

CLOTHESLINE FRESH[®] LIQUID ALKALI 16

Concentrated Laundry Builder

Clothesline Fresh Liquid Alkali is a concentrated laundry builder that prepares the fabric for the washing process by raising the pH of the wash water, which accelerates the washing process and allows individual fibers of a fabric to open up and begin releasing entrapped soil particles. This product contains biodegradable water softening agents to aid in the washing process and boost detergent performance.

CLOTHESLINE FRESH[®] LIQUID ALKALI 16

FEATURES

- Prepares fabric for the washing process by raising the pH of the wash water
- Designed to be used in tunnel washers, large industrial washers, and food and beverage laundries
- Contains biodegradable water softening agents
- Phosphate-free, nonylphenol ethoxylate-free, and EDTA-free

BENEFITS

- Allows individual fibers of a fabric to open up and begin releasing entrapped soil particles
- Boosts the detergent performance
- Color-coded and number-coded for easy product identification
- Accelerates the washing process

DIRECTIONS FOR USE

1. Sort laundry by color and fabric type.
2. Always read and follow care directions.
3. From care directions, choose proper wash cycle and water temperature.
4. Do not overload washer with soiled laundry.
5. Do not pour Clothesline Fresh Liquid Alkali directly onto clothing
6. Add Clothesline Fresh Liquid Alkali during the presoak stage or before adding Clothesline Fresh Laundry Detergent.
 - a. Add 4 – 6 oz. per 100 lbs. of dry, soiled laundry, depending on soil load.
 - b. Check alkalinity concentration of the wash water during this step. It is recommended that the concentration of active alkalinity be between 300 – 800 ppm.
- When using Clothesline Fresh Liquid Alkali, the wash water must be properly neutralized with Clothesline Fresh Xtreme Laundry Sour, during the final rinse, before washed clothing is worn.
- Clothesline Fresh Liquid Alkali is not recommended for use with top-loading washers not equipped with automatic dosing systems. Fiber damage and corroding may occur.
- Do not place Clothesline Fresh Liquid Alkali on dry fabric. Fabric degradation will occur.
