

Diablo BiMetal Recip Solution: Wood Demolition/Nail Embedded

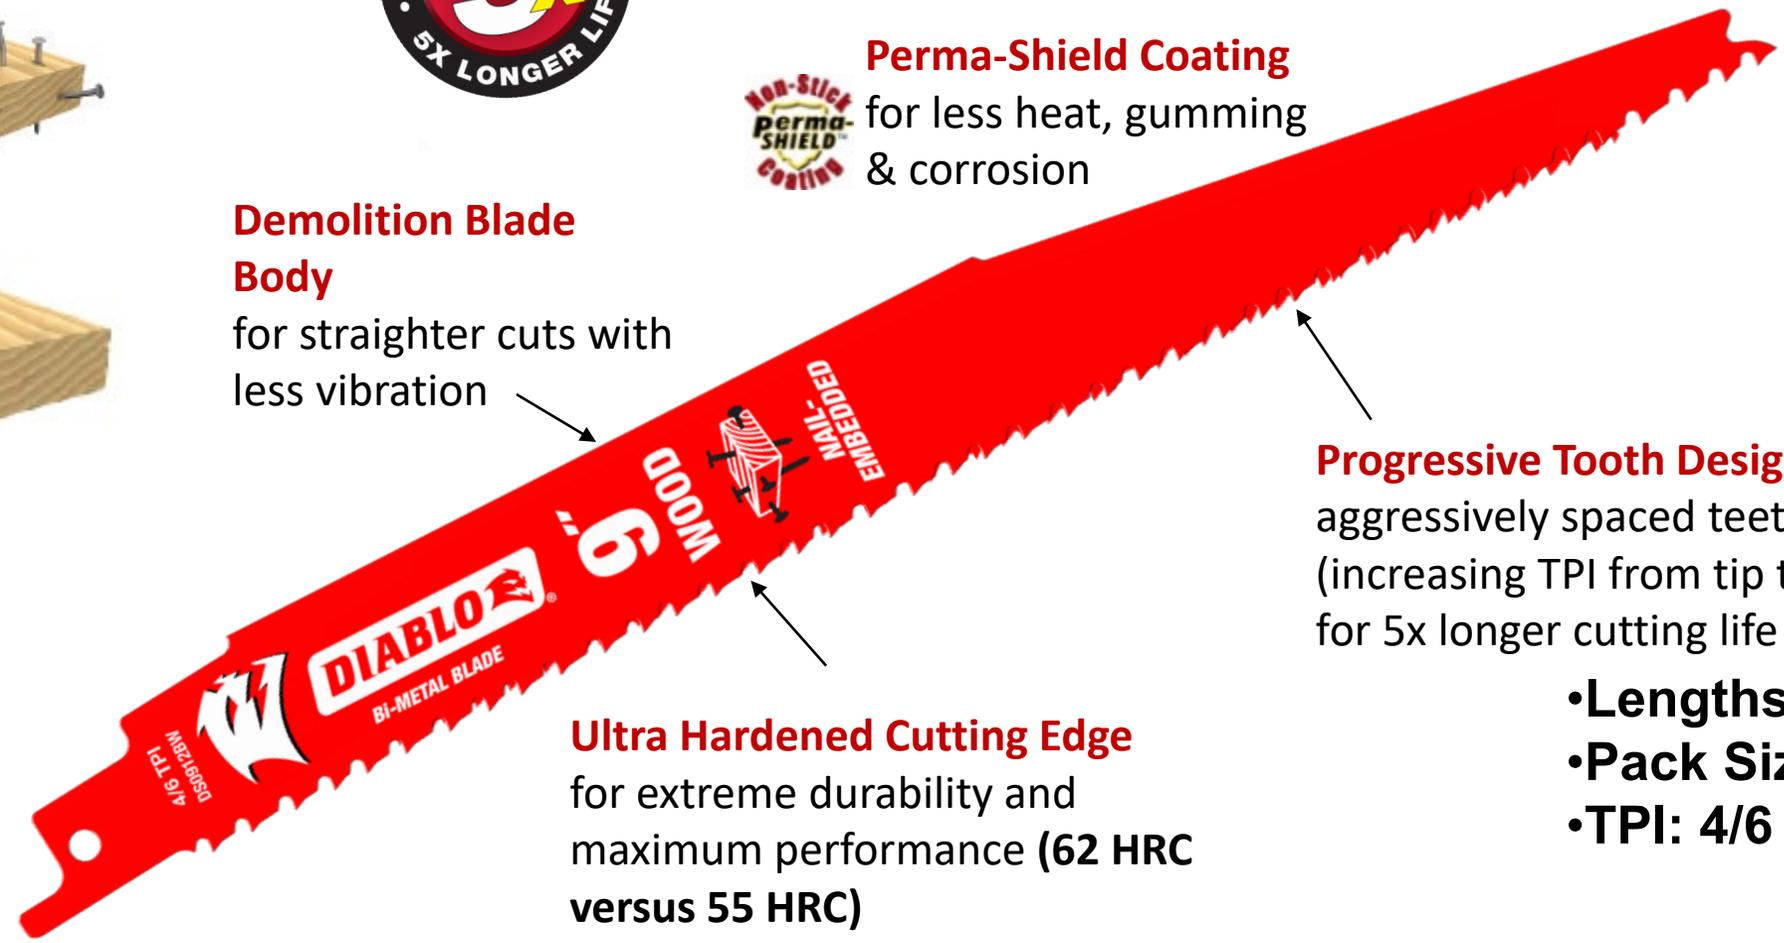

Demolition Blade Body

for straighter cuts with less vibration

Perma-Shield Coating
for less heat, gumming & corrosion

Fast Plunging Tip

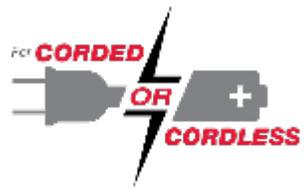

Progressive Tooth Design
aggressively spaced teeth (increasing TPI from tip to shank) for 5x longer cutting life

Ultra Hardened Cutting Edge
for extreme durability and maximum performance (62 HRC versus 55 HRC)

