ELECTRICAL

SOCKETS / METAL SHELL MEDIUM BASE SOCKETS

On/Off Turn-Knob Electrolier

Removable Turn-Knob
Bushing Tapped 1/8 IPS
Rated 250W – 250V

With Set Screw

D40 Polished Gilt
D42 Nickel
D4410 Polished Brass
D4041 Polished Brass-UNO*
D7041 Polished Brass-UNO* (Leviton Brand)
D7441 Polished Brass (Leviton Brand)

Without Set Screw

D5040 Polished Gilt (200-Piece Pack)

3-Way Turn-Knob Electrolier Lo-Med-Hi-Off

For Use with 3-Way Lamp
Bushing Tapped 1/8 IPS
Rated 250W – 250V

With Set Screw

D25 Polished Gilt
D27 Nickel
D4026 Polished Brass-UNO*
D4260 Polished Brass
D7026 Polished Brass-UNO* (Leviton Brand)
D7426 Brass (Leviton Brand)
D1003 Polished Gilt (Quick Fit Push-In Terminals)

Without Set Screw

D5025 Polished Gilt (200-Piece Pack)

3-Way BRASS Electrolier Lo-Med-Hi-Off

For Use with 3-Way Lamp
Solid Brass
Removable Turn-Knob
Bushing Tapped 1/8 IPS
Rated 250W – 250V

With Set Screw

D3853 Hand Polished & Lacquered

3-Way Solid Brass Turned Socket Lo-Med-Hi-Off

With UNO* Thread
For Use with 3-Way Lamp
Solid Brass Removable Turn-Knob
Bushing Tapped 1/8 IPS
Rated 250W – 250V

With Set Screw

D699 Polished & Lacquered

3-Way Solid Brass Socket Electrolier Lo-Med-Hi-Off

For Use with 3-Way Lamp
Solid Brass • Removable Turn-Knob
Bushing Tapped 1/8 IPS • Rated 250W – 250V
With Set Screw

D698 Polished Only
D4100 Polished & Lacquered
D4101 Satin Brass & Lacquered
D4102 Chrome & Lacquered
D4103 Satin Nickel & Lacquered
D4104 Antique Brass & Lacquered
D4105 Oil Rubbed Bronze
D4106 Matte Black

Uno Thread Brass Ring

Diamond Knurl
1-5/16 x 18F

D696 Brass

Metal Shell 3-Way Brass Electrolier

Hand Polished & Lacquered
Lo-Med-Hi-Off
For Use with 3-Way Lamp
Solid Brass
Removable Turn-Knob
Bushing Tapped 1/8 IPS
Rated 250W – 250V

D3855 Antique Brass
D3857 Satin Nickel
D3859 Polished Nickel

On/Off Flat Key "Fat Boy" Brass Shell Socket

Non-Removable Turn-Knob
Hand Polished & Lacquered
Bushing Tapped 1/8 IPS
Rated 250W – 250V

D4420

On/Off Oversized Key Turn-Knob Electrolier

Non-Removable Turn-Knob
Bushing Tapped 1/8 IPS
with UNO* Thread
Rated 250W – 250V

With Set Screw

D7001 Polished Brass-UNO* (Leviton Brand)

• Key Packs are sold in a **10 Piece Box**
Please order in 10 piece multiples as all sockets
are sold only in packs. 100 pieces to a master
carton unless stated otherwise.
KEY PACKS CANNOT BE BROKEN.

Full Dimmer Socket Solid Brass Turn Knob

Without UNO thread
1/8F Bushing
Rated 150-120V

D692

Full Dimmer Socket Solid Brass Turn Knob

With UNO Thread
1/8F Bushing
Rated 150-120V

D690

Full-Range Dimmer Ivory Turn-Knob

Height 2-3/4" • Diameter 1-1/2"
Bushing Tapped 1/8 IPS
Provides 0 to 100% Dimming Control
Fits easily on any Table Lamp
Eliminates the use of
Expensive 3-Way Bulbs
Saves Electricity Extends Bulb Life
Backed by 3 Year Factory Warranty
Rated 150W-120V

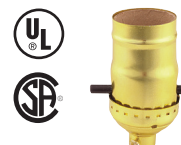

With Set Screw

D4038 Polished Gilt
D7038 Polished Gilt (Leviton Brand)

Push-Thru Electrolier

Bushing Tapped 1/8 IPS
Rated 660W – 250V

With Set Screw

D20 Polished Gilt
D4021 Polished Brass
D7021 Polished Brass (Leviton Brand)

Without Set Screw

D1002 Polished Gilt (Quick Fit Push-In Terminals)

*UNO: Refers to UNO Thread. This thread allows the adaptation of a shade holder.

Metal Shell Sockets are approximately 2" in Height. Most Modern Turn-Knob Metal Shell Sockets have #4-36 mandrel tapped thread.

**Universal 4-Way
Turn-Knob Electrolier**

Night Light-Lo-Med-Hi-Off
For Use with any standard
Incandescent Lamp,
Up to 150 Watts
(3-Way Light Bulb Not Required)
Bushing Tapped 1/8 IPS
Push-In Terminals
Rated 150W – 120V
D4052.....Polished Gilt

**Hi-Lo-Off Dimmer Socket
Turn-Knob Electrolier**

Bushing Tapped 1/8 IPS
for use with standard
incandescent lamp
low setting is 50% brightness
Rated 150W – 120V

With Set Screw

D430.....Polished Gilt

**Full Range Dimmer Polished Lacquered**

Removable Knob • Rated 150W - 120V

D5858.....Polished Brass Lacquered
D5860.....Antique Brass/Lacquered
D5861.....Unfinished Brass
D5856.....Nickel

**Keyless
Electrolier**

Bushing Tapped 1/8 IPS
Rated 660W – 250V

With Set Screw

D18.....Polished Gilt

Without Set Screw

D9018.. Polished Gilt (Quick Fit Push-In Terminals)

2-Circuit 3-Terminal

Keyless – Electrolier
For use with 3-Way Switch
Bushing Tapped 1/8 IPS
Rated 660W – 250V

with Set Screw

D50.....Polished Gilt

**2-Circuit 3-Terminal
Electrolier**

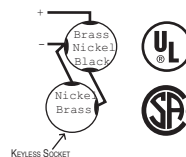

Bushing Tapped 1/8 IPS
This socket is used to control
a separate keyless socket in the
following sequence: D45 – ON
Keyless socket – OFF
Keyless socket – ON
D45 – OFF
D45 – ON
Keyless socket – ON
Rated 250W – 250V

With Set Screw

D45.....Polished Gilt

D4460.....Polished Brass

D7446.....Polished Brass (Leviton Brand)

**Keyless Turned Heavy Wall
Solid Brass Short Electrolier**

Polished & Lacquered
with UNO* Thread
Bushing Tapped 1/8 IPS
Rated 660W – 250V

With Set Screw

D697

**Keyless – Short
Electrolier**

Bushing Tapped 1/8 IPS
Rated 660W – 250V

With Set Screw

D15.....Polished Gilt

D17.....Nickel

D4016.....Polished Brass-UNO*

D4160.....Polished Brass

D7016.....Polished Brass-UNO* (Leviton Brand)

D7416.....Polished Brass (Leviton Brand)

Without Set Screw

D5015.....Polished Gilt (200-Piece Pack)

Pull-Chain Electrolier

Bushing Tapped 1/8 IPS
Rated 660W – 250V

With Set Screw

D10.....Polished Gilt

D12.....Nickel

D4110.....Polished Brass

D4111.....Polished Brass

• Key Packs are sold in a **10 Piece Box**
Please order in 10 piece multiples as all sockets
are sold only in packs. 100 pieces to a master
carton unless stated otherwise.
KEY PACKS CANNOT BE BROKEN.

