

# Automatic Water Conditioner

## WS125

### The Clack Water Specialist Control

features a solid state microprocessor with easy access settings. The control valve design provides optimum service and backwash rates along with soft water brine tank refill and a double backwash feature. It also offers a pre-brine refill feature. Designed for use with water softening system and/or water filtration system, systems are fully automatic. Valve body and meter module are molded from glass reinforced Noryl for exceptional strength and durability.

### Limited Lifetime Warranty

On pressure tanks and brine tanks, and a full 5 year warranty on parts (Control valve & brine tank internals).

### Locally Manufactured by:

Water Tec of Tucson Inc.  
From the highest quality components at our facility in TUCSON, ARIZONA.

### Proven Reliability

THOUSANDS are in service in western United States

### Over 45 Year Reputation

Of immaculate customer service satisfaction, integrity and quality!

The Clack Water Specialist Control

### Tank Jackets

The outer covering is for U.V protection and algae inhibition on outdoor installations (Optional plastic or stainless steel jackets)

### Poly Glass Tanks

Tanks constructed of a high-density polyethylene inner shell, thermal wound with fiberglass. These tanks are totally non-corrosive!

### Compact Space Saving

The built-in brine tanks cabinet unit for indoor installations. The valve may be installed in various positions for accessibility.
