ease tightening of fasteners where sockets are up to 30° off axis.
- Provides fast full socket engagement where regular hex keys cannot do the job.

Note:

All individual keys listed are in 10 pak

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01521	TOOL, 12 PIECE HEX KEY SET WITH STANDARD END W/CASE
TOL01522	TOOL, 12 PIECE HEX KEY SET WITH BALL END W/CASE
TOL02173	TOOL; 5/64 HEX KEY WITH BALL END, 10/PAK

YELLOW JACKET® Fold-Up Hex Key Sets

Locate the correct key size easily. For rugged use, each key is premium 8650 heat-treated steel alloy.

- Chamfered square cut ends for easy socket insertion
- Corrosion-resistant finish
- Smooth one-piece handle with sizes clearly marked
- Keys snap to work position for leverage and fold into handle for compact storage
- Replacement keys available

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01502	TOOL; 8-SIZE FOLD-UP HEX KEY SET
TOL01503	TOOL; 9-SIZE FOLD-UP HEX KEY SET

YELLOW JACKET® Fin Straighteners

Straightens condenser and evaporator fins quickly and easily - even severely damaged ones. Also cleans away lint, rust, dirt and other debris. Adjustable tension and sturdy metal body.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01420	TOOL; ADJUSTABLE FIN STRAIGHTENER AND CLEANER
TOL01486	TOOL; FINFIX4 FIN COMB, 16 & 17 FPI
TOL01421	TOOL; ADJUSTABLE FIN STRAIGHTENER & CLEANER W/LARGE HANDLE

Tools and Test Equipment

YELLOW JACKET® Ergonomic FinFix™ Combs

Improved shape conforms to the hand and thumb for more comfortable grip and use. Color coded nylon fin combs are designed to straighten and clean fins on standard and high efficiency condensers and evaporators. Available individually bagged or as a set of 6 assorted. One set of 6 covers twelve different fin sizes.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01862	TOOL, ERGONOMIC FINFIX 1 FIN COMB FROM RITCHIE, 8 & 10 FPI
TOL01863	TOOL, ERGONOMIC FINFIX 2 FIN COMB FROM RITCHIE, 9 & 15 FPI
TOL01864	TOOL, ERGONOMIC FINFIX 3 FIN COMB FROM RITCHIE, 11 & 13 FPI
TOL01865	TOOL, ERGONOMIC FINFIX 4 FIN COMB FROM RITCHIE, 12 & 14 FPI
TOL01866	TOOL, ERGONOMIC FINFIX 6 FIN COMB FROM RITCHIE, 18 & 20 FPI
TOL01867	TOOL, ERGONOMIC FINFIX 7 FIN COMB FROM RITCHIE, 21/22 & 23/24 FPI
TOL01446	TOOL; NYLON FIN COMBS, ASSORTMENT OF 6, 8, TO 20 FPI
TOL02225	TOOL; NYLON FIN COMB, GREEN, BAG OF 25, 61164
TOL01496	TOOL; Fin Comb - FinFix 6, 18 & 20 fpi, 25/bag

YELLOW JACKET® 6-in-1 Fin Straightener

Fin straightener sizes are marked on head - 8, 9, 10, 12, 14, and 15 fins per inch. Compact 4" length.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01525	TOOL, 6-IN-1 FIN STRAIGHTENER
TOL01526	TOOL, REPLACEMENT HEAD FOR 61171 FIN STRAIGHTENER
HDL00879	HANDLE, REPLACEMENT HANDLE FOR 61171 FIN STRAIGHTENER

YELLOW JACKET® 1 and 2 Fixed Monitoring Systems (Refrigerant and Ammonia)

With YELLOW JACKET™ Fixed Monitoring Systems for refrigeration leaks, you can configure controllers and remote sensors to meet your requirements for point or perimeter detection. You can monitor most common refrigerants or ammonia. Controllers are available using one or two sensors or four or six sensors. The system first emits an intermittent siren and constant orange illumination at the low level, about 100 ppm. At the high level, usually about 1,000 ppm*, the siren is continuous and LED is red to signal a condition that requires immediate action. (* High levels: R-123 is about 300 ppm; ammonia about 150 ppm.)

SERVICEFIRST ITEM NO	DESCRIPTION
MON00017	MONITOR; RITCHIE 68004 SINGLE SENSOR REFRIGERANT WITH TWO LEVEL DETECTION
MON00009	MONITOR; TWO SENSOR REFRIGERANT MONITOR WITH TWO LEVEL DETECTION, 120V, R134a, R404A, R410A, R407c AND R123
BAT00057	BATTERY; REFRIGERANT MONITOR
CAB00986	CABLE; 500 FT ALARM TO SENSOR CABLE FOR RITCHIE REFRIG. MONITOR
CAB00987	CABLE; 1000 FT ALARM TO SENSOR CABLE FOR RITCHIE REFRIG. MONITOR
MON00020	MONITOR; RITCHIE 68108 TWO SENSOR REFRIGERANT MONITOR WITH TWO LEVEL DETECTION, 230V

YELLOW JACKET® 4 and 6 Sensor Monitoring Systems (Refrigerant and Ammonia)

YELLOW JACKET 4 and 6 sensor monitors provide all of the benefits of the 1 and 2 sensor systems, but increase coverage area and level of coverage with more sensors at greater distances from the controller. Cost per channel are lower. You can locate 4 or 6 sensors up to 500' from the controller.

SERVICEFIRST ITEM NO	DESCRIPTION
MON00010	MONITOR; FOUR SENSOR REFRIGERANT MONITOR WITH TWO LEVEL DETECTION, 120V, R134a, R404A, R410A, R407c AND R123
SEN01091	SENSOR; REFRIGERANT SENSOR FOR RITCHIE TWO LEVEL MONITOR

YELLOW JACKET® Integrated Area Monitor

Sensor and controller are combined into a single, compact unit that can be hard wired into any outlet or power supply and detects leaks in the area. The unit emits a continuous siren and constant red LED illumination at about 1000 ppm. This early warning gives technicians time to find the leak while refrigerant concentration is still low. With adjustable delay, the monitor waits 0-5, 10 or 15 minutes to avoid false alarms before signaling. Siren can be switched off.

Two voltage-free relays can activate ventilation or remote alarms, or report to control systems. Can also be connected to dedicated 16 unit panel. Expandable indefinitely by connecting control panels.

Size: 3.4" x 5.8" x 2.4" (86 x 147 x 61 mm)

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02748	MONITOR; INTEGRATED AREA MONITOR 115V, 68050, 68050

Refrigerant Handling

YELLOW JACKET® Environmental Enclosure

A sensor element mounted in an area of high condensation, low temperature to -40°F, or direct airflow can experience a fast temperature drop causing a false alarm. These vented enclosures maintain the proper operating temperature around the sensor for alarm reliability.

SERVICEFIRST ITEM NO	DESCRIPTION
HUS03794	HOUSING; SENSOR PROTECTIVE, 68089

YELLOW JACKET® 110 lbs. (50 kg) Electronic Scales

Put this rugged scale to work with any refrigerant in any system and eliminate the time and cost of charging cylinders. The time-saving process also eliminates refrigerant transfer from tank to cylinder to system. You weigh the refrigerant container and charge directly into the system or recover from the system. No concern about residual refrigerant in a charging cylinder. Self-contained, the scale is ready to use in the carrying case or removed and set on a level surface. Select 110 or 220-lb. capacity (50 or 100 kg).

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01548	TOOL; REFRIGERANT CHARGING SCALE, RITCHIE 68802
TOL01744	TOOL; RITCHIE PROGRAMMABLE CHARGING SCALE, RANGE 1 OZ TO 100 LBS
KIT08083	KIT, CHARGING SCALE UPGRADE KIT 115V, ADDS PROGRAMMABLE CAPABILITY TO YELLOWJACKET SCALE 68802
ADP01126	ADAPTER; 115V SCALE ADAPTER TO 12V, RITCHIE 68806 AC POWER PACK
CAS01500	CASE; FOR 110#/50KG SCALE, RITCHIE 68809
TOL02018	TOOL; RITCHIE 68812 REFRIGERANT SCALE, 220 LB CAPACITY
TOL02019	TOOL; RITCHIE 68813 PROGRAMMABLE REFRIGERANT SCALE, 220 LB CAPACITY

YELLOW JACKET® Wrap-Around Heater for Refrigerant Cylinder

Fits 30/50-125 lb. cylinders. Thermostat controlled with maximum 130°F (54°C) and minimum 120°F (48.8°C) (surface temperature of tank). Cycles on/off to maintain surface temperature. 200 watt, 115V or 230V; 20" velcro straps; 6' cord.