**SUGGESTED WIRING AND
ASSEMBLY INSTRUCTIONS
FOR METAL SHELL LAMP HOLDERS**

CAUTION: Use only with No. 18 or
No. 16 Gauge stranded wire.

1. Unplug lamp or turn off power at fuse or circuit breaker, if permanently installed fixture.
2. To disassemble shell from cap, press where indicated on shell. Remove wires from interior mechanism and loosen set screw (if any) on bushing of old cap. Unscrew cap from pipe while holding pipe to prevent it from turning.
3. Pass wire through bushing on new cap. Screw cap onto pipe and tighten set screw on bushing securely. Insulating disc must be in bottom of cap.
4. Tie Underwriters' Knot in wires as shown in diagram. Pull knot tight.
5. Strip end of each wire to expose 1/2" to 5/8" bare copper strands (see strip gauge), being careful not to damage wire strands, or insulation beyond stripped length.

Underwriter's Knot

6. Twist copper strands of each wire tightly together, loop each wire clockwise 3/4 turn around proper terminal screw and tighten screw securely over loop. Be sure identified lead (ribbed or with color tracer) is connected to silver tone terminal screw. Remaining wire must be connected to brass screw. Avoid having loose or stray strands while tightening screw and cut off any strands not secure under screw head.
7. Slide metal shell (with insulating liner inside) over mechanism so switch (if any) is seated in slot(s) on shell and push shell firmly into cap until it locks securely and evenly into position. To assure locking, push on metal shell only. Pushing on inner liner may prevent locking.

WARNING: TO AVOID FIRE, SHOCK, OR DEATH: TURN OFF POWER AT CIRCUIT BREAKERS OR FUSES AND TEST THE CIRCUIT, BEFORE WIRING! USE THIS DEVICE ONLY WITH COPPER OR COPPER CLAD WIRE. WITH ALUMINUM WIRE USE ONLY DEVICES MARKED CO/ALR.

Following these instructions correctly will maintain the polarity of a correctly wired system.

Adjustable 4" to 5-3/4"
and 1/8 IPS Hickey
Locking Paper Shell Insulator with Screw Terminals
Rated 660W - 250V

**D234 •****D7234** (Leviton Brand)

*Standard is a term used to describe the original size of the metal shell lamp holder.

In the early 1950's, the smaller electrolier lamp holder was introduced, and this is the size found on most all modern table & floor lamps today.

Standard vs. Electrolier

Standard
(Over-Sized)

Electrolier
(Modern)

*Standard is a term used to describe the original size of the metal shell lamp holder. In the early 1950's, the smaller electrolier lamp holder was introduced, and this is the size found on most all modern table & floor lamps today.

Pre-wired
clusters for easy
installation
Adjustable Up to
90° One Way

Listed Product: A product that has been produced under Underwriter Lab's Listing and Follow-Up Service and that bears the authorized Listing Mark of U.L. as the manufacturer's declaration that the product complies with U.L.'s requirements in accordance with the terms of the Follow-Up Service Agreement.

Recognized Component: A part or sub-assembly covered under U.L.'s Recognition Service and intended for use in Listed, Classified, or Recognized products. A Recognized component is incomplete in construction features or restricted in performance capability so that determination by U.L. of its acceptability in a product is necessary.

Certified Product: A product that has been produced under Canadian State Approval and Follow-Up Service and that bears the authorized Certification Mark of C.S.A. as the manufacturer's declaration that the product complies with C.S.A.'s requirements in accordance with the terms of the Follow-Up Service Agreement.

SPT-1: Is no longer approved for external wiring of table and floor lamps or lighting fixtures, SPT-2 and SVT are approved.

Non-listed Component: Many items shown in this catalog are not listed or recognized by Underwriters Laboratory. The use and suitability of these products therefore must be determined by the purchaser.

Note: All U.L., U.R., and C.S.A. marks shown in this catalog were verified prior to publication. Certifications are subject to change.

ELECTRICAL

QUARTZ / G-9 LAMP HOLDERS / TRANSFORMERS

Quartz Lamp Holder

For 3-1/8" Lamp (79mm)
Silicone/Fiberglass 200°C
18 AWG • 12" Leads
Rated 500W - 250V

D2780

Quartz Lamp Holder

For 4-11/16" Lamp (119mm)
Silicone/Fiberglass 200°C
18 AWG 12" Leads
Rated 500W - 250V

D2785

Low Profile Quartz Lamp Holder

For 4-5/8" Lamp (117.6mm)
1/8" Holes - 2-3/4" Center to Center
Silicone/Fiberglass 200°C
18 AWG • 9" Leads • Rated 500V - 250V

D2790

Recessed-Contact Quartz or Tungsten-Halogen Lamp holders

Compressible Two Piece Porcelain Body
Nickel Plated Steel Housing Unit
Steel Spring Contact
Mounting Bracket is 1-1/4" Center to Center
Silicone/Fiberglass 200°C
18 AWG 18" Leads
Rated 1500W - 600V

D2755.....Front Flange Mounting

D2756.....Rear Flange Mounting

Halogen G9 Socket

High Heat Plastic Ceramic Front
Push-In Socket Base
Complete with Cap and Ring
1/8 IPS F Bushing
Rated 5A - 250V

D2788

Quartz Flange Socket

Used for "J" Type Bulb
Nickel Plated Brass with Nut
Silicone/Fiberglass 200°C
18 AWG • 10" Leads
Rated 500W - 250V

D2565

Porcelain Terminal Block

Used for High Heat Connections
Holes for Two Separate Sets of Wires with Screws
Rated 10A - 125V

D2589

Porcelain - Halogen Lamp Holder

G-4 Bi-Pin High Heat Socket for G4 Miniature Bi-Pin Halogen Lamps
SF-2 9" Leads
Rated 750W - 250V 12A

D3991

Dimmable Electronic Transformer

Length 3-3/16" • Width 1-3/16" • Height 1"
On/Off or Dimmable with Auto Reset / Auto Start

D3065.....120 Volt - 80 Watt - 12 Volt

Dimmable Electronic Transformer

Length 4-3/8" • Width 1-7/8" • Height 1-1/4"
Mounting 4-1/8" C. to C.
Center Hole Slips 1/8 IPS
Use: On/Off or Dimmable with Auto Reset
12V (120 Volt Input) • Auto Start

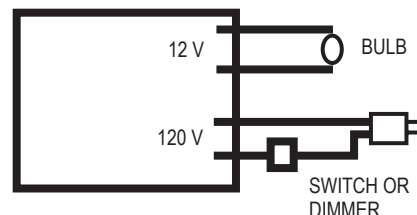

***D3083**.....230 Watt - 12 Volt

Dimmable Electronic Transformer

Length 2-3/4" • Width 1-1/4" • Height 1-3/4"
Use: On/Off or Dimmable with Auto Reset
Auto Start Class 2

D3060.....60 Watt - 12 Volt

Indoor Compact PLUG-IN ELECTRONIC TRANSFORMER

12 Volt - 60 Watt (120 Volt input)
Class 2 Electronic Power Supply

- Dimmable
- 7' Detachable Cord
- Soft Start, Short Circuit
- Overload Protection
- Ideal for Halogen Lighting
- OK to use with Line Switch

D3203.....White

D3204.....Black

Dimmable Electronic Transformer

Length 4-3/8" • Width 1-7/8" • Height 1-1/4"
Mounting 4-1/8" C. to C.

Center Hole Slips 1/8 IPS

Use: On/Off or Dimmable with Auto Reset

12V (120 Volt Input) • Auto Start

D3070.....105 Watt - 11 Volt

D3075.....150 Watt - 11 Volt

*Caution!

