

INTERCEPT MICRO[®] FILTERS

Intercept Micro Filters are the first line of defense in our ProLevel Filtration[®] Systems which reduce and control indoor air pollutants. ProTeam vacuums clean beyond surface level appearance.

PROLEVEL FILTRATION

ProLevel Filtration technology captures microscopic dust that can harm health and trigger asthma or allergies.

LARGER Capacity

The ProTeam Intercept Micro Filters have 21% more filtration area than non-pleated filters.

LONGER Filter life

Fully laminated inner liner eliminates shredding.

CAPTURE & Contain

Intercept microbial treatment contains odors and prevents growth of mold and bacteria.

IMPROVED Air Quality

Dual layered construction contains fine particles, improving Indoor Air Quality.

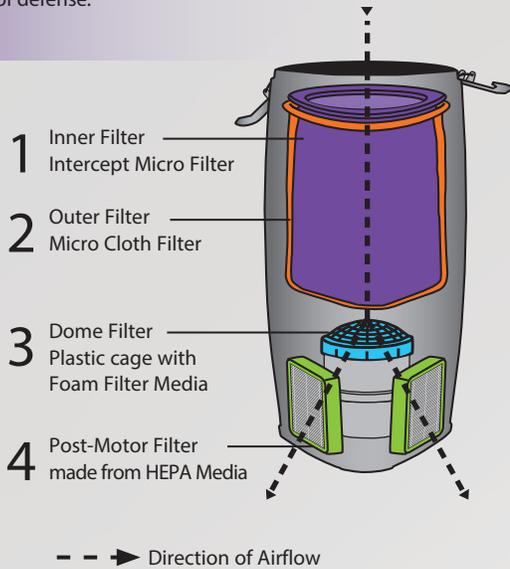

MAXIMIZE EFFICIENCY

Always make sure to use genuine ProTeam filters for maximum effectiveness.

CLEANING FOR HEALTH[®]

ProTeam vacuums feature ProLevel Filtration, a multi-part system that starts with the Intercept Micro Filter as the first line of defense.

WHY is it important to filter out particles down to such a microscopic size?

- According to the American Academy of Allergy, Asthma and Immunology, allergies are the 6th leading cause of chronic illness in the U.S. with an annual cost in excess of \$18 billion. More than 50 million Americans suffer from allergies each year.
- Approximately 13.8 million school days and 14.2 million work days are missed each year due to asthma, according to the CDC National Center for Health Statistics.

FACT

The ProTeam exclusive filtration systems capture particulates and pollutants both visible and invisible that can harm health and trigger asthma or allergies.

The Air We Breathe —

is full of particles that trigger asthma and allergic reactions. Dust, mold, pollen and bacteria, invisible to the human eye, come from many different sources and quickly travel from one environment to the next. The ProTeam exclusive suction only system successfully contains microscopic debris.

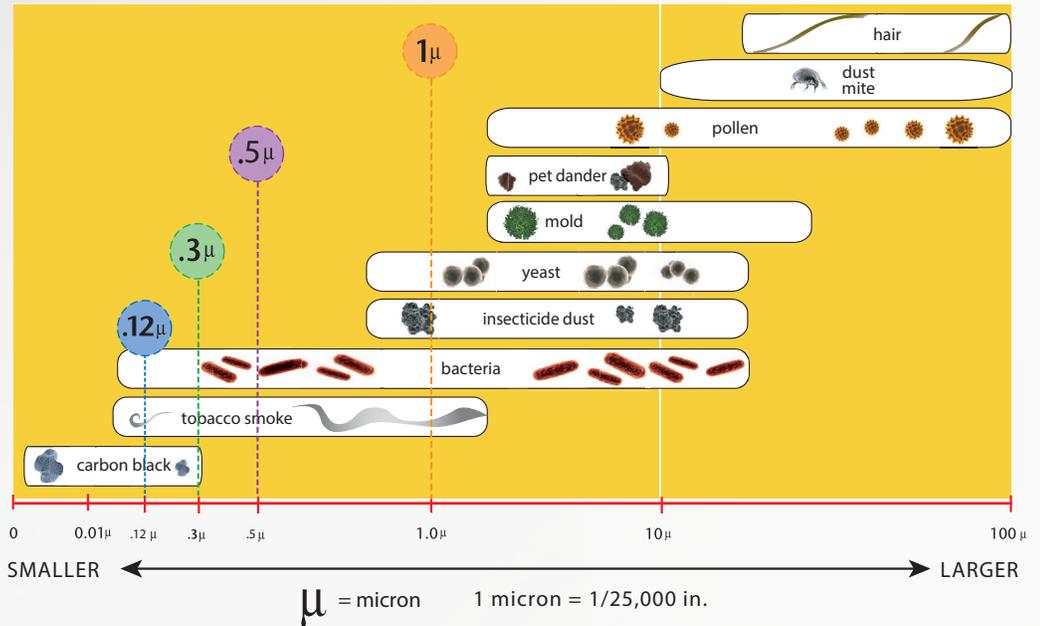

ProTeam is a proud partner of the American Lung Association. Together, we fight for clean indoor air so that we all can breathe easier.

UNIQUE SUCTION BY PROTEAM METHOD OF CLEANING:

- Cleans Carpet And Hard Surfaces Without Stirring Up Dust.
- Air Stays Cleaner Reducing The Need To Dust As Often.
- Operators Can Work Without Breathing Unhealthy Air.
- Vacuums Designed To Improve Indoor Air Health And Quality.