SERVICEFIRST ITEM NO	DESCRIPTION
HTR03378	HEATER; WRAP-AROUND, FOR USE ON 30,50,AND 125 LB REFR. CYLINDARS

YELLOW JACKET® Hygro-Thermometer

As indoor air quality and environmental issues gain in importance, instruments to accurately measure temperature and relative humidity are essential.

The YELLOW JACKET hygro-thermometer is a highly accurate industrial grade meter that measures both humidity and temperature for the AC&R industry as well as heating and ventilation.

- Microprocessor controlled for reliability and repeatability
- Wide temperature and humidity range
- Use of temperature only probe -139° to 392°F (-95° to 200°C)
- Industrial grade components
- Calculates and displays dew point in °F or °C
- Maximum and minimum temperature and humidity readings
- Switchable from °F and °C
- Display "hold" function for operator ease
- Replaceable sensor probe

SERVICEFIRST ITEM NO	DESCRIPTION
THR00062	THERMOMETER; HYGRO, INCLUDES PROBE, BATTERIES, CASE, 68850

Tools and Test Equipment

Tools and Test Equipment

Refrigerant Handling

YELLOW JACKET® Digital Anemometer

Precision industrial grade instrument for air conditioning, refrigeration, heating and ventilation. Measures air velocity and calculates air flow volume.

- Reads air velocity from 40-7800 fpm
- Probes have metal vanes and high quality bearings for durability. Balanced to work reliably at -4° to 210°F (-20° to 99°C)
- Probes calibrated before leaving factory. Replaceable and recalibrateable
- Extension handles and 5' able for hard-to-reach areas
- Microprocessor controlled for reliability and repeatability
- Calculates and reads in CFM (cubic feet/minutes) or CMH (cubic meters/hour)
- Switchable imperial to metric measurements
- Memory saves minimum and maximum readings
- Averages reading over 2 or 16-second periods
- Display "hold" button

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01761	TOOL; YELLOWJACKET DIGITAL ANEMOMETER, COMPLETE KIT 2.75" DIA PROBE

YELLOW JACKET® Anemometer

This hand-held instrument reads both air velocity and temperature simultaneously when balancing air conditioning/heating ventilation systems.

- Microprocessor controller
- Calculates CFM air volume
- Records minimum and maximum readings
- Averages air velocity
- Display "hold" button freezes LCD reading
- Switchable imperial to metric
- Auto power off after 20 minutes
- RS232 output

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01398	TOOL; ANEMOMETER/TEMP., RS232 OUTPUT, 9V

YELLOW JACKET® Refrigerant Gas Analyzer

This portable unit delivers the features and benefits professional A/C technicians want for assurance, ease and profitability.

- Dispersive infrared (NDIR) technology quickly determines the weight concentrations of R-12, R-134a, R-22, hydrocarbons and air
- Analytical software identifies all EPA S.N.A.P. approved blends, as well as illegal replacements and blends including propane and butane
- Quickly and automatically determines purity of R-12 and R-134a to help eliminate potential of human error
- Large graphing display is easy to read
- Rechargeable battery lasts all day
- Unit comes in a rugged portable case with R-12 and R-134a sample hoses
- Built-in printer runs an instant receipt for convenient and accurate customer billing (68947)

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02899	TOOL; REFRIGERANT ANALYZER, 68945
TOL02900	TOOL; REFRIGERANT ANALYZER W/PRINTER, 68947
TOL02901	TOOL; AC POWER ADAPTER, 68949

YELLOW JACKET® Refractometer

For retrofitting a mineral oil system with Solest® HFC, this field tool can accurately predict remaining mineral oil in the system down to 1 percent. Refractive range 1.435 to 1.520 at room temperature.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01504	TOOL; HAND-HELD REFRACTOMETER

Refrigerant Handling

YELLOW JACKET® Digital Psychrometer Thermo Hygrometer

Pocket-sized to carry on every call. Set systems at specific superheat or subcooling temperatures. Use actual wet and dry bulb measurements and factory charts.

- Display °F or °C
- Data hold
- Auto power off
- Display relative humidity and temperature simultaneously

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01397	TOOL; DIGITAL SLING PSYCHROMETER

YELLOW JACKET® Sling Psychrometer

Streamlined, compact tool measures wet and dry bulb temperatures of surrounding air for immediate conversion of readings to relative humidity percentage.

- One piece unit with self-contained housing fits into your pocket
- Calibrated and easy-to-read
- "Slide rule" scale is part of the case
- Accurate to 1 percent of "Hygrometric Tables"

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01487	TOOL; SLING PSYCHROMETER
TOL02139	TOOL; REPLACEMENT WICKS FOR RITCHIE 69010 PSYCHROMETER, 5 PER PACK
TOL02140	TOOL; REPLACEMENT TUBE FOR RITCHIE 69010 PSYCHROMETER

YELLOW JACKET® Mechanical Vacuum Gauges °F

Full range mechanical bourdon tube gauges for determining system vacuum. Much more accurate than a compound gauge. All gauges are 1/8" NPT Male bottom connection.

3-1/8" gauges are larger to show vacuum more accurately in inches of mercury and Torr (or millibar).
1-1/2" gauges are used on YELLOW JACKET vacuum pumps.

Caution: Vacuum gauges must be handled carefully. Dropping, pressurizing and rough handling reduce their life.

SERVICEFIRST ITEM NO	DESCRIPTION
GAG00974	GAUGE; 3-1/8" MECHANICAL VACUUM GAUGE, 0-30 IN Hg/760-0 TORR
GAG00975	GAUGE; 3-1/8" MECHANICAL VACUUM GAUGE, EUROPEAN VERSION, 1000-0 MILIBAR/30-0"
GAG00972	GUAGE; RITCHIE 93011 VACUUM PUMP 30 INCH VACUUM GAUGE

YELLOW JACKET® Deluxe LED Vacuum Gauge

Full range mechanical bourdon tube gauges for determining system vacuum. Much more accurate than a compound gauge. All gauges are 1/8" NPT Male bottom connection.

3-1/8" gauges are larger to show vacuum more accurately in inches of mercury and Torr (or millibar).
1-1/2" gauges are used on YELLOW JACKET vacuum pumps.

Caution: Vacuum gauges must be handled carefully. Dropping, pressurizing and rough handling reduce their life.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01461	TOOL; YELLOW JACKET DELUXE LED VACUUM GAUGE, 110V, 1999 TO 1 MICRON
GAG00931	GAUGE; LED VACUUM GAUGE KIT WITH CASE, 230 V
VAL07440	VALVE; OPTIONAL BALL VALVE FOR SUPEREVAC VACUUM GAUGE, 1/8" FPT X 1/4" FEM. FL.
ADP01022	ADAPTER; ADAPTER BRASS COUPLER FOR SUPEREVAC VACUUM GAUGE

YELLOW JACKET® SuperEvac™ LCD Vacuum Gauge

YELLOW JACKET LCD vacuum gauges combine thermocouple sensor technology with advanced electronics for precise readings and repeatability not found with thermistor sensors or analog meters. The result - accurate readings without recalibration on job after job. Thermocouple technology has long been proven in laboratory and precision industrial instrumentation for sensing the deep vacuum range. Thermocouple sensors are factory calibrated and exhibit few of the electronic variances of thermistor sensors found in many other electronic gauges.

SERVICEFIRST ITEM NO	DESCRIPTION
GAG00941	GAUGE; SUPERVAC LCD VACUUM GAUGE COMPLETE IN CASE WITH COILED CORD
SEN01056	SENSOR; REPLACEMENT SENSOR FOR 69075 VACUUM GAUGE

Tools and Test Equipment

Refrigerant Handling

YELLOW JACKET® Digital LCD Economy Vacuum Gauge

For peace of mind, this gauge shows you that air and moisture have been removed from the system. The lower the number of microns, the more complete the vacuum and less chance for no-charge call-backs. Track down 14 increments from atmosphere to 25 microns to know that the system is clean and your vacuum pump is performing properly.

