HoldRite HydroFlame™ Water Dam Specification Sheet/Drawing

The HoldRite Hydroflame™ Pro Series "Water Dam" attaches to the top of the Pro Series cast-in-place firestop sleeves and adds a 2" tall water dam barrier at the perimeter of the sleeve opening. Sizes are available to fit all Pro Series Sleeves, for all sizes of penetrants 1/2" thru 6" nominal size. See Riser Clamp load rating chart below. Thread sealant may be added to male threads prior to installation, if desired. UL-Listed accessory when used with HoldRite's Hydroflame™ Pro Series Sleeves.

Buy American Act

Product Information:

- Material:
Body: PVC, Black.
- Patent Pending
- HydroFlame™ Pro Sleeve tested in accordance to ASTM E90. Please see appropriate testing reports for further STC information.
- See Hydroflame™ Pro Series Installation Instructions, Best Practices documents and the latest UL Fire Resistive Directory file (R25101) for details.
- "FBC™ System Compatible indicates that this product has been tested, and is monitored on an ongoing basis, to assure its chemical compatibility with FlowGuard Gold®, BlazeMaster® and Corzon® piping systems and products made with TempRite® Technology." The FBC™ System Compatible Logo, FBC™, FlowGuard®, BlazeMaster®, Corzan®, and TempRite® are trademarks of Lubrizol Advanced Materials, Inc. or its affiliates."

Water Dam may be used to support Riser Clamps. Rated with reference to:		
#1) UL-203		
#2) Typical standard riser clamps; MSS-SP-58, Type 8; and ASTM D695 for rigid PVC, Type B
