

EASY COOK, EASY CLEAN, EASY ENERGY SAVINGS

Take the guesswork out of cooking with LG's 1.8 cu. ft. over-the-range microwave. Sensor Cooking's humidity-sensing technology detects when foods are cooked and turns off the microwave, so under- or over-cooked dishes are a thing of the past. And when it's time for cleanup, you won't spend hours scrubbing—LG's EasyClean® interior wipes clean in minutes, without chemicals or high heat. Plus, Eco-On saves energy by turning off the display when it's not in use. Dinner's never been so easy.

Sensor Cooking

Reduce the guesswork in cooking. Humidity-sensing technology determines when food is cooked and automatically turns off the microwave to help prevent the over- or under-cooking of meals.

Energy Savings Key

Saves energy by turning off the display when not in use. The display will turn off when the unit is not active for 5 minutes. When this feature is in use the power consumption drops to below 0.1 W.
