

CASABLANCA®
FAN COMPANY

7130 Goodlett Farms Pkwy., Suite 400

Memphis, TN 38016

1.888.227.2178

www.casablancafanco.com

INSPIRED BY THE WORLD AROUND US. CRAFTED FOR YOUR LIVING ROOM.

We've never been ones to blindly follow the latest trends. We prefer to explore, imagine, lead, and set the trends ourselves. Our world-class designers stay away from the safe confines of the status quo, seeking inspiration in the world around them. As we begin to turn that inspiration into something beautiful and exquisite, we don't use computers or restrictive templates. Each design is hand-sketched to capture every painstaking detail of our vision.

After inspiration finds its way onto paper, we build the fan ourselves to guarantee every aspect of the fan is crafted to perfection. We guide the entire process by assuring that each model lives up to our reputation of breathtaking design, highest quality materials, innovative engineering, and flawless functionality. Then, we put each fan through the most rigorous testing in the industry. The result is a fan that is not just a fan, but it is a conversation generating centerpiece for any room in your home.

TO SEE CASABLANCA FANS IN YOUR SPACE

WHY CASABLANCA IS THE WORLD'S FINEST CEILING FAN.

INSPIRED DESIGN

Our designers put their stamp on each fan by taking inspiration from the world's most celebrated architecture. Designs are hand-sketched to give every model an organic look that our artisans bring to life.

METICULOUS DETAILS

From premium materials and ornate design to seamless transitions and hidden hardware, we fret over each and every detail to deliver your home's newest masterpiece.

CUSTOM BEAUTY

By having a wide variety of blade styles that are compatible with all Custom Casablanca fans, we make it easier than ever to add your very own personal touch. With a streamlined offering of light fixtures, you'll find the perfect lighting option to complement your style and taste.

RIGOROUS TESTING

We hold ourselves to a much higher standard than the industry does. We hold ourselves to higher-than-industry standards by performing a 20,000 repetition shake test, a drop test that is six inches higher than regulation, UV chamber testing, and randomized quality assurance tests. These are just a few of the ways we stand above the competition to assure your fan will last.

THE VERY BEST MOTORS

Engineered to work flawlessly over the life of your fan, our high-end motors are ENERGY STAR® certified and are at the top of their class in air movement while being the industry's most quiet designs.

INNOVATIVE CONTROLS

Highly advanced yet simple to use, our all-in-one controls make it easy to get the most out of your Casablanca ceiling fan.

DESIGNED FOR YOU AND THE WORLD YOU LIVE IN.

Seeking excellence doesn't stop with design and engineering. We put thousands of hours into developing a fan that's more efficient, so you can feel good about your energy savings and your contribution to the environment. Casablanca motors move more cubic feet of air per minute (CFM) while using significantly less energy. Fan blades are set at the optimum pitch to deliver maximum airflow at any speed. Even at the highest setting, each fan uses about the same amount of power as a 100-watt lightbulb.

Most of our new fans are ENERGY STAR® certified along with many that were already part of the Casablanca collection. This means they provide even greater energy efficiency. Look for the ENERGY STAR logo throughout the catalog. Specific fan models are equipped with highly efficient LEDs, and are California 20 compliant for maximum energy savings.

To simplify things, we've included this informational energy chart for every fan:

Airflow:	Electricity Use:	Airflow Efficiency:
X,XXX cfm	XX w	XX cfm/w

38" to 48" ceiling fans have airflow efficiencies ranging from approximately 71 to 86 cubic feet per minute per watt at high speed.

49" to 60" ceiling fans have airflow efficiencies ranging from approximately 51 to 176 cubic feet per minute per watt at high speed.

CONSERVATION TIP: Operating a fan in an unoccupied room wastes energy, so turn it off when leaving the room.