12 Volt output current is 10 times greater than 120V input current, e.g. the 230 watt *D3083 transformer operates at 1.9 Amps 120V input current, yet it's output current at 12 volts is 19 Amps. (12V x 19A = 228W) This is why all transformers on this page with an output of 105 watts or greater have output leads of 14 Gauge wire, and the *D3083 specifically has two separate 14 gauge output leads carrying 9.5 Amps of current each. If the total lighting load is connected by one main set of leads, these leads should be 14 gauge wire. Using 16 or 18 gauge lamp cord may result in overheating of the wire and its connections, especially if there is some distance between the transformer and the load. Consult a qualified electrician regarding maximum ampacity of a given gauge wire over a given distance.

*The transformer operates Photo Cell-On—Photo Cell-Off or Photo Cell-On—Timer-Off
Must NOT be put in a shady area because the Photo Cell won't work correctly

**Address Lights Include**

- Custom applied numbers
- Low-Voltage plug-in transformer (where indicated)
- Simple to follow instructions
- Light bulbs and sockets
- 25' of Low-voltage wire
- Mounting hardware

Address Lights are

- Easy to see, day or night
- Readable from over 100 feet
- Energy Efficient - powered for under \$10/year
- Easy to install - with common household tools
- Low maintenance - install it and forget about it

ELECTRICAL

LED DRIVERS

Applications

- Signage/Channel Letters
- Undercabinet
- Sconce
- Refrigerated cases
- Recessed Ceiling fixtures
- Path way

Constant Current Drivers

- Constant current offers better LED performance
- Single or Multiple outputs for greater flexibility for LEDs run in Series
- High Efficiency
- Low Temperature Performance
- UL Class 2
- Compact Size
- 5 year warranty - 50,000 hour Service Life

DIMMING CONSTANT CURRENT CONSTANT VOLTAGE 95-277V 50/60 Hz

Dimming Constant Current Single and Multiple Outputs

Models	D5573	D5574
Input Voltage	120V	120V
Frequency	50/60 Hz	50/60 Hz
Number of Channels	1	1
Output Wattage	18	9
Output Volts	<30VDC	<15VDC
Output Current	650	700
Case Size	L 3.125" x W 2.36" x H 1"	L 2.8" x W 1.8" x H 1"
Case Material	Metal	Metal
Min. Operating Temp	-20°C	-27°C
Max. Case Temp	75°C	75°C
Dimming Type	Triac Phase Control Dimmer Switch	Triac Phase Control Dimmer Switch
Dimming Range	100%-10% power (1.5W)	100%-10% power (1.5W)

Constant Voltage Drivers

- High Efficiency
- 50,000 hour life **matches LED life**
- Reliability & Flexibility
- 12V and 24V
- 5 year warranty - 50,000 hour Service Life

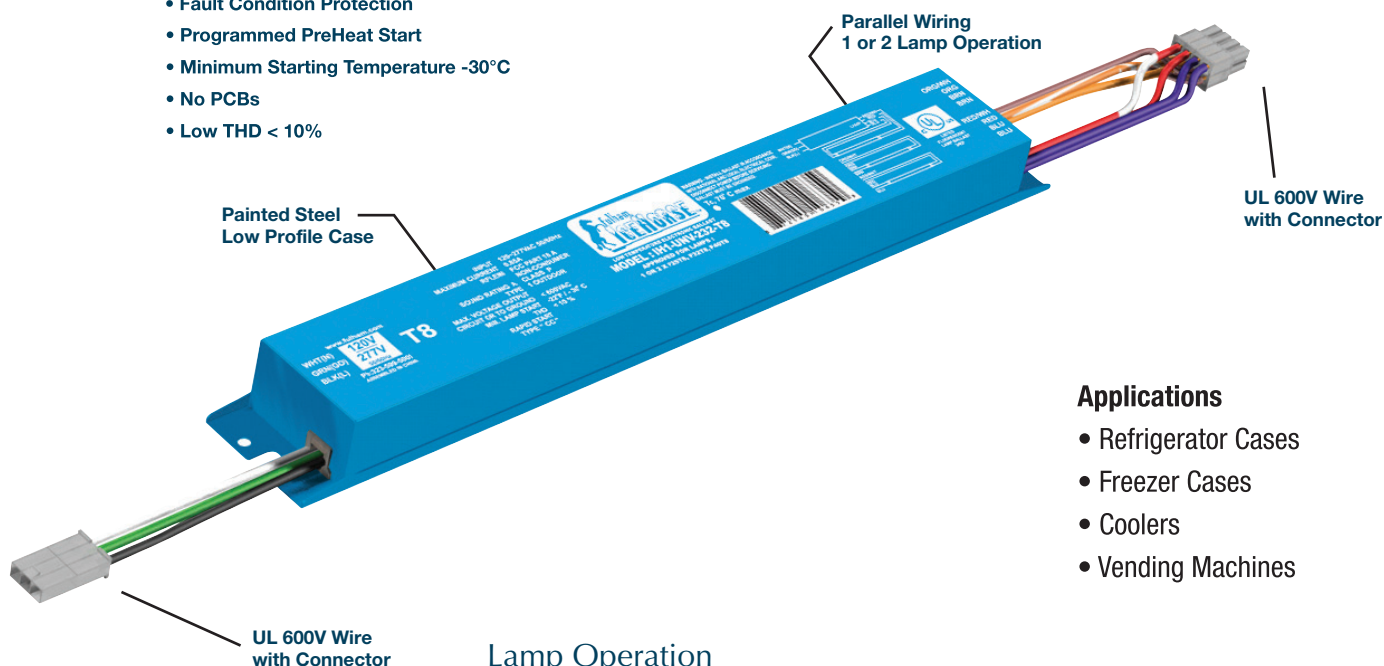

CONSTANT CURRENT 120V 50/60 Hz

Constant Current Single and Multiple Outputs

Models	D5570	D5571	D5572
Input Voltage	120V	120V	120V
Frequency	50/60 Hz	50/60 Hz	50/60 Hz
Number of Channels	1	1	1
Output Wattage	6	15	18

Min. Operating Temp	-20°C	-20°C	-20°C
Max. Case Temp	70°C	70°C	75°C

UNV 120-277V 50/60 Hz**Advanced Design Application Features:**

- Universal Voltage 120V-277
- High Power Factor
- Deactivated Lamp Protection
- Fault Condition Protection
- Programmed PreHeat Start
- Minimum Starting Temperature -30°C
- No PCBs
- Low THD < 10%

**Applications**

- Refrigerator Cases
- Freezer Cases
- Coolers
- Vending Machines

Lamp Operation

Initial Lumen Output: 500

AC Input: 2.5W

Charging Current: 127mA Max.

Battery Voltage: 3.6Vdc

Battery Rating: 9.0Wh

Warranty: 5 Years

Case Size: H 1.2" W 1.3" L 14.2"

Ballast Weight: 1.4 lbs

Case Quantity: 1 pc

Master Carton Quantity: 6 pcs

ELECTRICAL

CFL FLUORESCENT ELECTRONIC BALLASTS

120-277V 50/60 Hz

- 120V - 277V
- < 10% ATHD
- High Power Factor
- End-of-Life Protection
- Operate 1x, 2x Lamps
- Twin, Triple, Quad, Double Quad 9-70W
- UL, cUL
- 90°C Max Operating Temp.
- -30°C Min. Start Temp.