- Unique thermal conductivity sensor automatically compensates for temperature with no calibration
- Simple on/off controls
- Easy-to-clean sensor handles 450 psi positive pressure
- Rugged contractor-grade construction with tough ABS housing and solid state circuitry for accuracy
- Automatic battery saver shuts gauge off after 20 minutes with no reading changes
- Low battery indicator
- Calibration standards traceable to the National Institute of Standards and Technology (NIST)
- Patented technology

SERVICEFIRST ITEM NO	DESCRIPTION
GAG00951	GAUGE; RITCHIE 69080 DIGITAL LCD VACUUM GAUGE, DOWN TO 25 MICRONS
CAS01331	CASE; PROTECTIVE CASE FOR RITCHIE 69080 DIGITAL VACUUM GAUGE

YELLOW JACKET® Digital Vacuum Gauge

This easy-to-use gauge helps you to be certain that air and moisture have been removed from the system. A simple push of a button changes the display readout between 7 units of vacuum. Each displays down to the equivalent of 10 microns of vacuum to let you know that your vacuum pump is clean and performing properly. If the sensor gets dirty, simply pull a new sensor out of your tool kit, plug it into the gauge, run through a quick calibration process, and be back on the job within minutes.

- Unique patented thermal conductivity sensor automatically compensates for temperature
- Replaceable, cleanable, plug-in sensor (69087) handles 450 psi positive pressure
- Displays 7 different units of vacuum (microns, milliTorr, Torr, millimeters of mercury, millibar, kiloPascal and Pascal)
- 12" coiled sensor cord stretches to 24" for easy reach, connectivity, and readability of display
- Low battery indicator
- Automatic shut-off after 20 minutes
- Operating temperature range: 32° to 122°F (0° to 50°C)
- Weight: 12 oz. (340 g) with battery
- Calibration standards traceable to (NIST)
- Battery life: Approximately 25 hours continuous use

SERVICEFIRST ITEM NO	DESCRIPTION
GAG01064	GAUGE; 69086 VACUUM
SEN01393	SENSOR; REPLACEMENT, FOR 69086 VACUUM GAUGE

YELLOW JACKET® Heat Gun

600° and 1000°F settings. Shockproof and tough housing is durable and lightweight. Used for:

- Faster vacuums
 - Curing/drying
 - Coil defrosting
 - Drying out condensation in motors, clutches, etc.
- Kits include gun, adapters and case.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01518	TOOL; HEAT GUN, 600F AND 1000F SETTING, 115V

YELLOW JACKET® Digital Refrigerant Pressure Temperature Chart

Accurate pressure and temperature references for 61 refrigerants

5.1 to 462.5 psi
 0.35 to 31.88 bar
 0.035 to 3.188 MPa
 -40 to 155 °F
 -40 to 68 °C

Includes manual, soft case and battery (3V CR2032)

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02942	TOOL; DIGITAL P/T CHART, 69096

Refrigerant Handling

YELLOW JACKET® Superheat Calculation Kit

With the access valve, improved °F and °C digital thermometer and core extractor tool you can easily take an internal temperature reading for calculating system superheat

- Read from -58° to 302°F (-50° to 150°C) and pressure.
- Extract Schrader core without opening system
- Remove broken Schrader cores
- Chase damaged threads
- Replace cores
- Use as vacuum valve to increase flow and reduce vacuum time. Also can decrease charging time
- Use to reduce recovery time

SERVICEFIRST ITEM NO	DESCRIPTION
KIT07684	KIT; RITCHIE SUPERHEAT KIT W/O ACCESSORIES, RITCHIE NO. 69103
KIT07518	KIT; COMPLETE SUPERHEAT KIT AND ACCESSORIES
KIT07561	KIT; YELLOW JACKET SUPERHEAT CALCULATION KIT
KIT07519	KIT; DIGITAL THERMOMETER AND NUT FOR 69104 SUPERHEAT KIT

YELLOW JACKET® Pocket Digital Thermometer

Digital head rotates 180° for easy reading. Includes on/off button, auto shut-off after 10 minutes to save battery, reading updates every second, and 5" (125 mm) stem.

SERVICEFIRST ITEM NO	DESCRIPTION
THR00044	THERMOMETER; DIGITAL POCKET THERMOMETER, -58F TO 302F, 180 DEG ROTATING HEAD, WITH DISPLAY
BAT00029	BATTERY; BATTERY FOR YELLOWJACKET 69107 THERMOMETER

YELLOW JACKET® Digital Thermometer Differential and Single Probes

Thermometer applications for HVAC/R technicians, research, and industrial process laboratory.

SERVICEFIRST ITEM NO	DESCRIPTION
THR00047	THERMOMETER; DUAL THERMOMETER, 2 CLAMP ON, 2 GENERAL PURPOSE PROBES AND CASE
THR00043	THERMOMETER; YELLOW JACKET DUAL DIGITAL THERMOMETER, 2 STRAP-ON, 2 GENERAL PURPOSE PROBES AND CASE
THR00048	THERMOMETER; DUAL THERMOMETER, 2 GENERAL PURPOSE PROBES AND CASE
TOL01762	TOOL; YELLOWJACKET TYPE K CLAMP-ON PROBE, 1100F MAX TEMP.
TOL02169	TOOL; TYPE K STRAP-ON PROBE, 300 F (135C), 12 FT, 69224

YELLOW JACKET® Micro Infrared Thermometer

At 2.7" x 1.5" x 0.7" and 0.9 oz. (1.1 oz. with battery), this is the most compact infrared thermometer available. Quickly measures -27° to 428°F (-33° to 220°C) with distance to spot ratio of about 1:1.

- ±2% of reading or 4°F (2°C), whichever is greater
- Operating temperature range: 14° to 122°F (-10° to 50°C)
- Emissivity: 0.05-1 adjustable
- Wave length: 5-14 microns
- Maximum and minimum hold
- °F/°C switchable
- Resolution: 0.1°F or C
- Fast response time of 0.5 second
- 3V button cell battery included (CR2032)

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02090	TOOL; RITCHIE 69225 MICRO INFRARED THERMOMETER

YELLOW JACKET® Pistol-Grip Infrared Thermometer

With wide measurement of -40° to 932°F, this easy-to-use tool is the effective choice for high or low temp and refrigeration applications. For accuracy and resolution, the focal point is a tight 10:1 ratio with laser sighting.

- Selectable 3-point emissivity for simple set-up
- Backlight for dark area use
- °F/°C switchable
- ± 2% or 2°C accuracy
- 0.1°F resolution at -40° to 212°F (-40° to 100°C)
- Fast response time of 500 ms

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02116	TOOL; RITCHIE 69228 PISTOL GRIP INFRARED THERMOMETER, 10:1, -40F TO 932F E

Tools and Test Equipment

Refrigerant Handling

YELLOW JACKET® Infrared Thermometer

With laser sighting, you simply target a surface and press the power key to take a fast and safe non-contact temperature reading. 95 percent response in 500 ms at -4° to 788°F (-20° to 420°C). To take readings in low light, the large LCD features a switchable backlight.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01542	TOOL; INFRARED THERMOMETER, 6:1 VIEWING

YELLOW JACKET® Digi-Alarm Thermometer

This compact unit measures from -58° to 392°F (-50° to 200°C) and triggers an alarm at the high and low temperatures that you've programmed.

- Maximum/minimum temperature memory
- °F/°C switchable
- Data hold function
- Key tone for operation confirmation
- No calibration
- Foldaway stand
- Automatic self test after battery installation

SERVICEFIRST ITEM NO	DESCRIPTION
MTR00965	METER; DIGI-ALARM THERMOMETER, RITCHIE 69239

YELLOW JACKET® Pocket Thermometer

1" and 1-3/8" dial thermometers are adjustable with a 5" stainless steel stem. Colored sheath with pocket clip. Individually calibrated and shock resistant.

SERVICEFIRST ITEM NO	DESCRIPTION
THR00053	THERMOMETER; RITCHIE 69251 1INCH DIAL THERMOMETER, 0 TO 220 DEG F
THR00049	THERMOMETER; 1-3/8" DIAL POCKET THERMOMETER, -40 TO 160F
THR00045	THERMOMETER; POCKET THERMOMETER, 1-3/8IN DIAL, 0F TO 220F, WITH DISPLAY

YELLOW JACKET® Sound Level Meter

This easy-to-use unit measures and displays 30-130 dB digitally and as an analog graph. Helps you to test for OSHA compliance, monitor equipment, and more.

- Meets IEC 651, ANSI S1.4, Type 2 standard
- Six measurement ranges in 10 dB increments
- Max/Min and Max Hold functions

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02118	TOOL; RITCHIE 69346 SOUND LEVEL METER, 30 TO 130 db

YELLOW JACKET® Tachometer

Easy-to-use and read unit measures 10 to 99,999 rpm on compressors, fans, motors, gears, pulleys, and more. Non-contact reading maintains torque and precise measurement.

