Product Collection by Series

Modular 3000 Series

The Modular 3000 Series is comprised of our ultra-premium product offering and is designed to provide the ultimate in point-of-use flexibility. These models are the most innovative, highly featured refrigeration and ice making products in the modular appliance industry. In addition to timeless design, the Modular 3000 Series models are equipped with our U-Select® Control, providing the ability to choose pre-programmed modes that properly preserve your food and beverages. Models seamlessly integrate into surrounding cabinetry and are available in the following finishes: Stainless or Integrated. The Modular 3000 Series spans seven product categories – Wine Captain® Models, Beverage Centers, Clear Ice Machines, Glass Door Refrigerators, Solid Door Refrigerators, Drawer Models, and Freezers.

2000 Series

The 2000 Series is comprised of our super-premium product offering and is designed to integrate beautifully into any application, while actively maintaining temperatures to ensure extended preservation of your food and beverages. Pristine lines, spacious interiors, and our Digital Touch Pad Control provide an elegant and universal aesthetic. The 2000 Series offers upscale features, advanced technology, and specialized product families. Models fully integrate into surrounding cabinetry and are available in the following finishes: Stainless or Integrated. The 2000 Series spans five product categories – Wine Captain® Models, Beverage Centers, Glass Door Refrigerators, Solid Door Refrigerators, and Drawer Models.

1000 Series

The 1000 Series is comprised of our premium product offering, based on over fifty years of innovations, design patents, and world firsts. Now with a completely redesigned style including upgraded features and technology, it is the most diverse line in the industry. The 1000 Series features clean lines, elegant interior spaces, and offers either our Digital Touch Pad Control or Mechanical Dial Control. The 1000 Series offers more targeted priced products with impressive features. Models integrate into surrounding cabinetry and are available in the following finishes: Stainless, Integrated, Black, or White. The 1000 Series spans nine product categories – Wine Captain® Models, Beverage Centers, Clear Ice Machines, Crescent Ice Makers, Glass Door Refrigerators, Solid Door Refrigerators, Drawer Models, Combo® Models, and Freezers.

ADA Series

ADA Series

The ADA Series is designed to install under the federally mandated requirement of a 34" high countertop. Controls are easily accessible and allow for single-hand operation. These models are a perfect solution where ADA height compliancy is required. Models are available in the following finishes: Stainless, Integrated, or Black. The ADA Series spans four product categories – Crescent Ice Makers, Glass Door Refrigerators, Solid Door Refrigerators, and Combo® Models.

Outdoor Series

Outdoor Series

Today's entertaining environments extend far beyond the boundaries of the traditional home. For over 50 years, our products have been used in outdoor applications and continue to be amongst our most popular models. Our outdoor models are fully wrapped in stainless steel to protect from harsh outdoor elements. These durable outdoor products are UL (Underwriters Laboratory) rated and deemed suitable for outdoor use. Models are available in the our Stainless finish. The Outdoor Series spans six product categories – Clear Ice Machines, Crescent Ice Makers, Solid Door Refrigerators, Drawer Models, Freezers, and Keg Refrigerators.

Marine Series

Marine Series

We take ice making and refrigeration to yet another environment, the sea. Our Marine Series feature durability and aesthetics, as well as exceptional ice production and refrigeration capacity, for use above and below deck. Corrosive-resistant, stainless steel hinges and fasteners on the UV resistant cabinet and doors, combine maximum convenience with durability and good looks. Models are available in the following finishes: Stainless, Black, or White. The Marine Series spans two product categories – Crescent Ice Makers and Combo® Models.

Temperature Management Systems

U-Select® Control | Modular 3000 Series

Convection Cooling System

All Modular 3000 Series are equipped with our OLED display U-Select® Control, equipped with six food & beverage modes, three wine modes, and three specialty settings, all preprogrammed to achieve optimal performance.

Digital Touch Pad Control | 2000 Series

Convection Cooling System

All 2000 Series are equipped with our color coordinated Digital Touch Pad Control, which is conveniently located on the face of each model and offers an intuitive display, making it quick and simple to control your unit.

Digital Touch Pad Control | 1000 Series

Passive Cooling System

All 1000 Series are equipped with our color coordinated Digital Touch Pad Control*, which is conveniently located on the face of each model and offers an intuitive display, making it quick and simple to control your unit.

* Few select 1000 Series models offer a mechanical control.

Temperature Stability

Widest Temperature Settings

UV Protection

Preservation: Beyond Refrigeration

We are committed to providing premium modular refrigeration and implement a variety of technologies to ensure extended preservation of your food and beverages. We offer the widest temperature offering in the industry. Our glass door models feature LowE coated, argon gas filled thermopane glass to protect contents from harmful UV light.

