

PRODUCT INFORMATION

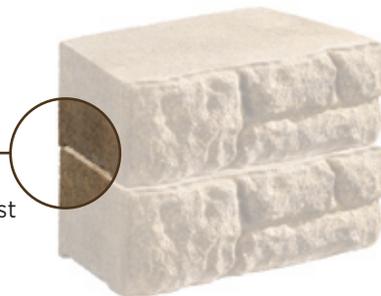

The Flores[®] retaining wall system is patterned on a casual-style ashlar, creating the appearance of dry-stacked natural stone walls. Lightweight and easy to handle, the Flores wall system is the perfect choice for projects up to 2 feet high, including base course, but excluding the cap.*

Smaller- and medium-scale projects such as retaining walls, raised gardens, terraces – you name it – look great with the Flores wall system. Plus, the Flores product features the rear-lip locator for quick and easy installation. Sculpted caps complete the system.

**No pins. No mortar.
No misalignments.**

Rear-lip locator, invented by Anchor, makes installation fast and accurate. Anchor – the original rear-lip product!

**This height assumes level backfill and clean, compacted sand or gravel and no surcharge.*
