

IPS Chrome Plated Steel Shallow Escutcheon, Bag of 25

Job Name _____
 Location _____
 Engineer _____
 Contractor _____
 Tag _____ PO# _____

Specifications

Jones Stephens' escutcheons are used to cover holes in the wall from water supply lines. The chrome plated finish provides a decorative touch for applications where matching existing hardware is desired. Constructed of steel, this IPS escutcheon plate is designed to be long-lasting and corrosion free.

Applications

Jones Stephens' escutcheons are approved for use with commercial and residential potable and non-potable water applications.

Materials

Steel