Most of our 1000 and 2000 Series models offer our Digital Touch Pad control, which provides an intuitive display for quick and simple control. The Modular 3000 Series makes it easier than ever before to preserve your food and beverages. Equipped with the U-Select® Control, our Modular 3000 Series puts the control in your hands, giving you the ability to choose settings that correspond to the types of foods and beverages you preserve. Foods stay fresher longer and taste better when kept at a stable and optimal temperature. Either select pre-programmed optimal preservation modes for specific types of food and beverages, or manually adjust temperatures based on your preference.

Preservation: Beyond Refrigeration

U-Select® Control Food & Beverage Modes
Modular 3000 Series

Deli

Mode Range: 34°F - 40°F
Set point: 36°F

Perfect for: Meat, fish, poultry, butter or other dairy items, garlic, oils, nuts, and condiments.

Recreate the ideal showcase conditions of a fine, neighborhood deli with the Deli Mode. Cheeses, condiments, lunchmeats and other delicacies stay fresh and last longer when preserved properly.

Market

Mode Range: 34°F - 40°F
Set point: 38°F

Perfect for: Fruits, vegetables, berries, and leafy greens.

Whether you like to keep fresh-picked strawberries on hand, or an entire summer salad ready to serve at a moment's notice, the Market Mode is the ideal choice for your fresh fruits and veggies.

Root Cellar

Mode Range: 45°F - 55°F
Set point: 50°F

Perfect for: Root vegetables, potatoes, onions, lemons, limes, melons, peppers, and beans.

Rural homeowners in years past knew that farm-fresh produce was best kept in cool, dark root cellars. U-Line has recreated those ideal conditions with the Root Cellar Mode, a setting that maintains crispness and preserves freshness without getting too cool.

Pantry

Mode Range: 34°F - 70°F

Set point: 42°F

Perfect for: Dry goods, baking ingredients, spices and seasonings.

Factors like unstable temperature, light, bugs, and moisture all affect the extended preservation of your dry goods. Many dry goods can be purchased in bulk, which makes it that much more important to store them properly. Pantry mode extends the life of your dry goods like flour, seasonings, and grains by offering an environment that maintains a stable temperature and ideal moisture level.

Beverage

Mode Range: 34°F - 65°F

Set point: 38°F

Perfect for: Perfectly chilled for all types of beverages.

Soft drinks, juices, beer and wine are at their best when chilled, yet you may prefer some items colder than others. Whatever your “perfect” temperature is, our Beverage Mode lets you set—and keep—your refreshments just right.

Polar

Mode Range: -5°F - 5°F

Set point: 0° F

Perfect for: Ice cream, popsicles, frozen meals, meats, desserts, fruits, vegetables.

Polar Mode quickly sets your freezer to the ideal temperature to ensure your everyday frozen goods, like ice cream, are preserved to perfection without a trace of freezer burn.

Preservation: Beyond Refrigeration

U-Select® Control Wine Modes
Modular 3000 Series

Sparkling Wine

Mode Range: 38°F - 50°F
Set point: 45°F

Perfect for: Sparkling wines, sweet whites and dessert wines.

Champagne, Prosecco, Cuvée, and other sparkling wines are best stored at a low temperature. Yet, chill wines too cold, and they lose their flavor and balance. Use our Sparkling Wine mode to extend the preservation of the bottles you treasure.

White Wine

Mode Range: 45°F - 55°F
Set point: 50°F

Perfect for: All white wine varietals.

You may choose to preserve fuller-bodied or oaked white wines at about 50°F degrees, whereas medium to light-bodied whites may be better kept at a slightly lower 45°F - 50°F. No matter your preference, the White Wine mode ensures your next glass of wine is perfectly cool and crisp.

Red Wine

Mode Range: 55°F - 65°F
Set point: 55°F

Perfect for: All red wine varietals.

Whether your tastes skew in favor of full-bodied intense reds, medium-bodied reds, or more toward the lighter fruity red wines, use the Red Wine mode to ensure you retain the delicious fullness of these selections.

U-Select® Control Specialty Settings

Modular 3000 Series

Quick Chill

Just bought a room temperature pack of beer or soda and your guests are arriving soon? No worries when your unit is equipped with the Quick Chill setting. The Quick Chill setting can be used to rapidly chill your contents to the lowest temperature in each mode for a designated period of time.

Sabbath

Various U-Line models are Star-K certified and offer a Sabbath setting. The Sabbath setting disables system responses to user initiated activities and all external functions; including lighting, display and audible alarms. The unit will continue to maintain its internal set temperature while in Sabbath setting. View a full list of Star-K certified U-Line units at www.star-k.org.

