

# Pro Strip™ PURE

## Non-Corrosive Floor Stripper

Pro Strip™ PURE Non-Corrosive Floor Stripper is a revolutionary floor finish stripper that does not require the user to wear personal protective equipment.

### Features & Benefits

- Emulsifies and easily removes conventional and ultra high speed finishes
- Low foam formula allows for easy pickup with mop, wet vac or autoscrubber
- Not formulated with butyl or ammonia
- Concentrate is non-corrosive to eyes and skin, reducing PPE requirements
- Concentrate not regulated as hazardous waste for disposal under EPA Resource Conservation and Recovery Act (RCRA) regulations
- DOT hazard classification CC-ORM-D

### Applications

- Designed for floor finish removal on VCT, terrazzo and concrete flooring
- Not intended for use on wood, linoleum, rubber, marble, painted surfaces, or on surface colored and acid dyed concrete floors as this product may harm these surfaces
- Test for softening or color bleeding on asphalt floors before using

# Pro Strip™ PURE

## Non-Corrosive Floor Stripper

### Use Instructions

- Blockade areas to be stripped. Floors will be very slippery until dry. Exercise caution. Wear chemical resistant footwear.
- **For light build-up** of finish use at a dilution of 1:6 (20 oz. to 1 gal. / 590 mL to 3.78 L). **For heavy build-up** of floor finish use at a dilution of 1:4 (32 oz. to 1 gal.)
- Apply liberal amounts of solution uniformly to floor with a mop. Start with the edges to give them more soak time. If splashing occurs, wipe off surfaces with a clean rag dampened with water.
- Let stripper solution soak for 10-15 minutes. Re-wet as necessary, do not allow solution to dry on floor. Longer soak times may be necessary in cases of extreme build-up.
- Hand or machine scrub thoroughly using appropriate stripping pads or stripping brush
- Pick-up all of the solution with a clean mop, wet vac or automatic scrubber. Mop up any “tracks” left by wet vacs or automatic scrubbers before they dry.
- Thoroughly rinse floor with clear water
- Let floor dry completely before applying recommended Diversey brand floor sealer or finish

### CAUTIONS:

- When using on asphalt or rubber tile, strip a small inconspicuous area to determine if bleaching or softening will occur
- Not intended for use on wood, linoleum, rubber, marble, painted surfaces, or on surface colored and acid dyed concrete floors as this product may harm these surfaces

Pro Strip™ PURE Non-Corrosive Floor Stripper meets the newest and most stringent VOC standards in North America, including those adopted by the California Air Resources Board (CARB).

		1:6 (light build-up)	

### Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at [www.diversey.com](http://www.diversey.com) or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate. Please refer to the Diversey HazMat Library, only available through Internet Explorer, <http://naextranet.diversey.com/dot/>, for up-to-date shipping information.
