

Pressure Relief Pneumatic Test Plugs

Safer, more compact design for DWV test applications

Test-Tite now offers a totally redesigned series of pneumatic test plugs (1-1/2" - 4") with pressure relief (PR) valves. The built-in PR valve releases excess pressure if the plug has accidentally been overinflated. This patent-pending design prevents damage to the plug and increases user safety on the jobsite as overinflated plugs can easily rupture causing downtime and possibly injuries. Test-Tite PR plugs typically have a longer life-expectancy than traditional non-pressure relief plugs because the natural rubber body is not exposed to unnatural stress that occurs from over-inflation. Test-Tite will continue to offer a full range of PR test plugs including long and large up to (24") sizes in addition to pumps and extension hoses.

TEST-TITE® PRESSURE RELIEF PNEUMATIC TEST PLUGS

PRODUCT FEATURES

- Compact design allows easy access, even in a cleanout tee
- Pressure relief has no moving parts to fail or malfunction
- Rubber body is molded as one-piece with no seams or bonded parts
- Pressure exhausts out of the top of the plug not into test area
- Works in place of “standard” pneumatic plugs
- Multiple sealing ribs in the center portion of the plug for positive sealing
- Three-year limited warranty
- Patents Pending

PRODUCT	DESCRIPTION	MODEL	UPC	CUBIC FT./CASE	UNITS/CASE	LBS/CASE
STANDARD PACKS						
83581	1½" Pressure Relief Test Plug	83581	012181-835814	0.098	6	1.5
83582	2" Pressure Relief Test Plug	83582	012181-835821	0.098	6	1.75
83583	3" Pressure Relief Test Plug	83583	012181-835838	0.207	6	2.7
83584	4" Pressure Relief Test Plug	83584	012181-835845	0.327	6	5.5