Energy Saver

Energy efficiency is a priority when designing U-Line models. The Energy Saver setting reduces the amount of energy the unit consumes. U-Line has the largest energy efficient undercounter offering in the industry.

Seamlessly Integrated
Modular 3000 Series

Fully Integrated
2000 Series

Integrated
1000 Series

Integration: Built-In to Stand Out

Our modular refrigeration provides the best premium design aesthetic and the most functionality by offering varying levels of integration, lighting, and installation application options. Designed and engineered in America, but built for the world, our products integrate into a standard 24" cabinet depth and are offered in the following standard widths: 15", 18", 24", and 36".

Our front ventilation system is engineered to circumvent the need for additional airflow, providing the flexibility to integrate and install our products undercounter, in island applications, or wherever you need them most. All integrated models maintain zero clearance, ensuring performance and hinge clearance with the panel/frame installed.

Integrated finishes are offered in most models through each of our series: Modular 3000 Series, 2000 Series, and 1000 Series, allowing for installation of a ¾" custom integrated panel/frame of your choice; no kits or accessories needed. Most integrated models offer black interiors that essentially disappear into your cabinetry, ensuring an elegant installation. Our Modular 3000 Series and 2000 Series grilles can accept a custom integrated toe-kick; or can accept a continuous custom integrated toe-kick that extends the full cabinet length to create a design that seamlessly integrates with your surrounding cabinetry.

Integration Matrix

Seamlessly Integrated Modular 3000 Series

Seamlessly integrates into virtually any environment and are available in 18", 24", and 36" cabinet widths. All integrated models maintain zero clearance, ensuring performance and hinge clearance from adjacent cabinets with the panel/frame installed.

Doors

All models are offered in our integrated finish, allowing for installation of a ¾" custom integrated panel/frame of your choice; no kits or accessories needed. Standard door opening is 115°. Door pin is included and offers a 90° stop, providing accessibility for models that need to be installed adjacent to cabinets or walls. Doors are designed for fine tuning, ensuring a seamless installation.

Fully Integrated 2000 Series

Fully integrates into virtually any environment and are available in 18" and 24" cabinet widths. All integrated models maintain zero clearance, ensuring performance and hinge clearance from adjacent cabinets with the panel/frame installed.

All models are offered in our integrated finish, allowing for installation of a ¾" custom integrated panel/frame of your choice; no kits or accessories needed. Standard door opening is 115°. Door pin is included and offers a 90° stop, providing accessibility for models that need to be installed adjacent to a wall. Doors are designed for fine tuning, ensuring a fully integrated installation.

Integrated 1000 Series

Integrates into various environments and are available in 15" and 24" cabinet widths. All integrated models can be installed to ensure performance and hinge clearance with the panel/frame installed.

Many models are offered in our integrated finish, allowing for installation of a ¾" custom integrated panel/frame of your choice; no kits or accessories needed.

Hinges

Robust, concealed and covered articulating hinges provide a minimalist aesthetic. Built-in door stop and closer ensure doors always close.

Robust, concealed and covered articulating hinges provide a minimalist aesthetic. Built-in door stop and closer ensure doors always close.

Low-profile, reversible pivot hinges provide flexibility during installation as the door can easily be reversed in the field.

Grille

Adjustable grille allows for front ventilation, ensuring your model can be installed in a variety of applications, including islands. Grilles can be shifted front-to-back and up-and-down to ensure alignment with adjacent cabinetry toe-kicks. Grilles can accept a custom integrated toe-kick; or run your continuous custom integrated toe-kick that extends the full cabinet length to create a design that seamlessly integrates with your surrounding cabinetry.

Fixed grille allows for front ventilation, ensuring your model can be installed in a variety of applications, including islands. Grille can accept a custom integrated toe-kick, creating a design that fully integrates with your surrounding cabinetry. If your model's toe-kick aligns with adjacent cabinetry toe-kicks, grilles can accept a continuous custom integrated toe-kick that extends the full cabinet length to create a design that fully integrates with your surrounding cabinetry.

Fixed grille allows for front ventilation, ensuring your model can be installed in a variety of applications, including islands.

Leveling Legs

Four independently adjustable leveling legs provide a precise undercounter fit. Rear legs are accessible and adjustable from the front for ease of installation. Models offer a 1" range of height flexibility, reducing installation time and ensuring a seamlessly integrated fit.

Four independently adjustable leveling legs provide a precise undercounter fit. Models offer a 1" range of height flexibility, ensuring a fully integrated fit.

Four independently adjustable leveling legs provide a precise undercounter fit. Models offer a 1" range of height flexibility, ensuring an integrated fit.

