Asked by Quentin 3 years ago

Do you have a ES8 sanitizer dispenser. It is not working. The light is flashing blue. What does that mean?

Asked by Patrick 3 years ago

Good afternoon, can the ES8 be installed on a window in a coridor, the window is from an area where they run the airconditioning and sometimes there is condensation on the window, or is it best to mount on a wall??

 Verified Reply - Greg

It is best to mount the dispenser on the wall. It will look better aesthetically as you would see the back of the dispenser and/or the adhesive backing from the other side of the window. Thanks!