Applications:

- Medium and high bay industrial and retail
- Canopy lighting
- Flood lighting
- Parking garages
- Gymnasiums
- Indirect wall washing
- Downlighting
- Outdoor architectural
- Post tops
- Wall sconces
- Ceiling surface mount

Common Specifications

Operating Voltage	Universal Voltage	Lamp Starting Temp.	See Lamp Specifications
Frequency	50/60 Hz	Ballast Maximum Case Temp.	167° F (75° C) - 5 year warranty
ATHD	< 10% Meets ANSI C82.11-1993	Ballast Maximum Case Temp.	194° F (90° C) - 3 year warranty
Protection/Output	Open Lamp, Shorted Lamp, End-of-Life	Ballast Lamp Starting Mode	Programmed Start
Input Over Current Protection	Fuse	Inherent Thermal Protection	Class P
Input Voltage Transients Protection	MOV (PER ANSI C82.11 - 1993)	Sound Rating	A
Regulatory Approvals	UL & cUL Listed Type 1 Outdoor	Remote Mounting	18' Maximum at -18°C
High Power Factor	> .98	Anti Arching Protection	UL Type CC
Open Circuit Voltage	600 V RMS Max.	EMI: FCC CFR Title 47 Part 18 Consumer and Nonconsumer	
Ballast Min. Operating Temp.	-22° F (-30° C)

Max. Load: 57W
Model No.: RH3-UNV-226-K
Max. Current: .47 AMP

Case Size: H 1" W 2.4" L 5.0" L1 4.2"
Ballast Weight: 5.2 oz.
Case Quantity: 50 pcs.

D5553

RACEHORSE 4

Max. Load: 84W
Model No.: RH4-UNV-242-K
Max. Current: .72 AMP

Case Size: H 1.3" W 3" L 5.0" L1 4.2"
Ballast Weight: 7 oz.
Case Quantity: 50 pcs.

Advanced Features:

- Programmed start for extended lamp life in frequent switching applications
- End-of-lamp-life protection to safely remove power from the lamp as it nears end-of-life
- Cold starting to ensure proper functionality even in low temperature applications
- Improved reliability due to precision control flicker-free operation
- Auto-restart which eliminates the need to reset the power mains after lamp replacement
- Versatile mounting: Side and back leads included with optional ballast plate
- Auto light compensation during low power situations
- Dual entry color coded connector

QUALIFIED FOR RLF ENERGY STAR APPLICATIONS

120V 50/60 Hz

Pony, the utility ballast, was created as a result of customer demand for an electronic ballast to compete closely in pricing with magnetic ballast systems while providing all the benefits of electronics: flicker-free, more energy efficient, cooler running, lightweight, small size design friendly packages. These solid-state electronic ballasts are engineered to perform efficiently with the lamps they operate and meet FCC Part 18-A and 18-B. These economically priced ballasts are applicable for under cabinet lighting, sconces, down lights, troffers, UV, fish tanks and more.

Ballast Max Case Temperature for Energy Star
PONY 167°F (75°C)

D5720	1 or 2 x F32T8 2 x F25T8, F40 / F34 / F30 / F25 T12 1 x F32T8 + F25T8, 1 x F32T8 + F17T8 2 x F17T8 or F20T12
Case Size: H .83"x W .96" x L 12.01"	
D5722	2 x F40T8 3 x F17T8, F25T8, F32T8, F40T8, F32T8(30W/28W/25W), FBO31T8, FBO24, FBO16, F20T12, F25T12, F30T12, F34T12, F40T12 4 x F17T8, F25T8, F32T8, F32T8(30W), FBO31T8, FBO24, FBO16, F20T12, F25T12, F30T12, F34T12, F40T12
Case Size: H 1.02"x W 1.67" x L 9.45"	

120/230/277V 50/60 Hz

**Advanced Features:**

- Solid-State Electronics
- High Power Factor
- Small Case Size
- Lightweight
- Versatile
- Energy Saving

10 BALLASTS
OPERATE 132 LAMPS
IN 860 COMBINATIONS

Common Specifications

Operating Voltage:	120 VAC \pm 10% 230 VAC \pm 10% 277 VAC \pm 10%	Protection/Output:	Open/Shorted Lamp
Frequency:	50/60 Hz	Regulatory Approvals:	UL Listed Type1 or Type 2
ATHD:	Meets ANSI C82.11-1993	High Power Factor:	> .90
Protection/Input:		Open Circuit Voltage:	600 V RMS Max.
Over Current:	Fuse	Ballast Min. Operating Temp.:	-20° F (-30° C)
Voltage Transients:	MOV (PER ANSI C82.11 – 1993)	Ballast Maximum Case Temp.:	158° F (70° C)
EMI: FCC CFR Title 47 Part 18 non-consumer		Ballast Lamp Starting Mode:	Instant Start
		Class P Inherent Thermal Protection	
		Sound Rating	A

NOTE: Frequently switched, short duration ON/OFF cycles with any Instant Start ballast will reduce received Lamp Life. Please contact your lamp manufacturer for additional information.

D5730**WORKHORSE 1**

Maximum Power: 28 Watts
 Model No. WH1-120-L
 Maximum Current (120VAC) .20 AMP

Black/White Wires 12 Inches
 Red/Yellow Wires 24 Inches

Case: 120-L: H .75", W 1", L 6"

D5731**WORKHORSE 2**

Maximum Power: 35 Watts
 Model No. WH2-120-C (BLS)
 Maximum Current (120VAC): .33 AMP

Black/White Wires: L-18" C-12"
 Red/Yellow Wires: L-36" C-12"

Case: L=H 1", W 1", L 5.5"

D5731-L
 WH2-120-L

D5732**WORKHORSE 22**

Maximum Power: 35 Watts
 Model No. WH22-120-C (BLS)
 Maximum Current (120VAC): .32 AMP

Black/White Wires: L-18" C-12"
 Red/Yellow Wires: L-36" C-12"

Case: L=H 1.25", W 1", L 5.5"
 120 C=H 1", W 1.75", L 3.3"

D5732-L
 WH22-L-120C

**D5733****WORKHORSE 3**

Maximum Power: 64 Watts
 Model No. WH3-120-C (BLS)
 Maximum Current (120VAC): .56 AMP

Black/White Wires: L-18" C-12"
 Red/Yellow Wires: L-36" C-12"

Case: L=H 1", W 1.5", L 6.5"
 120 C=H 1", W 2.5", L 3.8"

D5733-L

WH-3-120-L

D5734**WORKHORSE 33**

Maximum Power: 64 Watts
 Model No. WH33-120-L
 Maximum Current (120VAC): .53 AMP

Black/White Wires: L-18" C-12"
 Red/Yellow Wires: L-36" C-12"

Case: L=H 1", W 1.5", L 6.5"

D5735**WORKHORSE 4**

Maximum Power: 70 Watts
 Model No. WH4-120-L
 Maximum Current (120VAC): .56 AMP

Black/White Wires: 18"
 Red/Yellow Wires: 36"

Ballast Case Size: H 1", W 1.5", L 6.5"

D5736**WORKHORSE 5**

Maximum Power: 128 Watts
 Model No. WH5-120-L
 Maximum Current (120VAC): 1.15 AMP

Black/White Wires: 18"
 Red/Yellow Wires: 36"

Case: 120 L=H 1", W 1.72", L 8.5"

D5737**WORKHORSE 6**

Maximum Power: 140 Watts
 Model No. WH6-120-L
 Maximum Current (120VAC): 1.04 AMP

Black/White Wires: 18"
 Red/Yellow Wires: 36"

Case 120 L=H 1", W 1.72", L 8.5"

D5738**WORKHORSE 7**

Maximum Power: 220 Watts
 Model No. WH7-120-L
 Maximum Current (120VAC): 1.82 AMP

Black/White Wires: 18"
 Red/Yellow Wires: 36"

Case: L = H 1", W 1.72", L 19.25"

D5739**WORKHORSE 8**

Maximum Power: 220 Watts
 Model No. WH8-120-L
 Maximum Current (120VAC): 1.8 AMP

Black/White Wires: 18"
 Red/Yellow Wires: 36"

Case: H 1", W 1.72", L 19.25"

Specifications subject to change.