- Auto range function
- Units in rpm
- Hold function to freeze rotating speed
- Readings to a resolution of 0.001 rpm

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02071	TOOL; YELLOW JACKET 69348 TACHOMETER

Refrigerant Handling

YELLOW JACKET® AccuProbe™ Leak Detector

Building on the field-proven original, this improved unit is the only tool you need for fast, easy and certain leak detection. The heated sensor tip of the YELLOW JACKET® AccuProbe™ Leak Detector positively identifies the leak source for all refrigerants. Frequency of flashes in the tip and audible beeping increases the closer you get to the leak source. You zero-in and the exclusive Smart Alarm™ LED shows how big or small the leak on a scale of 1 to 9. Maximum value helps you determine if the leak needs immediate repair.

Service life of the replaceable heated electro-chemical sensor is more than 300 hours with minimal cleaning and no adjustments. Replaceable filters help keep out moisture and dust that can trigger false sensing and alarms.

Independent of the Smart Alarm LED, the unit combines three sensitivity levels with visual and audible signalling, included ultra-high to detect leaks that could be missed with other detection systems

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01972	TOOL; HEATED ACCU PROBE (INCLUDES CARRY CASE, ADAPTER AND PROBE)
TOL02977	TOOL; 69366 HEATED ACCU PROBE LEAK DETECTOR, EURO, 220V/50Hz, 69366
ADP01130	ADAPTER; RITCHIE 69380, AC 115V/60 HZ FOR HEATED ACCUPROBE
KIT09391	KIT; SENSOR, FILTER AND BOTTLE KIT FOR RITCHIE ACCUPROBE SENSOR
KIT09396	KIT; RITCHIE 69384 MAINTENANCE KIT FOR ACCUPROBE LEAK DETECTOR, INCLUDES SENSOR AND FILTERS
FLR06093	FILTER; SENSOR, FIVE FILTERS FOR REFRIGERANT LEAK DETECTOR, #69385

YELLOW JACKET® Combustible Gas Detector

Hand-held precision equipment detects all hydrocarbon and other combustible gases including propane, methane, butane, industrial solvents, and more. Unit is preset at normal sensitivity, but you can switch to high or low. After warm-up you'll hear a slow beeping. Frequency increases when a leak is detected until an alarm sounds when moving into high gas concentration. The illuminated bar graph indicates leak size.

If no leak is detected in an area you suspect, select high sensitivity. This will detect even low levels in the area to confirm your suspicions. Use low sensitivity as you move the tip over more defined areas, and you will be alerted when the tip encounters the concentration at the leak source.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02113	TOOL; RITCHIE 69373 COMBUSTIBLE GAS LEAK DETECTOR W/ CASE
TOL02022	TOOL; SENSING TIP FOR RITCHIE 69325 AND 69327 LEAK DETECTORS
SEN01228	SENSOR; REPLACEMENT SENSOR FOR RITCHIE 69373 LEAK DETECTOR
COV03480	COVER; BATTERY COVER FOR RITCHIE 69373 GAS LEAK DETECTOR
CAS01329	CASE; CARRYING CASE FOR RITCHIE 69373 GAS LEAK DETECTOR
TOL02076	TOOL; CARRYING HOLSTER FOR RITCHIE 69373 GAS LEAK DETECTOR

YELLOW JACKET® Test Lead Sets

A variety of test lead sets and other related products.

Test Lead Set (#1) (upper right)

Set of two leads three feet in length. Clips with red and black insulators at each end. 120/240V - AC. 69532 & 69531 use 16-1 wire. 69530 & 69529 use 14-1 wire.

Test Lead Set (#2) (lower right)

A six-foot lead using number 16-2 wire and male plug one end. Clips with red and black insulators other end.

Test Lead Set (#3) (lower left)

A six-foot lead using number 16-2 wire and female plug one end. Two clips other end with red and black insulators. 120/240V - AC.

Adapter Cord - Test Connector (not pictured)

12-inch lead using number 14-3 wire and female plug one end. Three large clips other end with red, black and green insulators. 120/240V - AC.

Start Switch (upper left)

A six lead using number 16-2 wire and male plug one end. Clips with red, black and white insulators. Other end includes push button start switch. 120/240V - AC.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01436	TOOL; ADAPTOR CORD, TEST CONNECTOR, 15 AMP, LARGE CLIP SIZE

YELLOW JACKET® Refillable Oil Injectors

Body and cap are rugged aluminum with "O" ring seal. Male fitting at one end with Schrader. A ball valve for control on other end with a short length of hose. Valve depressor in the female end. Saves time on many applications:

- Add oil to system
- Put oil in after changeout
- Add scanner fluorescent solution
- Add additives to system
- Refrigerant sampling
- 600 psi maximum working pressure

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02834	TOOL; 1/2 OUNCE OIL INJECTOR
TOL01532	TOOL; 4 OZ. OIL INJECTOR, 1/4IN M FL X 1/4IN FE QUICK CONNECT
RNG01898	RING; O-RING; 1/2 OUNCE INJECTOR, 5 PACK

YELLOW JACKET® Fluorescent Scanner Solutions

Different concentrations of YELLOW JACKET fluorescent solutions are available to match the refrigerant volume in a system. View MSDS Information. You also have the choice of bottles for the original system or the disposable pre-filled solution injector tubes for System II. Operating temperature: -40°F for all solutions. Alkylbenzene in alkylbenzene systems to -100°F.

YELLOW JACKET® Fluorescent Leak Scanner System II

With Scanner System II, you not only accurately pinpoint every leak at the speed of light, but also save prep time. High intensity UV lamp with filter produces almost pure UV to light up fluorescent particles in the solution for the best contrast and fastest, most visible results. Simply connect the disposable pre-filled solution injector tube directly to the AC&R system. There's no solution mess and you eliminate the cost and time of a separate infuser.

YELLOW JACKET® Universal A/C Disposable Injectors

Universal disposable 1 oz. applicator for fast economical dispensing. Universal dye for all common refrigerants and oils. Two 0.5 oz. applications for regular split systems or four 0.25 oz. applications for small appliances or auto A/C.

- Less costly and faster than many other methods
- One dye minimizes inventory
- No back-up refrigerant to move dye into system
- Patented

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00471	CHEMICAL; RITCHIE 69700 UNIVERSAL A/C DISPOSABLE INJECTOR, 6-10Z INJECTORS
CHM00487	CHEMICAL; RITCHIE 69727 AC DYE INJECTORS

YELLOW JACKET® Universal A/C Dye Injectors and Hose

Universal A/C dye injectors work in AC/R and auto A/C systems. Four 0.25 oz. applications of dye in each disposable tube make it economical, fast and clean. Hose features back flow check valve.

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00485	CHEMICAL; TWO DYE INJECTORS FOR AC/R AND HOSE, RITCHIE 69702
HSE01474	HOSE; INJECTOR HOSE FOR UNIVERSAL A/C DYE INJECTORS

YELLOW JACKET® Universal A/C Dye Solutions

Universal dye for A/C systems with PAG, mineral, alkyl benzene, or polyol ester lubricants.

- Field proven and sold worldwide
- Passed thermal stability tests
- One dye for AC/R systems
- Raw material QC assures dye uniformity

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00488	CHEMICAL; RITCHIE 69708 UNIVERSAL A/C DYE SOLUTION, 1/2 OZ.
CHM00489	CHEMICAL; RITCHIE 69709 UNIVERSAL A/C DYE SOLUTION, 1 OZ.

YELLOW JACKET® Calibrated A/C Screw Injection

This 2 oz. injector is easy to refill and easy to operate. Calibrations are clearly marked on the injector. Connect to A/C low side and rotate handle. AC/R and auto models.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02175	TOOL; CALIBRATED A/C SCREW INJECTION, RITCHIE 69731

Tools and Test Equipment

Refrigerant Handling

YELLOW JACKET® Fluorescent Solutions (for non-refrigerant)

Using your scanner system to help locate leaks in non-refrigeration and non-A/C applications adds value and versatility to your leak scanner system.

Oil and fluid dye solution

Find leaks in oil-based applications such as milling machines and hydraulics, transmissions, power steering, and more. 1 oz. per 2 gallons of oil.

