

QC 77 Bio-Enzymatic Odor Eliminator

CLASSIFICATION

Odor Control

PRODUCT DESCRIPTION

QC 77 Bio-Enzymatic Odor Eliminator is a one-step product that provides complete removal of urine and body odors at the source. It is designed to be applied directly to the surface of odor and provides immediate knock down with residual enzymatic action on hard and soft surfaces.

USE

FOR INDUSTRIAL USE ONLY
DO NOT MIX WITH ANYTHING BUT WATER

DIRECTIONS OF USE:

1. Prior to application, clean to remove as much visible liquid or solid soil as possible, then sanitize or disinfect as needed with an EPA registered product.
2. Apply QC 77 Bio-Enzymatic Odor Eliminator directly to soiled surface using a trigger sprayer, sponge, mop, saturated cloth or extraction cleaner.

SOFT SURFACES: Saturate soiled area, blot excess product and let air dry.

CARPET: Can be used as an extraction cleaner or as a spot cleaner. For spot cleaning, follow soft surface use directions

HARD SURFACES: Generously apply product to problem areas and let air dry.

Not recommended to be sprayed into the air as an air freshener.

Light Duty: 1 US fl oz per gallon of water

Medium Duty: 2 US fl oz per gallon of water

Heavy Duty: 4 US fl oz per gallon of water

Detailed Directions For Use

- **Soft surfaces** – Remove as much visible soil as possible and follow directions below for each surface.
 - o Soft surfaces –Apply product with a trigger sprayer and let dry as a fabric refresher and odor eliminator.
 - o Carpet – Test in an inconspicuous area for colorfastness before applying product.
 - Extraction – Vacuum carpet before extraction. Dilute product at the recommended medium or heavy dilution in warm, not hot, water. Extract carpet.
 - Spot Cleaning – Use product as you would use any other carpet spotting product.
- **Hard surfaces** – Remove visible soil and follow directions below for each surface.
 - o Hard surfaces –Apply product with trigger sprayer, wipe, and let air dry or wipe onto surface with wet cloth/microfiber/towel wipe and let air dry.
 - o Hard surface floors – Mop product onto floor and let air dry.
 - o Urinals & Toilet Areas – Wipe down wall surfaces and partitions around urinal with product. Apply product with trigger sprayer, sponge, microfiber, cloth, rag, or mop, spread over problem areas, and let dry.
 - o Drains – Apply product directly to drain that is causing odor. Pour ½ - 1 gallon of diluted product into drain
