NOTES

Stk It is recommended that stock be maintained for this part.

N/A Not Applicable

- 1 This unit was built with a scroll compressor. However, no scroll compressor is currently available that can physically fit within the cabinet enclosure. Therefore, this compressor should be replaced with reciprocating Compressor (55-22972-02S) and tubing Retrofit Kit (PD831038). USE OF THE RETROFIT KIT IS REQUIRED WHEN PERFORMING THIS REPLACEMENT. Failure to use the kit will greatly increase the likelihood of future compressor failure and may void the compressor warranty.

DISCLAIMER: This document is intended to provide general replacement parts information to aid qualified service personnel in the repair of these models. The complete Model and Serial Number of the unit under repair should be specified when selecting and ordering replacement parts. Specifications and illustrations are subject to change without notice. Document 92-42800-RPKA supersedes all previous parts lists for these models. See <http://www.rheempartslists.net/92-42800-RPKA> for the latest revision of this document. The manufacturer assumes no obligation for errors or omissions. Service personnel must verify the proper and safe operation of equipment after the replacement of any original components.