- Pinpoint leaks in hydraulic systems such as cherry pickers
- Find seal and gasket leaks in engines, compressors and transmissions
- Locate leaks in gasoline or diesel fuel equipment, offset printing presses, injection-molding machines, and oil-cooled chillers

SERVICEFIRST ITEM NO	DESCRIPTION
CHM00650	SOLUTION: OIL AND FLUID DYE, 8 OUNCE, RITCHIE 69735
CHM00649	SOLUTION: COOLANT DYE, 8 OUNCE, RITCHIE 69739

YELLOW JACKET® Universal Pure UV™ System

Universal is your best choice for all dye bases including mineral, AB, PAG, POE, engine, and lubricant. Newly patented technology combines special lens and reflector to emit only pure UV light (330-380 nm). Efficient in close quarters with power similar to A/C lamps. Filter glasses not required.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02114	TOOL; RITCHIE 69775 PURE UV LAMP KIT

YELLOW JACKET® Micro LED UV Leak Detection Kits and High Intensity Lamps

Use these high visibility lamps to spot leaks on all A/C systems. Individual reflectors surround each of five LEDs recessed for protection in the stainless steel head. 69790 features 3 UV and 2 blue bulbs for detection at greater distances. For greatest contrast with all fluorescent dyes, use 69791 with 5 UV bulbs. Compact 3.2-watt unit delivers 85 lumens for up to 250' effective range and up to 2-hour continuous non-dimming illumination (40 lumens for up to 175' and 5 hours with 2 watt unit).

YELLOW JACKET® Max-Flow™ Combination Oil Pump

With the Max-Flow pump, you can smoothly pump oil into the compressor on the down stroke while the system is under pressure. This makes pumping easier with a positive stroke. Pumps 2.6 oz. or 78 mL per stroke.

- Remove oil for recovery and conversion
- Add oil to existing systems
- Pumps against 200 psi pressure
- Comfort-grip rubber handle
- Universal stopper automatically adjusts to all standard openings in 1, 2-1/2 and 5 gallon oil containers
- Suction transfer hose and fittings included. Connects to bottom of unit to pump oil from equipment quickly and efficiently
- Use with alkyl-benzene, ester-based, polyol ester, mineral, and synthetic oils

SERVICEFIRST ITEM NO	DESCRIPTION

YELLOW JACKET® Max-Flow™ Deluxe Oil Pump

Improved for added reliability and a more powerful stroke, the Max-Flow deluxe oil pump is a high capacity unit for quick charging. Pumps 3.8 oz. (112.38 mL) per stroke.

- Remove oil for recovery and conversion
- Add oil to existing systems
- Fits all size oil containers
- Foot stand base provides support and leverage while pumping against the high pressures of a running compressor
- Operating unit in reverse with adapter hose accessory removes oil from equipment quickly and efficiently
- Use with alkyl-benzene, ester-based, polyol ester, mineral, and synthetic oils
- Will pump against 250 psi pressure

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01424	TOOL; MAX-FLOW DELUXE OIL PUMP
KIT07456	KIT; SEAL FOR 77930 OIL PUMP
HSE01223	HOSE; 1/2" FLEXIBLE SUCTION FOR OIL PUMP 77930, FITTING ONE END ONLY
HSE01552	HOSE; 3/8" FLEXIBLE DRAIN HOSE, 24" LONG

YELLOW JACKET® Fuel Oil Test Kit

Complete kit to determine pump efficiency, cut-off, suction, etc. Also use to analyze or trouble shoot burner efficiency. Kit includes 2" gauge, 30" 0-150 lbs. scale, and 12" YELLOW JACKET hose with fittings. All gauges are 1/4" NPT.

SERVICEFIRST ITEM NO	DESCRIPTION
HSE01555	HOSE; 12" FUEL OIL KIT HOSE, 78011
TOL01425	TOOL; COMPLETE FUEL OIL GAUGE KIT

YELLOW JACKET® Gas Pressure Test Kit

Easier to use than a manometer, this compact kit helps you accurately set manifold pressure for natural or L.P. gas.

- Sensitive diaphragm gauge calibrated in inches of water column
- Improved lamination strength of diaphragm (bellows) to brass plate withstands higher over-pressure
- Tube nipple for easy connection to system manifold
- Two gauge ranges available
- The unique single bellows on brass plate design replaces the double bellows for a stronger seal that resists greater over-pressure

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01437	TOOL; Gas Pressure Test Kit, Complete, 0-10"W.C.
TOL02117	TOOL; DIGITAL ELECTRONIC MANOMETER
TOL01426	TOOL; COMPLETE GASS PRESSURE TEST KIT, 0-35" WC, LP OR NAT
HLD00309	CASE; RITCHIE 78063 GAS PRESSURE TEST KIT CARRYING CASE
GAG00929	GAUGE; LOW PRESSURE DIAPHRAGM GAUGE, 2-1/2IN, 0-35IN W.C., 1/4IN NPT

YELLOW JACKET® Water-Type Manometer

Economical plastic tube manometer helps you set manifold pressure for natural or L.P. gas. Now goes to -2"W.C. for newer systems. Strong magnet on manometer holds it in convenient upright position. Includes tubing with fitting.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01541	TOOL; PLASTIC TUBE MANOMETER, 2IN - 0 - 7-1/2IN SCALE
TUB11122	TUBING; TUBING AND FITTING FOR RITCHIE 78070 MANOMETER
TOL01442	TOOL; PLASTIC TUBE MANOMETER, -2" -0- 15" SCALE

YELLOW JACKET® Gas Test Gauges

1/2", 3/4" and 1" pipe - Easy-to-read gauge to test system pressure for leaks in new installations. Pressure drop on 2" gauge indicates leakage. 0-30 gauge is in 1/4 lb. increments and 0-15 is in 1/5 lb. increments to meet some local inspection regulations.

SERVICEFIRST ITEM NO	DESCRIPTION
GAG00947	GAUGE; GAS TEST GAUGE, 0-15 LB., 3/4 INCH END
TOL02100	TOOL; RITCHIE 78080 30 LB GAS TESTER, 3/4 NPT

Refrigerant Handling

YELLOW JACKET® Mirrors

Telescoping and stainless telescoping inspection mirrors.

Telescoping

All mirrors have telescoping feature. Some have clips for pockets and magnifying glass.

Stainless Telescoping

Check leaks in hard-to-see places. Stainless steel mirror on ball joint rotates 360°. Handle telescopes to 28".

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02085	TOOL; RITCHIE 78098 ROUND TELESCOPING INSPECTION MIRROR
TOL01545	TOOL; STAINLESS STEEL FLAME INSPECTION MIRROR, ROUND, 28 IN TELESCOPIC HANDLE
TOL01546	TOOL; STAINLESS STEEL FLAME INSPECTION MIRROR, RECTANGULAR M28 IN TELESCOPIC HANDLE
TOL02033	TOOL; 2IN X 1-1/4IN TELESCOPING INSPECTION MIRROR, EXTENDS TO 28 INCHES

HSE01305	HOSE, PRESSURE CONTROL HOSE, 24"
HSE01515	HOSE; PRESSURE CONTROL, 1/4" STR X STR, HEX FITTINGS, 30"L, RITCHIE 78230
HSE01306	HOSE, PRESSURE CONTROL HOSE, 36"
HSE01307	HOSE, PRESSURE CONTROL HOSE, 48"

YELLOW JACKET® High Pressure Control Hose

YELLOW JACKET pressure control hose is constructed of a thermoplastic polymer inner tube and cover to eliminate the vibration failures of copper capillary tube installations.

- The higher temperature ratings up to 266°F eliminate the failures caused by maximum loads on rubber hoses
- Polyester braid reinforcement with high tensile strength and high modulus withstand higher pressures
- Clear zinc chromate finish
- Yellow color makes hose easily visible inside system
- 3000 psi (207 bar) min. burst, 600 psi (41 bar) max. working pressure
- Hex style fittings with 1/4" SAE thread. Straight or 90° with copper gaskets
- Operating temperature -20° to 266°F (-28.8° to 130°C)

SERVICEFIRST ITEM NO	DESCRIPTION
HSE01490	HOSE; PRESSURE CONTROL, STR X 90 DEGREE PR CONTR X 24IN

YELLOW JACKET® Belt Drive Vacuum Pumps

These 2-stage pumps are lab rated at 0.1 micron and feature large oil capacity, vented exhaust, 115-60 Hz voltage, standard belt guards, motor capacitors and automatic overload protection.

SERVICEFIRST ITEM NO	DESCRIPTION
PMP01699	PUMP; RITCHIE 80210 BELT DRIVE VACUUM PUMP
PMP01650	PUMP; RITCHIE 80220 BELT DRIVE VACUUM PUMP, 5.6 CFM, PUMPS TO .1 MICRON, 115V
PMP01563	PUMP; BELT DRIVE VACUUM, 10.5 CFM, 115V
PMP01652	PUMP; RITCHIE 80240 BELT DRIVE VACUUM PUMP

Refrigerant Handling

YELLOW JACKET® Quick Coupler Assembly

Oversized to increase flow and speed evacuation. Pull 25 microns and better on 36' length. Brass quick coupler.

