### Dimensions

Depth	27 7/8"
Height	67 3/4"
Width	31 1/8"

### Features & Benefits

**Clever energy**  
Your fridge adapts to daily use by cooling and defrosting only when needed. This means your fridge uses the energy it needs without compromising on food care.

**Humidity control**  
Your fruit and veges need different environments. Each storage bin creates a microclimate, which helps keep them fresher for longer.

**Easy cleaning**  
No more permanent dirty marks with our EZKleen feature for stainless steel fridges. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

**Ice maker**  
Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times, you can boost ice production by up to 30%.

**Design quality**  
Our fridges are designed and built using quality materials. We use real stainless steel on our fridges and solid glass for shelving.

**Water on tap**  
The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water and doesn't take up any storage space in your fridge.

**Internal Ice Maker**  
The internal ice maker delivers fresh ice into a dedicated bin that can be easily customized to store different volumes or simply turned off to free up freezer bin space. Ice Boost mode can temporarily increase ice production by up to 30%.
