AN INGENIOUS AIR EXCHANGE SOLUTION THAT'S AS VERSATILE AS IT IS COMPACT!

Configured with factory built vertical or horizontal ports, the Broan ERV110 is the most versatile 100-cfm unit available on the market today. Among its exclusive features, this unit is equipped with integrated balancing and backdraft dampers in its exhaust to outside and fresh air supply ports.

Its operation can be interlocked with an existing furnace without adding an extra relay. Also, for more convenience, its latches can be relocated on its front (as shown on unit picture). This compact, lightweight and powerful unit is the ideal choice for small single-family homes, high rise residential building and other limited space applications.

- Versatile horizontal or vertical port configuration
- Removable terminal block to ease auxiliary wall control connections
- Integrated pressure taps, if balancing required by building code
- Twin high-pressure blowers
- ENERGY STAR® qualified

REPAIRS AND MAINTENANCE

All parts of the Broan ERV110 that could need maintenance can be removed in less than 5 minutes, allowing direct access for easy repairs. The PSC motors are permanently lubricated. Finally, the removable electrical drawer with pull-out PCB assembly allows easy access for maintenance of major sub-components.

WARRANTY

The Broan ERV110 is protected by a 5-year warranty on parts only. The energy recovery core is covered by a 5-year warranty, with the original proof of purchase.

Controls

- This unit is very simple to operate. Once it is installed, press on its push button, located on the bottom of the unit, to activate it. Press once for low speed, once again for high speed, and once more to stop it.
- For more convenience, this unit can also be controlled by an optional main control. For a complete list of optional main and auxiliary controls available, refer to the **Wall Control Compatibility Chart** on last pages of wall controls specification sheet, available at www.broan.com
- For more details about controls, refer to the **Main and auxiliary wall controls** user guide, also available at www.broan.com

Options

- Complete line of registers and diffusers
- Dual exterior hood kit (including the Tandem® transition), part no. TYIK1

Homeshield™ Defrosting System

The Broan ERV110 uses a unique defrosting method. No negative pressure is created by air exhausted to the outside, as the air is recirculated into the house, helping to prevent any backdraft.