QUALITY CRAFTSMANSHIP BACKED BY 120-DAY IN-HOME SERVICE

Our attention to detail continues past the design and creation of our fans. Should you have any concerns with your Casablanca fan, a trained representative will be sent to your home to service it. Simply call us at 1-888-227-2178 for a referral to your local Authorized Service Center. If In-Home Service is not available in your area, Casablanca offers pre-paid freight for you to send the fan to the Casablanca Factory Service Center. It will be repaired and returned to you at no charge.

Casablanca's Comprehensive Warranty, the most extensive in the industry, also includes:

LIFETIME MOTOR WARRANTY

All Casablanca fan motors, even Damp- and Wet-rated models, are guaranteed for life.

ONE-YEAR PARTS AND ELECTRONICS WARRANTY

Each fan includes a one-year warranty on finish, component parts, accessories, and electronics.

With this extensive coverage, you can enjoy the beauty, quality, and performance of your Casablanca products for decades to come.

Featuring 120-Day In-Home Service

CRESTMONT CEILING FAN

CUSTOM CASABLANCA

DESIGN YOUR CUSTOM FAN

1 STEP

DETERMINE IF YOUR FAN IS FOR INDOOR OR OUTDOOR USE

Any Casablanca fan can be installed indoors, but look for the wet and damp icons to quickly see if the fan is also rated for outdoor use.

2 STEP

SELECT YOUR MOTOR DESIGN AND FINISH

Each collection page shows available motor styles and finishes.

3 STEP

CHOOSE YOUR BLADE FINISH AND SHAPE

The foldout on page 15 will serve as an easy side-by-side reference to help you select the perfect blade set for your fan.

4 STEP

SELECT YOUR LIGHT FIXTURE AND GLASS

Look for our design team's lighting recommendation for each collection, or choose from all available options shown on pages 127-130.

5 STEP

DECIDE IF YOU NEED AN ACCESSORY CONTROL

Every fan comes with either a wall control or 4-speed pullchain, but you can choose to add an optional remote control.

Design your custom fan online at www.customcasablanca.com

DESIGNER RECOMMENDATION GUIDE

Because we've simplified our fan blades by creating one universal hole pattern, most blade styles now work on most new fan bodies. Here are our design team's recommended blade pairings to help you build your ideal fan with classic Casablanca style.

<div>● Blades suitable for Indoor Use only</div> <div>* All-Weather ABS Blades designed for use in any environment—indoors or out. 55063

Brushed Nickel motor shown with 99009
Burnt Walnut / Walnut veneer blades
(sold separately)

The Crestmont has a strong presence that fits with a variety of styles. Featuring our new wide switch housing for a more modern look, this fan offers traditional composition with a contemporary twist. The design is influenced by Naval architecture, particularly the multi-dimensional appearance of transverse frames found in boat hulls. The interplay between flowing curves and rigid lines throughout the fan body uses these same ideas to create a unique, classic feel.

FEATURES

- Direct Drive™ motor / lifetime motor warranty
- 54"-60" blade span
- Multiple blade finish choices available (blades sold separately)
- Light kits sold separately
- ETL rated for damp or humid locations

Brushed Nickel motor shown with 99004
Burnt Walnut / Walnut veneer blades
(sold separately)

The Holliston is the one of the first fans to showcase our new wide switch housing. With its interplay between aerodynamic curves and long straight lines, the design is a nod to Streamline Moderne architecture and furniture. The broad curvature throughout the design emits a fresh and approachable vibe that will compliment your own personal style.

59168

Metallic SunSand motor with Drift Oak blades and Cased White Glass

Formal yet contemporary is a difficult balance to find, but the Perseus is a shining example. Named after the star constellation, this piece is inspired by 21st-century spacecraft design. The floating ring around the fan is something otherworldly, and this cosmic approach is carried throughout the design. The interplay between the earthly wood blades and the celestial metallic body is not quite like anything the world has seen before.