SERVICEFIRST ITEM NO	DESCRIPTION
HSE01273	HOSE; STAINLESS STEEL CHARGING/VACUUM HOSE W/QUICK COUPLER, 1/4" STR X 1/4" 45 DEG ID. 36"
HSE01274	HOSE; STAINLESS STEEL CHARGING/ VACUUM HOSE W/QUICK COUPLER, 1/4" STR X 1/4" 45 DEG ID. 48"

YELLOW JACKET® SuperEvac™ Replacement Parts

Replacement parts for current models 1.5, 4, 6, 8, and 11 CFM SuperEvac Vacuum Pumps.

SERVICEFIRST ITEM NO	DESCRIPTION
SEL00923	SEAL; RITCHIE 93031 VACUUM PUMP SHAFT SEAL
LEG00147	LEG; UNIVERSAL PUMP LEG FOR RITCHIE VACUUM PUMPS
CPL00952	COUPLING, DRIVE COUPLING FOR 2,4,6,8,3,5,&7.5 CFM VACUUM PUMPS
SWT02559	SWITCH; ROCKER SWITCH FOR RITCHIE VACUUM PUMP MOTOR
GLS00900	GLASS; RITCHIE 93365 SIGHT GLASS FOR DIE CAST PUMP
DRN00007	DRAIN; OIL DRAIN FOR DIECAST VP, GAS BALLAST WITH O-RING, RITCHIE 93368
GKT03914	GASKET, OIL CASE GASKET FOR RITCHIE 2,4,6,8 CFM VACUUM PUMPS MADE AFTER 1998
HDL00988	HANDLE; RITCHIE VACUUM PUMP
CAP00904	CAP; OIL FILL CAP W/SEAL, FOR USE W/1.5,2,4,6,8 CFM VACUUM PUMPS
FTG01011	FITTING; NEW OIL FILL, 93391
FTG01012	FITTING; 1/2" MFL X 3/4" NPT, 93393
RNG01821	O-RING; FOR GAS BALLAST ON RITCHIE 1.5, 2,4, 6 AND 8 CFM VACUUM PUMPS
KIT09166	KIT; RITCHIE 93461 CARTRIDGE KIT WITH OIL COVER GASKET
KIT12366	KIT; VACUUM CARTRIDGE KIT WITH OIL COVER GASKET, 8 CFM, RITCHIE 93481
GKT04084	GASKET; 2004 OIL COVER GASKET
MOT11543	MOTOR; REPLACEMENT MOTOR FOR RITCHIE 6 CFM VACUUM PUMP, 115V
CRD00109	CORD; REPLACEMENT POWER CORD FOR RITCHIE VACUUM PUMPS, 93115
TOL02146	TOOL; 1/4" FLARE CAP & STRAP, 93394
TOL02147	TOOL; 1/2" FLARE CAP & STRAP, 93395
CAP01011	CAP; 3/8" FLARE CAP AND STRAP

YELLOW JACKET® Vacuum Fitting Sealant

Use vacuum sealant around threads, through flared connections, face joints, wherever metal joins metal. Sets up quickly and remains flexible for easy disconnection. Seal down to 1 micron. 4 oz. can with brush applicator.

SERVICEFIRST ITEM NO	DESCRIPTION
SEL00874	SEAL; VACUUM FITTING SEALANT,
SEL00872	SEAL; VACUUM FITTING SEALANT, 4 OZ CAN WITH BRUSH APPLICATOR

YELLOW JACKET® Vacuum Pump Oil

YELLOW JACKET vacuum pump oil is specially refined and formulated for extremely low vapor pressure and high pump efficiency at all temperature conditions. This means that with proper maintenance you will get a continued return on your pump investment

SERVICEFIRST ITEM NO	DESCRIPTION
OIL00067	OIL; VACUUM, PINTS,
OIL00068	OIL; VACUUM, QUARTS
OIL00069	OIL; VACUUM, GALLONS, 4/CS

YELLOW JACKET® SuperEvac™ 1.5 CFM Pump

A more compact 2-stage 1.5 CFM vacuum pump for the smaller jobs such as appliance and small residential. Designed and built to the same quality specifications as the larger YELLOW JACKET pumps.

SERVICEFIRST ITEM NO	DESCRIPTION
PMP01516	PUMP; VACUUM, 115V, 1.5 CFM, 2 STAGE

YELLOW JACKET® Oil Exhaust Filter

Screws onto the pump exhaust to eliminate oil mist. Use on 1.5, 2, 4, 6, 8 CFM pumps as well as new 11 CFM pump.

SERVICEFIRST ITEM NO	DESCRIPTION
FLR04604	FILTER; EXHAUST OIL FILTER FOR RITCHIE 2, 4, 6, & 8 CFM VACUUM PUMPS
ELM03537	ELEMENT; 93387 REPLACEMENT ELEMENT FOR RITCHIE 1.5, 2, 4, 6 AND 8 CFM VACUUM PUMPS

YELLOW JACKET® SuperEvac™ 4, 6, 8, 11 CFM Pumps

Each YELLOW JACKET pump is thoroughly "run in" and tested to insure that it meets or exceeds our quality specifications - and our customer's expectations.

SERVICEFIRST ITEM NO	DESCRIPTION
PMP01517	PUMP; VACUUM, 115V, 4 CFM, 2-STAGE
PMP01720	PUMP; RITCHIE 93541 SUPEREVAC 95 L/M
PMP01721	PUMP, RITCHIE 93543 CE 95 L/M, 230V/50HZ

PMP01773	PUMP; SUPEREVAC PUMP 11 CFM, 93590

YELLOW JACKET® Newer style large vacuum pumps

SERVICEFIRST ITEM NO	DESCRIPTION
HSE01263	HOSE; 1IN VACUUM TUBE W/1/2IN WALL CLAMPS OVER 1IN MALE TUBE FITTING, 5FT LONG
HSE01264	HOSE; 1IN VACUUM TUBE W/1/2IN WALL CLAMPS OVER 1IN MALE TUBE FITTING, 10 FT. LONG
ELN00875	ELIMINATOR; SMOKE ELIMINATOR ASSEMBLY
GKT04117	GASKET; 12-18-24 CFM COVER 93810

YELLOW JACKET® 5/16" for Special R-410A Applications

Compact ball valves are available with 5/16" flares for R-410A applications where 5/16" system ports are used. UL recognized assembly to 4000 psi (276 bar) min. burst, 800 psi (55 bar) max. working pressure

SERVICEFIRST ITEM NO	DESCRIPTION
VAL08779	VALVE; FULL CONTROL SHUTOFF VALVE, 5/16" COMPACT BALL VALVE, 5/16" FFL X 1/4" MF, 93825

Refrigerant Handling

YELLOW JACKET® Full Control Ball Valves for Vacuum/Charging

When building your own charging/vacuum system, these straight flow-through valves connect hoses and provide full-flow capacity. No angles to cause restrictions and pressure drops.

SERVICEFIRST ITEM NO	DESCRIPTION
VAL07434	VALVE; FULL CONTROL BALL VALVE FOR VACUUM/CHARGING, M FL X M FL, ACME 1/2"
VAL07200	VALVE; 1/4 INCH FULL CONTROL BALL VALVE, M. FL. X M. FL.
VAL07320	VALVE; FULL CONTROL VACUUM/CHARGING VALVE, 3/8IN SAE, M FL X M FL
VAL07321	VALVE; FULL CONTROL VACUUM/CHARGING 1/2IN SAE, M FL X M FL
VAL08493	VALVE; FULL CONTROL BALL VALVE FOR VACUUM/CHARGING, ACME 1/2", M FLARE X FEMALE FLARE, RITCHIE 93840
VAL07199	VALVE; FULL CONTROL BALL VALVE FOR VACUUM/CHARGING, 1/4" SAE, M.FL X FE. FL.
VAL07203	VALVE; FULL CONTROL BALL, 3/8 IN. SAE, M.FL X FE.FL
VAL07319	VALVE; FULL CONTROL VACUUM/CHARGING VALVE, 1/2IN SAE, M FL X FE FL

YELLOW JACKET® SuperEvac™ Evacuation Manifolds

SuperEvac 1/2" manifolds are engineered as system components for the SuperEvac pumps to help decrease vacuum time by over 50% and improve micron readings. Mounts with 1/2" or 3/8" Female flare quick coupler and provides easy connections for two 3/8" vacuum hoses.