- Lengths: 6, 9, 12
- Pack Sizes: 1, 2, 5, 25, 200
- TPI: 4/6

9" and 12" with a slightly thicker 1.6mm Blade Body

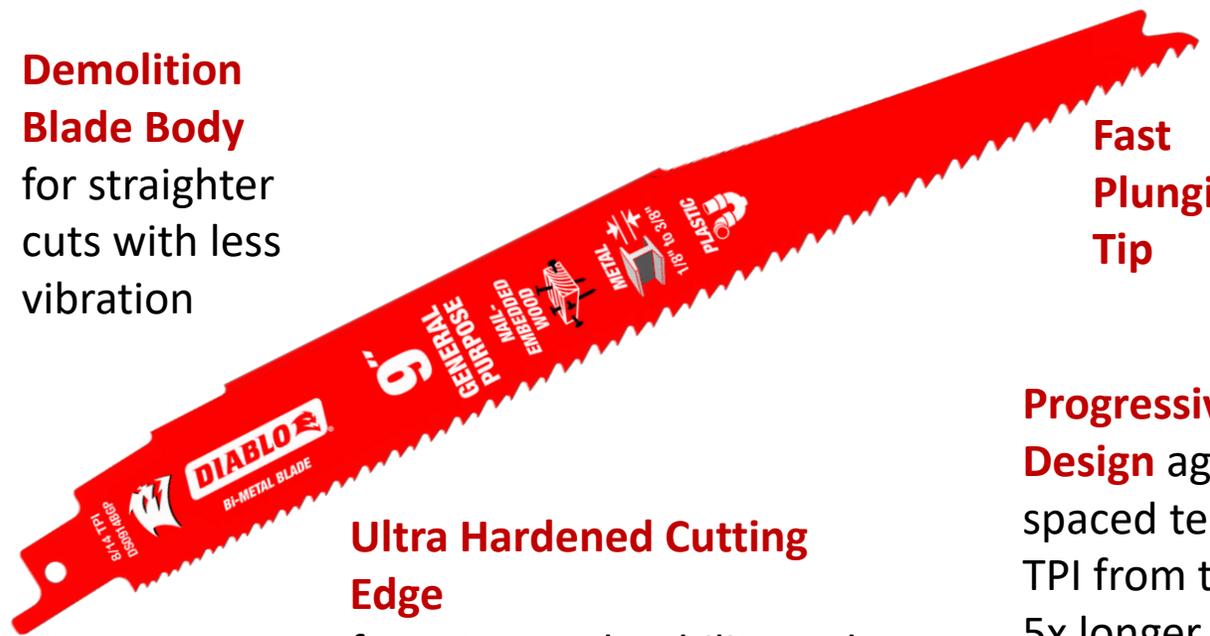

Diablo BiMetal Recip Solution: General Purpose

Perma-Shield Coating
for less heat, gumming
& corrosion

**Demolition
Blade Body**
for straighter
cuts with less
vibration

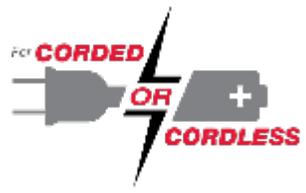

**Fast
Plunging
Tip**

- For clean and nail embedded wood, metals, plastics
- Lengths: 6, 9, 12
- Tooth Design: Dual Tooth
- TPI 8/14
- Pack Sizes: 1, 2, 5, 25, 200

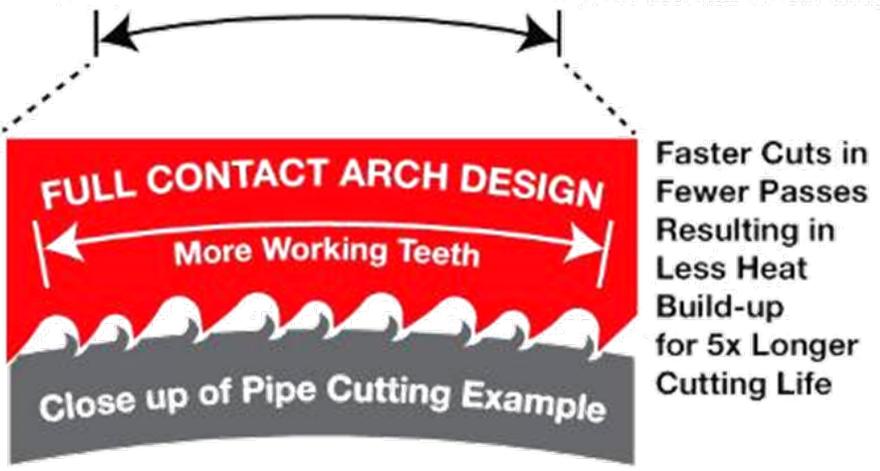