FEATURES

- Direct Drive™ motor / lifetime motor warranty
- 64" blade span
- Set of 3 blades included
- 12" and 5" downrods included
- ETL rated for damp or humid locations

55065

Snow White motor shown with 990012
Matte White All-Weather blades
(sold separately)

The Crestmont has a strong presence that fits with a variety of styles. Featuring our new wide switch housing for a more modern look, this fan offers traditional composition with a contemporary twist. The design is influenced by Naval architecture, particularly the multi-dimensional appearance of transverse frames found in boat hulls. The interplay between flowing curves and rigid lines throughout the fan body uses these same ideas to create a unique, classic feel.

FEATURES

- Direct Drive™ motor / lifetime motor warranty
- 54"-60" blade span
- Multiple blade finish choices available (blades sold separately)
- Light kits sold separately
- ETL rated for damp or humid locations
- 188 x 20 motor

59527

Aged Bronze motor with outdoor carved featherwood blades in Reclaimed Antique

During the Industrial Revolution, innovations in manufacturing enabled artisans to create furniture from cast iron. The Heritage™ incorporates many of the design details featured in antique castings from this era. The fan features vertical ribbing on its motor housing, raised type on the switch cap, and a custom cobblestone texture on the fan body, cap, and inset portions of the blade medallions.

FEATURES

- Direct Drive™ / lifetime motor warranty
- 60" blade span
- Set of 5 exclusive outdoor blades
- Moisture-resistant motor and enclosed housing
- Stainless steel hardware
- Minimum 8' ceiling required
- 188 x 20 motor
- Light kits sold separately
- ETL rated for wet locations

59168

Metallic SunSand motor with Drift Oak blades and Cased White Glass

Formal yet contemporary is a difficult balance to find, but the Perseus is a shining example. Named after the star constellation, this piece is inspired by 21st-century spacecraft design. The floating ring around the fan is something otherworldly, and this cosmic approach is carried throughout the design. The interplay between the earthly wood blades and the celestial metallic body is not quite like anything the world has seen before.

FEATURES

- Direct Drive™ motor / lifetime motor warranty
- 64" blade span
- Set of 3 blades included
- 12" and 5" downrods included
- ETL rated for damp or humid locations
- Integrated LED light kit
- 188 x 20 motor

** Discontinued. While supplies last.*

Available finishes:

- 99065 Antique Brass
- 99066 Snow White (shown)
- 99067 Brushed Nickel
- 99068 Brushed Cocoa
- 99069 Maiden Bronze

Low Profile Glass

- Fitter sold separately (see A-C above)

- D: 99072** Shallow shape glass in Cased White
- E: 99073** Recessed shape glass in Cased White
- F: 99082** Standard shape glass in Cased White
- G: 99083** Stepped shape glass in Cased White
- H: 99084** Stepped shape glass in Toffee

LOW PROFILE BOWL LIGHT FIXTURE

Low Profile Bowl Light Fixture

- Includes three 14-watt medium-based CFL bulbs
- ETL rated for damp or humid locations

A: 99258

Swirled Marble Glass comes with Cap and Finials in Brushed Nickel, Snow White, Cottage White, and Brushed Cocoa

B: 99259

White Cased Glass comes with Cap and Finials in Brushed Nickel, Snow White, Cottage White, and Brushed Cocoa

C: 99260

Toffee Glass comes with Cap and Finials in Brushed Cocoa, Antique Brass, and Maiden Bronze

Low Profile Cap and Finial Packs

(not shown-sold separately)

- 99265 Antique Brass
- 99266 Maiden Bronze
- 99267 Aged Bronze

BOWL FITTERS & GLASS

A: 99023 CFL Bowl Fitter

Bowl Fitter, 28 watts

- Includes two 14-watt medium-based CFL bulbs
- Includes cap and finials in Brushed Cocoa, Brushed Nickel, and Snow White
- Glass sold separately

B: 99025 Ultra-Bright Bowl Light Fitter

Includes three 23-watt medium-based CFL bulbs

- Includes cap and finials in Brushed Nickel, Snow White, and Brushed Cocoa
- ETL rated for damp or humid locations
- Glass sold separately

