Visual Guide Wall Mounted Slide/Grab Bar & Hand Shower

Step 1 Mount grab bar

Step 2 Attach slider assembly

Step 3 Install hand shower

For California Residents

WARNING: This product contains chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm.

Installation Notes

Grab Bar Location

For proper mounting heights and location consult with your state and local code official having jurisdiction over the installation.

Solid Support

- Grab Bar must be mounted with both ends positioned over a wall stud. A stud finder can be used to locate wall studs.
- Secure through wall board or tile to the wall stud so as to hold a minimum of 250 pounds of force.

- At least two (2) of the three (3) screws provided must be used on each end of the Grab Bar to properly secure.

Note: Standard size wall stud limits using more than two (2) screws.

Mounting Grab Bar

- Drill all holes through wall board into wood wall studs using a power drill and a 5/32 inch drill bit.
- Ceramic tiles - If installing Grab Bar

over ceramic tiles, first drill a pilot hole through the tile using a 1/4 inch carbide tip drill bit to prevent damage to the tiles.

Next, drill a pilot hole into the wood wall stud using the 5/32 inch drill bit.

Care and Cleaning

Mild soap and water or a non-abrasive cleaner is recommended for cleaning.