SERVICEFIRST ITEM NO	DESCRIPTION
MFD00945	MANIFOLD; SuperEvac Evacuation Manifold w/ 1/4" Schrader
MFD00967	MANIFOLD; SUPERVAC EVACUATION MANIFOLD, SINGLE VALVE WITH LOW SIDE GAUGE
MFD00954	MANIFOLD; SUPEREVAC EVACUATION MANIFOLD, TWO VALVES WITH LOW SIDE GAUGE

YELLOW JACKET® SuperEvac™ Evacuation Systems I, II, and III

All system components are available separately, but system pricing makes I, II and III attractive buys. All systems include a 2-valve manifold and two 3/8" vacuum hoses for a fast vacuum. Vacuum valves, included with all systems, allow core removal and system isolation. This combination reduces vacuum time by over 60% compared to using a regular 1/4" manifold and evacuating through only one side. System II adds 69075 electronic gauge and service valve wrench to the basic System I. System III adds a 6 CFM SuperEvac pump to System II.

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01491	TOOL; SUPEREVAC SYSTEM I
TOL01906	TOOL; RITCHIE SUPEREVAC SYSTEM II EVACUATION SYSTEM
KIT07883	KIT; RITCHIE SUPEREVAC III, INCLUDES 6CFM VACUUM PUMP, ELECTRONIC GAUGE, SERVICE WRENCH AND MANIFOLD

YELLOW JACKET® Recovery Cylinders

These gray/yellow 30 and 50 lb. cylinders feature "Y" valve for liquid/vapor, 400 psi rating, and 3/4" plug for a float switch.

SERVICEFIRST ITEM NO	DESCRIPTION
TNK00867	TANK; 30 LB. R-410A REFRIGERANT CYLINDAR, 400 PSI
CYL00198	CYLINDER; 50 LB, R-410A REFRIGERANT, 400 PSI
VAL07425	VALVE; "Y" VALVE FOR 30 LB REFRIGERANT CYLINDER
SWT02546	SWITCH; LIQUID LEVEL SWITCH FOR 30 AND 50 LB. WORTHINGTON AND MANCHESTER CYLINDERS ONLY WITH 3-PIN BRAD HARRISON CONNECTION
SWT02547	SWITCH; LIQUID LEVEL SWITCH FOR 30 AND 50 LB. AMTROL CYLINDERS ONLY WITH 3-PIN BRAD HARRISON CONNECTION
VAL07426	VALVE; "Y" VALVE FOR 50 LB REFRIGERANT CYLINDER
CYL00199	CYLINDER; 30 LB. R-410A REFRIGERANT CYLINDER WITH FLOAT SWITCH, 400 PSI
CYL00200	CYLINDER; 50 LB. R-410A REFRIGERANT CYLINDER WITH FLOAT SWITCH, 400 PSI

YELLOW JACKET® Recovery Burnout Filter

High capacity inline filter drier removes moisture and oil breakdown products, as well as acid from burnt out systems. Attaches directly to refrigerant recovery system with a 1/4" female and a 1/4" male connection. UL and CSA listed.

SERVICEFIRST ITEM NO	DESCRIPTION
DHY01038	DRIER; BURNOUT FILTER FOR RITCHIE RECOVERY UNITS, 1/4" MALE AND 1/4 FE CONNECTIONS

Tools and Test Equipment

Refrigerant Handling

YELLOW JACKET® R 100 Series

This is the high speed system for large quantity refrigerant transfer, junkyard transfer, supermarket rack systems, and other larger commercial jobs.

- Fast twin cylinder 1 hp oil-less compressor recovers direct liquid at up to 5 lbs/min. or 0.6 lbs./min. vapor per ARI 740-95
- High capacity 6" muffin fan and oversized 3/8" slit fin condenser with 3-pass path for cool running in high ambient temperatures
- Tank overflow sensor
- Built-in reusable mesh particulate filter to protect from dirty systems
- "On-the-fly" purge with simple turn of a knob to remove residual refrigerant and help prevent cross contamination
- Designed and manufactured in USA

SERVICEFIRST ITEM NO	DESCRIPTION
TOL01451	TOOL; RECOVER-X R100AP REFRIGERANT RECOVERY UNIT, 115V
RLY03050	RELAY; RITCHIE 95233 COMPRESSOR START RELAY FOR RECOVERY UNIT 95100
BRD03201	BOARD; RITCHIE 95253 PC BOARD FOR RECOVERY UNITY 95100

VAL07366	VALVE, 3-WAY DISCHARGE VALVE ASSEMBLY FOR RITCHIE RECOVERY UNIT
SWT03044	SWITCH; HI PRESSURE SWITCH

YELLOW JACKET® RecoverX

This economical recovery unit builds on the performance and success of the original YELLOW JACKET® RecoverX Recovery Machine. Over 50,000 sold.

- Maximum air flow and cool running even in high ambient temperatures. High efficiency fan keeps air moving across condenser
- High strength HDPE case for light weight and rugged use. Rounded corners help protect you and your customers from nicks and scrapes
- Whisper-quiet 1/6 hp oil-filled reciprocating hermetic compressor charged with polyol ester oil. Oil drain port for easy maintenance
- Controls and gauges inset for protection and angled for easy access and viewing
- High pressure switch with automatic reset and external circuit breaker
- Designed and manufactured in USA

SERVICEFIRST ITEM NO	DESCRIPTION
TOL02911	TOOL; RECOVERX 95700 RECOVERY MACHINE

Refrigerant Handling

YELLOW JACKET® RecoverXLT

Start with the features of the RecoverX and add fully automatic operation for every refrigerant.

- Single valve control for easy changeover from liquid to vapor to purge (patent pending)
- CPR valve regulates refrigerant to the compressor. Eliminates the need for the technician to throttle the suction valve
- Advanced 1/2 hp, 3425 rpm oil-less compressor with precision valves manufactured in an ISO-9001 facility
- Recovers refrigerant and shuts off when unit reaches 15" of vacuum. Unit will automatically restart if system pressure rises
- LED signals recovery completion
- High efficiency fan keeps air moving across condenser for cool running even in hot weather
- Senses back pressure from tank and shuts off automatically at 520 psi for safety
- Single high pressure safety switch
- Reusable mesh particulate filter inserts into suction port for protection. Simple cleaning eliminates replacement due to clogging
- Color-coded hook-ups for proper use
- "On-the-fly" purge with simple turn of a knob to remove residual refrigerant and help prevent cross contamination
- Designed and manufactured in USA
- Tested by UL to ARI 740-98

Refrigerant Handling

Automotive R-134a A/C Couplers - Premium

Couplers interface with R-134a service ports. 14mm female thread or 1/4" and 3/8" male flare available.

- Quick, easy connect/disconnect.
- Control valve for access to systems even at working pressures.
- Integral safety sleeve holds coupler securely to service port.
- Highest flow characteristics.
- Low profile for tight applications.

BBQ Tools

- Flip your food with the perfect BBQ accessory.
- The stainless steel construction provides rust resistance.
- Cushion-Grip handle resists slippage and provides the comfort needed for frequent use.
- The 17" (432 mm) length makes it ideal for flipping your burgers or hot dogs.
- A Tip-Ident® on the end of the handles allows for quick identification in crowded drawers.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	Weight (lbs)
TOL02485	98222	0.15

Beverage Tool

- Suitable for users from the apprentice to the demanding professional.
- Cushion-Grip handle resists slippage and provides the comfort needed for frequent use.
- Bottle cap Tip-Ident®, allows for quick identification in tool pouches or crowded drawers.
- Professionally designed and rigorously tested by an expert team to handle both foreign and omestic applications.
- High-quality stainless steel construction.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	Weight (lbs)
TOL02484	98002BT	0.15

Klein Tools

Insulated Beverage Hauler, 24 oz. capacity

Double wall stainless steel insulation keeps liquids hot or cold. Unique flow control cap opens and closes with a single touch. Integrated drink cup. Supersized cushion grip looks and feels just like a Klein Tool!

