Water Circulation Pumps & Circulators

Hetink Domestic Hot Water Recirculation System

The Taco HLS-2 Hot-Link® System for domestic hot water recirculation reduces the time it takes for hot water comfort to reach showers and faucets. The Hot-Link System can save an average family up to 12,000 gallons of water per year and it's easy to retrofit to an existing plumbing system.

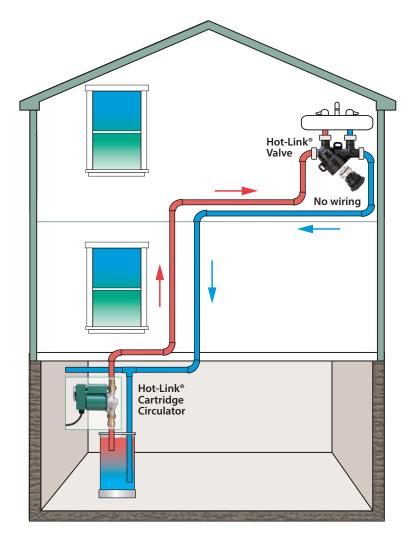

Features

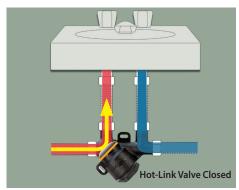

delivers instant hot water using existing plumbing system!

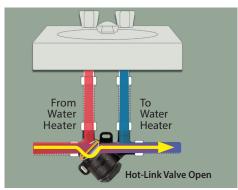

Features:

- Exclusive clean-in-place undersink valve design
 - Extends valve life
 - Reduces customer calls to replace "plugged" valves
- Creates a domestic hot water recirculation system without dedicated return loop piping
- Easy to retrofit to existing plumbing system
- Conserves water by greatly reducing the time it takes to get hot water
- Analog clock timer allows you to set the system to work during peak usage hours or to work continuously
- System includes an HLS-2 Hot-Link cartridge circulator, adapter unions, a Hot-Link bypass valve and flex hoses
- 3 Year Warranty

LEFT: No under-sink electricity needed. The Hot-Link circulator is mounted at the water heater.

Typical Hot-Link® Schematic

Save Energy, Water and Time! Link up to instant hot water comfort! Hot water without the waste!

The Taco Hot-Link® System for domestic hot water recirculation reduces the time it takes for hot water comfort to reach showers and faucets by recirculating "cooled" water back to the water heater; hot water lines remain hot. The Hot-Link System can save an average family up to 12,000 gallons per year — water that normally goes down the drain while waiting for hot water.

How the Hot-Link System works.

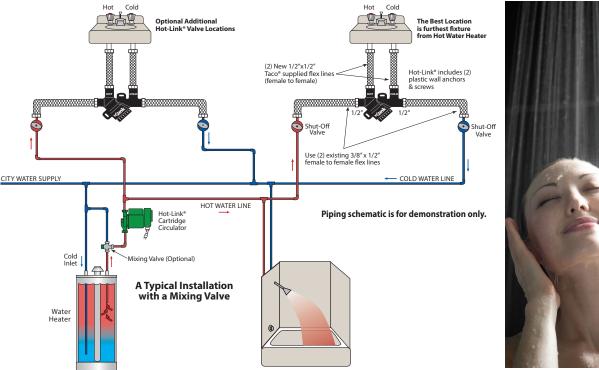

A quiet and efficient Hot-Link circulator is installed at the water heater and a Hot-Link bypass valve is easily installed at the faucet furthest away from the hot water heater. The thermal disk technology tells the Hot-Link bypass valve what to do. No under sink electricity is needed.

Hot-Link System is easy to install.

The Hot-Link System circulator is installed at the water heater. Simply plug the 6' power cord into any standard 120V electrical outlet; no electrician required. Everything needed to install and operate the Hot-Link System is included in the box. Simply set the Hot-Link circulator timer to work during peak usage hours or to work continuously.

Benefits of the Hot-Link System.

Saves energy, water and time while providing instant hot water comfort. What's more, it's made by Taco, known by plumbing professionals as a world leader in high quality hydronic components since 1920.

Effective: 07/08/16

Hot-Link System Includes:

Hot-Link Valve

HLS-2 Hot-Link Circulator

- (2) Braided Flex Hoses
- (2) 3/4" Half-Unions (Male & Female)

Materials of Construction —Pump & Unions

Casting (Volute)	Stainless Steel
Stator Housing	
Cartridge	Stainless Steel
Impeller	Noryl
Shaft	Ceramic
Bearings	
O-Ring	EPDM
Half-Unions & Tailpieces.	Brass

Materials of Construction -Hot-Link Valve

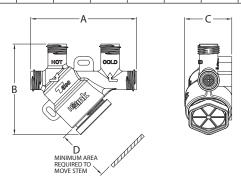

Body	Nylon
Thermal Disk Actuator	rBi-Metal
O-Ring Seals	EPDM
Integral Flow Check (IF	·C*):
Body, Plunger	Acetal
O-Rings	EPDM
Screen	304 SS
Stem	Nylon
Actuator Cartridge	
Braided Flex Hoses	Stainless Steel
