

A RESI-RISER™ completely enclosed in a metal cabinet and finished with a white powder coating.

## FEATURES & BENEFITS

- Eliminates the need for an access panel as well as the return trip to install the access panel
- Dry wall extends up to the cabinet, giving a clean finish
- Resi-Riser is protected throughout the construction phase and after completion
- Includes built-in head box, eliminating the need for a red head box installed on the exterior of the wall
- Door interior includes a record of system inspections and a hydraulic calc plate
- Can be recessed in a 2" x 4" wall or mounted on the surface
- White powder-coat finish blends well with most finishes or may be painted over
- Comes with all necessary openings for electrical and piping penetration
- Key lock and handle are optional
- Includes: Screwdriver lock