**DAMP
RATED**
C: 99183 LED Bowl Fitter

Includes 16-watt LED module

- Includes cap and finials in Brushed Cocoa, Brushed Nickel, and Snow White
- LED light output: 1200 lumens
- Correlated color temperature (CCT): 3000K
- 10 Year warranty
- Glass sold separately

D: 99057 Swirled Marble Glass Bowl
E: 99058 Tea Stain Glass Bowl
F: 99059 Cased White Glass Bowl
G: 99060 Toffee Glass Bowl
H: 99061 Cased White Glass Bowl
I: 99062 Toffee Glass Bowl
J: 99063 Tropical Leaf Glass Bowl
Bowl Cap and Finial Packs (not shown)

99128 Cottage White

99129 Aged Bronze

99130 Maiden Bronze

Tahoe	Use Brushed Cocoa or New Bronze for this finish							

Note: Bold numbers available while supplies last.

Note: For best performance and appearance, an extension downrod should be used with your Casablanca fan when installing on a high or sloped ceiling. Casablanca offers extension downrods in lengths up to 8' (96"). The chart lists the most common ceiling heights and suggested downrod lengths. For safety reasons, the fan blades must be a minimum of 7 feet above the floor. For more information, see your Casablanca dealer.

Sloped Ceiling Adapter (SCA-P)

The Casablanca Sloped Ceiling Adapter provides an easy way to hang your Casablanca ceiling fan from an angled ceiling. Designed for ceilings at an angle between 32 degrees and 56 degrees, the Sloped Ceiling Adapter works with the hanging system that comes with your ceiling fan to ensure the safe operation that you expect from Casablanca.

Sloped Ceiling Adapter (SCA)

INTEGRATED CONTROLS

With simple two-wire installation and intuitive integrated controls designed exclusively for—and included with—specific fan models, Casablanca fans are easy to install and even easier to use. The integrated controls are available in wall-mounted or hand-held models and offer adjustable fan speed, direction settings, and lighting levels. Select models also offer the following advanced programmable features for total environmental enhancement:

Safe-Exit™ – provides 20 seconds of gradual light dimming, showing you safely to the door

Home-Safe™ – controls lights in an irregular sequence, making a home appear occupied

Fan Minder™ – incrementally reduces fan speed to maintain comfort at night

Light Minder™ – saves energy by turning lights off automatically after two hours

A

B

C

D

A: Universal Control (K022301000)

- Wall-mounted control only
- Battery-powered
- Four forward and reverse fan speeds
- Full-range light dimming
- CFL auto detect
- Damp Rated
- Safe-Exit™

B: DC 6-Speed

- Hand-held remote
- Six forward and reverse fan speeds
- Full-range light dimming

C: Intelli-Touch3® (W-85 Single Light)

- Wall-mounted control
- Six forward and reverse fan speeds
- Full-range light dimming
- Safe-Exit™
- Home-Safe™
- Fan Minder™
- Light Minder™

D: Three-Speed Stepped Control

- Wall-mounted control
- Three fan speeds
- Installs in standard two-wire wall switch
- Uses standard switch-plate (not included)

ACCESSORY CONTROLS

Casablanca offers a complete line of optional accessory controls that allow homeowners to optimize the functionality of their fans on personal preferences.

A

B

A: Universal Control System (99019)

- Hand-held remote and canopy-mount receiver
- Four forward fan speeds
- Full-range light dimming
- CFL auto detect
- Damp Rated

Compatible with all 5xxxx fans.

B: Universal Remote (99020)

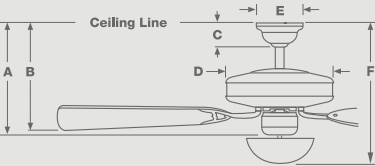

- Hand-held remote only
- Four forward and reverse fan speeds
- Full-range light dimming
- CFL auto detect
- Damp Rated

Compatible with all 5xxxx fans.