Cabinet Styles

Inset

24" deep base cabinet with doors and drawers that close within the frame structure and are flush with the face of the frame. The overall depth from the front of the cabinet door or drawer to the back of the base cabinet is 24" deep.

Overlay / Face Frame

24" deep base cabinet with a face frame structure that supports doors and drawers that close onto the face of the frame. The overall depth from the front of the cabinet door or drawer to the back of the base cabinet is approximately 24 3/4" deep.

European / Frameless

24" deep base cabinet with no visible frame structure on the outer face of the cabinet. Doors and drawers fully cover the face frame area of cabinet case and have minimal reveals or gaps between doors and drawers. The overall depth from the front of the cabinet door or drawer to the back of the base cabinet is 24 3/4" deep.

Inset

Overlay / Face Frame

European / Frameless

Integrating U-Line Products into Cabinetry

Create the kitchen of your dreams by integrating your U-Line models into your cabinetry with custom integrated panels/frames. We provide the simplest and most effective way to create a clean integrated look, allowing you to effortlessly blend your appliance into your surrounding cabinetry. We offer the widest selection of integrated models in the industry. All Modular 3000 Series and 2000 Series models, and most of our 1000 Series models, accept a $\frac{3}{4}$ " integrated panel/frame. All integrated models are delivered ready for panel/frame installation, no kits or accessories needed.

Full $\frac{3}{4}$ " custom integrated panels/frames apply to solid door, glass door, and drawer models. All integrated models maintain zero clearance installation, ensuring performance and hinge clearance with the panel/frame installed. Additionally, grilles on our Modular 3000 Series and 2000 Series can accept custom integrated toe-kicks. The images to the left show samples of various cabinetry styles your U-Line models can be integrated into. For further integration details visit u-line.com and view the User Guides for all our models.

- Black interior is illuminated with LED theater lighting
- Three full-extension, slide-out drawers are removable for easy cleaning
- The middle bin has two possible positions and comes with a removable glass shelf to keep products stable
- The lower bin is large enough to fit 2 one-gallon containers with additional space for more storage
- Standard commercial stainless steel handle is interchangeable with professional handle accessory
- The door swing is field reversible, and is shipped right-hand hinged

INTEGRATION

- Robust, concealed and covered hinges with built-in door stop and closer
- Adjustable grille can be shifted front-to-back and up-and-down
- Integrated model requires 3/4" custom panel of your choice, or can accept U-Line Euro Style Handleless Stainless Panel Accessory (must be ordered separately)
- Grille can accept an integrated toe-kick
- Four independently adjustable leveling legs

- Convection cooling system rapidly and efficiently takes items to the set temperature

INTERIOR/EXTERIOR

- 32" height meets ADA height requirement yet maximizes allowable space
- White interior is illuminated with LED lighting
- Three adjustable chrome plated durable wire shelves
- LowE coated, argon gas filled, dual thermopane glass door provides protection from harmful UV Light
- Standard commercial stainless steel handle is interchangeable with professional handle accessory
- Door swing is field reversible, and is shipped right-hand hinged
- Door lock is standard on stainless and black models

INTEGRATION

- Unit is designed to be built-in or can be freestanding
- Four independently adjustable leveling legs provide a precise undercounter fit
- Available in the following finishes: Stainless, Integrated, or Black
- Integrated model requires 3/4" custom door panel (panels not supplied by U-Line)

MODEL DETAILS

Model	Voltage/Hz	Door Swing	Finish	Shipping Weight

U-ADA24RGLINT-00A	115 / 60	Field Reversible	Integrated Frame	122 lb
U-ADA24RGLB-13B	115 / 60	Field Reversible	Black Frame (Lock)	128 lb

ACCESSORIES

Model	Description	Finish	Shipping Weight
80-54247-00	Professional Door Handle, 1 1/4" Diameter	Stainless	2 lb

DIMENSIONS

Dimensions shown apply to all finishes, including Integrated (INT) models with 3/4" integrated panel/frame installed.

CABINET CUT-OUT

INSTALLATION NOTES

When installing adjacent to wall, ensure 2 1/2" clearance on hinged side for 90° door opening, allowing ample room for door handle.

Cutout includes the additional 1/4" width overall to ensure proper installation.

No additional clearance around sides, top or rear of unit is needed for ventilation.

Do not obstruct front grille air flow.

CUSTOMER CARE

Our Customer Care group is equipped with the knowledge and skills to find a solution for you, and fast. Our sophisticated facility is equipped to handle any service request. With live products readily available for diagnostics, our Customer Care group can walk you through a solution while doing it themselves on the same model. Our efficient call center management system ensures minimal wait time for consumers. We believe product support should be quick, simple, and frustration-free.
