TRANQUILITY®

Technical Information

Fixture*:	basin area	top area
Bathing well	42" (106.7 cm) x 23" (58.4 cm)	51" (129.5 cm) x 32-1/2" (82.6 cm)
To overflow	water depth	capacity
	11-1/4" (28.6 cm)	56 gals. (212 L)
* Approximate measurements for comparison only.		

Pump:	V	Hz	A
1-speed	120	60	7

Required Electrical Service

Dedicated circuit required, protected with Class A Ground-Fault Circuit-Interrupter (GFCI):	
Pump	120 V, 15 A, 60 Hz

Installation Notes

Install this product according to the installation guide.

Pump is supplied with a grounding-type plug-in cord. Locate the outlet behind the whirlpool, and within 24" (61 cm) of the pump.

Pump access opening is required.

Do not disassemble the pump or piping as this could void the warranty.

Size the drain cutout to fit the drain assembly that will be used.

End stud positioning is critical if nailing-in flanges are to be used.

Double studding is recommended for pivot shower door installations.

Studs should be positioned roughly as shown for support clip or roofing nail installation.
