

Safety Zone® PolyLite® Isolation Gowns, Long Sleeve/Elastic Wrist, Yellow, X-Large - 50/CS

The Safety Zone® PolyLite® Isolation Gown in yellow is a dependable disposable protective gown designed for a wide range of environments, from hospitals and clinics to laboratories, food processing areas, and maintenance applications. Crafted from cool, comfortable, lightweight polypropylene, this long-sleeved gown features elastic wrists for a secure fit and reliable coverage that helps keep clothes and skin protected from light exposure during routine tasks. Its yellow color makes it easy to identify in busy workspaces, while single-use convenience supports infection control and hygiene protocols. Practical and versatile, the PolyLite® Isolation Gown delivers essential protection where basic barrier performance and ease of use are key.
