catalog 5011

2017

COLLECTION

We search the globe for the finest metals, fabrics, woods and other natural materials to create our exquisite collections. Our lighting designers carefully select the appropriate materials for each design. The lighting bodies utilize various materials ranging from cast metals, embossed ceramics, mouth blown and textured glass and carved woods to compliment each style. A great lamp design would not be complete without a coordinating shade in the proper scale, shape and texture. We select fine silks, linens or other natural and man-made fibers to create our vast array of shade styles. This combination of modern technology with old-world craftsmanship ensures we offer you the highest standards of quality, innovation and design.

In our latest release, discover lavish 'Deco-futurist' chandeliers fitted with oversized magnifying glasses; lush botanical pendants resembling a thatch of heath-found reeds; well-scaled outdoor lights echoing free-form sculptured bronze; and sassy brass lamps spliced with smoothly contoured marble spheres - all fresh renditions of timeless genre stories capturing the essence of the DIMOND style.
