3 Good product, too much foam!

This product is mounted in a dental clinic where I work. Several faculty have expressed the volume of foam is more than double what is required to keep the hands moist for over 30 seconds. The foam sprays around the room and gets surfaces very sticky. I wish the dispenser was adjustable to a certain degree to give levels of dispensing!

Q Can you use either the soap or hand sanitizer refills in the ES6/ES8 ? (Question)

⊕ Add your answer

★ Verified Reply - Kristen

There is an ES6 and ES8 soap dispenser and an ES6 and ES8 hand sanitizer dispenser. There are specific refills compatible for the soap dispensers and specific ones for the hand sanitizer dispensers. ES6 refills are only compatible with the ES6 platform and ES8 refills only work with the ES8 platform.

GOJO does not offer anything to have a dispenser installed on a wall surface to be temporary. I would suggest a stand instead so the stand can be moved when needed. The stand for the ES8 dispenser is 7318-DS-SLV or 7308-DS-SLV.