**Ultra Hardened Cutting
Edge**
for extreme durability and
maximum performance
(62 HRC versus 55 HRC)

**Progressive Tooth
Design** aggressively
spaced teeth (increasing
TPI from tip to shank) for
5x longer cutting life

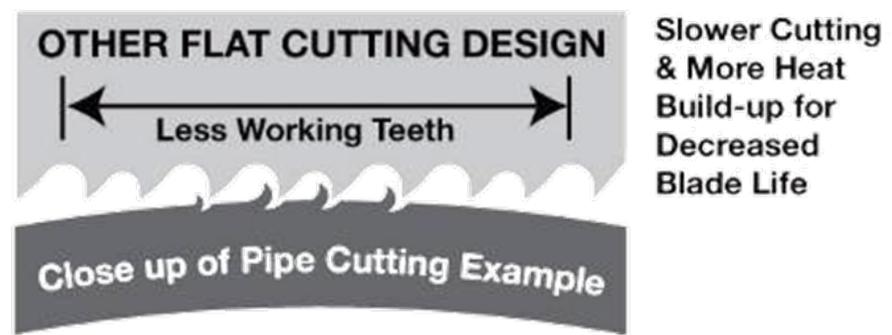

Diablo BiMetal Recip Solution: Medium Metal

V.S.

- Unique tooth configuration for smoother cuts with less vibration
- Length 4, 6, 9, 12"
- Dual Tooth Design for smooth cuts with less vibration.
- Full Contact Arch Design
- TPI 14/18
- Material Thicknesses: 1/16" to 5/16"
- Pack Sizes: 1, 2, 5, 25, 200
