

suma[®] Select

A7

Rinse Aid

Premium, high-yield rinse aid for all water conditions. This special blend of nonionic surfactants is designed to lower the surface tension of the final rinsing water. This prevents droplet formation, and because the water sheets off the surface in a thin layer, drying times are also reduced.

Features & Benefits

- Ensures quick drying
- Gives streak and spot-free results
- Concentrated formulation gives excellent cost in use
- Low foaming action for more efficient operation

Applications

- For use in all water conditions
- Auto-Dosed

Suma[®] Select A7

Rinse Aid

Use Instructions

- For commercial dishmachine use only
- Product is automatically injected into the final rinse line of the dishmachine using the appropriate Diversey injector
- Use level will vary depending on operating and water conditions and will be recommended by your Diversey representative
- Final rinse temperature should be 82°C to 90°C (179.6°F to 194°F) for optimum results

Suma [®] Select A7	1 x 5 gal. / 18.9 L Pail	1:5000–1:10000	957273100	

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate. Please refer to the Diversey HazMat Library, only available through Internet Explorer, <http://naextranet.diversey.com/dot/>, for up-to-date shipping information.