Class P

Thermally Protected Ballasts U.L. Procedure indicates that Class P Ballasts must be used on fixtures utilizing non-straight fluorescent tubes. Outdoor fixtures may be excluded if submitted to U.L. for listing.
(D3425 are NOT Class P)

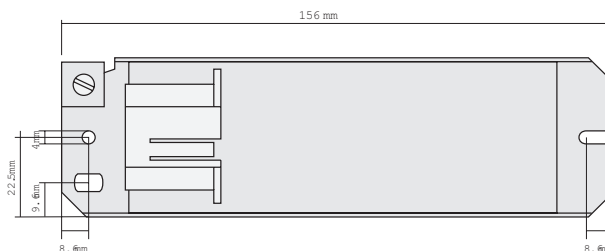

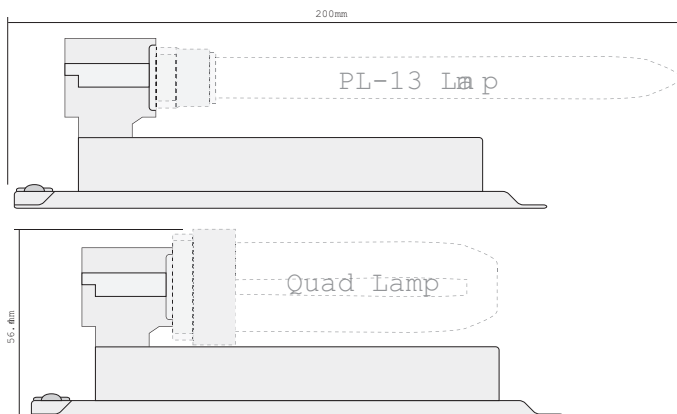

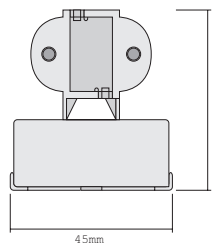

This PL-13 Ballast/Socket combination sub-assembly represents a great value to production and custom OEM lighting manufacturers. Using this unit your labor cost and design cost savings potential are tremendous. 2 screws, 2 rivets, 2 wire connectors, 1 ground wire screw. Just add a lamp and your installation is complete.

Integrated 13W
Ballast Socket Assembly
Length 6-1/8" • Width 1-5/8" • Height 2"
Mounting Holes: 5 1/2" C. to C.
12" Leads

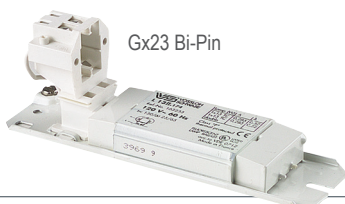

D3415..... Normal Power Factor • Class P

Compare These Features To Your Current Ballast/Socket Specification:

- Pre-wired with 12" Leads
- Compact Footprint
- Low Profile
- Auto-Resetting Thermal Protector
- Enclosed Ballast Core
- White Finish

D321

Heavy Duty Pull-Chain Quickwire Switch

2-Circuit – 3-Position • Off – L1 – L2
Push-in Terminals • Brass Chain & Bell Mouth
Rated 6A-125V, 3A-250V

D327

Wiring Instructions for Heavy Duty Pull-Chain Switches

- Strip all wire leads that will go into switch 5/16". • The "load" wire coming from the power source or outlet (normally Black wire) is always placed in the opening marked "L". • The "load" or "hot" leads on the fixture (normally Black – or multi-colored on fans) should then be placed into the openings marked 1(I), 2(II), or 3(III) depending on the switch and the sequence preferred.

Examples of common usage:

D321 On a 3 speed fan:

- First determine which of the colored leads controls each speed on the fan.
- Place the low speed lead into opening 1(I), medium speed into 2(II), and high speed into 3(III).
- It should work as follows: Off • 1st pull – Low speed • 2nd pull – Medium speed • 3rd pull – High speed • 4th pull – Off again

Note: The neutral splicer on the D321 is simply a built-in connector for the two neutral leads so that a wire connector and electrical tape are not necessary.

D327: Same as D321 only with two speeds instead of three.

• Please order in 10 piece multiples as all switches are sold in 10 packs 100 pieces to a master carton unless stated otherwise.

*SPT-1-1/2 is a lighting industry slang so named because it is slightly larger than SPT-1 and much smaller than SPT-2.

**THE technical AWM Style Code for SPT-1-1/2 is 20288, which is a U.L. recognized wire. Only this code is on the wire itself and not SPT-1-1/2.

†SPT-1-1/2 easily slips through 1/8 IPS pipe.

*Not approved for external wiring of table and floor lamps or lighting fixtures.

**Approved for use on Lighting Fixtures when threaded through chain.

†Approved for external wiring of table and floor lamps and lighting fixtures.

LISTED PRODUCT: A PRODUCT THAT HAS BEEN PRODUCED UNDER UNDERWRITER LAB'S LISTING AND FOLLOW-UP SERVICE AND THAT BEARS THE AUTHORIZED LISTING MARK OF U.L. AS THE MANUFACTURER'S DECLARATION THAT THE PRODUCT COMPLIES WITH U.L.'S REQUIREMENTS IN ACCORDANCE WITH THE TERMS OF THE FOLLOW-UP SERVICE AGREEMENT.

RECOGNIZED COMPONENT: A PART OR SUB-ASSEMBLY COVERED UNDER U.L.'S RECOGNITION SERVICE AND INTENDED FOR USE IN LISTED, CLASSIFIED, OR RECOGNIZED PRODUCTS. A RECOGNIZED COMPONENT IS INCOMPLETE IN CONSTRUCTION FEATURES OR RESTRICTED IN PERFORMANCE CAPABILITY SO THAT DETERMINATION BY U.L. OF ITS ACCEPTABILITY IN A PRODUCT IS NECESSARY.

CERTIFIED PRODUCT: A PRODUCT THAT HAS BEEN PRODUCED UNDER CANADIAN STATE APPROVAL AND FOLLOW-UP SERVICE AND THAT BEARS THE AUTHORIZED CERTIFICATION MARK OF C.S.A. AS THE MANUFACTURER'S DECLARATION THAT THE PRODUCT COMPLIES WITH C.S.A.'S REQUIREMENTS IN ACCORDANCE WITH THE TERMS OF THE FOLLOW-UP SERVICE AGREEMENT.

SPT-1: IS NO LONGER APPROVED FOR EXTERNAL WIRING OF TABLE AND FLOOR LAMPS OR LIGHTING FIXTURES, SPT-2 AND SVT ARE APPROVED.

NON-LISTED COMPONENT: MANY ITEMS SHOWN IN THIS CATALOG ARE NOT LISTED OR RECOGNIZED BY UNDERWRITERS LABORATORY. THE USE AND SUITABILITY OF THESE PRODUCTS THEREFORE MUST BE DETERMINED BY THE PURCHASER.

NOTE: ALL U.L., U.R., AND C.S.A. MARKS SHOWN IN THIS CATALOG WERE VERIFIED PRIOR TO PUBLICATION. CERTIFICATIONS ARE SUBJECT TO CHANGE.

Weather Proof Underground Wire Connectors

Suitable for interior and exterior electrical connections exposed to rain or damp conditions

- Silicone-base sealant protects against moisture and corrosion
- UL Listed to 486D for use in damp/wet locations or direct burial
- Easy to apply, pre-filled twist-on wire connectors

B1559600V, 18 to 8 AWG, Min. 2 #18, Max. 3 #1

B1560 .600V, 22 to 14 AWG, Min. 2 #20, Max. 2 #14

B1559

B1560

WARNING:

1. One time use only. Do not reuse.
2. Wiring must comply with all applicable electrical codes.
3. For use on copper wire only. Do not use on aluminum wire.
4. Not for use in continuous submersion applications.

Push-In Wire Connectors

- No-twist connection reduces repetitive motion fatigue
- Low insertion force for fast and easy connections
- Compact size makes installation easy
- Clear shell give visual verification of connection
- UL Listed to 486C and CSA Certified to C22.2 #188
- UL 467 Listed for grounding and bonding applications
- Accepts the following copper wire sizes:

- Solid

#20 - #12 solid

- Stranded

#16 - #14 (≤19 str.)

