

SMARTPOWER Dishmachine Detergent

Page 1 of 1

CLASSIFICATION

Solid Dishmachine Detergent

PRODUCT DESCRIPTION

SMARTPOWER™ Dishmachine Detergent is a high performing, low-phosphorous, chlorine free detergent for use in regular soil and soft to moderate water hardness conditions. Provides powerful detergency to break down tough Industrial food service soils including protein, starch, fats, and oils while keeping these same soils from re-depositing on ware. Improved first pass results will reduce rewash, hand polishing, and lower water and energy consumption. In addition, this high level of detergency will protect your Warewashing equipment by breaking down soils in the wash tank, preventing buildup on floats, curtains, and heating elements. This detergent is designed to work in traditional and water efficient dish machines.

USE

FOR FOOD PLANT AND INDUSTRIAL USE ONLY

Consult your Ecolab representative for specific use instructions and recommended dispensing equipment.

DIRECTIONS FOR USE

- Remove wrap from product.
- Place product in dispenser.

Use only in an Ecolab dispenser.

Avoid food contamination during application and storage. Do not store in food processing areas.

Rinse surfaces thoroughly with potable water after use.

Consult your Ecolab Specialist or call 1-800-35 CLEAN (352-5326) for specific use directions, service, or additional information.

PHYSICAL AND CHEMICAL PROPERTIES

Physical State	Solid
Color	Opaque, off-white
Odor	Odorless
pH	10.3 - 11.3, 1%

Ingredients:

Sodium carbonate (soda)	497-19-8
Water	7732-18-5
Oxirane, methyl-, polymer with oxirane	9003-11-6
Alanine, n,n-bis(carboxymethyl)-, trisodium salt	164462-16-2
Citric acid, trisodium salt, dehydrate	6132-04-3

% P Formula ingredients contain not more than 0.2% Phosphorus, 0 g/L, (0 g/US gal) of recommended use concentration.
