All customers are encouraged to use White Rhino Item ID numbers when ordering to expedite your order being entered.

OUR PURPOSE:

SOLVING PROBLEMS • MAKING CONNECTIONS • SERVING OTHERS

READY TO SHIP NATIONWIDE!

Our line of quality White Rhino products are in stock and ready to ship anywhere in the US. When you place a White Rhino order, you're receiving outstanding products built with the utility customer in mind!

UNIVERSAL SLIP REPAIR COUPLING

Innovative, one-of-a-kind coupling is designed, tested and quality controlled in accordance with Plasson's internal standards, manufactured in accordance to standard ASTM D3035, ASTM F714 and AWWA C906.

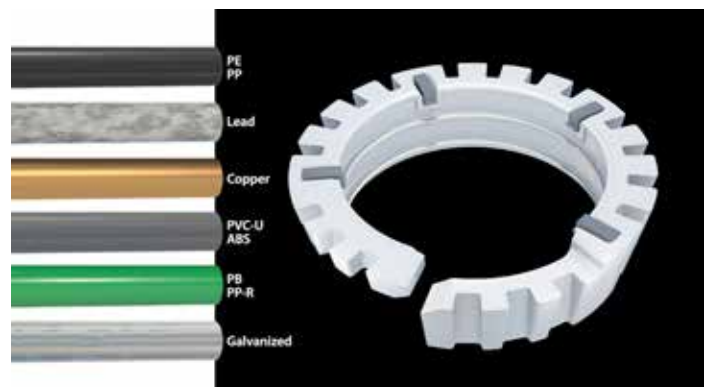

- Double O-ring Seal
- Repair ID or OD Controlled Pipes SDR9-11.5
- Works on all Pipe Types (PE, Lead, Copper, PVC, PB, Galvanized)
- Available in sizes 3/4" - 2"
- Fitting is rated to a working pressure of 200psi

PRESSURE REGULATORS

COMPACT RESIDENTIAL P140 REGULATOR

The Type P140 pressure regulator is ideal for natural gas, air, propane and general purpose gas pressure regulation. Uses include commercial, residential and light industrial for burners and unit heaters. Available with or without internal relief.

Applications: Applicable to a wide range of gaseous fluids. Can be used as a LP regulator.

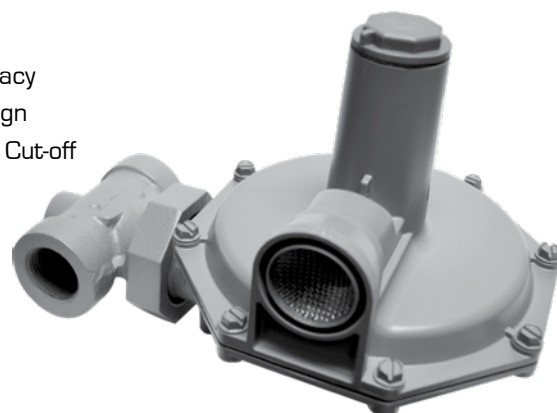

- Versatile
- Control Accuracy
- Compact Design

FULL SIZE RESIDENTIAL P143 REGULATOR

The Type P143 pressure regulator is ideal for natural gas, air, propane and general purpose gas pressure regulation. Uses include commercial, residential and light industrial for burners and unit heaters. The P143 has an internal relief device and is available in the low pressure cut off - LPCO - version.

Applications: Applicable to a wide range of gaseous fluids. Can be used as a LP regulator.

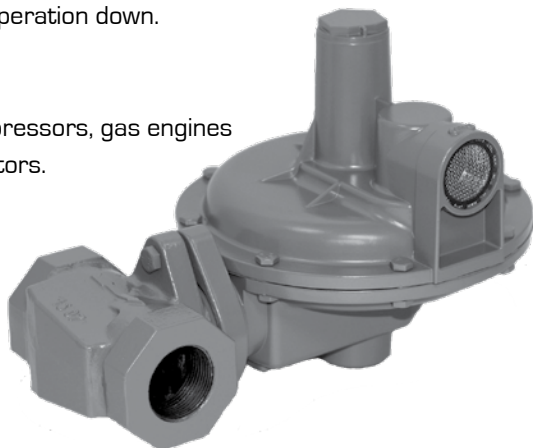

- Versatile
- Control Accuracy
- Compact Design
- Low Pressure Cut-off

SMALL COMMERCIAL P300 REGULATOR

The P300 series pressure regulator is a manual, direct acting, self-operating, spring loaded, adjustable regulator. The P300 series is used in applications where pressure reduction is required. The regulator will reduce the risk of "shock" from abrupt changes of downstream conditions. This can help prevent safety equipment from shutting an operation down.

Applications:

Applicable to compressors, gas engines and service regulators.

- Minimize Sudden Downstream Load Change
- Wide Pressure Ranges
- P302 has internal relief valve for overpressure protection

MEDIUM COMMERCIAL P200 REGULATOR

The P200 series pressure regulator is a manual, direct acting, self-operating, spring loaded, adjustable regulator. The P200 series is used in applications where pressure reduction is required. The regulator will reduce the risk of "shock" from abrupt changes of downstream conditions. This can help prevent safety equipment from shutting an operation down.

Applications:

Applicable to compressors, gas engines and service regulators.

- Minimize Sudden Downstream Load Change
- Wide Pressure Ranges
- P202 has internal relief valve for overpressure protection