#18 (≤7 str.)

- Stranded (Tin Bounded)

#14 - #12 (≤19 str.)

#16 (≤26 str.)

#18 (≤16 str.)

WARNING:

1. COPPER TO COPPER ONLY. Do not use on aluminum.
2. Temperature rating: 105°C (221°F) maximum.
3. 600V maximum building wire. 1000V maximum signs or lighting fixtures.

ELECTRICAL

LUMAIRE DISCONNECTS

Lumaire Disconnect 3 to 6 Wires

Allows for up to a 6 wire assembly to be disconnected without having to terminate wire with pins first. Utilizes push-push technology.

- Perfect for OEM assemblies.
- Patented push-in technology quickly locks wires in place.
- Passes UL 2459 & finger probe requirements.
- Fits through 1/2 in. knockout.
- Pieces pull apart safely and easily.
- For 18 AWG solid or 18 stranded tin dipped wire.

B1723#12 - 18 Wire Gage

Lumaire Disconnect 2 Circuits + Ground 3-Wire to 6-Wire

- Push-in termination for tool-free installation at OEM & in field.
- 2 Circuits + grounding circuit for "Make First/Break Last."
- Touch-Safe design on both halves, meets UL/CSA requirements.
- Multi-ontact design allows safe disconnect under load.
- Compact size fits through 1/2" knockout.

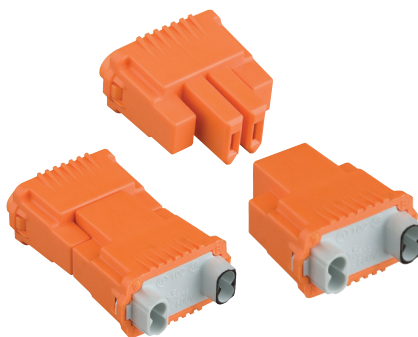

B1727#12 - 18 Wire Gage

Allows safe disconnect of hot and neutral ballast wiring. #12 - #18 wire range.

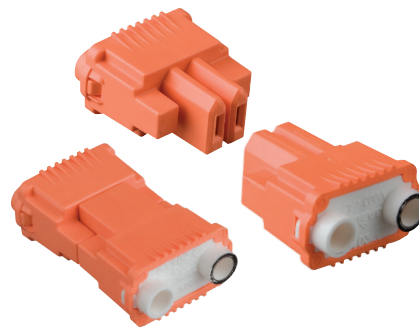

- Meets CEC and NEC code changes for non-residential fluorescent luminaires with ballasts.
- Perfect for OEM or retrofit lighting applications.
- Patented push-in technology quickly locks wires in place.
- Passes UL 2459 & CSA 182.3 finger probe requirements.
- Fits through 1/2 in. knockout.
- Pieces pull apart safely and easily.
- 3/8 in. strip length indicator.
- Thumb ridges provide superior grip.

Harp Saddle Adapters

Slip 1-9/16

For GU24 Phenolic Sockets (See Electrical Catalog)

A770 Steel Brass Plated

Slip 1-7/16

For Standard Phenolic Sockets (See Electrical Catalog)

A769 Steel Brass Plated

Saddle included with
Heavy Duty Harps only.

Harps are measured assembled from the base of the finial thread to the lowest point on the harp saddle bottom.

• **Key Packs are sold in a 5 piece bag only. No broken packs.**

Harps are packed in 5 piece bags. Please order harps in multiples of 5 pieces.

Due to countless requests, regular duty harps are sold without saddles. Prices have been adjusted accordingly.

We are proud to present the expanded line of

CRYSTAL LAMP PARTS

The following terms are used to describe the different types and qualities of crystal in this catalog.

Swarovski Elements®

The finest quality crystal used in manufacturing crystal lighting fixtures. Swarovski Elements® is a trademark of the Swarovski® company. Swarovski Elements® crystal is manufactured using a precision process of machine cutting and polishing invented by Daniel Swarovski in 1895. Swarovski Elements® crystal is optically pure, and has invisible coating that actually repels dust. Light refraction is spectacular. Each piece can be identified by the Swarovski Elements® signature  as a guarantee of authenticity.

Swarovski® Alternative Quality Crystal

This high quality Swarovski® crystal is manufactured similarly to the Swarovski Elements® crystal but with two important differences. There is no lead used in the manufacturing process and Swarovski® Alternative Quality crystal has a completely different cut pattern than the Swarovski Elements®. Light refraction is excellent.

Turkish Crystal

Fine quality crystal named for the region of its manufacture. This crystal is hand cut and polished and has no lead content. Light refraction is very good.

Standard Crystal

The term "standard crystal" applies to a variety of economically produced crystal lighting components. The production methods are described below and listed at the bottom of each page under the heading "Finish."

Crystal Production Methods:

Hand Cut and Polished - Long the European standard for crystal production, this method has been used by factories in the Czech Republic and other parts of the world for centuries. Each crystal piece is individually cut and polished by skilled craftsmen.

Fire Polished - Polishing crystal with fire is fast and economical because it involves less human labor.

Machine Cut - This method is differentiated from the precision machine process used by Swarovski® to manufacture Swarovski Elements® crystal. Machine cutting is actually completely different and is much less costly than precision processed or even hand cut.

Pressed - Pressed pieces are created with mechanical presses and provide a less expensive alternative to cut crystal. Note: Some of the crystal descriptions listed in this catalog may vary slightly due to changes in factory tooling and place of origin.

Y4012	3-1/2"
Y4013	4"

This unique fractured crystal is processed in a sui generis manner. There are two ways to bring these fine crystal components to the next level. They are either boiled in distilled water at a very high (almost evaporative level) or placed in boiling oil at an even higher temperature for a shorter period of time. The time is critical because the crystal fractures internally. If it is kept in the liquid a second too long, the fracture reaches the surface and the crystal piece disintegrates.

While the crystal is soft, and in this super heated state, it is quick frozen to make it even harder than it was originally and to lock in the veins of the fracture. Although there are a lot of rejects, ruptures and failures, the result is an outstanding and unique piece of the Crystal Art.

It is a category on to itself that yet further enhances the sparkle of fine crystal.

X99

Lip Fitter Glass

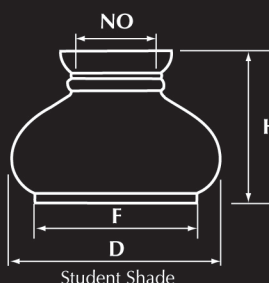

Fitter (F): The outside diameter of the glass where it attaches to the holder or fixture.

(In the case of Fitters which specify 2-1/4", 3-1/4", 4", 6", 8", or 10". The measurement represents the holder diameter - The glass will be slightly smaller to slip into holder)

Flush Mount

Opening: The inside diameter of the opening where the glass attaches to the lamp or fixture.

Student Shade

Diameter (D): The distance between the farthest points, left and right, of the glass when measured on a horizontal line.

Ht. Height (Ht.): The distance between the farthest points, top and bottom, of the glass when measured on a vertical line.

Neck opening (NO): The smallest inside diameter of a piece of glass.

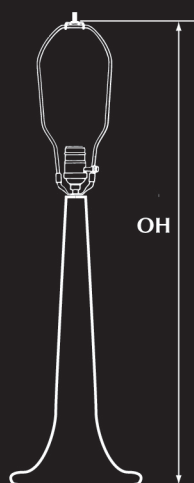

Straight Shank Fitter (SSF): The outside diameter of the opening at the bottom of the glass where it rests in the holder.

Vapor Glass

Threaded Fitter (TF): The diameter of a threaded neck which screws into a threaded holder on a lamp or fixture.

Overall Height (OH): The vertical dimension including all parts.

Center Hole: The opening which would be used for locking the glass in place, as on a standard bent glass bedroom fixture.

Depth: The distance from the inside center of the glass to the direct opposite side.

