

# Boiler trim kits

## NA553 series

Product Information - PI 101 - Issue date 12/2018

### Description

The Caleffi NA553 Boiler Trim Kit is available in 12 configurations and combines 8 boiler installation components into one box. This kit matches the necessary components for boiler installations into a simple package.

The NA553 takes all the guess work out of selecting components for a simple installation.

The kit includes:

- 1 Caleffi DISCAL® air separator
- 1 Backflow preventer (R=ASSE 1013, otherwise ASSE 1012)
- 1 AutoFill™
- 1 Expansion tank check valve
- 2 Brass nipples
- 1 Brass tee