Cable Cutters

Ratcheting Cable Cutter

- Cleanly cuts copper up to 400 MCM, as well as aluminum and multiconductor cables up to 600 MCM.
- Unique ratchet action holds cable tight and allows rapid, straight cuts with minimum effort.
- Hold-open spring speeds cutting action.
- Quick-release lever opens blade at anytime during operation.
- Large, finger-formed handles have limit guards and plastic covering for comfortable, non-slip grip.
- Compact, lightweight tool can be locked in closed position for pouch carrying.
- Not designed for cutting steel or ACSR.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	Overall Length	Maximum Cable Cutting Capacity	Weight (lbs)
TOL02497	63060	10" (255 mm)	400 copper, 600 aluminum and multi-conductor	1.7

Chisels

Cold Chisels

- Heat-treated, high-carbon steel for necessary hardness and durability.
- Cuts, shapes, and removes metal.
- Corrosion resistant black finish.

TOL02478	66146	1" (25 mm)	8-1/2" (216 mm)	1.31

Combination Wire-Stripping and Cutting Tools

Long-Nose Multi-Purpose Tool

- Easily cuts and strips wire.
- Narrow, serrated pliers nose to pull, loop, and bend wire.
- Long, curved cutting blade.
- Cutters and strippers are in front of the pivot for maximum ease-of-use in reaching into tight places.
- Crimps insulated and non-insulated terminals and 7 to 8 mm ignition terminals.
- Cleanly shears bolts.
- Plastic-covered cushioned handles for comfort.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	Strips and Cuts	Bolt Sizes	Weight (lbs)
TOL02279	1010	10 – 22 AWG (4.0 mm2 – .34 mm2)	4-40, 5-40, 6-32, 8-32, 10-32, 10-24	0.43

Multi-Purpose 6-in-1 Tool

- Cleanly shears bolts.
- Easily cuts and strips wire.
- Measures stud sizes.
- Gauges wire sizes.
- Crimps insulated terminals.
- Plastic-covered cushioned handles for comfort.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	Strips and Cuts	Bolt Sizes	Weight (lbs)

Tools and Test Equipment

Klein Tools

Combination Wire-Stripping and Cutting Tools

Multi-Purpose Electrician's Tool — 8-22 AWG

- Two wire cutters—one at tip, the other halfway back near stripping holes—double the utility of this tool.
- Crimps 7-8 mm insulated and non-insulated terminals, lugs and splices.
- Cuts and strips 8-22 AWG solid and 10-26 AWG stranded wire.
- Cleanly shears bolts.
- Pivot nut adjusts tension.
- Left- and right-hand wire-looping holes near tip.
- Full-sized, plastic-covered cushioned handles for comfort.
- Wire cutter in nose and below pivot.
- Crimping dies color-coded for easy identification.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	Strips and Cuts	Bolt Sizes	Weight (lbs)

Shaws & Blades

Dual-Purpose Hacksaw — Golden Tri-Cut 3-in-1 Blade

- Blade has three teeth sizes.
- Blade converts quickly to 90° or 45° for standard or flush-cut applications.
- Pivot-lock adjusts blade tension for straighter cuts and longer blade life.
- Set screw allows for storage of extra blades and secures blade for "jab" sawing.
- Aluminum finger grip handle and front end.
- Thumb guard for two-hand sawing.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	Blade Length	Overall Length	Weight (lbs)
TOL02409	701-S	12" (305 mm)	16" (406 mm)	1.45

Shaws & Blades

Bi-Metal Blades

- Special high-speed steel teeth fused to regular carbon-steel body provide superior cutting and longer life.
- Withstands greater saw tension for less blade flexing.
- Fits all 12" (305 mm) hacksaw blades.
- Blue finish.
- Available in box of 100 blades or in a reclosable, heavy-vinyl, seal-tight pouch of ten blades.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	Length Per Inch	Length	Weight (lbs)
BLD01043	1224BI-P	24	12" (305 mm)	0.45

Sheet Metal Tools

Aviation Snips – Regular/Offset/Bulldog

- Forged and heat treated steel blades for strength and durability.
- Regular and offset blades have the capacity of cutting 18 gauge cold-rolled sheet metal, and 22 gauge stainless steel sheet metal.
- Offset blades provide ease of cutting tight curves, and keep user's hand away from metal.
- Bulldog snips for notching or trimming 16 gauge cold-rolled sheet metal and 18 gauge stainless steel sheet metal.
- Spring-loaded for self-opening action.
- Latch keeps jaws closed when not in use.
- Hardened handles for extra strength.
- Contoured plastic handles are comfortable and color-coded by cutting pattern.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	Cutting Pattern	Length of cut	Closed Overall Length	Weight (lbs)
TOL02393	1100L	regular left	1-3/8" (35 mm)	9-3/4" (248 mm)	0.9

Step-Drill Bits

Unibit® High Speed Steel Step-Drill Bits — Inch

- Single-fluted design eliminates skidding and makes for easier resharpening.
- Laser-etched hole sizes are easy-to-read and permanent.
- Anti-skid tip eliminates the need for center punching or pilot hole drilling for most sizes.
- Drill multiple-size holes in thin sections of metal, plastic, and wood using a single bit.
- Works in most metals (steel, brass, aluminum, copper), as well as in plastic and wood.

Test Instruments by Amprobe

Phase Sequencer and Motor Rotation Tester

Low cost tester identifies 3-phase line sequence and motor rotation. Wide operating voltage and frequency ensures compatibility with most 3-phase circuits. Built-in phase loss indicator prevents incorrect reading.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
TOL01953	PRM-1	Tool, Amprobe PRM-1 Phase Sequencer and Motor Rotation Tester

Ultrasonic Leak Detector

Detects any pressurized gas leak due to an on-gas specific design. Ultrasonic sensor is unaffected by contaminant for reliable testing. Windy rooftop conditions do not affect sensor ability to detect leak. The PB-1 Parabola improves directionality and sensitivity for longer range testing. High sensitivity allows detection of arcing electrical switchgear from a safe distance.

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
TOL01948	TMULD-300	Tool, Amprobe TMULD-300 Ultrasonic Leak Detector Kit

Test Instruments by Robinair

Hoses

SERVICEFIRST ITEM NO	VENDOR ITEM NO	DESCRIPTION
HSE01100	67072	Hose, packaged set of three, 72" ENVIROGUARD, standard fittings, one each red, blue, and yellow
HSE00361	69036A	Hose, ENVIROGUARD 36" set
HSE00362	69072A	Hose, ENVIROGUARD 72" set
KIT05121	69060A	Kit, set of 3 hoses, red, blue, yellow, ENVIROGUARD with 45° OS fittings

Brazing and Multi Flame Nozzles

Brazing Nozzles - J Series - Light Duty

Exclusive “OPTIMIZED” nozzles in largest choice of types and sizes, plus uniformity of tip orifice and size for all series TurboTorch offers a complete range of nozzles, tips and elbows with a size for every application including: Welding, brazing, heating. Nozzles designed for “optimum” performance - Each complete nozzle has its own built-in spiral mixer, individually designed for each tip size and flame characteristic. Each nozzle is individually swaged to insure proper alignment for uniform flame, sizing and free-flow contour. Orifice sizes are common for all series - Regardless of nozzle series (300FC, 100FC, J), flame characteristic or fuel gas used. This uniformity of orifice sizes simplifies nozzle selection, eliminates chances of ordering and wrong size when changing from one type of nozzle to another.

Ske Kits & Additioal Torches

The swirl combustion tip gives you the best burn and cuts brazing time by 30%. Flame tube swivels 360° for work at any angle. Push trigger ignition. Rugged brass regulator. Offered with either #3 or #4 size tip with replaceable tip.

- Solid brass construction for lasting durability
- Flame control valve for precise heat adjustments
- May be used with any 14.1 oz. propane tank
- Great for light application jobs: Soldering, Thawing frozen pipes, Loosening rusty nuts & bolts, Heating, Light maintenance

TT-LP TurboTest Refrigerant Leak Detector

The TurboTest "Total LP" Leak Detector fits standard TurboTorch MAPP® (MT-1) or Propane (PT-1) tanks. The TurboTest "Total LP" is compact, easy to use and capable of detecting leaks of 8 oz. per year. It's made of brass construction with a stainless steel shield. Sniffer tube swivels 360° for easy handling. Heavy copper reactor plate (TT-R-LP) gives extra long life, yet is easily replaceable. Rugged stainless steel shroud will not rust. Easy-to-clean orifice is easily removed, reversed and blown clean. Steady, uniform swirl combustion flame. Complete operating instructions are included.

TurboTotes

Durable composite construction fits "B" tank. Features include a hose rack for storage while not in use and helps protect the regulator from accidental damage. A large handle keeps your tank portable. Your spark lighter is close at hand in its own holder accessory. "B" tote can be changed from one tank to another without special tools. A heavy nylon belt can keep your outfit secure on scaffolds or in the truck.