All items over 13" need to be shipped by common carrier.

UPS/RPS type carriers are not suggested. If the customer requests UPS/RPS delivery on any of these items, the customer assumes all risk for damaged merchandise.

NOTE:

Some of the glass dimensions and colors shown in this catalog may vary slightly due to changes in factory tooling and place of origin.

ACCESSORIES

BEESWAX CANDLE COVERS / WAX - LOOK PLASTIC DRIP CANDLE COVERS

Each Genuine Beeswax Cover, uniquely handmade with hand applied wax drippings, easily slips over conventional wired sockets. They are specially made with hardeners to resist melting.

These covers should never be used with clip-on shades or glass cylinders with more than a 25 watt bulb.

Alteration by cutting may cause cracking. We can custom make most sizes with a 25 piece minimum. The suggested maximum for open applications is a 40 watt bulb.

VERDE GREEN

PEWTER LOOK

Superantik 40

A specially formulated concentrate designed to produce oxidized color tones from light grey to black on brass, bronze, copper and muntz metals. It imparts consistently uniform antique colors on solid brass and copper parts. It does not etch or remove the metal. Superantik 40 acts instantly at room temperature and requires no complicated solution control procedures. Dilute with 4 to 10 parts water. Ideal for darkening solder. Brush, dip or spray on. Lacquering the finished product will preserve the finish.

C3000 Quart

C3100 Gallon

Antique Black Patina

(Black Patina CB) This liquid patina is formulated to impart an attractive antique black finish on brass, bronze silicone bronze, copper and muntz metals. It works instantly upon application and is quite economical to use. Black Patina CB is widely used by sculptors, foundries, stained glass and doors, metal furniture and other metal product manufacturers. May be applied by spraying, dipping, sponging or brushing. Lacquer may be used after you have achieved the desired finish.

C3132 Gallon

Verde Green

Also known as "Patina", is a liquid product ready to be used at room temperature. It imparts a beautiful antique green on solid brass and copper parts. When used in combination with Superantik 40 or 41, the parts develop an attractive antique green with dark brown or black background, thus giving them a two to three hundred year old look. Brush, dip or spray on.

C3003 Quart

Verde Blue/Green

Also known as "Green Patina", is used to attain an attractive blue-green finish on solid brass and copper pieces. When used in combination with ANTIQUE BLACK PATINA or Antique BROWN PATINA, the parts will develop a blue-green finish with a dark brown to black background; thus giving them a two to three-hundred year old antique look. Ready to use at room temperature (no need to dilute with water). This product works on plated brass or copper and its alloys. Brush, dip or spray on.

C3020 Quart

Superantik 44

Black antique is a liquid concentrate specifically designed to produce oxidized color tones from light brown to black on plated brass and copper. It is used at room temperature. Dilute with 4 to 10 parts of water. Dip.

C3002 Quart

C3102 Gallon

Superantik 41

A specially formulated concentrate designed to produce oxidized color tones from light brown to dark brown on brass, bronze, copper and muntz metals. It imparts consistently uniform antique colors on solid brass and copper parts. It does not etch or remove the metal. Superantik 41 acts instantly at room temperature, no complicated solution control procedures. Dilute with 4 to 10 parts water. Brush, dip or spray on. Lacquering the finished product will preserve the finish.

C3001 Quart

C3101 Gallon

Pewter Look

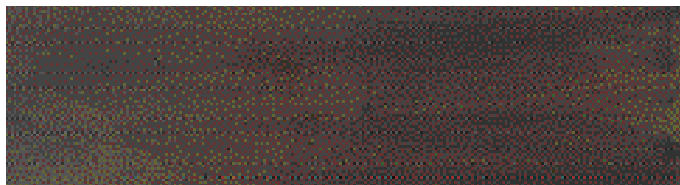

Old pewter or silver look is a product designed to instantly coat brass, copper and its alloys with a thin silver coating. Pewter Look works at room temperature and is relatively non-poisonous as it contains no cyanide. This makes it very economical and easy to use as it does not require extreme precautions. Brush or dip.

C3112 Quart

ACCESSORIES

CHEMICALS FOR BRASS & COPPER ALLOYS

ANTIQUE BRONZE PATINA

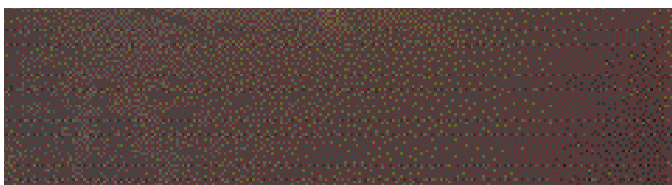

EZ BLACK 55

YELLOW/ORANGE PATINA

RAINBOW STEEL 3

RUSTY-RED

Antique Bronze Patina

The bronze look is in! This is a concentrated chemical used to give steel and iron the antique bronze appearance. The intensity of the bronze patina depends on how long you soak the metal part in the solution. Once you reach the desired patina, rinse with water to stop the chemical reaction. Dip, soak, brush or sponge. Apply lacquer (Aquares 1135) to preserve the finish.

C3028Quart

C3128Gallon

EZ Black 55

Commonly known as "gun blueing" was popularized by gun and rifle collectors; this process is used to cover up scratches on gun barrels by blackening the surface (cosmetic repair). This product is very easy to use, leave chemical on for at least 60 seconds, then rinse with water. Brush, dip or sponge.

C3029Quart

C3129Gallon

Yellow/Orange Patina

Yellow/Orange Patina is a liquid slurry used to achieve a fine yellow to orange patina finish on steel and iron. Finish will vary depending upon reaction stages. For orange, allow full reaction to take place. Mix well before use. Brush, spray or dip.

C3021Quart

Rainbow Steel 3

This chemical produces the most colors! Imagine all the colors of the rainbow embedded on your metal part. This formula gives any iron or steel a dramatic opalescent appearance. This is also very easy to use, brush on then leave for 1 to 2 minutes. Rinse with water and wipe dry. Use lacquer (Aquares 1135) to preserve the finish.

C3030Quart

Rusty-Red

Old rust look is a new development in the line of patinas. It instantly imparts a finish that ranges from a rich, copper red to an orangish rust on steel and iron. Rusty Red actually produces rust on the metal part to look weathered and rustic in appearance. If you are aiming to have a super rusty look, don't rinse after applying the chemical. Leave it to air dry for 30-60 minutes, as it dries it will develop a dense orange rust. Brush, spray or soak.

C3022Quart

C3122Gallon

Surclean 400 (Metal Conditioner)

Use of this chemical is a must on all brass, copper and steel. Surclean 400 helps grab the chemical film and deposits on the metal surface, bringing out the natural luster of the metal product. This chemical cleans and removes light oil, fingerprints and corrosion on metal parts. Use of this product on metal parts prior to lacquering is highly recommended. Dip, spray or scrub.

C3024 Quart

C3124 Gallon

Brass Cleaner 131

A mildly acidic liquid cleaner consisting of brighteners, anti-tarnishing agents and detergents. That is why it is excellent in removing tarnish, oxides, corrosion, fingerprints, grease and oil from brass and copper. It leaves the surface clean and bright. Also recommended for cleaning glass. Very versatile. Dip.

C3106 Gallon

Brass Bright Dip 101

A specially formulated blend of acid materials designed to remove scales, oxides, tarnish and corrosion deposits from copper, brass and copper base alloys. In simple immersion process, 101 imparts brilliant neutral color to copper and brass with minimum metal loss. Dipping and soaking recommended.

