

# A BETTER CLEAN WITH MICROFIBER

# MICROFIBER CLOTHS

Microfiber is becoming a cleaning standard for its superior absorption, cost effectiveness, and time-saving features. Electromagnetically charged fibers attract and hold dust, dirt and grime. Microfibers provide excellent absorption making this cloth ideal of cleaning or dusting any surface, wet or dry. It's also great for small, light cleaning jobs. Offering a variety of colors for a variety of color coding options.
