

THERMO MANUFACTURING EXCLUSIVE

THERMO EQUIPMENT PAD

THE LIGHTEST AND MOST DURABLE EQUIPMENT PAD ON THE MARKET

PAT. PENDING

THERMO EQUIPMENT PAD is a plastic pad designed as a mounting base for HVAC and pool equipment.

Put a professional finish on air conditioning installation with an easy-to-install plastic pad that beautifies exteriors and protects your condensing or outdoor heat pump unit. Our rugged pad design provides a patented structural technology for optimum support. The Thermo Equipment Pad is blow molded from polyethylene, resulting in a pad that is light-weight, but not too light. A classic, clean appearance, which is enhanced by rounded edges and a concrete gray color. Each pad is molded with its size in raised letters on the side.

FEATURES & BENEFITS

- Incredibly Lightweight & Textured Finish
- Patented Design made of Durable Polyethylene in cured cement color
- Easy to Install on any substrate
- Stacks on pallet for easy transportation and allows for less space and more stock
- Green Product. Made with Recycled Material
- Won't Crack like Concrete
- UV Protected & Color all the Way Through