C3104 Gallon

ADL Chemical Policy

- I. There is a surcharge for HAZMAT handling from common carriers and parcel service. The charges will be added as they apply. FedEx is our current carrier for chemical delivery*, and the current surcharge is \$25.00 per box/carton. The surcharge is subject to change without notice. HAZMAT fee varies depending on the carriers' current rate.
- II. All metal cleaning and coating chemicals will ship independently from all other orders.
- III. Instruction sheet(s) will be sent upon request.
- IV. All suggestions in this catalog are based on the manufacturers' knowledge and experience. However, no guarantee expressed and/or implied is made as to the use of any of these products.
- V. Extreme caution should be taken when using chemicals:
 - Handle chemicals at your own risk.
 - Keep out of reach of children.
 - If used indoors, make sure the area is well ventilated.
- VI. For disposal, please contact your local chemical/hazardous material control for disposal or abatement instructions.

*We may from time to time change carriers. If necessary, verify the current carrier.

The average life of this drill is 22-29 holes.

When used properly it can drill more than 50 holes.

In other cases, from the same master carton, it has drilled only 5-10 holes. Unfortunately due to the varying skills of drill operators, the life of this product cannot be guaranteed and the manufacturer will not accept returns.

Regular Safety Grip Pliers

X41 6"

Diamond Core Drill Bit Instructions

Helpful hints for Beginners:

Assuming you are drilling a vase: Normally you would place the base on the stand and lower the drill to the vase. However, sometimes the hole can be hard to start on the surface of the vase. For this reason we suggest the following: Start the drill: Take the vase in both hands and raise it to the diamond drill. Using a light pressure, hold this position until you have scratched the surface. After this is done you may lower the vase and continue to drill as you normally would using plenty of water.

(Note: This procedure requires practice and skill.

You should experiment on glass that has no value).

IMPORTANT SAFETY INSTRUCTIONS

"This portable lamp has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not attempt to defeat this safety feature."

GENERAL INFORMATION AND POLICY

ORDERING: Please state the quantity, part number and description of each item, preferably in that order, to avoid any delays and help speed up the processing of your order. Whenever possible, always order by standard carton packs. This will speed up the processing of your order as well as give you the benefit of the quantity pricing and packaging.

COUNTER SERVICE: Customers are welcome to visit our California showroom where catalog items are available. Orders for will-call must be phoned in a minimum of 3 hours in advance in order to avoid a long waiting period once you arrive.

PRICES: Prices quoted are F.O.B. our warehouse and are subject to change without notice. All prices are subject to State and Federal taxes. State Sales Tax will be added to all orders unless an up-to-date resale card is on file.

STOCK ITEMS: Illustrations are for identification purposes only and do not necessarily represent the product of a specific manufacturer.

PERFORMANCE: We will endeavor to meet all shipping schedules; however, Luminance will not pay any amount, whether identified as a penalty or as liquidated damages, for failure to meet a shipping schedule.

FREIGHT ALLOWANCE: Orders of \$1,500.00, or higher, will be shipped Freight Allowed to a single destination in the Continental U.S.A. All qualifying orders will be shipped pre-paid by our selected carriers. This allowance is granted provided the invoice is paid in full within the terms indicated on the invoice. All goods, for delivery within the Continental U.S.A., are shipped from Luminance's Distribution centers. Luminance reserves the right to change the freight policy on an individual account basis if term and payment obligations are not fulfilled. We will pass on any special carrier handling charges such as inside delivery fees, re-delivery charges, residential delivery fees, lift gate services, C.O.D. Fees, Etc.

INITIAL ORDERS: Unless a credit application has been received, processed and approved, all initial orders will only be shipped when prepaid by credit card (All major credit cards) or paid in advance prior to shipment of merchandise.

PAYMENT TERMS/CREDIT: Are provided based on credit review and payment history.

CREDIT CARDS: For your convenience we now accept all major credit cards for all orders.

PAST DUE ACCOUNTS: No orders will be shipped until all overdue balances are cleared.

RETURNED CHECKS: A \$50.00 service charge will be placed on all checks returned to us by the bank for non-payment. Once a check has been returned to us for non-payment, we will no longer honor checks from that individual or firm.

RETURN POLICY AND WARRANTY/LIABILITY

REFUSED SHIPMENTS: Any Shipment that is refused in whole or in part will result in a 30% restocking charge as well as freight charges both ways. NO EXCEPTIONS

SHIPMENTS: If you receive your order damaged or with shortages proceed as follows:

- 1)Receive the shipment. Refusal of shipment may result in extra fees or freight charges, being owed by the customer.
- 2)All damage observed upon receipt of goods must be acknowledged by the driver prior to leaving.
- 3)Do not remove any damaged merchandise from the original carton until an inspection has been made by the driver.
- 4)Please have the driver initial the packaging slip before you sign the delivery receipt.
- 5)Request instruction on filing a claim with the carrier and follow their instructions.
- 6)Contact Luminance Claims Department to report the problem. Please reference your account and invoice number. Once the Claims Department has gathered the necessary information they will issue an RGA, if applicable.

RESTOCKING CHARGE: There will be a 30% restocking charge, with a \$50.00 minimum, for all merchandise returned unless the reason for the return was the fault of Luminance. Non-stock and discontinued items are not subject to return. Currently stocked items must be returned WITHIN 30 DAYS. Merchandise will not be accepted for return if it will create an overstock position.

CLAIMS: All claims for defective merchandise must be made within 30 days of receipt of the order. No returns will be accepted without verbal or written permission in which an RGA (Return Good Authorization) Number will be issued. This RGA# is valid for 30 days only and must be clearly marked on each carton to be returned. An itemized list of the merchandise and the original invoice number must accompany all returns. An RGA# must be obtained before any Counter Service return is accepted.

PACKAGING: Due to the structural sensitivity of All Glass Shades 13INCH or larger in diameter, we must ship them by ground freight only. If you request shipment by air freight, it is done so at your own risk and expense. Please note: When shipping by air freight additional packaging is required resulting in larger or oversize cartons. Transportation costs can be higher on larger or oversize cartons.

RETURN POLICY AND WARRANTY/LIABILITY

LIMITED WARRANTY/LIABILITY: The Seller warrants it has title to the products delivered hereunder ("Product") and may properly sell the same to Buyer and that such product will conform to Seller's then current specifications. Buyer assumes responsibility to analyze Product, and Seller shall have no liability if Buyer uses the Product in any way that does not conform to the aforesaid specifications. Buyer represents that it is familiar with the characteristic of Product and assumes all responsibility and liability for and will indemnify and hold Seller harmless from any and all loss or injury to persons or property arising out of handling, use or possession of Product delivered to it. IN THE EVENT THAT THIS DISCLAIMER OF LIABILITY IS HELD BY A COURT OF COMPETENT JURISDICTION NOT TO APPLY TO BUYER, SELLER'S MAXIMUM LIABILITY TO BUYER ON ANY CLAIM IN ANY WAY CONNECTED WITH THE SALE OR USE OF ANY OF THE PRODUCTS, WHETHER LIABILITY ARISES CONTRACT, FROM BREACH OF WARRANTY, IN TORT OR OTHERWISE, SHALL BE LIMITED TO THE PRODUCT'S INVOICE PRICE. The Seller does not warrant that its products will meet or comply with the requirements of any safety code or regulation of any state, municipality, or other jurisdiction. If any sample or model was shown to the Buyer, such sample or model was used merely to illustrate the general type and quality of the products and not to represent that the products would necessarily conform to the sample or model. No action, regardless of form, shall be maintained hereunder unless the facts giving rise to it are discovered within 12 months of shipment and written notice hereof given to Seller within 30 days of discovery. Products which are replaced by Seller in accordance with foregoing shall become the property of Seller and shall be returned to it by the Purchaser F.O.B. point of shipment.

JURISDICTION/VENUE: In any action between Buyer and Seller relating to the Product or these terms, Buyer consents to the exclusive jurisdiction of the federal and state courts of the State of California, U.S.A., and agrees that the action will be properly venued in any such court. If Buyer is located outside the U.S., Seller reserves the right to initiate legal action against Buyer in a court located outside of the State of California, U.S.A.
