Bath Time for Years to Come

Learn how to choose AcrylX™ or Cast Acrylic.

ACRYLX™ APPLIED ACRYLIC

The material of choice for style, strength and affordability. AcrylX™ has a visibly true white, deep lustrous finish that can only be achieved with a true acrylic surface. We've upgraded the value of the everyday bath products.

PREMIUM CAST ACRYLIC

A step up in luxury for your bathroom and your lifestyle. The benefits of Cast Acrylic are a higher gloss finish that is more luxurious, more durable and more stain resistant for years of beauty. We start with a cast acrylic sheet that is vacu-formed to your desired mold resulting in a sensuous bathtub or shower enclosure that you will truly enjoy for years and years to come.

CARE INSTRUCTIONS

Put that scrub brush away. This is bathware made for real life – as tough as it is beautiful and so easy to maintain. That's the luxury of Clarion Bathware.

Our hard, non-porous surfaces are colorfast, durable and resistant to mildew. That means they'll wipe to a shine without scrubbing.

BASIC CARE INSTRUCTIONS

- ✓ **Wipe after each use.** It is common for a tub/shower to build-up residue due to repeated exposure to various soaps, shampoos, conditioners, body washes, oils as well as minerals in your water. Reduce daily build-up by wiping away excess water on the tub and shower walls with a clean soft cloth or squeegee after each use. This quick and E-Z step will prolong the unit's natural luster between cleanings and shorten the actual clean time.
- ✓ **Clean regularly.** Clean your tub/shower regularly with a non-abrasive spray or cream-based cleansing agent and a sponge or soft cloth. Never use abrasive pads or brushes, for they can scratch and dull the surface your unit, as well as shorten the life of it.
- ✓ **Polish regularly.** Eliminate fine scratches by polishing your tub/shower walls with car wax and a soft cloth. Avoid waxing the unit's floor for safety reasons. The wax will make surfaces extra slippery and therefore unsafe to step or walk on.
- ✓ **Repair nicks or damaged surfaces asap.** Call our customer service department for guidance on how to make basic repairs.

For further care instruction, please call 1 (800) 576-9228. A friendly representative will happily assist you to answer all care questions.
